Presidential Welcome

Welcome to Lee University!

Today is a great time to be a part of this growing, exciting institution. Here at Lee, there is such a wonderful, positive spirit! We believe that God’s hand is on us, and we are working hard to earn the trust of our expanding public.

One of the reasons for the high level of expectation at Lee is the quality of our faculty. Those of us who have been on the Lee team for many years are energized and stimulated by the many new professional colleagues who arrive each year with such talent and vision.

Lee University offers a faculty who can deliver excellent instruction with the sensitivity and perspective of seasoned Christian disciples. These men and women form the critical core of education here at Lee, but students like you are the heart and soul of this institution.

With students from almost every state and more than 40 countries, Lee is a diverse, thriving community. There is a place for you at Lee, and we will do everything we can to help you find it.

If there is anything we can do to make your college decision and transition into college life more enjoyable and informative, please let us know. We are here for you.

Cordially,

Paul Conn
President

Introduction

Accreditation

Lee University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate and masters degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Lee University. Teacher education programs are approved by the Tennessee State Department of Education for licensure.

The School of Music is accredited by the National Association of Schools of Music (11250 Roger Bacon Drive, Suite 21; Reston, Virginia 20190; telephone: 703-437-0700).

The Helen DeVos College of Education at Lee University is accredited by the National Council for Accreditation of Teacher Education (NCATE), www.ncate.org. This accreditation covers initial teacher preparation programs and advanced educator preparation programs at Lee University. However, the accreditation does not include individual education courses that the institution offers to P-12 educators for professional development, relicensure, or other purposes.

Lee also holds membership in the American Council on Education, the Council of Independent Colleges, the Tennessee College Association, the Tennessee Association of Independent Colleges and Universities, the Council for Christian Colleges and Universities, and the Appalachian College Association.

Mission Statement

Lee University is a Christian institution which offers liberal arts and professional education on both the baccalaureate and graduate levels. It seeks to provide education that integrates biblical truth as revealed in the Holy Scriptures with truth discovered through the study of arts and sciences and in the practice of various professions. A personal commitment to Jesus Christ as Savior is the controlling perspective from which the educational enterprise is carried out. The foundational purpose of all educational programs is to develop within the students knowledge, appreciation, understanding, ability and skills which will prepare them for responsible Christian living in a complex world.

Founded as the Bible Training School in 1918 by the Church of God, Cleveland, Tennessee, the institution was renamed in 1947 to honor its second president, the Reverend F. J. Lee, and attained university status in 1997. The original purpose was to provide both general and biblical training for those persons entering the Christian ministry and through the years Lee University has continued this purpose of “ministry,” ever more broadly defined to include both church and non-church vocations.

Enrollment consists primarily of recent high school graduates; sixty percent of the students reside on campus. In order to maintain a sense of Christian community and enhance the personal, spiritual, academic, emotional and physical development of students, Lee University seeks to foster a residential campus experience, with special focus on the needs of freshmen and sophomores. The university works to create common space on the campus and a common core of residential events around which the entire community operates. Most of the students are affiliated with the Church of God, although many come from other denominations. Lee University serves the Church and society by offering graduate programs in various professions and academic disciplines. These post-baccalaureate programs are designed to deepen one’s understanding of a discipline and/or strengthen one’s skills as a professional.

All baccalaureate degree students at Lee University must complete a general education core including eighteen semester hours of religion. The general education courses foster intellectual development by enhancing the student’s ability to observe, read and think critically and to communicate effectively. The courses also cultivate awareness, understanding and respect for cultural diversity. The religion core courses are predicated on the Reformation principle of the priesthood of the believers. The courses are designed to enable the student both to understand and articulate the Christian faith. The campus curriculum is enriched by American, Latin American, European, African, and Asian studies programs, study tours, and service-to-humankind projects, as well as courses offered by the Center for Adult and Professional Studies for non-resident students.

An integral part of the university mission is a commitment to training responsible citizens to contribute their God-given gifts to the community at large. A biblical understanding of service and benevolence is introduced in the general education core, actualized through planned, reflective community engagement and developed in various major courses.

Lee University takes seriously the task of preparing students for responsible Christian living in a complex world. The goal of all graduate degree programs is to nurture scholars and professionals who will better serve the kingdom of God and the world. In this way, the graduate programs are a natural extension of the university’s commitment to undergraduate education.

As an independent institution, Lee University is controlled by a Board of Directors appointed by the General Executive Committee of the denomination. The President is responsible to this board for facilitating an educational program presented from a theological perspective that is conservative, evangelical and Pentecostal. In keeping with the amended Charter of Incorporation (1968) and the Bylaws of Lee University (article I, sections 2 and 4), all board members, administrators and faculty members certify annually by contract that they will not advocate anything contrary to the Church of God Declaration of Faith.

Lee University endeavors to employ scholars with the highest academic credentials who present their disciplines from a distinctly Christian perspective. All truth is perceived to be God’s truth, and the effective presentation and integration of truth is the goal. Lee University values teaching as the most important faculty role, and excellence in teaching is the primary standard for retention, tenure and promotion. Faculty research is seen as essential to teaching excellence. It, too, is an important criterion for faculty advancement. Lee University values and rewards Christian community service and service to humankind as significant faculty responsibilities.

Lee University identifies its public service region as being generally coterminous with the geographic scope of the denomination. While most students come from the United States, the student body typically consists of representatives of a broad range of socioeconomic backgrounds from all fifty states and more than twenty countries in Central and South America, Europe, Asia and Africa. Because of this geographic span, the university serves a racially, ethnically and culturally diverse student body with 15 percent international or minority students. The institution has adopted the policy that no person in whatever relation with Lee University shall be subject to discrimination because of race, color, national origin, age, gender or disability.

Lee University attracts students with widely varied academic skills. The university is committed to serve under-prepared students with a variety of support services. While the primary source of funding is from student revenues, the Church of God provides for the university in its annual budget. The university also receives support from alumni, businesses, churches, foundations and friends.

An integral part of the university mission is a commitment to training responsible citizens to contribute their God-given gifts to the community at large. A biblical understanding of service and benevolence is introduced in the general education core, actualized through planned, reflective community engagement and developed in various major courses.
a variety of structures provided within the widest campus context, such as classroom instruction, extracurricular activities, student development services and residential living. The university realizes that the knowledge, appreciation, understanding, ability and skill for such resourceful living will be evident in its students in direct proportion to the success of its programs and service whereby a healthy physical, mental, social, cultural and spiritual development is fostered.

The Lee University experience intends to demonstrate that there is a positive correlation between scholarship and wholeness; that one must approach all learning with a sense of privilege and responsibility under God; that truth is truth wherever it is found, whether test tube, literary or artistic masterpiece or Holy Scripture; that appropriate integration of truth is both intellectual and behavioral in nature; and that the pursuit and application of truth is, indeed, “ministry.”

Faith Statement
As a Christian university operated under the auspices of the Church of God, Lee University is firmly committed to the conservative, evangelical, Pentecostal religious position of its sponsoring denomination. This position is expressed in the “Declaration of Faith” as follows:

We believe:

In the verbal inspiration of the Bible.

In one God eternally existing in three persons; namely, the Father, Son, and Holy Ghost.

That Jesus Christ is the only begotten Son of the Father, conceived of the Holy Ghost, and born of the Virgin Mary.

That Jesus was crucified, buried, and raised from the dead. That He ascended to heaven and is today at the right hand of the Father as the Intercessor.

That all have sinned and come short of the glory of God and that repentance is commanded of God for all and necessary for forgiveness of sins.

That justification, regeneration, and the new birth are wrought by faith in the blood of Jesus Christ. In sanctification subsequent to the new birth, through faith in the blood of Christ, through the Word, and by the Holy Ghost.

Holiness to be God’s standard of living for His people.

In the baptism with the Holy Ghost subsequent to a clean heart.

In speaking with other tongues as the Spirit gives utterance and that it is the initial evidence of the baptism of the Holy Ghost.

In water baptism by immersion, and all who repent should be baptized in the name of the Father, and of the Son, and of the Holy Ghost.

That divine healing is provided for all in the atonement.

In the Lord’s Supper and washing of the saints’ feet.

In the pre-millennial second coming of Jesus. First, to resurrect the righteous dead and to catch away the living saints to Him in the air. Second, to reign on the earth a thousand years.

In the bodily resurrection; eternal life for the righteous, and eternal punishment for the wicked.

Institutional Goals
The nature and range of this commitment are demonstrated in the objectives of the institution. Lee University seeks to:

1. Provide a general education program which will equip students with quantitative, verbal and technological skills; enhance their appreciation of their cultural and religious heritage; strengthen their commitment to the liberal arts; and give them a view of their responsibility as Christian scholars in the community and the wider world.

2. Provide sufficient religious education to enable students to be conversant in the Christian faith, to articulate their own beliefs and to actualize their faith through consistent growth and practice by the integration of faith with all aspects of life.

3. Provide undergraduate programs of sufficient quality to prepare students for success in graduate and professional school and in the early stages of their careers.

4. Provide graduate programs in various areas which will prepare students for success in post-graduate programs.

5. Achieve the quality of instruction and resources necessary for the national accreditation of selected areas and the development of the additional graduate programs where appropriate.

6. Provide academic support through computer facilities, library resources, student support services and faculty development opportunities to ensure quality instruction and a challenging academic environment.

7. Provide a campus environment that supports and encourages students in their personal, social, spiritual, cultural and physical development.

8. Prepare students for successful personal and professional life by developing in them a commitment to Christian values in vocational goals and lifestyle choices.

9. Prepare students for citizenship as Christians in the world through reflective community interactions and teach commitment to ideals of service, benevolence, civic virtue and social justice.

10. Increase the diversity of the faculty and student body, address the unique needs of a diverse campus population, and encourage academic inquiry into minority concerns.

11. Recruit, develop and retain a diverse community of teaching professionals, administrators and support staff who demonstrate excellence in their professional roles and effectively implement the mission of the university in their lifestyles and co-curricular involvement.
12. Continue the growth of the student enrollment and development of the capital assets to optimize student opportunities.

13. Preserve the evangelical and Pentecostal heritage and message of the Church of God and provide positive direction for its future.

14. Provide quality academic, spiritual, cultural and recreational services to its various publics.

**General Education Core Goals**

Education is built upon the pursuit, discovery, and understanding of truth and its application to the processes of life. Upon this foundation the general educational objectives of Lee University are projected. Graduates of Lee University should be able to:

1. Demonstrate a basic knowledge of biblical literature, biblical history, and the tenets of Christian theology including the distinctives of evangelical, Pentecostal faith and practice.

2. Articulate a biblical worldview and relate it to contemporary global issues.

3. Approach all of life from the perspective which a personal commitment to the Lordship of Jesus Christ gives to learning, social interaction, vocation and lifestyle.

4. Demonstrate the integration of biblical faith and learning in the chosen discipline.

5. Use spoken and written English effectively.

6. Demonstrate analytical, critical thinking, decision-making, and problem-solving skills.

7. Demonstrate computer literacy.

8. Identify and use appropriate resources and technology to perform research.

9. Apply mathematical principles to problem solving.

10. Demonstrate knowledge of the heritage of Western Culture.

11. Show an appreciation and understanding of the fine arts (music, drama, literature and the visual arts) and express themselves through the arts and aesthetic means.

12. Articulate a Christian worldview and relate it to contemporary social and political issues in a global context.

13. Exhibit an understanding of human behavior and the biblical mandates regarding personal responsibility to God, self, family and the social and natural order.

14. Demonstrate knowledge of American society, including social institutions, social roles and historical change.

15. Practice good financial principles, consumer economics and biblical stewardship.

16. Demonstrate an understanding of the dynamics of economic systems and their impact on international relations.

17. Demonstrate an understanding and appreciation of the natural/physical world and reveal a well-developed sense of stewardship of its resources.

18. Apply scientific research methods to the investigation of the natural/physical world.

19. Demonstrate the knowledge, understanding, respect and language skills needed to function effectively in a culturally and ethnically diverse nation and world.

**Philosophy of Education**

To offer a philosophy of education is to engage in critical and constructive introspection. It includes an appreciation of the past, an assessment of the present, and a will to dream, even to dare, respecting the future. The Lee University Philosophy of Education has been a commitment-in-process since 1918. At whatever stage in institutional development, those engaged in the enterprise have sensed a common calling, i.e., our community is a discipleship of equals, our work is a kind of sanctification of the ordinary, and our disposition is doxological in nature.

A philosophy of education necessarily considers teachers, students, and the creative engagement of the two. Furthermore, a Christian philosophy of education presupposes the integration of faith and learning. The following represents a corporate commitment in these regards.

Teaching, to this community of Christian scholars, is a calling to serve the Kingdom of God through scholarly discovery of truth, dissemination of appropriate knowledge, and development of effective constituents. This mission requires a commitment to invest the time necessary to prepare students intellectually and spiritually to be productive citizens in the twenty-first century. Effective teachers challenge and inspire succeeding generations to discover gifts, to discern callings, to formulate life plans, and to begin to implement all of these for excellence in service. Furthermore, they lead students toward personal excellence by modeling the goals and values of the learning community, by facilitating student learning of discipline knowledge, personal skills and Christian perspectives, and by inspiring students to reach for transformational growth.

Effective teachers are characterized, most notably, by commitment to lifelong learning. Lee University faculty members are committed Christians who believe in being led by the Holy Spirit as they fulfill their professional roles in scholarship, teaching, and service. Those teachers support collegiality and accountability with respect for academic freedom within the bounds of the Christian faith. Effective relational and communication skills, disciplinary expertise, care for students, and a strong work ethic are viewed as essential qualifications for a community of Christian teacher-scholars. As members of a teaching-learning community, Lee faculty contribute to life beyond the classroom through involvement in campus organizations and events, service on faculty committees, civic and church responsibilities, and scholarly accountability.

Aware that an intentional teaching-learning community significantly impacts the growth and development of students, members of the Lee University faculty share these distinctive educational commitments: the integration of biblical truth with the disciplinary knowledge of academic specialties; the promotion of the Lordship of Jesus Christ through all that is done in the classroom, on the campus, and in the full scope of living; the encouragement of students to strive for excellence in mastery of subject knowledge, in critical thinking, in skills development, in moral and spiritual growth, and in social development; the importance of service learning experiences for all students; the fostering of global perspectives through cross-cultural interaction and multi-cultural experience; the holistic development of students through collaboration with other institutional...
partners; and the mentoring of students as their academic and spiritual role models.

The learning experience at Lee University includes the development of critical thinking skills and the challenge of creative thought issuing from and empowered by a Christ-centered approach to education. Working in partnership with faculty who are grounded in the integration of faith and learning, students are empowered and encouraged to discover and investigate the facets of their disciplines as they learn to adapt to a constantly changing landscape. Each student is regarded as a product of God’s design, distinctively gifted to learn and to grow. The faculty’s role is to help students, God’s workmanship, to understand the call that God has placed on them and to challenge them to examine and to use their gifts in discharging those callings.

The centrality of the classroom with designed educational activities is a given in the formation of students’ intellectual habits. Therein the life of the mind is nurtured and students become more than merely passive recipients of information. Even so, to embody this process requires a level of faculty responsibility outside the classroom whereby to build personal and collegial relationships that enhance the learning process. Desiring for students an integration of faith and knowledge, Christian teachers in that external context also mentor and counsel students to the fullest engagement of Christian discipleship.

Engaging students in the learning process, then, whatever the venue, is integral to the educational mission. While acknowledging that not all students may be challenged successfully and that ultimate responsibility for learning rests with the students themselves, Lee faculty do believe that efforts at such engagement must be intentional, aggressive, and thorough. Students must not be treated as passive consumers; rather, because of their created dignity in the image of God, the faculty propose to challenge them by ennobling intellectual and scholarly endeavors sufficient to fulfill their distinctive vocations in life.

Sensitive Christian educators intend to approach all students as worthy of time, care, and attention. While acknowledging varied levels of academic preparation in their backgrounds, Lee faculty do maintain that all students who meet university admission standards and are placed before them are worthy of the best efforts, which include teaching techniques that are flexible and accommodating in order to meet the needs of a diverse population. Far from relaxing standards in the face of such differentiation, faculty commit to engage students in such ways that each one might realize his/her highest potential, all to the glory of God.

In retrospect, the principals, i.e. teachers and students, involved and the process undertaken may be characterized succinctly in this way: The positive engagement of the passionate intellect and the inquiring mind represents the intersection of calling, the sense of divine vocation; of commitment, the belief that the arts and sciences represent the core values of one’s academic identity; of confession, the concurrence of Christian faith affirmations and transcendental values; of confidence, the challenge that academic faithfulness does make a difference in the development and expression of one’s own character and contribution; of competence, the amalgam of academic integrity and quality assurance so essential to any Christian enterprise; and of community, the holistic and relational perception of the teaching-learning paradigm. These matters have not been consigned to the vagaries of chance but have been decidedly intentional. Indeed, the energizing Geist at Lee University is that academic engagement is a spiritual discipline.

Philosophy of Calling and Career

Lee University believes that God gives strengths, talents or gifts to all humans in creation. We also believe that God calls people in two ways: primarily to a relationship with God and secondarily to tasks and careers in response to that relationship.

Understanding these gifts and callings as fundamental to a meaningful life on earth, Lee University attempts to create an atmosphere where questions about calling and career are encouraged. The university accomplishes this through discussion of calling with-in courses throughout the curriculum, through vocational retreats and chapel speakers, through the Center for Calling and Career, through other programs sponsored by the Poemi Project and through our own quest for understanding our personal strengths and call from God in the Spirit. The goal is that we all might love God with our whole being and love our neighbors as ourselves.

Athletic Philosophy and Mission

Lee University, as a Christian liberal arts university, is committed to the principle that God is glorified when individuals develop to their full potential as whole persons - intellectually, spiritually, socially and physically.

The existence of an athletic program at Lee University not only is consistent with this principle but is necessary to it. A university without an athletic program omits an important part of the preparation of its students for “responsible Christian living in the modern world.”

The mission of the intercollegiate athletic program is to assist in the preparation of graduates for Christian service in their occupations, academic pursuits and personal ministry. The success of this preparation depends on programs and services whereby physical, mental, social and spiritual development is fostered. The mission is pursued within a variety of activities provided within the context of the intercollegiate athletic program.

The intercollegiate athletic program is designed to assist in preparing students for “responsible Christian living in the modern world.” Its commitment is to develop an integrated person - one who is spiritually alive, intellectually alert and physically disciplined. This balance is achieved in each athlete by training him/her to think about athletics with a competitive spirit from the Christian perspective.

Lee University engages in intercollegiate athletic competition as a member of the Southern States Athletic Conference and the National Association of Intercollegiate Athletics. Varsity teams compete in men’s and women’s basketball, tennis, soccer and cross country; women’s fast pitch softball and volleyball; and men’s golf and baseball with several of our teams qualifying for the national tournament each year. All events are free to students upon presentation of a current identification card.

