

Entering cohort is of first-time, full-time, bachelor's (or equivalent) degree-seeking undergraduates. Six-Year Graduation Rate is calculated using the total number of completers within 6 years from the initial (adjusted) cohort. For example, entering cohort FA11 represents the 2017 six-year graduation rate of students who entered in fall 2011 and completed the program by August 31, 2017.