Historical Sketch of Lee University

Lee University has emerged in recent years as an institution of national standing in many areas that are typically ranked by outside observers. One of the reasons for this emergence is that Lee stands out in a select group of higher education institutions, that of Christ-centered, liberal arts colleges and universities. Another reason is that Lee’s original core values and goals have remained strong even as it has adapted to the changing landscape of academic and professional life.

Lee University’s recent success belies its humble beginnings almost a century ago. In 1918, the Church of God of Cleveland, TN began a small Bible institute to invest in the ministerial training of its young people. From its hopeful beginning of twelve students and one teacher, the school grew and became Lee College, with a Bible college and junior college on its current site, in 1948. Twenty years later, Lee received accreditation by the Southern Association of Colleges and Schools as a four-year liberal arts college. In 1997 Lee made the transition from college to comprehensive
liberal arts university granting masters degrees. In 2009, Lee's Helen DeVos College of Education launched an Education Specialist degree program.

The liberal arts experiment at Lee College came into its own in the mid-1980s with a deliberate move to embrace the broader evangelical Christian community. The shift brought an influx of new students and faculty. In the twenty-five years between 1986 and 2011, student enrollment more than tripled from just over 1200 to more than 4300.

While Lee remains committed to its denominational affiliation, the institution's inclusive enrollment policy now attracts students with a variety of religious traditions, academic abilities and ethnic and socio-economic backgrounds. Lee draws students from every state, and the percentage of minorities and internationals is one of the highest in the Council for Christian Colleges and Universities.

The faculty has also grown and diversified to keep pace with the 100 undergraduate major and 15 graduate programs in its four schools: the College of Arts & Sciences, the Helen DeVos College of Education, the School of Music, and the School of Religion. Faculty members come from around the world and represent a wide range of academic, cultural and religious backgrounds.

Campus construction programs have added significant acreage and more than 20 major buildings to Lee's landscape over the past twenty-four years. Among these are ten new dormitories, six classroom buildings, a student union building, a dining hall, and two recreation centers.

At the turn of the new millennium, Lee University became a higher education pioneer in incorporating benevolence and service learning, personal strengths development and cross-cultural studies as a regular part of every student's educational experience. Lee has been recognized for its leadership in preparing students for responsible living and was included in the Honor Roll of Character-Building Colleges by the Templeton Foundation. The Institute of International Education Open Doors reports included in the Honor Roll of Character-Building Colleges by the Templeton Foundation. The Institute of International Education Open Doors reports for the past few years have ranked Lee University among the top five master's degree granting institutions nationwide for its application of global and cross-cultural studies. Lee has also been recognized by the Corporation for National and Community Service as one of the top six institutions in the nation for the service efforts of our students. Last year we received the Presidential Award in Higher Education Community Service after having been included in that institution's Honor Roll for the past three years.

Student Life

Campus Safety
Lee University maintains a safety team to provide protection for students, staff, faculty and property. Campus Safety officers perform a variety of duties, including regulating traffic and parking, filing university incident reports, securing buildings, maintaining order, providing assistance in times of emergency and contacting local law enforcement and emergency response authorities when needed. With a ten-minute notification, Safe Ride services are provided for students who need to be escorted across campus at night.

The university provides parking facilities for students who bring automobiles onto the campus. Each student who parks an automobile on campus must register it with the Campus Safety Office and must carry liability insurance. This includes non-resident students who commute to the campus. Upon receipt of a parking permit, the student is entitled to park in an assigned area. Parking is on a first-come, first-served basis. Automobiles parked illegally will be ticketed or towed at the owner's expense.

All students enrolled at Lee University are required to have a current student identification card. The card is issued during registration and is used for a number of university activities such as the library, dining services, campus events, recreation center, intramural sports and chapel.

Chapel
The university is firmly committed to corporate worship and views chapel as an integral and indispensable part of the learning experience. Chapel services are conducted on Tuesday and Thursday mornings and some Sunday evenings. Weeks are set aside for special convocation during the fall and spring semesters.

All full-time students (12 hours or more) are required to attend chapel services including convocations. Students requiring work exemptions for chapel may complete the appropriate forms each semester in the Chapel Coordinator’s Office located in the Conn Center. Freshmen are not eligible for exemptions. Students who do not comply with chapel requirements may not be allowed to register for another semester.

Students who have been on chapel probation for three or more months and are on chapel probation at the end of the semester will forfeit any university-funded scholarships for which they would have otherwise qualified during the semester.

Fine Arts and Cultural Events
Each year the Fine Arts and Campus Events Committees bring to the campus a wide array of programs designed to enrich the student's cultural life. Included are concerts by professional entertainers, musical festivals, lectures, drama, film series and art exhibits.

In addition, student organizations sponsor special cultural events for the enjoyment and enrichment of the Lee University community. Students can attend most of these events for free by simply presenting their current student identification card.

Health Clinic
Lee University maintains a Health Clinic which provides a variety of medical services including physical exams, allergy shots, and medications for illness. Students are treated by a registered nurse, campus or local physician, or are referred to the Emergency Room, or to a walk-in clinic. The
Health Clinic fee is mandatory for full-time students. Part-time students, Graduate students, and local CAPS students can pay the fee and have access to the Health Clinic.

The primary objective of the Health Clinic is to give first aid and medical treatment on a limited basis. No student is refused treatment and all information is confidential. There are no inpatient beds or isolation facilities available on campus. Students with communicable diseases are assisted in making arrangements to return home to recover.

Students with health-related problems that require on-going care are strongly encouraged to contact the Director of Health Services prior to registration so arrangements can be made for medical supervision. Specific questions may be directed to the Clinic staff through the "Ask a Nurse" section of the Health Clinic portion of the main Lee University webpage, under Student Life. The Health Clinic is located on Parker Street in the north end of the Leonard Center and across from the McKenzie Athletic Building.

Small Group
Lee University is committed to the development of relationships in the context of community. One avenue through which we encourage students to build vulnerable, authentic and deeper relationships is through our discipleship program called SmallGroup. Each Residence Hall, staffed with a Resident Director, Resident Assistants and a Resident Chaplain, coordinates and facilitates a weekly opportunity for students to gather in small groups to discuss and process faith in a safe environment. The Resident Chaplain, who works for both the Resident Director and Discipleship Ministries Coordinator is provided a scholarship by the Poema Project. The seventeen chaplains on campus are responsible for overseeing the small groups in their particular Residence Hall. The Resident Chaplains are also responsible for a team of volunteer small group leaders called Floor Leaders who facilitate small groups on each floor.

SmallGroup meets every Thursday night at 10:00 p.m. for one hour in each Residence Hall. During SmallGroup our student leaders are encouraged to center their small group on discussion, accountability, vulnerability and good questions. We firmly support a safe environment which can and should be developed between members of SmallGroup. This safe environment can lead to effective growth and transformation by challenging and encouraging members of the group who are walking this journey of faith together.

The mission of SmallGroup in its simplest form is to love God and love others. We hope to point one another towards a transformational relationship with Jesus Christ and help one another understand the call that Jesus has on our lives, as a member of God’s kingdom. Although SmallGroup is not a required activity, over 25% of our on-campus student body takes the time each Thursday night to participate and engage in this unique program of growth, challenge, transformation and encouragement.

Intercollegiate Athletics
Lee University engages in intercollegiate athletic competition as a member of the Southern States Athletic Conference and the National Association of Intercollegiate Athletics. Basketball, tennis, golf, softball, soccer, volleyball, cross-country and baseball are available on an intercollegiate basis, with several of our teams qualifying for the national tournament each year. All events are free to students upon presentation of a current identification card.

Intramurals and Recreation
To promote physical well-being, Lee University encourages participation in various forms of athletics, outdoor recreation and other activities. Intramural sports for both men and women attract a large percentage of students who compete individually and as members of class, club, dormitory or independent teams. In addition to team sports like softball, volleyball, soccer, basketball and football, many individual sports and games are also offered (i.e., table tennis, bowling, billiards and chess). Current students and their spouses may participate in intramural programs. The programs are free to all students who pay the student activity fee. Spouse participation requires a spouse pass which may be purchased at the Recreation Center Office. Participants may register for the event(s) of their choice.

The DeVos Recreation Center provides a wide range of social and recreational opportunities. These opportunities include a full-size gym, weight and physical fitness equipment, racquetball, cycling and games such as table tennis and billiards. This facility is only open to Lee University students, faculty, administration and staff. There are minimal fees for some features such as lockers and supplies. Other opportunities exist in the area of sport clubs and outdoor recreation. A list of active sport clubs and outdoor recreation activities can be obtained at the DeVos Recreation Center office. All users must present a valid ID in order to use the facilities or any equipment.

Social and Entertainment Activities
Consistent with its desire to develop the whole person, Lee University offers a balanced program of social opportunities which provide social interaction for the entire student body. A number of events are underwritten by the Campus Events Committee which is funded by student activity fees. These events may be attended without charge upon presentation of a current student identification card.

Student Activities and Services
The goal of Lee University is to be a Christian community where people share their lives with one another and meet whatever academic, spiritual and social needs are present. Such a community calls its members into accountability for their actions, their theology and their lifestyles. This quest for Christian community is the foundation of the mission and purpose of Lee University, including campus life and student activities. The services provided, as well as the rules and regulations by which we live, evolve from commitment to the Christian community.

Student Grievances and Appeals
Lee University is committed to a policy of responsiveness to students who express that actions and decisions of university personnel are inappropriate and detrimental.

A student grievance or complaint should be discussed with the university employee responsible for the specific decision or having authority for the condition in the institution giving rise to the complaint. If the discussion does not resolve the issue, the student should submit a signed written complaint stating the facts as perceived and the requested action or change of decision. The written complaint may be submitted to the original employee and/or to the employee’s supervisor. Each supervisor is committed to assist in resolving problems and complaints in accordance with professional standards. These standards include respect for differences in viewpoint, protection of the right of students to seek clarification of policy or changes in policy and delivery of satisfactory service in accordance with stated program objectives.

Students are expected to demonstrate appropriate respect in both oral
and written complaints. When a member of the faculty, administration or staff renders a decision that is in accordance with institutional policy, the student should recognize that an appeal for exceptions to policy and recommendations for changes in policy involve privileges that usually exceed the authority of a given employee.

Student Lifestyle Expectations
Lee University seeks to maintain an environment in which wholesome attitudes and proper conduct can flourish. The university is fully committed to serious educational goals and welcomes those students who indicate their desire for a quality education in a Christian environment in attitude, appearance and behavior.

Whenever any group is closely associated for the accomplishment of a definite purpose, rules and regulations are necessary. Lee University attempts to maintain equitable rules, developed with the participation of the student body and the university administration. Registration is held to be the student's written agreement to comply with the rules and regulations of the university.

The ideals of Christian character should be foremost in private department and all social relationships. Stealing, cheating, lying, use of tobacco, pornography, extra- or premarital sexual activity, drinking of alcoholic beverages, use of illegal drugs, attending establishments of ill repute, immorality, disrespect for school authorities, commission or conviction of a criminal offense, discrimination or harassment of another person, etc., will not be tolerated.

Students are subject to all school and residence hall regulations from the time they arrive on campus, whether they have registered or not. Students are also subject to these rules when participating in off-campus study trips and during holidays.

A student handbook is distributed at the beginning of each fall semester. Students should refer to this document for more specific information regarding behavior codes and expectations.

Community Covenant
All students are required to sign the following Community Covenant indicating their agreement with these principles:

Lee University is a Christian community dedicated to the highest standards of academic achievement, personal development and spiritual growth. Together the community seeks to honor Christ by integrating faith, learning and living while its members' hearts and lives mature in relationship to Jesus Christ and each other. Faith in God's Word should lead to behavior displaying His authority in our lives. Scripture teaches that certain attributes such as love, joy, peace, patience, kindness, goodness, faithfulness, gentleness and self control are to be manifested by members of the Christian community (Galatians 5:22-23)

1. Community life at Lee University should be marked by personal stewardship of abilities and resources and sensitivity to the God-given worth and dignity of each individual. Respect for the worth and dignity of each individual regardless of any differences is a foundational tenet of the Christian community of faith. The university does not allow and will not condone discrimination or harassment of another person because of race, color, national or ethnic origin, religious background, age, gender or disability.

2. Corporate worship aids in community building and support of the body of Christ. We gather as a community at special times for nurture and instruction in the truths of God's Word. These activities include required attendance at chapel and spiritual emphasis weeks. Personal devotions and local church involvement are encouraged.

3. Scripture condemns such attitudes as greed, jealousy, pride, lust, needless anger, an unforgiving spirit, harmful discrimination and prejudice. Furthermore, certain behaviors are expressly prohibited by Scripture. These include theft, lying, cheating, plagiarism, gossip, slander, profanity, vulgarity, adultery, homosexual behavior, premarital or extramarital sex, sexual promiscuity, pornography, drunkenness, gluttony, immorality and occult practices (Galatians 5:19-21, 1 Corinthians 6:9-10).

4. Scripture teaches that all our actions (work, study, play) should be performed to the glory of God. We endeavor, therefore, to be selective in the choices of clothes, entertainment and recreation, promoting those things which strengthen the body of Christ and avoiding those which would diminish sensitivity to Christian responsibility or promote sensual attitudes or conduct.

5. Since the body of the Christian is the temple of the Holy Spirit, it deserves respect and preservation of its well-being. Therefore, the use of alcohol, illegal drugs, tobacco in any form and the abuse of prescriptions and over-the-counter drugs violate our community standard.

Music Groups
Music is an important part of life at Lee University. All students have the opportunity to become part of a choral or instrumental performing group. Students may also participate in any number of chamber ensembles including: brass, saxophone, flute; woodwind; trombone choir; and string, guitar, and vocal ensembles. Lee University music groups provide a wide range of spiritual, musical, and cultural experiences for their members. These groups perform in churches, schools, concert halls and other performing venues around the country and abroad. Music majors and non-music majors are encouraged to audition for the ensemble of their choice at the beginning of each semester: Campus Choir, Lee University Symphony Orchestra, Chorale, Evangelistic Singers, Jazz Ensemble, Small Jazz Ensemble, Ladies of Lee, Lee Singers, Opera Theatre, Pep Band, Percussion Ensemble, Piano Ensemble, Symphonic Band, Voices of Lee, and Wind Ensemble. The University Choral Union welcomes the participation of all university without audition. In order for students to participate in the university's traveling ensembles, they must be enrolled at Lee in good academic standing as a full-time student. Please contact the School of Music for more information: music@leeuniversity.edu.

Theatre Groups
Lee University Theatre, a part of the Communication Arts Department, offers all students an opportunity to develop artistic excellence through individual attention, a wide variety of technical and performance opportunities, and outstanding facilities. Past productions have included
Chairs, An Ideal Husband, My Children My Africa, My Fair Lady, Almost, Maine, Tartuffe, Wit and many others. Additionally, the program produces a number of smaller productions throughout the year including original play readings and Directing student showcases. For more information please email theatre@leeuniversity.edu.

Kingdom Players, a part of the Admissions office, is a drama team that provides entertainment for on- and off-campus events and ministries. The team travels throughout the nation, ministering in churches and camps and conducting drama ministry workshops. For more information please email Jay Critz at jcritz@leeuniversity.edu.

**Student Publications**

Lee University student publications serve to inform, entertain and promote understanding among the various publics of the university community. They reflect the university’s mission and purpose and are in keeping with the doctrinal commitments of the sponsoring denomination.

The Vindagua is the university yearbook. The Clarion is the campus newspaper. The Lee Review is the student literary magazine published each semester. All student publications are written, designed, edited and published by students under faculty supervision.

**Student Housing**

**On-Campus**

Lee University is primarily a residential campus. Freshmen and sophomores are required to live in university housing.

Upon first entry to on-campus housing, students are required to pay a one-time $200 housing reservation deposit. Half of this deposit will be applied toward the cost of the first semester’s residence hall expense, and the other half will be held as a “roll-over” deposit. In subsequent semesters, this roll-over deposit, along with a residence hall application, will reserve the student’s residence hall assignment for the following semester. Residence Hall applications can be obtained by contacting the Office of Residential Life and Housing or visiting http://www.leeuniversity.edu/residential-life.

Should a new applicant cancel his/her application to Lee University, a request can be made for a refund of the housing reservation deposit. The request must be received in writing to the Office of Residential Life and Housing, thirty days prior to the first day of classes. Refunds will not be processed after this date.

Local freshmen and sophomores who wish to live off campus must live with their parents or an immediate relatives (not including siblings who are also college students). Approval to live off-campus must be obtained by completing an off-campus application and submitting it to the Office of Residential Life and Housing. See “Off-Campus” for application deadlines.

**Residence Hall assignments for new students**

New students are assigned on a first-come, first-served basis, once the following criteria has been met: (1) acceptance to Lee University, (2) completion of a Residence Hall application, and (3) payment of the housing reservation deposit. Room assignments within the residence hall are made by the Resident Director. Every effort is made to assign roommates based on written mutual request on the residence hall application. The university reserves the right to change residence hall assignments.

Residence Hall assignments for the fall semester are made in February, May and continue to be made throughout the summer months. Residence Hall assignments for the spring semester are made in December. Students will be notified by email of their assignment. The university reserves the right to change residence hall assignments. Efforts will be made to notify students of such changes; however, it should be noted that sometimes last minute changes occur when students cancel their housing assignments.

On Monday morning, following new student check in (first day of registration) students who have not checked into their residence hall, will lose their residence hall assignment, unless they have received permission for late arrival from the Office of Residential Life and Housing. Students who lose their assignment must contact the Office of Residential Life and Housing for their residence hall application and deposit to be reactivated. The residence hall assignment location will be based upon available spaces.

**Residence Hall assignments for current students**

To reserve a residence hall assignment for a new academic year, each student will need to complete the Advanced Housing Selection application and process.

**Advanced Housing Selection**

The Advanced Housing Selection process has two important steps that each student must complete in order to reserve their residence hall for the following year.

1. Complete the Advanced Housing Selection application and have the roll-over deposit on their student account. To receive priority in residence hall selection this application must be submitted by the deadline (March) given by the Office of Residential Life and Housing. All students are required to attend a residence hall meeting to receive this information and the application.

2. Confirm their residence hall assignment by the deadline of June 15. Students will confirm by responding to an email they will receive at their LeeU email address. If students do not confirm their housing by June 15, they will be purged from their residence hall assignment. Students will then need to contact the Office of Residential Life and Housing to reapply for housing, which includes a new $100.00 housing deposit, in order to receive a residence hall assignment. Students will be assigned according to available spaces.

The roll-over deposit is no longer refundable upon cancellation of a confirmed assignment after June 15.

**Roll-Over Deposit**

Upon completion of the final semester in Lee University housing, the student’s roll-over deposit will be applied to the student’s account as a credit. The deposit will be applied 60 days after classes begin the following semester.

**Meal Plan Policy**

Students with under 30 cumulative credit hours and are 20 years of age or younger are required to participate in a university meal plan. If a student does not select a meal plan the default meal plan of 21 meals per week will be selected for the student's use. Charges will be applied accordingly.

Possible exemptions of a meal plan are made only to those who have a specific medical condition that would not permit them to eat at any food service location on campus. To be considered for exemption, a signed
physician’s medical note is required, as well as a signed letter from the management of the University’s food service, stating that the food requirements for the student cannot be met.

Married Student & Non-Traditional Housing

The university provides Carroll Courts for its married and non-traditional students. This apartment complex contains one and two-bedroom units. Applications for Carroll Courts are available by contacting the Office of Residential Life and Housing. Rent includes utilities. Laundry facilities (coin operated) are available at the apartment complex.

Off-Campus

Students who wish to live off-campus must submit an off-campus application and meet one of the criteria listed below. Students must submit an Off-Campus Application to the Office of Residential Life and Housing by the appointed deadline for each semester.

1. Local student (student living with immediate relative in Cleveland or immediate surrounding area).
2. Student who is married.
3. Student who is 21 years of age or older as of the date of the first day of classes.
4. Student who is enrolled for less than 12 credit hours.
5. Student who has lived on campus for at least four semesters (not including summer school).
6. Student who has completed 60 credit hours (not including Summer Honors, dual enrollment, or AP credit), is not on chapel or social probation and has at least a 2.0 GPA.
7. Student who is enrolled in a graduate program.

For continuing students that apply to live off-campus after the stated deadlines, a $250.00 late processing fee will be assessed to the student’s account.

Students who have accountability hours or are on chapel/academic probation will not be approved to move off campus. Additionally, students who have already been approved but display a disregard for the lifestyle expectations of the university can be required to move back on campus.

Counseling Center

Counseling

The Counseling Center offers short-term personal counseling and psychological services to Lee University students and is staffed by licensed mental health practitioners and their supervisees. Therapeutic modalities include individual, group, couples, and family counseling. Counseling Center therapists provide assistance and support for students who wish to address a variety of issues such as depression, anxiety, sexual trauma, self-esteem, relational conflicts, family of origin concerns, experience(s) of abuse, spirituality, and sexuality. Staff members are also available to students, faculty, and staff for consultation and/or outreach programming on a wide variety of topics. Services are free of charge and confidential.

For issues requiring long-term psychological care, students may be referred to outside providers. Medication consultations with a contract psychiatrist and/or psychiatric nurse practitioner are available on a limited basis to students who are actively involved in counseling. The Counseling Center also serves as a training site for masters-level interns. For more information about any of the Counseling Center’s services, please call 423-614-8415 or visit www.leeuniversity.edu/counseling.

Leonard Center

Service-learning at Lee University is directed by the Leonard Center and is designed to prepare students for Christian citizenship through reflective community interactions that encourage a commitment to the ideals of service, benevolence, civic virtue, and social justice.

Service-learning is part of the academic requirement at Lee University. Students are required to complete a minimum of 10 service hours per academic semester they are enrolled at Lee excluding summer terms (up to 80 hours). For every 10 hours served, students will earn .25 credit hours. In a four-year program, 80 hours of service-learning convert to 2.0 credit hours of your religion minor. Transfer students enrolled at Lee University will be required to complete the equivalency of 10 service-learning hours for every semester they are at Lee University (up to 80 hours). Students can turn in a maximum of 20 hours per organization per academic year.

For every 10 hours completed outside of a service-enhanced or service-embedded course, a volunteer project form and two-page reflection paper must be submitted to the Leonard Center after receiving prior approval. Students should email service@leeuniversity.edu with a description of the activity and organization for approval before participating in the project. Service-learning hours are due by November 1st and/or April 1st of the respective semester (See form for further reflection paper guidelines).

Lee University encourages and values all types of Christian service. However, only certain types of service may be counted toward the graduation service-learning requirement. The following types of service will not be counted toward graduation requirements:

-Projects in which the student’s family members are the primary recipients of the service

-On-campus service unless the service completed has been approved by the Leonard Center

-Playing sports or exercising (including fundraising walks and runs) to raise money for a cause. However, if a student performs acceptable service that is pre-approved and raises money through that service, the student will be granted credit for the amount of time spent serving, not the amount of money raised

-Singing, playing or performance based service

-Work for which the student receives pay

The Leonard Center is located on Parker Street, directly across from the McKenzie Athletic Training Facility. For more information, please call 423-614-8614 or visit www.leeuniversity.edu/leonardcenter.
Undergraduate Admissions

Admission to Lee University is based on evidence that the applicant possesses the qualities needed for satisfactory achievement in terms of character, ability, academic foundation, purpose and personality. The university admits students regardless of race, color, national origin, religious preference or disability.

To be eligible for admission the applicant must have graduated from an approved high school or satisfactorily completed the GED test. All persons who register at Lee University are required to file an application. Acceptance of students is based upon discernable qualities and potential without reference to any perceived notion of an ideal class.

Procedure

Application forms are mailed on request to all prospective students or can be obtained from our website, www.leeuniversity.edu. All students expecting to enroll at Lee University for the first time must submit the following:

1. An application for admission on a form provided by the university.

2. An official high school transcript mailed directly from the high school. All students must graduate with a 2.0 GPA, and a composite score of 17 or above on the American College Test (ACT) or 860 (Math and Critical Reasoning only) or above on the Scholastic Aptitude Test (SAT). Students transferring with more than 15 semester hours are not required to furnish a high school transcript. Students who are Tennessee residents and transferring 24 or more semester hours will not be required to furnish a high school transcript.

3. An official test score report from ACT or SAT. (Applicants are not required to take the new writing component of these exams.) Transfer students with more than 15 semester hours are not required to submit ACT or SAT test scores. Students who are Tennessee residents and transferring 24 or more semester hours will not be required to furnish test scores. Applicants who have not already taken the entrance examination (ACT or SAT) will be required to take it prior to acceptance. The ACT/SAT should be taken on a national test date. Exceptions to this policy may be forwarded to the Vice President for Enrollment for consideration. To be eligible for Academic Scholarships, ACT/SAT exams must be taken on a national test date.

4. An application fee of $25 (non-refundable, non-transferable). The application fee may be applied to the account of the student for a period of two semesters following the date of payment.

5. An advance housing fee of $200. (This is refundable up to 30 days prior to registration.)

6. Any applicant born after January 1, 1957, must provide documented proof of receiving two MMR (measles, mumps, rubella) vaccinations after 12 months of age. (Submitted after acceptance.)

When the above requirements have been fulfilled, a student will be notified of his/her acceptance or rejection by the Office of Admissions. The university may refuse admission and registration to students not meeting the minimum requirements or may admit them on probation for limited work. Admissions policies are reviewed annually by the Admissions Committee.

GED Equivalency Certification

Applicants who have not completed high school will be required to take the General Education Development test. These tests cover English, natural science, social sciences, literature and mathematics. The tests are given in many major cities throughout the nation. One may apply for admission with an average score of 450 or above.

Advanced Academic Work for Credit

Superior students with advanced work in high school are encouraged to work at more advanced academic levels.

All university academic credit will be granted on the basis of acceptable documentation under the following conditions.

1. At least one semester of work (12 semester hours) must be completed at Lee University before credit earned by testing will be included on the transcript.

2. Credit earned by testing will be designated on the transcript by a grade of “P” (Pass).

3. A maximum of 32 semester hours can be earned by advanced testing.

Advanced Placement (AP Courses)

The university recognizes the validity of Advanced Placement Tests of the College Entrance Examination Board and awards credit. Lee will accept a score of three or above on AP exams for all categories except Music Theory and Statistics, which require at least a score of four. Students should request that original documentation (courses/scores) directly from the College Board be submitted to the Office of Records for evaluation at the time of application for admission to Lee. It is critical that these scores be sent to Lee as quickly as possible for placement purposes. (See corresponding chart in this section for pre-approved course/credit details.)

Additional information regarding AP may be obtained by contacting The College Board at www.collegeboard.com.

Cambridge International Exams (CIE)/University of Cambridge

The university recognizes the excellence of the CIE program and awards university credit. The student should request that original documentation (courses/scores) directly from CIE be submitted to the Office of Records for evaluation at the time of application for admission to Lee. It is critical that these scores be sent to Lee as quickly as possible for placement purposes. (See corresponding chart in this section for pre-approved course/credit details.)

College Level Examination Program (CLEP)

The university awards academic credit for select CLEP courses. Students should request that original documentation (courses/scores) directly from the College Board be submitted to the Office of Records for evaluation at the time of application for admission to Lee. It is critical that these scores be sent to Lee as quickly as possible for placement purposes. (See cor-
responding chart in this section for pre-approved course/credit details.)
Additional information regarding CLEP may be obtained by contacting The College Board at www.collegeboard.com.

**International Baccalaureate Programme (IBP)**
The university recognizes and awards academic credit for IBP coursework. IBP credits will be evaluated on a case-by-case basis. The student should request that original documentation (courses/scores) directly from IBP be submitted to the Office of Records for evaluation at the time of application for admission to Lee. It is critical that these scores be sent to Lee as quickly as possible for placement purposes.

**NOTE:** If a student has a question regarding a course for the above-mentioned programs (AP, CIE, CLEP, IBP), the student should personally contact the Dean of the Department in which the course is located to discuss the course in question. (See the listing of Departmental Deans at the back of the university catalog.)

**United States Armed Forces Institute (USAFI) Credits**
Original transcripts containing college credits acquired through USAFI should be submitted directly from the testing agency to the Office of Admissions at the time of application for admission to Lee. It is critical that these scores be sent to Lee as quickly as possible for course placement purposes. Transcripts will be reviewed to determine the number of hours and specific courses acceptable for university credit.

**Early Admission**

Early admission to the university may, under strict conditions, be granted to students before graduation from high school. The student applies for early admission with the advice and approval of his/her principal and guidance counselor. To be eligible for this early admission program, the student must have a minimum 3.5 high school grade point average and must score at least 22 on the ACT or 1070 (Math and Critical Reasoning only) on the SAT. A letter of recommendation from the parents and high school principal must accompany an application for early admission.

**Dual Enrollment**
The Lee University High School Dual Enrollment Program’s purpose is to provide local high school students a means of beginning their college careers while simultaneously earning high school credits. Students must be high school juniors or seniors with a cumulative GPA of 3.0 or higher and have an ACT score of 19 or higher in the subject to be taken (if applicable). They must also complete an admissions application and provide approval from a parent or guardian and high school principal or counselor. Grades are provided upon completion of college classes to the respective high school guidance counselors. The dual enrollment cost per credit hour is $107.

**Probationary Admission**
Applicants who are accepted as first-time freshmen whose high school grade point average is below C (2.0) or with an ACT score lower than 17 are accepted on probationary status. Such persons will normally be limited to a 12-14 hour course load and may be required to enroll in special sections for the first semester. Enrollment of such students at the university will serve as proof of each student’s acceptance of his/her probationary status.

Transfer students who have earned more than 15 semester hours with a grade point average less than 2.0 will be accepted on academic probation.
Readmission
Students who are in good standing will be eligible for readmission. However, readmission after suspension is never automatic. The student must apply for readmission and be approved by the Admissions Committee. Any student who is suspended for academic reasons is ineligible to apply for readmission until one full semester has elapsed. The summer session is not considered a semester. Readmission requires new application and a written letter explaining the reason for returning to Lee. Application fees are required at the time of application.

Test Requirements
All freshmen are required to submit scores on the American College Test (ACT) or Scholastic Aptitude Test (SAT). High schools should have registration forms for these tests. If these registration forms are not available in your high school they may be obtained on the Internet at www.act.org or www.collegeboard.com, or by calling ACT at (319) 337-1270 or SAT at (609) 771-7600. The registration form is accompanied by a Student Information Bulletin which describes the test, gives the dates and places for test administration, and the procedures for registration. Test centers are located throughout the United States and tests are administered on five specific dates established in advance by the testing service each year. Scores are reported to colleges and universities as requested by the student.

Applicants are advised to take the ACT or SAT as early as possible in the junior or senior year of high school. Test results are used as an aid in predicting the applicant’s potential for a successful college career, financial aid opportunities and as a basis for planning the student's program of studies. Registration for ACT or SAT should be made at least one month in advance of the test date. (Applicants are not required to take the new writing component of these exams.)

Placement Testing
In order to effectively place entering students in certain courses, we require some students to take additional placement tests prior to enrollment. These tests help to determine which students may need additional help in the areas of reading or mathematics.

Nelson-Denny Reading Test
Students with the following scores are required to take this test: ACT English sub-score of 12 or below; SAT Verbal sub-score of 330 or below. Students scoring below the 11th-grade level on the Nelson-Denny Reading Test will be required to take READ-101 during the first semester at Lee University. This course carries two hours elective credit.

Math Placement Test
Students with the following scores are required to take this test: ACT Math sub-score 17 and below; SAT Math sub-score 439 and below. Transfer students who are not required to submit ACT or SAT scores prior to admission will be required to take the Math Placement test unless transferring a college-level math class from another institution.

Music Major Auditions
All students who wish to major in music must be formally accepted into the School of Music by audition in addition to acceptance to the university. Students must contact the School of Music to schedule an audition during Frontline, Lee Day, Music Camp or at the beginning of a semester. In addition to an audition on the principal instrument/voice, each student must complete a piano proficiency exam and music theory placement exam.

International Student Admission
Qualified international students are considered for admission as freshmen and transfer students. Applicants with a native language other than English are required to submit scores earned on the Test of English as a Foreign Language (TOEFL), designed to ascertain proficiency in English and administered in many overseas testing centers. Students who wish to take the test should write directly to: TOEFL, Educational Testing Service, P.O. Box 6151, Princeton, New Jersey 08541. For further information, go to www.toefl.org. The SAT or ACT are accepted in place of the TOEFL.

All international applicants must submit official transcripts from all previous colleges and/or secondary schools. An estimate of expenses and Sponsor’s Guarantee Form must be submitted with the application. These forms are available upon request. All these must be received and approved before a student can be accepted to Lee University and issued an I-20 form.

An international advisor works with all students in matters relating to admission and residency at Lee. Arrangements can be made for meeting a student upon arrival provided complete information is sent in advance to the Vice President for Enrollment.

In order for the transfer work of international students to be applied to the Lee transcript, the transcript from the previous educational institution(s) must be evaluated by World Education Services (WES). Information concerning submitting a transcript for review can be found at www.wes.org. The cost of this service is the responsibility of the student. If the transcript has not yet been evaluated by WES upon arrival at Lee for registration, an advisor will place the student in courses deemed appropriate. Upon Lee’s receipt of the WES evaluation, the student’s placement will be re-evaluated if during the registration period. If received after the registration period, the student will remain in the class as placed.

Full Course of Study Requirement for International Students
Immigration regulations require students in F-1 status to complete a full course of study during each fall and spring semester. Students are not required to register for classes during the summer session. A full course of study for an undergraduate student is at least 12 semester hours. All students must complete General Education core classes including a minor in Religion.

Veterans and Dependents of Veterans
Lee University is approved for veterans and dependents of disabled or deceased veterans under existing public laws. Eligible persons should contact the Veterans Administration regional office of the state in which they maintain a permanent residence. One must have authorization for VA or vocational rehabilitation training before registering. If in doubt about the procedure, check with your local VA office (800-827-1000 or 888-442-4551). All questions concerning VA benefits at Lee University should be put in writing and sent to the Vice President for Enrollment.

Transcripts containing college credits acquired through USAFI courses and the College Level Examination Program (CLEP tests) or through colleges in the various branches of the military should be submitted with application. The transcript will be reviewed by the Registrar to determine the number of hours and the specific courses that are acceptable.
Transfer Student Admission

A student from an accredited college or university will be admitted without examination, provided he/she withdrew in good standing and has completed at least 16 hours of college work. Transfer applicants must present an official transcript showing evidence of at least a 2.0 average in all academic work previously taken. If the student has fewer than 16 hours, he/she will be required to submit ACT or SAT scores and a high school transcript. The student should request that ACT or SAT scores and transcript be sent to the Admissions Office. Transfer students who have less than a 2.0 grade point average can be accepted on academic probation. Students who are Tennessee residents that are transferring fewer than 24 semester hours are required to furnish a high school transcript and ACT or SAT scores.

An official transcript must be sent from each institution attended, regardless of whether credit was earned or is desired. A student who fails to acknowledge attendance in any college or university where he/she has been previously registered is subject to dismissal from Lee University.

The Commission on Colleges of the Southern Association of Colleges and Schools (SACS) has authorized each institution to review and decide for itself how much, if any, credit will be accepted from other educational institutions. Therefore, Lee University has adopted the following policy regarding the review process for transfer work from post-secondary schools that are accredited, non-accredited and outside the United States.

Transfer of credit shall not be denied solely on the basis of the agency or association that accredited such other institution of higher education if that agency or association is recognized by the Secretary of the Department of Education pursuant to Section 496 to be a reliable authority as to the quality of the education or training offered. Transfer of credit is the result of an academic review process which may include the registrar, the dean and/or chair of respective departments and the Vice-Presidents for Academic Affairs and Enrollment.

Requests for transcript review will be submitted to the university registrar in a timely manner. During non-registration periods, at least one week will be allowed for review. However, during peak registration periods, at least two weeks will be allowed for the complete review process. Furthermore, if transcripts from multiple institutions are being reviewed, original transcripts from each institution will be required and all coursework will be reviewed separately and individually.

No credit or transcripts from Lee will be issued until all previous transcripts are on file in the Office of Records.

A student in good standing at an accredited college or university who wishes to enroll in the summer term only may be considered for admission as a non-matriculated (transient) student. Such admission will terminate at the end of the summer term and does not presuppose acceptance by the university. A non-matriculated student may submit, in lieu of official transcripts of college credits, a statement of good standing from the Dean or Registrar of the last school attended. This statement must include the total number of semester or quarter hours previously earned.

All work from previous schools is reviewed and evaluated for acceptance. The cumulative grade point average includes credit hours attempted on all accepted courses.

Except in special cases, any student who has failed in another institution and who cannot remain in that institution will not be admitted to Lee University.

Removal of entrance conditions must be accomplished by the end of the first year.

Credit may be awarded for prior learning at an unaccredited institution provided Lee University has sufficient evidence of the quality of the prior learning experiences. Such credit will be placed on the Lee transcript only after the successful completion of a semester at Lee and will be subject to the review process for transfer work from post-secondary schools.

All of the courses completed at an accredited junior college by a transfer student may be accepted provided the courses are submitted at the time of the original application. A junior college graduate, however, must complete a minimum of 60 additional hours at a senior level institution with the last 33 hours required to be taken in residence at Lee.

Once a student has reached junior status at Lee University he/she must have special prior approval to take any courses at a two-year college to be transferred toward a degree program at Lee.

From Accredited Institutions

For schools accredited by agencies recognized by the Council for Higher Education Accreditation (CHEA) or the Secretary of the Department of Education, Lee University will review and accept all coursework and the corresponding letter grade earned for courses which are comparable to those offered by Lee. For courses in which Lee does not offer an equivalent, credit for related electives will be considered. A review committee which may consist of the registrar, respective deans/chairs and the Vice-President for Academic Affairs will make the final decision on credit awarded. If accreditation cannot be established, the transcript will be treated as if from a non-accredited institution.

From Non-Accredited Institutions

For schools in which accreditation cannot be established, Lee reserves the right to examine coursework requested to be transferred to the Lee transcript. Each transcript will be considered individually and separately. Letter grades will not be given; only pass-fail status will be recorded on the transcript. Documentation required for transcript review is the following: (1) original transcript, (2) a school catalog (for course comparison), (3) a description of faculty credentials (if not included in the catalog), (4) proof that the school is post-high school, (5) a research means, such as web-site and/or phone number. Securing this documentation is the responsibility of the student. If the above criteria are met, a review committee which may be composed of the respective deans/chairs in conjunction with the Vice Presidents for Academic Affairs and Administration will make the final decision as to whether transfer work is accepted and how much credit is awarded.

From Institutions Outside the United States

Grading systems and coursework vary greatly outside the United States. Therefore, in order for international transfer students to receive full credit for their post-high school educational experience, they will be required to submit all transcripts from international education institutions to World Education Services (WES) for credit review for a course-by-course aca-
demic credit evaluation. The fee for this service is the responsibility of the student requesting the services. Instructions for submitting a transcript for review can be found at www.wes.org. This website provides specific submission instructions for each country. The transfer work will not be added to the Lee transcript until the official academic credit report is received from WES. Lee University reserves the right to further review all courses that are being transferred to Lee. International transfer credits with a WES evaluation will be recorded on the Lee transcript with letter grades as reported by the WES analysis. International transfer credits without a WES Evaluation will be recorded with a pass-fail status (if the courses are deemed transferrable to the Lee transcript). Therefore, academic qualifications of new international transfer students may be reviewed in order to determine if they qualify for the Lee University Honor Scholarship. The Honor Scholarship is awarded to any transfer applicant or returning undergraduate student who has passed a minimum of 30 semester hours, whose cumulative GPA is at least 3.70, and who is currently enrolled as a full-time undergraduate student.

**Associate of Arts/Associate of Science Transfer Agreement**

Any student entering Lee University for the first time in Fall 2009 or later is eligible to be considered for the A.A./A.S. Transfer Agreement. Under this agreement, any student who has completed an Associate of Arts or Associate of Science degree from an accredited post-secondary institution is eligible to be considered for the A.A./A.S. Transfer Agreement. Under certain circumstances an applicant over twenty-one years of age and not qualified for admission may be admitted as a special student by permission of the Vice President for Enrollment.

**Statements of Compliance**

Lee University complies with the provisions of the Family Educational Rights and Privacy Act of 1974. This Act assures students attending a post-secondary educational institution that they will have the right to inspect and review certain of their educational records and, by following the guidelines provided by the university, to correct inaccurate or misleading data through informal or formal hearings. It protects students’ rights to privacy by limiting transfer of these records without their consent, except in specific circumstances. Students also have the right to file complaints with the Family Policy Compliance Office; U.S. Department of Education; 440 Maryland Avenue S.W.; Washington, D.C. 20202-4605. Information concerning this legislation is available via the web at www.ed.gov and from the Lee University Office of Records. A statement of Lee University policy relating to the maintenance of student records is also available on request from the Office of Records or online at www.leeuniversity.edu.

Lee University also complies with the Americans with Disabilities Act.

**Transfer Agreements with Other Institutions**

Lee University has entered into transfer articulation agreements with the following institutions and organizations: Cleveland State Community College (TN), Chattanooga State Community College (TN), Church of God School of Ministry (TN), SIAS University (China), and The National Academy Foundation (NY). Students planning to transfer to Lee University from these institutions should contact the Director of Academic Services for details about course equivalencies.

Lee University has also entered into collaborative study agreements with The University of Strasbourg (France), Tokyo Christian University (Japan), and other institutions and organizations associated with the Council of Christian Colleges and Universities (CCCU). Further information concerning collaborative study agreements is available from the Office of Special Academic Projects or the Office of Academic Services.

**Non-Degree Seeking Student Admission**

Under certain circumstances an applicant over twenty-one years of age and not qualified for admission may be admitted as a special student by permission of the Vice President for Enrollment.

### Requirements of ANTH-200 Global Perspectives Seminar

- Students will be required to complete 10 clock hours of service for each non-summer semester they are enrolled at Lee University.
- Students will be required to complete the Global Perspectives Seminar and either GNST-251/2/3 (a study abroad experience offered through Lee) or GNST-250 (an individually arranged and approved experience).

Undergraduate Tuition & Fees

Estimated Average Cost Per Semester
(excluding personal expenses, books, and special fees for certain programs)

| Full-time Students with Room and Board | $9,785 |
| Full-time Students without Room and Board | $6,635 |

Itemized Expenses Per Semester
(for full-time students who are taking 12-17 hours)

- Tuition (for full-time students who are taking 12-17 hours) $6,360
- This does not include Student Services fee, student teaching, private music fees, or certain other special fees.
- Student Services Fee (required, per semester) $275
- Each semester hour under 12 hours & over 17 hours $530

The above charges do not include BOOKS and SUPPLIES which are sold in the Lee University Bookstore. Students must be prepared to pay for books and supplies with cash, check or a major credit card. Books and supplies will not be charged to student accounts (unless the student is eligible for a book voucher).

Book Vouchers
Students will receive a book voucher only when their financial aid exceeds the amount of their school bill. If a student qualifies for a book voucher, the student will be able to go to the bookstore and use his or her Lee ID to purchase textbooks after he or she completes registration. (Non-textbook purchases may not be paid for with a book voucher.)

Charges for textbooks purchased will be applied to the student’s account at the time of purchase. Questions regarding book vouchers should be directed to the Student Financial Services Office.

NOTE: Students are not required to use book vouchers to purchase textbooks.

Freshmen and sophomores are required to live on-campus. Local freshmen and sophomores who wish to live off campus must live with an immediate relative (not including siblings). An Off-Campus Application must be submitted to the Office of Residential Life and Housing. Students with under 30 cumulative credit hours and are 20 years of age or younger are required to participate in a university meal plan. If a student does not select a meal plan the default meal plan of 21 meals per week will be selected for the student’s use. Charges will be applied accordingly.
Possible exemptions of a meal plan are made only to those who have a specific medical condition that would not permit them to eat at any food service location on campus. To be considered for exemption, a signed physician’s medical note is required, as well as a signed letter from the management of the University’s food service, stating that the food requirements for the student cannot be met.

Summer School Fees
The cost of attending Lee University during summer 2012 is:
- Tuition (per hour): $506
- Registration Fee (per term): $25
- Room (per term): $250

Music Fees
See previous section on Music Fees (Super Session only)

Discounts
In those cases where more than one member of an immediate household is registered full time (at least 12 hours), a 25% discount on the lesser tuition is permitted for each additional student after the first. Please notify the Student Financial Services Office at the beginning of each semester in order to be assured of receiving the discount. This policy does not include married children or students considered independent for financial aid purposes.

Settlement of Accounts
Students should be prepared to pay full semester charges on or before registration. Money may be submitted in advance to the Student Financial...
Services Office. This payment will facilitate registration. On-campus students are required to pay $4,892 and part-time or off-campus students are required to pay fifty percent down on or before registration according to the deferred payment plan. Students who are unable to pay their accounts in full must either borrow the necessary funds or enroll in the university’s deferred payment plan. Parents and students who will have difficulty paying the full charges within the semester are encouraged to make advance arrangements for borrowing the needed funds. The university also offers Visa, MasterCard, Discover and American Express services by which students may pay on their accounts.

Deferred Payment Plan
Any full-time, on-campus student desiring to participate in the university’s deferred payment plan is required to pay $4,892 down at registration and the balance of the semester charges in two equal payments on the dates mentioned below. Any part-time student or off-campus student desiring to participate in the deferred payment plan is required to pay fifty percent of the total charges at registration and the balance of semester charges in two equal monthly payments on the dates mentioned below. The same financial requirements apply to veterans and others in cases when money is not sent directly to Lee University. In all cases, when the student does not have the down payment, a commitment letter is required from those underwriting the student’s account. Students enrolling in the deferred payment plan will be charged a $85 fee for this service. This fee will apply to all students owing a balance in excess of $500 at the completion of registration.

Fall Semester
Full-time, on-campus students must pay $4,892 at registration; off-campus and part-time students must pay fifty percent of their total charges. The balance must be paid as follows:

- First payment by September 30
- Final payment by October 31

Spring Semester
The same down payment ($4,892) is required at registration. (Off-campus and part-time students must pay fifty percent of their total charges.) The balance must be paid as follows:

- First payment by February 28
- Final payment by March 31

A bill will be sent to the student’s permanent address (unless otherwise indicated) each month. However, the student is still responsible for timely payments, even if a bill is not received. If payment is not made on the due date, a $25 late fee will be assessed.

Deferred Payment Plan for Summer School
Ordinarily students are required to pay the full charges for all terms at registration. However, those unable to pay the full amount may defer up to 50% of the charges for a maximum of 30 days. Students delaying registration. Students enrolling in the deferred payment plan will be charged a $85 fee for this service. This fee will apply to all students owing a balance in excess of $500 at the completion of registration.

Refund Policy
No reduction of charges will be granted unless application is made within two weeks of any change in program or departure of the student. STUDENTS WHO WITHDRAW FROM THE UNIVERSITY AFTER THE FIFTH WEEK OF CLASSES WILL RECEIVE NO ADJUSTMENT ON TUITION, FEES, AND ROOM. Those whose study is interrupted by the university for discipline reasons will receive no adjustment on tuition, fees, and room after the fifth week of classes. When a student withdraws from the university or moves out of on-campus housing, his or her ROOM CHARGES WILL BE ADJUSTED ON THE SAME SCHEDULE AS TUITION AND FEES. Board charges will be prorated from the date of withdrawal. If a student withdraws during a semester and requests a refund of advanced payments, the following rules will determine the amount of adjustment, provided the student withdraws formally through the Office of Student Life.

1. Tuition, fees, and room, with the exception of matriculation and registration fees, will be adjusted on the following percentages:

   - During first two weeks of semester: 80%
   - During third week of semester: 60%
   - During fourth week of semester: 40%
   - During fifth week of semester: 20%
   - After fifth week of semester: No Adjustment

2. Board will be adjusted by the full amount unused at the date of withdrawal.

3. NO REFUND ON MATRICULATION FEE, REGISTRATION FEE OR LATE REGISTRATION FEE.

4. No person who registers as a full-time student and is later permitted to drop enough courses to place him/her in the classification of a part-time student will be entitled to an adjustment or prorated tuition after the fifth week.

5. Mandatory refunds and repayments to Federal Title IV student financial aid programs will be calculated based upon earned and unearned aid percentages as outlined by the Federal Government. The formula for such calculations is based on the number of days in a given semester and the number of days attendance completed by the student prior to his/her withdrawal. Refunds mandated by the calculation could possibly increase the amount a student must pay after he/she withdraws from school. Please refer to “Return of Federal Title IV Financial Aid Policy” in the Undergrad Financial Aid section.

Refund Policy for Summer School
1. Withdrawals during the first week of classes will receive 50% credit on tuition and room. THERE IS NO REFUND AFTER THE FIRST WEEK.
2. There is no refund for Registration Fee or Late Registration Fee.
3. If you register for both terms and withdraw prior to the beginning of the second term, you will receive full refund for the second term.

Accounts Must be Paid Prior to Final Examinations
Written commitments for aid from Lee University or other sources are the only substitutes for the required down payment. Therefore, students should assume responsibility for applying for aid in advance and for seeing that the proper letters or cash arrive at the Student Financial Services Office by registration day.

While we recognize the problems involved in increasing costs to the stu-
dent, education with a Christian emphasis is the greatest personal investment available today. The university will assist students in every way possible to finance their education. If you need financial assistance, please check with our Office of Student Financial Aid.

Accounts with the school must be settled in full before a diploma or a transcript of credits is issued or a letter of honorable dismissal is granted. ACCOUNTS MUST BE PAID BEFORE FINAL EXAMINATIONS ARE TAKEN. NO STUDENT WILL BE ALLOWED TO GRADUATE UNTIL HIS/HER ACCOUNT IS PAID IN FULL.

Undergraduate Financial Aid
Lee University offers a wide variety of financial aid to eligible students, including endowment scholarships, federal and state grants, loans, employment opportunities and private scholarships, as well as a combination of these programs. Since a large portion of Lee University’s resources for financial aid is tied to federal funding, it is required that eligibility or need be established as an initial step in applying for financial aid.

To determine need, the Free Application for Federal Student Aid (FAFSA) MUST BE FILED through the Federal Processor. This will allow a student to be considered for the range of financial aid options available through the Lee University Financial Aid Office. All information must be received by Lee University before March 15 to be included in the priority group. To expedite the process, file a FAFSA online.

Rights and Responsibilities of Financial Aid Recipients
Along with the monetary awards received by individual students, there are certain other rights and responsibilities to be observed:

1. Financial aid recipients must be enrolled at least half-time in a degree program. In certain cases, students who are less than half-time may be eligible for the Pell Grant.

2. Any changes in Federal Work-Study (FWS) placement (or number of hours awarded, etc.) MUST be cleared through the Financial Aid Office prior to changes taking place. Students must have all documents completed and submitted to the Financial Aid Office prior to beginning work. A completed contract, I-9 and W-4 are required prior to working.

3. All loan recipients must assume repayment responsibility upon leaving school. Prior to graduation (or withdrawal), an exit interview should be scheduled to ensure full understanding of loan terms and repayment provisions (including deferment options).

4. Financial aid recipients are expected to maintain satisfactory academic progress for continuation of aid.

5. Students anticipating funds from sources other than the Financial Aid Office should notify the office as soon as an award is made. This includes scholarships, loans, etc. Certain aid may be reduced if total aid exceeds the cost of attendance.

6. Students planning to withdraw or drop any course work must notify the Financial Aid Office prior to doing so. Students may be asked to repay part or all of any aid received.

7. Students must re-apply for financial aid each year by submitting the Free Application for Federal Student Aid (FAFSA). The annual re-applying priority deadline is March 15 for fall enrollment.

8. The Financial Aid Office will process financial aid requests without regard to race, religious affiliation, gender, age, or disability. All funds are subject to individual student need as well as to the availability of funds.

9. Financial aid recipients must maintain good standing within the university community. The Financial Aid Office reserves the right (on behalf of Lee University) to review and cancel any financial aid award in the event...
of academic, financial or disciplinary misconduct on the part of the recipient.

10. Students who have been on chapel probation for three or more consecutive months and are on chapel probation at the end of the semester will forfeit any university-funded scholarships for which they would have otherwise qualified during the following semester.

11. Students are only eligible to apply Lee University scholarships or tuition discounts toward a maximum of two Lee University off-campus study programs.

12. Off-campus study programs that are directly sponsored by Lee University and led by Lee University faculty are the only study programs eligible for institutionally-funded aid.

14. The Financial Aid Office should at all times have a local phone number and address at which students can be reached.

15. If family/individual situations change during the school year, the Financial Aid Office should be notified. You may qualify for special conditions revision.

Consumer Information
In accordance with the Higher Education Opportunity Act of 2008 (HEOA) consumer information is made available on the Lee University website.

Disbursement of Aid
Financial aid payments to student accounts will begin no earlier than the first day of class. Typically, funds are posted to the student’s account by an electronic means. Due to the volume at the beginning of each semester, it may take up to 2-3 weeks for initial payments or when the funds are released from their originating source. State grants typically arrive mid-semester. Some aid such as Employee Discount and Family Tuition Discount are paid after the fifth week of the semester.

Incomplete files may delay payment of funds. Students should be prepared to cover personal expenses until all aid is disbursed.

Home-Schooled Students
Under the student eligibility provisions of section 484(d)(3) of the Higher Education Act, a student who does not have a high school diploma or GED is eligible to receive Title IV, HEA program assistance if the student “completes a secondary school education in a home-school setting that is treated as a home-school or private school under State law.” Section 484(d)(3) imposes no age limitation on the eligibility of homeschooled students.

An “underage” home-schooled student is considered to be “beyond the age of compulsory school attendance in the State in which the institution is located,” if that State does not consider that student truant once he or she has completed a home-school program; or would not require the student to attend school or continue to be home-schooled.

Global Perspectives
Hours earned from participation in a Lee University sponsored study trip may be considered toward hours enrolled for purposes of applying for federal student financial aid.

Hours earned from participation in an individually Arranged Cross-Cultural trip can only be considered if the attending institution completes a Contractual Agreement. For more information, please see the Director of Financial Aid.

Professional Judgment
If you have any unusual family or financial circumstances you feel have not been reflected properly in the determination of your financial need, you are encouraged to contact us. These unusual circumstances may include one or more of the following: loss of job, change in income, divorce, death, and/or private elementary or secondary education costs. If you have additional educational costs that exceed the university’s published cost of attendance, such as child care, computer purchase, study abroad, or additional tuition charges, please contact the Financial Aid Office.

Federal Financial Aid Programs
You must submit the FAFSA application to be considered for these federal aid programs. The FAFSA can be submitted online at www.FAFSA.gov

Some aid programs are designated for particular types of students (i.e. undergraduate, graduate, professional) and level of federal need.

Students applying for early admission must meet early admissions standards in order to receive Federal Aid.

The basic eligibility requirements for federal aid are as follows:

* Demonstrate financial need (except for certain loans).
* Have a high school diploma, a General Education Development (GED) certificate or complete a high school education in a home school setting that is treated as such under state law.
* Be working toward a degree in an eligible program.
* Be a U.S. citizen or eligible noncitizen.
* Have a valid Social Security Number (unless you’re from the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau).
* Register with the Selective Service if required. You can use FAFSA to register, register online, or you can call 1-847-688-6888. (TTY users can call 1-847-688-2567.)
* Maintain satisfactory academic progress once in school.
* Certify that you are not in default on a federal student loan and do not owe money on a federal student grant.
* Certify that you will use federal student aid only for educational purposes.

Federal Pell Grant Program
This program, previously known as the Basic Educational Opportunity Grant, was established under the Higher Education Act of 1972 and was implemented during the 1973-1974 academic year.

IMPORTANT NOTE: The amount of the student’s award is based on the student’s eligibility index, the cost of attendance, and a payment schedule issued to Lee University from the U.S. Department of Education. The ap-
plicant must submit a Free Application for Federal Student Aid (FAFSA). This program is restricted to U.S. citizens, or those in the U.S. for other than temporary purposes, who are undergraduates maintaining satisfactory academic progress.

Federal Supplemental Educational Opportunity Grant Program
Grants ranging from $100 to $500 a year are awarded to students with exceptional financial need who for lack of financial means would not be able to attend college. Supplemental Grants are restricted to undergraduates. A FSEOG may be received through the period required for degree completion.

Federal Work-Study Program
This is a federal aid program administered by Lee University which provides part-time employment on campus for a limited number of students with demonstrated need. Some positions are available through the Community Service Learning Program. Each student worker is normally employed for 10 hours a week at the current minimum wage rate. Students are paid bi-monthly. A completed contract, I-9, and W-4 must be completed before starting work.

It is the responsibility of the student to secure a job on-campus. There is an on-campus listing to assist the student in finding a work study position.

Federal TEACH Grant/Loan Information
Teacher Education Assistance for College and Higher Education (TEACH) Grant
The Department of Education's TEACH Grant Program provides funds to postsecondary students who are completing or plan to complete coursework that is needed to begin a career in teaching, and who agree to serve for at least four years as a full-time, highly qualified teacher in a high-need field, in a school serving low-income students. Eligible full-time students may receive $4,000 per year in TEACH Grant funds, up to a maximum of $16,000 for undergraduate and post baccalaureate study, and $8,000 for graduate study.

If you receive a TEACH Grant but do not complete the required four years of teaching service within eight years after completing the coursework for which you received the grant, or if you otherwise do not meet the requirements of the TEACH Grant Program, all TEACH Grant funds that you received will be converted to a Federal Direct Unsubsidized Stafford Loan that you must repay in full, with interest, dating back to the original disbursement date, to the Department of Education. Once a TEACH Grant is converted to a loan, it cannot be converted back to a grant.

Federal Perkins Loan Program
Perkins Loans are available to students who are enrolled on at least a half-time basis (6 semester hours) and who demonstrate a financial need. Subject to the availability of funds, an eligible undergraduate may borrow up to $2,000 per academic year or a maximum of $15,000 in undergraduate studies. While the borrower is at least a half-time student, there is no repayment of the loan and no interest accrues. Repayment of the loan begins nine months after graduation or termination of studies. The interest rate is five percent on the unpaid balance. However, deferments extending the repayment period may be made for a member of the armed forces of the United States, a volunteer under the Peace Corps, a member of VISTA or a full-time law enforcement officer.

Federal Perkins Loan Entrance and Exit Counseling
Federal regulations require all students who participate in the Federal Perkins Loan program to complete Loan Entrance Counseling and Master Promissory Note upon acceptance of the loan. The Financial Aid Office will notify the student once the loan has been set up and the entrance is available on-line. Loan Exit Counseling is also necessary for students who have received the Federal Perkins Loan and drop below half-time enrollment status. An e-mail containing the necessary PIN number will be sent once the Financial Aid office receives notification that the student is no longer enrolled at least half-time.

Federal Direct Stafford Student Loan Program
To apply for a loan, you must complete the Free Application for Federal Student Aid (FAFSA). You also need to complete a Master Promissory Note and Loan Entrance Counseling if you are a first time borrower at Lee. The Master Promissory Note and Loan Entrance Counseling should be completed online. Repayment on the loan is made to the Department of Education and payments begin 6 months after the student graduates, leaves school, or drops below half time (Half time is 6 hours for undergraduate or 5 hours for graduate). The amount of repayments depends upon the size of the debt, but at least $600 per year must be paid. Deferment from repayment is granted for up to three years while a borrower serves in the Armed Forces, Peace Corps, VISTA or while enrolled full-time. Information and application forms are available online.

Federal Direct Stafford Subsidized Loan
The subsidized loan is a need-based loan. The maximum amount which may be borrowed per year is $3,500 for freshmen, $4,500 for sophomores, and $5,500 for juniors and seniors. The results of your FAFSA determine your eligibility for this loan.

The total amount which may be borrowed for undergraduate study is $23,000.

Federal Direct Stafford Unsubsidized Loan
A new federal law called the Higher Education Amendment of 1992 created a new program of Federal Unsubsidized Loans for students who do not qualify, in whole or in part, for Federal Subsidized Loans. The terms of the unsubsidized loan are the same as the terms for subsidized Federal Direct Loans, except that the federal government does not pay interest on
the student’s behalf. Monthly or quarterly interest payments may be made during the time of enrollment in school, during the grace period or during any period of deferment or repayment.

**Federal Direct Loan Borrowers Rights and Responsibilities**

Rights and responsibilities for Federal Loan Borrowers can be obtained with the consumer information, Student Loan Information, on the Lee University website.

**Federal Direct Stafford Loan Entrance Counseling**

Federal regulations require all students who participate in one of the Federal Student Loan programs to complete Loan Entrance Counseling. The purpose is to provide loan information to students who anticipate receiving a Federal Student Loan. All first-time borrowers at Lee University are required to complete Loan Entrance Counseling prior to receiving the first disbursement of their loan.

**Federal Direct Stafford Loan Exit Interview**

Federal regulations require all students who participate in one of the Student Loan programs to attend an Exit Interview conducted by the Financial Aid Office. The purpose of the Exit Interview is to review loan history and repayment terms with each student borrower. The Exit Interview is required for graduation and must be completed before a diploma will be issued. An online portion of the Exit Counseling must be completed as well as the meeting.

**Federal Direct Plus Loan Program**

The Federal PLUS Loan are loans parents can obtain to help pay the cost of education for their dependent undergraduate children. In addition, graduate and professional degree students may obtain PLUS Loans to help pay for their own education. Applications may be submitted online. Graduate students applying for the Federal Direct PLUS loan are required to complete and Entrance Counseling when applying. Exit Interviews are also required for graduate who borrow through this program. Additional information about this loan program can be found at the Federal Student Aid web page.

There is no penalty for paying a loan off early. You will save yourself interest.

Example:

-If you borrowed $20,000 in a Stafford loan with a fixed interest rate of 6.8% and are paying on the standard 10 year plan; minimum payments are $230 a month.

-If you only make the minimum payments, you will pay $7,619 in interest alone over the 10 year repayment period.

-If you pay over the minimum amount and paid $270 a month, you will have the loan paid off in 8 years and only pay $5,986 in interest; saving $1,633 in interest payments.

**Alternative Loans**

Sometimes federal student and parent loans are not enough to cover all educational expenses. For this reason, you may consider applying for a private, credit-based loan that may be used as a supplemental resource for paying college costs. Unlike Direct or PLUS loans, Alternative Loans require a separate application, credit check, multiple disclosures and a Self-Certification form. A co-signer may be required if you have less than two years of good credit history. By applying online you will know instantly if you are eligible or if you need a co-signer. A list of available lenders is provided, but you may apply directly with any lender that you choose.

**Return of Federal Title IV Financial Aid Policy**

The return of unearned Title IV aid is calculated by the Business Office. This calculation applies to any student who meets the following criteria:

1. The student completely withdraws (officially or unofficially) and
2. The student received Federal Title IV or state aid (Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Tennessee Student Assistance Award, Tennessee Hope Scholarship, Federal Direct Loan, Federal PLUS Loan, but not Federal Work-Study).

If a student withdraws, the university is required to calculate the amount of aid earned. Any unearned aid must be returned according to the provisions of the Higher Education Amendments of 1998. The withdrawal date is determined by the Office of Student Life for official withdrawals (see the Undergraduate Academic Section for the policy regarding withdrawing from the University). The withdrawal date for unofficial withdrawals is the last date of recorded attendance or the midpoint of the semester whichever is earlier. The calculation of the return of these funds may result in the student owing a balance to the university and/or the Federal/State Government.

The student will be responsible for any balance due on the account after Title IV funds have been returned.

The institution will be responsible for the return of unearned tuition and fees. To determine the institution’s responsibility, multiply the total amount of institutional charges for the semester by the percentage unearned. Compare this result with the amount of Title IV aid unearned, the lesser amount is the unearned Title IV aid which will be returned by the institution.

The student’s responsibility includes earned Title IV aid due to the lender and any tuition and fees due to the institution. If the student’s portion of unearned Title IV aid is a loan, the terms and conditions of the loan take care of the repayment. If the student’s portion of unearned Title IV aid is a federal grant, the student returns no more than 50 percent of the amount received for the semester.
Re-calculation Formula
* Percent earned is equal to the number of days completed up to the withdrawal date divided by the total number of days in the semester.
* The amount of Title IV aid earned is equal to the amount of aid disbursed plus the amount of aid that could have been disbursed times the percentage earned.
* Federal/State financial aid is returned to the federal/state government based on the percent of unearned aid using the following formula: Aid to be returned is equal to the amount of Title IV earned subtracted from Title IV aid disbursed.

* Returned aid is credited in the following order:
  o Federal Unsubsidized Direct Loans
  o Federal Subsidized Direct Loans
  o Federal Perkins Loan
  o Federal PLUS Loans
  o Federal Pell Grant
  o Federal Supplemental Educational Opportunity Grant
  o Other Title IV and State aid programs

Satisfactory Academic Progress Standards
All students who receive federal financial aid must be working toward an eligible degree from Lee University. In order to assure that students make progress the following requirements have been established. Lee University will utilize the following policy in determining federal financial aid eligibility. Progress will be evaluated at the end of the academic year or at the end of a term of Financial Aid Probation.

I. Definitions
   A. Academic year is fall, spring and summer.
   B. Attempted hours are defined as any course which appears on the transcript.
   C. Satisfactory grades are A, B, C and D.
   D. Unsatisfactory grades are W, F, or I.

II. Progress Standards
   A. Quantitative Standard: Both undergraduate and graduate students must satisfactorily complete 70% of all hours attempted.
   B. Qualitative Standard: Undergraduate students must maintain the following cumulative grade point averages to be considered making satisfactory progress.

<table>
<thead>
<tr>
<th>Total Hours Attempted</th>
<th>Minimum Required G.P.A.</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 – 29</td>
<td>1.5</td>
</tr>
<tr>
<td>30 – 59</td>
<td>1.7</td>
</tr>
<tr>
<td>60 – 89</td>
<td>1.9</td>
</tr>
<tr>
<td>90 – above</td>
<td>2.0</td>
</tr>
</tbody>
</table>

   Graduate students must maintain a minimum 3.0 grade point average which is the academic standard to remain in the graduate programs.
   C. Maximum hours: Any undergraduate student who has attempted 195 hours or more will not be making progress.
   D. 0.0 GPA within a term: Any student who receives all F’s, W’s or I’s in courses attempted in any semester (fall, spring or summer) will not be making progress.
   E. Transfer students: All transferable credits will be counted toward the maximum number of hours allowed to be eligible for financial aid. Satisfactory progress will be evaluated at the end of the first academic year attended at Lee University.
   F. Repeat, Remedial and ESL courses will be evaluated consistent with the academic standards of the University.

III. Review of Eligibility
Satisfactory academic progress is reviewed annually for all financial aid applicants to insure that they meet the required qualitative, quantitative, and maximum time frame standards as outlined in Section II. Progress will be evaluated at the end of the academic year or at the end of a term of probation. Applicants who do not meet these standards will be notified.

IV. Removal From Financial Aid
   A. A student who fails to meet any of the above standards of progress will be placed on Financial Aid Suspension.
   B. Removal from financial aid does not prevent the student from enrolling at Lee University if:
      -the student has an alternative method of payment and
      -if the student meets the academic requirements to re-enroll.

V. Appeals
Students placed on Financial Aid Suspension can appeal to the Financial Aid Office. Reasons that may be acceptable for the appeal are:

   -serious illness or accident on the part of the student;
   -death, accident or serious illness in the immediate family;
   -financial difficulties forcing incomplete and premature withdrawal;
   -other extenuating circumstances directly affecting academic performance.

The appeal must be submitted in writing and be accompanied by appropriate supporting documents. These will be reviewed weekly by the Financial Aid Satisfactory Academic Progress Committee. Students will be notified in writing of the Appeal Approval or Appeal Denial.

VI. Reinstatement of Financial Aid
   A. If an appeal is approved the student will be granted one semester of Financial Aid Probation. The student can continue to receive financial aid during this one semester of probation. During the term of
probation the student must enroll in a minimum of nine hours and pass all courses attempted with a minimum 2.0 semester G.P.A. to be considered making successful academic progress for subsequent review of financial aid eligibility.

B. A student who is removed from financial aid and/or whose appeal has been denied may be eligible to have his/her financial aid reinstated if he/she enrolls without financial aid in a minimum of nine hours one semester and passes all courses attempted with a minimum 2.0 semester G.P.A. It is the student’s responsibility to inform the Financial Aid Office if this requirement has been met.

State Financial Aid Programs

Tennessee Teaching Scholars Program
The Tennessee Teaching Scholars Program was established by the Tennessee General Assembly in 1995 to encourage exemplary students to enter the teaching force. Participation in this forgivable loan program is limited to college juniors, seniors and post-baccalaureate candidates admitted to a teacher education program in Tennessee. Recipients of the awards incur an obligation to teach one year in a Tennessee public school for each year the award is received or repay the loan with substantial interest. Applications are available online.

Tennessee Student Assistance Award (TSAA)
The Tennessee Student Assistance Corporation (TSAC) is a non-profit organization established by the Tennessee General Assembly to further post-secondary education opportunity for Tennessee residents. In administering the Tennessee Student Assistance Award, TSAC reviews all Tennessee resident applicants who are enrolled in an eligible post-secondary institution. The award for full time enrollment is $4,000. Students apply for the TSAA by completing the Free Application for Federal Student Aid. These funds are exhausted very early in the award process. Tennessee families with financial need are encouraged to submit the FAFSA by February 1st. Families may be required to use estimated tax information to meet this early application time frame. Following the submission of the FAFSA, TSAC will review the student’s application based on family need in the same manner as the Pell Grant.

Tennessee HOPE Scholarship
Tennessee residents who graduate from high school in 2012 are eligible to apply for a Hope Scholarship. The award amount is up to $2750 per semester for a four-year institution (not to exceed the cost of attendance). To receive the award, students must have been a Tennessee resident for at least one year prior to September 1, 2012.

Class of 2011 applicants should have one of the following:

- minimum ACT score of 21
- minimum SAT score of 980
- overall unweighted GPA of 3.0 or higher.

GED graduates must have a minimum GED score of 525. Home-school graduates without a GED must have a minimum ACT score of 21 or a minimum SAT score of 980.

Application is made with the submission of the Free Application for Federal Student Aid (FAFSA) by the priority deadline of September 1. For additional information, contact the Tennessee Student Assistance Corporation at 1-800-342-1663. Information on enrollment, continued eligibility, and appeal requirements for the HOPE scholarship can be found at the Lee Univeristy website.

Tennessee Minority Teaching Fellows Program
This award is for entering freshmen with a 2.5 high school GPA on a 4.0 scale. Recipients must score at least 18 on the ACT or 850 on the SAT or be in the top 25% of their high school class. Recipients must also agree to teach at a K - 12 level in a Tennessee public school one year for each year the award is received. The annual maximum award amount is $5,000 with a lifetime maximum of $20,000. The application deadline is May 15. For more information contact your high school guidance counselor or TSAC at 1-800-342-1663.

Other State Scholarship and Tuition Grant Programs

Many states now have scholarship or tuition grant programs. In most states, these scholarships or tuition grants may be used only for attendance at post-secondary educational institutions within the particular state. A few may be used for attendance at any school. To obtain the particulars of these programs, contact your high school counselor or state student assistance agency.

Recipients of this award must utilize the award in the same year of their graduation or receipt of their GED. Students must have achieved a 3.5 GPA on a 4.0 scale in high school or have an average GED score of 57 or higher. Students must also have at least a high school 3.0 average and be in the top quartile nationally (24 ACT; 1090 SAT) on the ACT or SAT. The $1,500 is renewable annually for a total of four years. The application deadline is April 1. Contact your high school guidance counselor or state agency for additional information.

Lee University Scholarships

Academic Scholarships

The Centennial, Presidential and Dean’s scholarships are awarded to first-time freshmen each year based upon ACT or SAT scores. Composite scores for scholarship consideration are taken only from a single test date, and tests must be taken on one of the published national test dates set by The College Board. Students who take the ACT residual test on campus are NOT eligible for academic scholarship consideration. Each academic scholar must maintain a full-time Lee University undergraduate class load of 12-17 semester hours each semester. Academic scholarships do NOT cover the cost of summer camps or Summer Honors. Students older than traditional high school graduates are eligible for academic scholarships if they are first time college attendees.

Institutional Scholarships (including academic scholarships and employee tuition discounts) can not be applied toward more than two Lee University off campus study programs during a student’s enrollment at Lee.

Centennial Scholarship is awarded to any student who has graduated from an approved high school and who scores 31-36 on the ACT or 1400-1600 (Math and Critical Reasoning only) composite score on the SAT. Those students who qualify must carry more than 11 credit hours per sem-
coming to Lee for the first time beginning August 2010 from these targeted Asian countries: China, Japan, Korea, Taiwan, and Thailand. The recipient of the scholarship shall be a full-time undergraduate or graduate student in good standing, pursuing a degree from Lee University. All recipients will be selected by a committee on the basis of provisions listed herein; academic achievement, talent, or leadership experiences.

Scholarship Stipend
Each recipient will be awarded $7,000 per year or $3,500 per semester. Any remaining cost, including books, would be covered by the student. Summer classes are not covered by this program. The award will apply for fall and spring semesters only. The scholarship shall be identified as the Asian Pacific Scholarship. The number of awards shall be limited to ten total students for any given semester. Students receiving this award are limited to (8) semesters.

Selection
Applications received by December 1 and May 1 of each year would be considered for available scholarships. The selection of the scholarship recipients is wholly and strictly the responsibility of the Lee University Asian Pacific Scholarship selection committee.

Eligibility Requirements
In the selection of the scholarship recipients, major consideration will be given to the potential academic performance and talent or leadership ability of each applicant. This scholarship shall be awarded to a full-time undergraduate or graduate student enrolled in any academic program. First priority will be given to Asian students who are from the specific countries outlined above. Application deadline for the January semester is December 1 and May 1 for fall semesters. Two letters of recommendation are required for each applicant.

Students awarded must provide the following:

Completed admissions application form

Official records of previous academic work. Copies must be certified as true copies by an official of the educational institution. Official secondary school or preparatory school records. All transcripts must be translated into English.

A TOEFL (Test of English as a Foreign Language) score must be officially reported by the Education Testing Service if the applicant is from a non English-speaking country. Lee University’s institutional number is 1401.

All undergraduate applicants must submit an official American College Testing score (ACT) or SAT scores from the College Board.

A sponsor’s guarantee form and bank statement, documenting that there is sufficient financial resources for twelve months of study including travel expenses. This is a United States government regulation that is strictly enforced by Lee University.

A signed Estimate of Expenses form, which is provided in our international student packet, is also required.

Once accepted, Lee requires an advance deposit of $3,400 U.S. dollars to confirm the enrollment. The US Immigration I-20 form will be sent by international express mail after the deposit has been paid.

Cancellation Provisions
If a scholarship recipient withdraws from Lee University or fails to remain eligible for continuing his or her studies, eligibility for this scholarship becomes invalid.

Hicks Scholars Program
The Hicks Scholars Program honors the memory of the late B.L. Hicks. It has been funded by a gift from members of the Hicks family. Each year 14 one-year scholarships are awarded, granting $1,500 to a sophomore selected for the honor by the faculty of his/her academic discipline as directed by the department chair. These 14 winners are announced in April of each year. (Winners may not be Centennial Scholars or children of Lee faculty.)

Hicks Scholars will be expected to volunteer for a work assignment within the department for five hours each week under the supervision of the chair.

Hicks Scholars will be selected in the following areas:

- History
- Elementary Education
- English
- Psychology
- Sociology/Anthropology
- Business
- Communication
- Special Education
- Physical/Secondary Education
- Computer Information Systems
- World Languages
- Biology/Chemistry
- Mathematics
- Political Science

Leadership Scholarship Program
The Roberson Memorial Leadership Scholarship Program annually awards 25 scholarships of $2,000 each to applicants who have shown outstanding leadership ability in high school or college. Special consideration will be given to students who have demonstrated successful leadership, character and service in school activities, church ministry or community service programs. Inquiries or questions can be answered by the Admissions Office. Scholarship Applications and letters of recommendation should be submitted to the Office of Admissions by March 15.

Lettie Pate Whitehead Scholarship Program
The Lettie Pate Whitehead Scholarship Program awards 17 scholarships of $2,000 each. In accordance with the guidelines prescribed by the Lettie Pate Whitehead Foundation, scholarships will be awarded to women who reside in one of nine specified states - Georgia, North Carolina, South Carolina, Virginia, Louisiana, Mississippi, Alabama, Tennessee and Florida. Recipients will be chosen primarily on the basis of need, with consideration given to academic merit and character. The Scholarship Application must be submitted to the Office of Admissions by March 15.

Music Scholarships
Presser Undergraduate Scholar Award
The Presser Undergraduate Scholar Award is awarded annually to the School of Music’s most outstanding music major at the end of the student’s junior year for use in his/her senior year. The Presser Scholar
is selected by the music faculty whose choice shall be guided solely by consideration of excellence and merit. The student selected is identified by the music faculty and the decision communicated by the Dean of the School of Music to the Presser Foundation with a brief statement about the student. The award is granted for one year.

In addition, music scholarships are awarded to students demonstrating performance ability in applied music. Interested individuals should write to the Dean, School of Music, Lee University. Performance scholarships are also available from each of the performing ensembles. Contact music@leeuniversity.edu for more information.

Natural Sciences and Mathematics Scholarship

Phi Theta Kappa Scholarship
The Phi Theta Kappa Scholarship is a $4,000 scholarship for the first year, renewable up to one year, totaling $8,000. There is no deadline and no limit on the amounts of scholarships awarded. This scholarship cannot be combined with the John D. Nichols or Community College Graduate Scholarship, but it is possible to receive both the PTK and the Honors Scholarships. The Scholarship Application must be submitted to the Office of Admissions. Readmitting students and students who have attended another institution since completing their Associate’s Degree are not eligible for transfer scholarships.

Requirements:
- Associate’s Degree
- 3.5 Cumulative GPA
- Current Phi Theta Kappa Membership

State Alumni Chapter Scholarship Funds
State Alumni Chapter Endowed Scholarship funds are available from the following State Alumni Associations: Florida, Georgia (North), Georgia (South), Delmarva-D.C., Western North Carolina, South Carolina, Tennessee and Virginia. These State Alumni Scholarships have been endowed by each State Alumni Association. Selection of the scholarship recipients will be made by the Lee University Student Aid Committee from recommendations received from the State Alumni Associations. Application for these scholarships should be made through the respective state alumni chapters.

Tennessee Scholar Program
Selection will be based on academic merit, potential leadership and financial need. Scholarship recipients are chosen based upon the following criteria:

- Your scholarship eligibility is determined by your name appearing on the Certified TENNESSEE SCHOLAR list sent to Lee University by the Cleveland/Bradley Chamber of Commerce representative which verifies that you have completed all requirements

- Only applicants with an ACT composite score of 18 to 23 are eligible to apply. If you have a 24 composite or higher - you are already eligible for one of our other academic scholarships

- Applicants must have a minimum cumulative GPA of 2.5 (based on a 4.0 scale.)

Three scholarships of $2500 are awarded annually. Scholarship applications and letters of recommendation should be submitted to the Office of Admissions by March 15.

Transfer Scholarships
Community College Graduate Scholarship
This award is in the amount of $3,000 and is awarded for one academic year to transfer applicants who have been offered admission to Lee University, are graduates of a community college, have a minimum grade point average of 3.00 on a 4.0 scale and are enrolled for full-time (12 credits or more) study at Lee University. Applicants must transfer to Lee after graduation without attending another community college to be eligible and must not be a readmitting student. Final community college transcript with graduation date is required for scholarship eligibility. Applicants must be offered admission for fall or spring semester to qualify. Cannot be combined with the John D. Nichols Scholarship or Phi Theta Kappa. The Scholarship Application must be submitted to the Office of Admissions.

John D. Nichols Scholarship
This award is in the amount of $2,000 and is awarded for one academic year to transfer applicants who have been offered admission to Lee University, have completed 30 semester hours, are transferring from a two-year or four-year institution with a minimum grade point average of 3.00 on a 4.0 scale and are enrolled in full-time (12 credits or more) study at Lee University. To be eligible all final college transcripts with cumulative GPA are required. First-time freshman with dual enrolled hours and readmitting students are not eligible for the award. Applicants must be offered admission for fall or spring semester to qualify. Cannot be combined with the Community College Graduation Scholarship or Phi Theta Kappa. The Scholarship Application must be submitted to the Office of Admissions.

Community Scholarships

100 Black Men of Bradley County Scholarship
Lee University will offer a $1,000 annual, renewable scholarship to a male or female applicant of color. Applicants must be full-time students, Bradley
100 Black Men of Bradley County 2 + 2 Scholarship
The 2 + 2 Scholarship is a two-year full-tuition scholarship less any federal or state grants the student is eligible to receive. Applicants must be graduates of Cleveland State Community College, full-time students, and maintain a minimum 2.5 GPA. Recipients must apply for federal aid by submitting the FAFSA to determine eligibility. Recommendations will be made by the 100 Black Men of Bradley County, Inc.

Bradley Initiative for Church and Community Scholarship
The BICC Scholarship is a two-year full-tuition scholarship for members of minority ethnic groups or to students pursuing the Intercultural Studies major. Primary consideration will be given to full-time juniors or seniors who have been residents of Bradley County for a minimum of one year and maintain a minimum 2.5 cumulative GPA. Applications are available at BICC; P.O. Box 5404; Cleveland, TN 37320.

Endowment Scholarships
Applicants must complete the Lee University Endowment Scholarship Application online prior to the March 15 priority deadline. Student may view a list and description of the Endowment Scholarships on the Lee University website. Recipients must be enrolled full-time and attending the main Cleveland campus with a minimum 2.5 cumulative GPA. Students receiving full-tuition discounts are not eligible for endowed scholarships. The Lee University Student Aid Committee is wholly responsible for the selection of the endowment scholarship recipients. In this selection, academic and leadership qualities are considered, but the major consideration is given to financial need. Students may receive only one endowed scholarship per academic year. Scholarships will be discontinued any time a recipient withdraws from Lee University or fails to meet requirements regarding academic progress or chapel probation.

Institutional Loan Programs

Winters Foundation Revolving Fund Program
Due to an initial contribution from Dan and Mary Nell Winters, Lee University established a Winters Foundation Loan Program. Any enrolled student with bona fide need may apply for a short-term 90-day loan. A graduated service charge of $10 for $200, $15 for $300, and $20 for $400 is applied.

Collection Procedures Due Diligence
Program Statement of Purpose: Lee University is genuinely concerned that the students of this institution have accessible to them an appropriate short-term loan program. It is a requirement of the Lee University institution to establish active procedures insuring the repayment of temporarily lent funds. As good stewards, efficiency and due diligence are essential to quality institutional programs, utilizing the Due Diligence Program of Collections as outlined by the National Association of Secondary School Financial Aid Administrators and the National Association of College and University Business Officers. The collection procedure will be administered systematically, uniformly, and with empathy and compassion. Individual cases that warrant extraordinary actions of deference will be reviewed with Christian care.

Veteran Educational Benefits
Lee University has been approved by the Tennessee Higher Education Commission each year to be able to certify eligible veterans and dependents for educational benefits. Each student who thinks that he/she is eligible for veterans’ educational benefits can call 1-800-827-1000 for current VA information. This number is available from any location in the United States and will connect the caller to the nearest regional office. For more information, click here. Lee University’s Veteran Affairs is available to help eligible students through the process of obtaining Veterans Benefits.

Montgomery GI Bill (Chapter 30)
The Montgomery GI Bill, known as the MGIB, is a program of educational benefits for individuals who entered active duty for the first time after June 30, 1985, and who received an honorable discharge. Active duty includes full-time National Guard duty performed after November 29, 1988. To receive the maximum benefit, the participant generally must have served continuously for three years.

Montgomery GI Bill (Chapter 1606)
MGIB-SR (Montgomery GI Bill-Selected Reserve Educational Assistance Program, chapter 1606, of title 10, U.S. Code) is an educational benefits program. This program is for members of the Selected Reserve. The Selected Reserve includes the Army, Navy, Air Force, Marine Corps, Coast Guard, Army National Guard and Air National Guard. The reserve components decide who is eligible for the program.

Vocational Rehabilitation Assistance (Chapter 31)
Vocational Rehabilitation is a program of services for service members and veterans with service-connected physical or mental disabilities. Post-Vietnam Era Veterans’ Educational Assistance Program (Chapter 32)

Under VEAP, active duty personnel voluntarily participated in a plan for education or training in which their savings were administered and added to by federal government. Service persons were eligible to enroll in VEAP if they entered active duty for the first time between January 1, 1977 and June 30, 1985. Please visit or call 1-888-442-4551 for questions concerning eligibility and enrollment.

The Post-9/11 GI-Bill
Beginning August 1, 2009 the Post-9/11 GI Bill provides financial support for education and housing to individuals with at least 90 days of aggregate service on or after September 11, 2001, or individuals discharged with a service-connected disability after 30 days. The Post-9/11 GI Bill also offers some service members the opportunity to transfer their GI Bill to dependents. Approved training under the Post-9/11 GI Bill includes graduate and undergraduate degrees, and vocational/technical training.

This Post 9-11 GI Bill will pay eligible individuals:
· Tuition & fees directly to the school not to exceed the maximum in-state tuition & fees at a public Institution of Higher Learning.
· For more expensive tuition, a program exists which may help to reimburse the difference. This program is called the “Yellow Ribbon Program”.
· A monthly housing allowance based on the Basic Allowance for Housing for an E-5 with dependents at the location of the school.
· An annual books & supplies stipend up to $1,000 paid proportionately based on enrollment.
Yellow Ribbon Program (Chapter 33)
The Yellow Ribbon G. I. Education Enhancement Program covers situations where an institution’s tuition and fees exceed the maximum public in-state amount. Under this program, the federal government will match dollar-for-dollar any institutional contributions made to help eligible veterans cover any tuition and fee costs in excess of the maximum in-state public college tuition amount.

Only veterans who are eligible to receive 100% of the benefit rate provided under the bill many participate in the Yellow Ribbon program. To be eligible for 100% of the benefits, an individual must have served at least 3 years on active duty in the Armed Forces beginning on or after September 11, 2001, or have served at least 30 continuous days and been released for a service-connected disability. For further information please contact the Assistant Vice President for Enrollment.

Dependents’ Educational Assistance Program (Chapter 35)
This program provides education and training opportunities to eligible dependents of certain veterans. Students who want to check to see if they are eligible under this program should get a copy of the veteran’s service dates and the VA file number and then call the regional office.

Home-Schooled Students
Under the student eligibility provisions of section 484(d)(3) of the Higher Education Act, a student who does not have a high school diploma or GED is eligible to receive Title IV, HEA program assistance if the student “completes a secondary school education in a home-school setting that is treated as a home-school or private school under State law.” Section 484(d)(3) imposes no age limitation on the eligibility of homeschooled students.

An “underage” home-schooled student is considered to be “beyond the age of compulsory school attendance in the State in which the institution is located,” if that State does not consider that student truant once he or she has completed a home-school program; or would not require the student to attend school or continue to be home-schooled.

Undergraduate Studies Policies and Procedure

General Curricular Information

General Education Core
The Lee University General Education Core has been designed to prepare Lee graduates to take their place in a rapidly changing world which is both technologically complex and culturally diverse. Lee has developed a program which is intended to ground students in their faith and help them discover their calling while introducing them to the interrelatedness of the humanities, the complexity of contemporary society, the wonder of the natural world, and the diversity of culture.

Major Requirements
By the beginning of the junior year, each student should select one subject area as his or her major field of study (sometimes called the specialty area) and will complete no fewer than 36 semester hours of his/her major area requirement. A minimum cumulative average of "C" (2.0) must be maintained in the major area (2.5 in teacher education programs). Each transfer student must earn at least 6 semester hours in his/her major area while in residence at Lee University; Business majors must earn 15 hours at Lee University, 6 at the upper level. Students desiring to apply transfer work or work done through correspondence or continuing education to a major program must file an academic petition through the office of the dean of the school in which the major is offered.

Special Minors

Asian Studies Minor
A minor in Asian Studies enhances the education of students in business, science and the liberal arts, especially those students working on a major in business. Not only does this minor teach students more about histories, cultures, languages, and societies throughout the Asian region that continue to grow in influence and significance, but it prepares students to work and live in various Asian countries. The minor itself requires an interdisciplinary approach to the study of Asia, providing a broad understanding of the complexity of the region while respecting the uniqueness of each country and its culture.

* It is highly recommended that students holding a minor in Asian Studies engage in a study abroad experience in an Asian country either as a member of one of the Lee University sponsored trips or by an individually arranged trip.

Latin American Studies Minor
A minor in Latin American Studies enhances the education of students in business, science, and the liberal arts. Not only does this minor teach students more about history, culture, language and society throughout a very important region of the world, Latin America, it will prepare students to work and live in the countries of a region that continues to increase in importance. The minor itself requires an interdisciplinary approach to the study of Latin America, providing a broad understanding of the complexity of the region.

Minors
A minor consists of a minimum of 18 hours in one discipline and is used to complement the student’s major. Every student graduating from Lee University completes a minor in religion, but most majors allow enough flexibility for students to select a second minor. For specific minor requirements, check the listing in the appropriate department. The university offers the following minors:

College of Arts and Sciences

Behavioral and Social Sciences: anthropology, counseling, health care administration, social work, psychology, sociology

Business: accounting, business administration, computer information systems, finance, international business

Communication Arts: advertising, communication, journalism, public relations, telecommunications and theatre

History, Political Science, and Humanities: art, history, humanities, political science

Electives
Subject to approval of the faculty advisor and to regulations requiring a minimum of 130 semester hours for graduation, remaining hours and courses needed for graduation may be selected from any in the Lee University catalog for which the student is qualified to register.

Undergraduate Academic Policies and Procedure

Academic Fresh Start
This policy allows Lee University degree-seeking students who have experienced academic difficulty to make a fresh start and have one final opportunity to earn a bachelor’s degree. This option benefits those students who early in their college careers failed to perform satisfactorily. The student must not have been enrolled in Lee University or any other post-secondary institution for a period of three consecutive years immediately prior to readmission, and must have had a cumulative GPA of below 2.0 prior to the three years’ absence.

Students who meet the above criteria may obtain further information regarding eligibility and application procedures for Academic Fresh Start from their faculty advisor or by contacting the Office of Academic Services.
Academic Probation
To graduate from Lee University a student must have a minimum cumulative grade point average of 2.0, as well as a 2.0 (or higher if specified) in the major. In order to continue in residence at Lee, students must earn a minimum grade point average in accordance with the following scale of attempted hours:

<table>
<thead>
<tr>
<th>Hours attempted</th>
<th>Grade Point Average Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-29</td>
<td>1.5</td>
</tr>
<tr>
<td>30-59</td>
<td>1.7</td>
</tr>
<tr>
<td>60-89</td>
<td>1.9</td>
</tr>
<tr>
<td>90-130</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Any student failing to achieve this average will be placed on academic probation. This probation may be removed during the next semester by bringing the GPA up to the required standard. Students who achieve the required cumulative GPA for the hours attempted are considered to be in good standing. Those who fail to achieve the required average will be subject to the following action:

1. A student on academic probation is limited to 12-14 credit hours each semester.

2. All students on academic probation are reviewed by the Retention Committee. This committee will grant an extension to probation only when a student’s record demonstrates that such an extension would benefit the student in removing the probation and progressing toward graduation.

3. No student will be continued on probation more than two consecutive semesters, unless approved by the Retention Committee.

4. A student who has been authorized by the Retention Committee to continue on probation may be required to register for a specified class schedule which may include an Academic Success Implementation course.

Academic Standing
Academic standing is computed by dividing the total number of quality points by the total hours attempted by a student. Continuance and promotion from one academic classification to another is based on completion of the following number of hours:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Hours Attempted</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0-29</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30-59</td>
</tr>
<tr>
<td>Junior</td>
<td>60-89</td>
</tr>
<tr>
<td>Senior</td>
<td>90-130</td>
</tr>
</tbody>
</table>

Academic Suspension
A student will be subject to academic dismissal after it becomes evident to the Retention Committee that he/she lacks the necessary academic qualifications or discipline. Any student who is suspended for academic reasons is ineligible for readmission until after one full semester. The summer sessions are not considered a semester. Students who are suspended have the right to appeal for reentry if they believe there are valid extenuating circumstances responsible for their poor academic performance. Appeals must be put in writing and forwarded to the Chairman of the Retention Committee for review by the committee.

Division of Adult Learning (DAL)
The Lee University Division of Adult Learning (DAL) seeks to deliver high quality education for adult learners through a variety of formats. DAL programs are especially designed to facilitate academic ministerial training for those persons who otherwise cannot pursue a traditional resident college degree program. For more information, see the complete program description in this catalog.

Students pursuing traditional resident degrees at Lee University may participate in the Division of Adult Learning according to the following provisions:

1. Full-time traditional campus resident students may enroll in one DAL online course or one DAL on-campus course per semester, with the approval of their advisor.

2. Full-time traditional campus resident students may not be concurrently enrolled in independent study courses and traditional resident campus classroom studies.

3. All summer independent study courses must be completed by the date posted in the current Academic Calendar if the student is to be a full-time resident student in that fall semester.

4. All independent study courses applied to a major must be approved by the appropriate department chairperson.

5. The academic policy of the university requires that the last 33 hours be completed in residence at Lee University. Resident students in their last 33 hours may be granted special permission to take one DAL course; however, this is not common. To do this, a Petition for Exception to Academic Policy form must be approved by the student’s advisor, department chairperson and school dean.

Changing a Schedule (Add, Drop, Withdraw)
Adding or dropping courses and changing from credit to audit and audit to credit may be accomplished only during the 12-day registration (“add/drop”) period at the beginning of each term. Appropriate instructor and advisor signatures as communicated by the Records Office must be obtained on the Change of Schedule Form. The student must bring the completed Change of Schedule form to the Records Office within 48 hours of securing the appropriate signatures so that the computer record can be updated.

After the 12th day of registration (“add/drop”) period at the beginning of the term, the student may wish to withdraw from a class in order to avoid negatively impacting his/her GPA or to reduce a heavy academic course load. To withdraw from a class, the student must initiate this transaction with a Change of Schedule Form obtained from the Records Office. The form must be filled out in its entirety, signed and dated, and signed by his/her academic advisor. The student should return the form to the Office of Records for data entry within 48 hours of securing the appropriate signatures so that the computer record can be updated. The last day to withdraw from a course with a grade of “W” is published in the university academic calendar which can be found at www.leeuniversity.edu/academics. A student who never attends a class or stops attending a class for which he/she is officially registered will receive a grade of “F” in that course if established procedures for class withdrawal outlined above are not followed.

During Advance Class Selection (ACS) the student will build his/her schedule for the upcoming term using the online student information system. Following the face-to-face advising session with the academic
Auditing a Class
Any student who has been admitted may request to audit a class. Some classes may be excluded from auditing status by the department in which the class is taught. Students who wish to audit a class may do so at registration and pay the applicable fees. The audit fee is applicable regardless of the number of credit hours the student is currently enrolled in. Auditors must attend and participate in a minimum of sixty percent of the class sessions but are not responsible for exams and/or term papers. On the first day of class, the student must ask the instructor for permission to audit that class. If the request to audit is declined, the student must drop the audit class or change it to credit status, with a refund of the audit fee subject to the provisions of the university’s refund policy. Students who successfully complete the minimum audit requirements will receive a grade of “U” for the class. Should a student not meet the minimum requirements, the instructor will inform the Office of Records, which will purge the course from the student’s transcript with no refund of the audit fee. Any change in registration status (such as audit to credit or credit to audit) must be made by the last day to add a class (during the registration period at the beginning of each term).

Class Attendance
Regular attendance is essential to realize the purposes and objectives of the student’s academic program. Each student is responsible to the professor for class attendance and participation. Specific requirements for each course will be determined by the professor and outlined in the course syllabus during the first full week of each semester.

Each professor has the prerogative of developing his/her own attendance policy. The professor may develop a system by which grade reduction can be made, not to exceed one letter grade per semester based on absence alone. Faculty members are encouraged to report cases of excessive absences (defined as two weeks of class or more) to the dean of the college/school within which the course is taught. The dean will then meet with the student and/or faculty member to determine an appropriate course of action. Possible courses of action include but are not limited to the following: a request that the student withdraw from the course, a request that the student make up work that was missed with permission of the faculty member; a request that the student demonstrate an intent to attend regularly for the remainder of the semester; or, in extreme situations, a request to the Deans Council and Vice President for Academic Affairs that the student be brought before the council in order to determine the best course of action for his/her future.

Absences because of university-related events will be a part of the regular absence policy. For such events, it will be the student’s responsibility to contact the professor in case of such absence and to do whatever reasonable make-up work may be required to keep the student current with the class progress. Sponsors of university-related events should supply students with appropriate information to offer their professors well in advance of the event. This information should include the name of the sponsor, the name of the event, the day and time of the expected absence, and the name of the class/group participating in the event. Students should present this information to their professors/instructors and request any make-up work.

Faculty and students should be aware that there are several types of absences under consideration. First, there are university-related events. These include but are not limited to the following: athletic events; field trips; music ensemble traveling; drama traveling; public relations events for the university; and other ad hoc requests for student involvement by the president's office or a vice president's office. Professors are asked to consider these absences as a part of student and university responsibility and should therefore “excuse” the absence, requiring whatever make-up work is necessary. As noted above, students are responsible for contacting their professors and making up the work.

Second, there are personal events that may cause student absences. These may include the following: extended illnesses; hospitalization; death or emergency in the family. Students are responsible for contacting their professors (where feasible) and making up the work required. However, it is the prerogative of the individual professor to consider these absences and make up work in whatever way he/she thinks appropriate within the guidelines stated in the course syllabus.

In all cases of absences, students should take the initiative to contact their professors and discuss with them appropriate courses of action. If students feel they are being handled unfairly regarding absences, they should appeal their case to the dean in writing, with a copy presented to the professor involved. The dean will attempt to resolve the situation, but may also choose to appoint an independent board of appeal to settle the matter.

Confidentiality of Student Records
In accordance with the Family Educational Rights and Privacy Act of 1974, Lee University students have the right to review, inspect and challenge the accuracy of information kept in a cumulative file by the university unless the student waives the right. The law further ensures that records cannot be released except in emergency situations without the written consent of the student other than the following:

1. to all school officials within the educational institution who have legitimate educational interest;
2. to officials of other schools in which the student intends to enroll, upon condition that the student be notified of the transfer, receives a copy of the record if desired, and has an opportunity for a hearing to challenge the content of the record;
3. to authorized representatives of (1) the Comptroller General of the United States, (2) the Secretary of Education, (3) an administrative head of an educational agency or (4) state educational authorities;
4. in connection with an emergency or legal situation;
5. in connection with any publicly-announced honor such as the Dean’s List;

6. in cases of information classified as “directory information.” (See below for definition.)

If a student wishes to share confidential academic and financial information with their parent(s), s/he may share their computer login information so that parents may readily view this information online. In order for a parent to access their son’s or daughter’s confidential information by contacting university personnel, a signed release form must be completed by the student giving the parent permission to access this information and the parent must be able to provide several items of personally identifiable information to ensure the authenticity of the parent (legal guardian).

In order for a student to release his/her confidential academic record (grades, GPA, race, gender, religion, country of citizenship) or on-hold directory information to a third party, the student must specifically state the information to be released, the purpose of the disclosure, and to whom the information is being released. This documentation must also be signed and dated to ensure its validity. This form is available in the Office of Records. Requests to release confidential information will be maintained permanently in the student’s permanent file.

In order to provide the utmost protection of our Lee students, the University rarely shares “directory information.” Directory information contains but it not limited to: name, address, telephone listing, email address, dates of attendance, degrees and awards, date/place of birth, major field of study, athletic involvement, and the most recent previous educational institution attended by the student. If contacted by prospective employers, the University will assist students without a directory hold in obtaining employment by responding to employment background checks, especially from the U.S. Government. However, if the student has a directory hold in place or left Lee with a directory hold in place, that hold remains in effect until removed by the student, thus blocking release of any information to potential employers. An updated consent form submitted to the Office of Records will remove this hold.

It is highly recommended that a “directory hold” be placed on a student account only when there are security or safety issues. Once the threat is resolved, it is recommended that the student remove the directory hold. If the student does not wish academic information to parents or directory information to be released, the student should notify the Office of Records at any time during the semester to place a hold on this information.

Questions concerning this law and the university’s policy concerning release of academic information may be directed to Office of Records. If a student feels that his or her rights have been violated as it relates to the release of confidential information, the student may file a complaint of the alleged violations with the Department of Education no later than 180 days from the date one learned of the circumstances of the alleged violation. Complaints should be addressed to: Family Policy Compliance Office, US Department of Education, 400 Maryland Avenue SW, Washington DC 20202-5901.

Course Substitutions
Any substitutions for, changes in or exceptions to courses which are required for the granting of a degree from Lee University must be recommended by the department chair and approved by the dean of the college or school in which the course is offered.

Discrimination and Harassment
No person in whatever relation with Lee University shall be subject to discrimination because of race, color, national origin, age, sex, disability or other protected characteristics. Lee University is also committed to providing an environment free of harassment and/or hostility. The university maintains a strict policy prohibiting harassment because of race, color, sex, religion, disability, national origin, age, veterans’ status or other basis protected by law.

Final Examinations
A schedule for final semester examinations is prepared by the Vice President for Academic Affairs and is listed in the online schedule of classes each semester. Students and teachers must adhere to this schedule. No exams are to be given other than at the time designated in the published schedule.

Grades
Grades and quality points are assigned and recorded as follows:

(Withdrawal from a course or from the university; see explanation below)

Audit successfully completed; see explanation below

It is the instructor’s choice whether to use a straight letter-grading system or to incorporate plus/minus increments.

A grade of “I” indicates the student’s work is incomplete. The “I” grade becomes “F” if the work is not completed by the end of the following semester, unless a written extension has been approved by the Vice President of Academic Affairs. A grade of “F” is given only to students who encounter some personal difficulty such as a severe illness or an extreme family emergency near the end of the semester. The “I” grade is not given in order to allow students additional time to complete assignments.

A grade of “W” is assigned to a student who, for any reason, officially withdraws from the university or withdraws from a course at any time after the registration (add/drop) period. The “W” grade is given without academic penalty to the student. (See the section on “Changing a Schedule” for details regarding this process.)

A grade of “U” is given when a student successfully completes the minimum requirements for auditing a class. (See section on Auditing a Class for details regarding this process.)
A grade change must be requested in writing by the student and approved by the instructor. The instructor will submit a change of grade on the appropriate form. Grade changes must be made within one semester. All grades are distributed through the student’s online account and are available at the end of each term. Paper grade reports are available only when requested from the Office of Records. If this service is desired, the request must be renewed each term. Parents may request paper grade reports only if their child has signed a waiver granting permission to the university to release academic information to parents. To request a paper grade report, students may contact the Office of Records by email (records@leeuniversity.edu) or by phone (423-614-8200).

If a student wishes to share confidential academic and financial information with their parent(s), s/he must share their computer login information so that the parents may readily view this information online.

Proficiency Examinations
Students taking proficiency examinations will be required to present evidence that they have developed those abilities and aptitudes expected of students who have taken the course involved. When possible, this evidence should be in the form of recognized standardized tests and must be approved by the school dean and the Director of Academic Services. Upon passing the examination with a minimal grade of “B,” the student may be given credit toward graduation provided this does not duplicate credit accounted for admission to Lee University and the course is acceptable in his/her curriculum. Proficiency examinations may not be taken to repeat coursework or be used in lieu of “I” or “F” grades. In order to take a proficiency examination, the student must be enrolled for other courses and may take the proficiency test only once. Credit earned through proficiency and advanced placement shall be recorded with a grade of “P” and will not affect the student’s GPA. Students interested in proficiency credit should inquire with the respective department chairperson for the course.

Native speakers (those educated in target language countries) of Spanish, French, German or Chinese may not receive proficiency credit by examination for either 211 or 212. Native speakers may have their foreign language requirement waived by successfully completing both ENGL 105 or 106 and ENGL 110.

Native speakers who minor or major in Spanish or French must begin their coursework with any course numbered SPAN 310, FREN 213 or above. Additional upper-level courses must be taken to complete the required 36 hours in either major. Heritage speakers (those who learned Spanish or French in the United States, not formally educated in target language country) must pass both a writing exam and a speaking proficiency exam to receive proficiency credit for either 211 or 212. If passed, they begin their minor or major coursework with SPAN 310, FREN 213 or above.

Registration
Registration may be completed online or on campus. It is critical that students register during the stated registration periods at the beginning of each term. Students who fail to complete registration (including financial arrangements) by the first day of classes will be charged a late registration fee. Registration is not complete until the student has made arrangements for payment of the semester charges at the Student Financial Services and has signed the registration statement and promissory note. Until such settlement has been made, the student is not entitled to participate in any class or other activities at the university. At the end of the registration period, students who have failed to make financial arrangements will be de-registered (schedules will be purged).

First-time students will be required to meet with an academic advisor to plan their selection of courses before being allowed to register. For subsequent semesters, the student will meet with his/her academic advisor and register online to expedite the registration process. After completion of the first semester, the registration process includes a period of advance class selection (“pre-registration”) toward the end of each semester.

Change in credit status for any course (from audit to credit or from credit to audit) must be done by the last day to register.

Repeating a Course
A course can only be repeated twice. A course taken at another university and transferred onto the Lee transcript can be repeated if Lee offers an equivalent course. When a student elects to repeat a course, only the grade received for the repeat will be counted in the computation of the cumulative grade point average. This is true even if the second grade is lower than the first.

Required or Permitted Loads
The minimum academic load for classification as a full-time student is 12 semester hours. For a class load beyond 17 hours, there is an additional tuition charge and approval from the academic department is required. An overload of 18 hours requires the signature of the departmental chair; an overload of 19 hours requires the signature of the school dean. This approval is granted only on the basis of superior academic achievement. The maximum course load is 19 hours. The maximum course load for summer is seven hours per session.

To qualify for the Honor Scholarship for the sophomore year, a full-time undergraduate student must complete 30 hours the first year, including summer school, and must have at least a 3.70 GPA.

A student on academic probation will normally register for 12 hours. Probationary students cannot enroll for more than 14 hours without special permission from the Director of Academic Services.

International students must maintain a full-time load of at least 12 hours each semester unless (1) they have received prior approval for a part-time load or (2) it is their final semester and less than 12 hours are required to complete their graduation requirements. For further information, refer to the Office of Admissions for discussion of I-20 and SEVIS agreements. Athletes must maintain a full-time load in order to meet eligibility requirements. For further information, contact the Athletic Director.

Students participating in a traveling choir/ensemble must remain enrolled full-time for insurance coverage purposes.

Transcripts
A transcript of academic credits will be issued by the Office of Records upon written request of the student. Forms are available in the Office of Records or online at www.leeuniversity.edu (QuickLinks menu, “Request a Transcript”). The transcript will not be released unless the office has received the student’s signature granting permission to release his/her record. Further, no transcript will be furnished until all accounts have been satisfactorily settled. An official transcript will be sent to another institution or other authorized person or agency. Official transcripts cost $5 each.
Replacement Diploma
The University will replace a diploma if destroyed, damaged, lost, or stolen. No diploma will be replaced due to a personal name change since this would alter a historical document. A Lee College diploma will not be replaced with a Lee University diploma for the same reason.

The replacement diploma will maintain historical accuracy as much as possible. A Lee University diploma will be issued with current signatures (President, VP of Academic Affairs, Chairman of the Board of Directors) if the graduation date is after 1997. A Lee College diploma with current signatures will be issued if the graduation date was 1997 or before. A note will be added to the bottom of the replacement diploma indicating that it is a replacement for a diploma issued on (date).

Although Lee University is the “records keeper” for Northwest Bible College in Minot, ND, Lee is not able to fulfill requests to replace a diploma from Northwest Bible College. Lee does not have the authority to issue a replacement diploma from another school.

Withdrawing from the University
Students may withdraw from the university at any time beginning the first day of classes until the final day of classes for the semester. Withdrawals will not be processed after final exams have begun. Students who withdraw will be assigned the grade of “W” for all courses and will not be allowed to continue on the meal plan or remain in campus housing and should make arrangements to check-out of their on-campus housing within 24 hours upon withdrawal. Following is the withdrawal procedure:

1. The office of the Vice President for Administration is designated by the University as the office to process official withdrawals. Any student wishing to withdraw from all courses must notify this office. Students are required to present both his/her current University I.D. card and parking permit.

2. The Vice President for Administration must approve the withdrawal request. Upon approval, the appropriate offices will be notified.

3. Financial aid recipients should note that withdrawing from the University can affect eligibility for current and future aid. See the Undergraduate Tuition and Fees Refund section and the Undergraduate Financial Aid Satisfactory Academic Progress Policy respectively. Students who are recipients of federal student loans should complete required loan exit counseling. This can be completed online at www.leeuniversity.edu/financial-aid/programs/federal-programs.aspx or in the Financial Aid Office. Recipients of the Tennessee Hope Scholarship should go to the Financial Aid Office to complete the Tennessee Hope Enrollment Change Request Form to avoid loss of eligibility for future funding.

4. Student Financial Services will issue a final statement of the student’s account. See the Undergraduate Tuition and Fees section of this catalog for refund policy information.

Academic Integrity

Rationale
As a Christian community of scholarship, we at Lee University are committed to the principles of truth and honesty in the academic endeavor. As faculty and students in this Christian community, we are called to present our academic work as an honest reflection of our abilities; we do not need to defraud members of the community by presenting others’ work as our own. Therefore, academic dishonesty is handled with serious consequences for two fundamental reasons: it is stealing - taking something that is not ours; it is also lying - pretending to be something it is not. In a Christian community, such pretense is not only unnecessary, it is also harmful to the individual and community as a whole. Cheating should have no place at a campus where Christ is King because God desires us to be truthful with each other concerning our academic abilities. Only with a truthful presentation of our knowledge can there be an honest evaluation of our abilities. To such integrity, we as a Christian academic community are called.

Definitions
Students will not knowingly perform or assist others in performing acts of academic dishonesty. The following acts are those which we consider to be dishonest:

1. Plagiarism
Plagiarism is presenting as your own the words, ideas, opinions, theories, or thoughts which are not common knowledge. Students who present others’ words or ideas as their own without fair attribution (documentation), are guilty of plagiarizing. Unfair attribution includes, but is not limited to, a direct quotation of all or part of another’s words without appropriately identifying the source. It is also unfair attribution to have included a source within a Works Cited page without having carefully cited the source within the text of the document. Plagiarism also includes, but is not limited to, the following acts when performed without fair attribution:

   a. directly quoting all or part of another person’s words without quotation marks, as appropriate to the discipline.

   b. paraphrasing all or part of another person’s words without documentation.

   c. stating an idea, theory, or formula as your own when it actually originated with another person.

   d. purchasing (or receiving in any other manner) a term paper or other assignment, which is the work of another person, and submitting that work as if it were one’s own.

2. Unauthorized assistance
Giving or receiving assistance that has not been authorized by a faculty member in connection with any exam or academic work is academically dishonest. Students should assume that any assistance on exams, quizzes, lab work, etc., is unauthorized unless the faculty member involved in the exercise has approved it. Examples of prohibited actions include, but are not limited to, the following:

   a. copying or allowing others to copy answers to an exam.

   b. transmitting, receiving, or in some form obtaining information during an exam which would offer answers within the framework of the material being tested.

   c. giving or receiving answers to an exam scheduled for a later time.

   d. completing for others or allowing others to complete for one self, all or part of an assignment.
e. submitting as a group assignment work which was prepared by less than all of the members of that group. It is the responsibility of the student to inform an instructor of the lack of participation of one member of a group.

f. Unauthorized use of calculators or other electronic devices.

3. Lying/Tampering/Fabricating
Offering false information with regard to one’s performance in academic work is academically dishonest. Such activity includes, but is not limited to, the following:

a. giving false reasons for failure to complete an academic assignment.

b. falsifying the results of a laboratory talk or other data.

c. altering work after it has been submitted.

d. altering grades, lab work, or attendance records.

e. falsely signing another person as present when he/she is absent in a class.

f. submitting for academic advancement an assignment which has previously been submitted for academic advancement (unless so authorized by the faculty member supervising the work).

4. Theft
Stealing or otherwise taking in an unauthorized manner information which relates to academic work is academically dishonest. Such activities include, but are not limited to, the following:

a. removing from a professor’s office materials which would give a student an unfair advantage on an academic assignment.

b. procuring information from a professor’s computer hardware or software.

c. taking exams, grade records, forms used in grading, books, papers, or other materials related to grading or evaluation of academic performance.

d. stating an idea, theory, or formula as your own when it is actually originated with another person.

Procedures - Faculty Discretion
When any form of academic dishonesty occurs, the teacher has the authority of deciding how to deal with it. Faculty have the following options:

1. The faculty member may determine an appropriate course of action ranging from giving the student an F on the assignment or exam to awarding an F for the course.

2. If the faculty member wants additional input from colleagues, he/she may ask the department chair to convene a committee to discuss the situation. If the incident involves students in courses from other departments, the school dean may convene a committee including members of other departments faculties. The committee may then determine the penalty.

3. If the academic dishonesty is of the most serious nature, the committee may refer the case to the Dean’s Council. The Vice President for Academic Affairs may then determine the penalty or refer the case to the Judicial Council.

Student Appeal
If a student is accused of academic dishonesty, and he/she feels this judgment is in error, or the penalty is inappropriate, he/she may appeal to the department chair of the faculty member making the decision. If the committee determined the penalty, the student may appeal to the Vice President for Academic Affairs. If the Judicial Council determined the penalty, he/she may appeal through the Judicial Appeal Board.

Directed Studies

Purpose of a Directed Studies Program
Directed study should enrich the program of the above-average student by allowing him/her to pursue an area of specific interest. The opportunity to be involved in a directed study should foster initiative, resourcefulness and creativity.

Initiation of Directed Studies
A directed study should be generated by the interest of the student. A student should indicate to a faculty member his/her interest in doing a directed study in a specific area.

Requirements for participating in a Directed Study are as follows:

1. A student must have a minimum overall grade point average of 2.5.

2. He/she must have a minimum grade point average of 3.0 in his/her major field.

3. He/she must be at least a junior at the time he/she registers for the study.

4. Each student must be approved by a faculty member, his/her advisor, and the head of the department in which he/she wishes to conduct the study. A special form for this purpose may be obtained in the office of the school dean.

Supervision of the Study
1. The study will be conducted under the supervision of a committee consisting of the following members: a faculty member who will serve as a supervisor, the chairperson of the department in which the course is offered, and one other faculty person.

2. The number of directed studies supervised by any one faculty member will not exceed one per semester.

Restrictions
1. A student may take no more than three hours of directed studies during his/her junior year and no more than six hours during his/her senior year.
2. Directed studies may be conducted only in the major or minor field. Students acquiring teacher certification may conduct a study in either education or their field of emphasis.

3. A student may apply for and complete a directed study only during the regular registration period.

4. Courses offered by Center for Adult and Professional Studies may not be taken by directed study.

5. Students may not take a directed study for a course that is offered during the academic semester.

**Requirements of Study**

1. The student must meet with his/her committee regularly at times designated by the faculty supervisor.

2. The student must submit to each committee member a written presentation of the study.

**Grading**

The grading of the directed study will be a committee endeavor with the faculty supervisor making the final decision.

**Pre-Enrollment Programs**

**Theatre Camp**

The Lee University Theatre Camp is sponsored by the Department of Communication Arts. This event invites elementary, middle and high school students to the Lee University campus for intensive study in theatre. These camps involve two weeks of intensive training in the field of theatre and end with a performance showcasing their learned techniques.

High school juniors and seniors who participate may receive one hour elective credit to be applied to their transcripts when accepted to Lee as full-time students.

**Music Camp**

The Lee University Music Camp is sponsored by the School of Music. This event invites high school students to the Lee University campus for six days of intensive study in music. This camp provides: (1) clinics for improving individual skills in the area of performance; (2) ensemble experience for musicians; (3) applied instruction; (4) masterclass opportunities with music faculty members; (5) jazz studies opportunities, including jazz combo masterclass and performance; and (6) a variety of social activities. High school juniors or seniors who participate in this may receive one hour elective credit to be applied to their transcripts when accepted to Lee as full-time students. (A student may only receive one lifetime credit for Music Camp.)

**Summer Honors**

Summer Honors is a two-week program of intensive study in June on the Lee University campus that affords rising and graduating high school seniors the opportunity to earn six hours of college elective credit before enrolling in college. Participants will experience a first-rate academic challenge while living in a university residence hall, getting acquainted with professors and fellow students, and enjoying extracurricular activities. Applicants must have a minimum designated GPA and ACT or SAT score.
Undergraduate Academic Resources

Academic Advising
Academic advising is one of the many ways in which students engage with faculty on an individual basis. After completing registration, each student is assigned a faculty advisor in his/her major area of interest. The faculty advisor and student work together to craft a unique and individual academic plan based on the student’s strengths and calling. Students who have not declared a major are assigned to a faculty advisor who is specially trained to work with students who are still exploring their strengths and calling.

Lee University hopes the advising relationship will be an ongoing ‘conversation’ that goes beyond mere course selection and will enable the student to explore the breadth of the liberal arts curriculum, focus on the major concentration, and prepare for life after Lee.

The academic advisor is a mentor and a guide. Students have to right to expect accurate information (to the best of his/her knowledge) from their faculty advisors. Advisors have the right to expect that their advisees will take ownership of their academic progress and accept the consequences of their academic decisions.

For questions about the advising process or to request reassignment to a new advisor, contact the Office of Academic Services.

Academic Support
The Academic Support Program (ASP) acts as a liaison between students with disabilities and the Lee University academic community. In compliance with Section 504 of the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act (ADA) of 1990, the ASP works to ensure that students with disabilities, (physical, sensory, learning, and/or emotional), have equal access to educational opportunities. The ASP also provides information on issues of accessibility and reasonable accommodations. These services give students with disabilities equal access to academic programs. With the exception of one building, all buildings on campus are accessible for students with physical challenges. If a student with a physical disability takes a class in an inaccessible building, the class is moved to an accessible one immediately. In addition to serving students who are permanently disabled, the ASP also serves students who have temporary disabilities. The ASP also provides free on campus academic tutoring to all Lee students. Although some advanced classes may not have a tutor available, core courses have lab tutoring, small group tutoring, and/or one-on-one tutoring for no charge. Additionally, ASP provides free mentoring for students who need extra support socially.

Students with Disabilities
Lee University is committed to the provision of reasonable accommodations for students with disabilities, as defined in Section 504 of the Rehabilitation Act of 1973. Students who think they may qualify for these accommodations should contact the Office of Academic Support to set up accommodations.

Tutorial Program
Tutors are provided free of charge for any student who is having difficulty with a class and requests help. Tutors are recommended by faculty members, and are trained and carefully supervised as they deliver services. All tutorial services are monitored and evaluated for effectiveness.

Writing Center
The mission of the Lee University Writing Center is to help students improve as writers. Trained peer writing tutors are available to help students across disciplines with any writing assignment at any stage of the writing process, from brainstorming and drafting to revision and final editing. Individual appointments generally last 45 minutes. Students can make an appointment through the online scheduler, which can be accessed through the “University Services” menu on Portico. The writing center is located in the Vest Building on the second floor.

Center for Calling and Career
The Center provides resources for students, faculty and staff to examine their strengths and discover a clearer sense of calling by understanding who they are as God’s “work of art.” The Center uses a strengths based approach to advising that allows time for students to enter into dialogue with a Strengths/Vocational advisor to discuss their strengths themes, what they enjoy, what they do best and what they believe they are called to do with their life. Students also come to the Center to declare or change their academic program.

Several career-related assessments and job search resources are available for students to access online. LeeCareerCentral provides an online Job Board, listing local part-time and full-time openings. Students may come to the Center for individual career counseling, and for resume and job interview preparation.

Computer Labs
Lee University provides over 450 open use computers in four academic buildings and several dorms as well as a few computers in the lobby areas of the Humanities Center. Academic computer labs are outfitted with state-of-the-art Gateway computers, complete with Windows XP Professional, Microsoft Office and provide access to the Internet. Some of the computers in the labs have development, web design, Flash and Adobe photo-shop applications installed on them for student use. Additionally, the student technology fee includes 300 free print pages from the high-quality laser printers in the labs. Aside from scheduled times when classes meet in select labs, campus computer labs are open to all students. Staff members from Information Services & Technology are available throughout the day to help with technical questions. Students can also call the Help Desk at extension 8027.

First-Year Experience
Lee University provides a comprehensive program designed to assist first-year students in adjusting to university life. The Office of First-Year Programs seeks to assist all incoming freshmen and transfers of Lee University in their first year college experience.

* All new students entering Lee University participate in New Student Orientation. This orientation is dedicated to helping freshmen and transfer students become acclimated to Lee University through sessions with administrators from different areas on campus. The Office of First-Year Programs coordinates the efforts of these sectors within the institution to insure that students start on the right track during their first few days at Lee. Instructors and Peer Leaders of the freshman seminar class (GNST-101) serve as guides for students and parents during the orientation process. Events include, special sessions for parents, freshmen, and transfer students as well as a special Service of Dedication.

* Lee University requires that all incoming freshmen enroll in a freshman seminar called “Gateway to University Success” or GNST-101. This special course embodies and expresses the central goals and purposes of the first-year experience. It introduces essential academic skills such as critical thinking, and helps students began to develop a Christian worldview. GNST-101 is taught by an “all-star” team of faculty and administrators under the leadership of the Director of First-Year Programs. This class allows students to meet different professors on campus as well as create lasting friendships with upperclassmen (Peer Leaders) who guide freshmen through their first semester. The Office of First-Year Programs is in charge of recruiting and training these Peer Leaders to act as guides and mentors to the incoming freshmen.

Library
Regular Library hours:

Monday - Thursday 8:00 a.m. - midnight
Friday 8:00 a.m. - 8:00 p.m.
Saturday 11:00 a.m. - 8:00 p.m.
Sunday 2:00 p.m. - 8:00 p.m.

See library's website ( http://library.leeuniversity.edu) for variation in hours.

The William G. Squires Library endeavors to be “a vital and dynamic facet of the educational experience at Lee University.” It is a place of activity, collaboration and study, and it is dedicated to the active dissemination of information through service, teaching, research and learning.

Library personnel are committed to providing Lee students access to information sources to help them become successful in their academic research. The library faculty and staff consists of individuals who are experts at locating the most significant sources and are eager to teach students how to locate and select information effectively. They provide instruction individually and in classes. They work closely with classroom faculty to secure books, journal articles and other information resources required for courses. In addition, Squires Library provides students access to borrow resources from other library collections.

Squires Library offers seating for about 250 with a mixture of casual seating, individual study carrels and group study tables, as well as quiet study areas, group study rooms and a chapel. Including The LINK (a computer lab with 32 public computers), the library has about 65 computers students may use to conduct research, write papers, browse the internet and send email. Students may check out headphones and laptop computers for use in the library as well.

The library contains about 150,000 print volumes and subscribes to over 400 periodicals in print. Additionally, the library provides access to 32,000 online journals and almost 110,000 electronic books available through subscriptions to numerous academic databases and e-book collections. Subscriptions to some casual reading magazines and current newspapers are provided also.

An added feature of the building is the Dixon Pentecostal Research Center, which serves as the official archives of the Church of God and houses a large special collection of materials pertaining to the many aspects of the global Pentecostal/Charismatic movement.
Study Abroad

Global Perspectives
The Global Perspectives Program is one of the most unique and exciting opportunities that Lee University offers because it requires students to travel and to study a culture different from their own. Through the Global Perspectives Program, students will fulfill at least two credit hours: ANTH 200: Global Perspectives Seminar (1) and GNST 250-3: Cross-Cultural Experience (1-3). ANTH 200 is the prerequisite course that prepares students for the intentional study of a culture different than their own. GNST 250-3 is the actual experience component where students engage and immerse themselves within an intended target culture. These courses can not be taken out of sequence.

Three options are offered for fulfilling the experience component of the requirement:

1. Participate in one of Lee’s many school-sponsored global perspectives trips. Every year, Lee offers between 30-35 global perspectives trips, led by our own credentialed faculty, as an economical and rewarding cross-cultural experience. While the majority of trips occur during the summer, several are offered during Christmas and Spring breaks. Not only do students fulfill their cross-cultural requirements by participating in a Lee-sponsored trip, they can find a trip that offers course credit in most major fields of study. By traveling and earning credit at the same time, 75% of the tuition dollars paid is used to cover trip expenses. Very few universities if any have made a financial commitment of this magnitude to assist students in studying abroad.

2. Apply to conduct an Individually Arranged Cross-Cultural Study. Some students choose to conduct their own cross-cultural experience by researching and designing an independent study unique to their preferences and personality. A student can fulfill this requirement if the experience is designed to be an in-depth academic analysis of a particular culture; it has to be prepared for and intentionally undertaken with an academic goal in mind. Many students opt to become active participants in a domestic church or community where the culture differs significantly from their own. Students conducting such studies will be required to complete a minimum of 45 hours over a period of no less than 7 days during a semester or summer term interacting with members of a targeted culture significantly different from their own. This model is based upon a typical one credit-hour internship experience requirement.

3. Qualify for exemption from the Cross-Cultural experience requirement. Some students who have had significant cross-cultural life experiences prior to coming to Lee may qualify for exemption from the GNST 250-253 requirement. The school has set clear guidelines for students who may be exempt:

* Extensive overseas military service tours, at least 6 months in duration

* Extensive missions work in one particular culture, at least 6 months in duration; short-term mission trips do not qualify

* Being raised or having lived in a foreign country as a young adult for at least 24 months

* Significant academic study in a foreign college/university

* Having spent a minimum of one year as a foreign exchange student during high school.

These guidelines have been approved by external accreditation agencies. Exceptions will not be granted.

Off-Campus Study Programs

Lee University Off-Campus Student Programs
Below is a list of Global Perspectives trips typically offered by Lee University. Check with your advisor or the sponsoring academic department for up-to-date details about each trip being offered. The availability of programs is subject to change without notice.

Any student participating in a Lee sponsored faculty-led trip must have successfully completed a minimum of one full semester, equal to 12-15 credit-hours, of studies in residence on the Lee University campus, with one of those hours being the prerequisite ANTH 200 Global Perspectives Seminar.

Institutional Scholarships (including academic scholarships and employee tuition discounts) can not be applied toward more than two off-campus study programs during a student's enrollment at Lee. Off-campus study programs that are directly sponsored by Lee University and led by Lee University faculty are the only study programs eligible for institutionally-funded aid.

Global Perspectives trips must be paid in full prior to departure.

Cooperative Programs

Study Abroad Collaborative Programs
Lee University supports off-campus study programs that are sponsored by Christian groups like Au Sable Institute of Environmental Studies (www.ausable.org), Focus Leadership Institute (www.focusleadership.org), and the Council for Christian Colleges and Universities Best Semester programs (www.bestsemester.com). There are also specific programs set up in collaboration with other Christian universities where Lee students can take classes for a semester at Tokyo Christian University, Yamagata University (also in Japan,) and the Cedarville University Semester in Spain program. For more information contact the Office of Global Perspectives at gperspectives@leeuniversity.edu or 423.614.8357.

Best Semester Programs Include:

- American Studies Program
- Australia Studies Centre
- China Studies Program
- Contemporary Music Center
- India Studies Program
- Latin American Studies Program
- Los Angeles Film Studies Center
- Middle East Studies Program
- Oxford Summer Programme
- Scholars' Semester in Oxford
- Uganda Studies Program
- Washington Journalism Center

The collaborative study programs listed immediately above are not eligible for institutionally-funded aid.

Kairos Scholars

Kairos Scholars Honors Program

Description
Students with a minimum combined ACT of 27 or an SAT of 1230 (without essay) are eligible to apply to be part of the Kairos Scholars Honors Program. The honors program provides enhanced opportunity for students to interact with instructors specifically selected to create and encourage a meaningful community of peer learners. Courses designated as honors courses use various pedagogies, employ a variety of assessment tools and offer flexible and creative assignments.

Students in the Kairos Scholars Honors Program who complete a total of 24 honors hours maintaining an overall GPA of 3.5 and meeting the requirements of a member in good standing will receive the following recognitions and benefits of the program:

* Honors Diploma
* Honors identification in honors chapel and commencement programs
* Priority registration and advanced class selection
* Participation in invitation-only special events and activities

Course Substitutions
Courses listed below currently substitute for general or religion core courses of the university or represent additional requirements for the honors student. Some courses will be developed specifically for the Honors Program while others will be honors sections of existing courses.

- GNST-101 Honors Freshman Seminar 2 hours
- ENGL-110 Honors Rhetoric & Research 3 hours
- BIOL-104 Honors Environmental Science 4 hours
- HUMN-201 Honors Foundations of Western Culture 3 hours
- HUMN-202 Honors Rise of Europe 3 hours
- HUMN-301 Honors Foundations of Modern World 3 hours
- HUMN-493 Honors Humanities Capstone 3 hours
- POLS-200 Honors Understanding Contemp. Politics 3 hours
- PSYC-200 Honors Understanding Human Behavior 3 hours
- THEO-230 Honors Introduction to Theology 3 hours
- THEO-231 Honors Introduction to Christian Ethics 3 hours
- HONR-450 Honors Directed Study 1 hour
- HONR-491-493 Honors Special Topics 1-3 hrs

Honors elective hours may be acquired through Honors Discussions (1 hr each), through Contract Courses in the major (HONR-450) or through Special Topics courses offered as part of an Honors Study Abroad opportunity.

Applying to the Program
Entering students interested in applying to the Kairos Honors Program may do so by requesting information and an application form at the following email address: kairos@leeuniversity.edu. Or they may download the application form and follow the instructions at the following link: http://leekairosscholars.weebly.com/ Applications are generally due by May 15 for the following fall term. Decisions regarding admission into the program are made around the first week of June and all notifications are by email using the contact information provided on the application form. Entering students with AP credit, dual enrollment or specific major requirements that duplicate honors substitutions will not be required to take those honors classes to remain in the program. The program director, with the as-
istance of Academic Services, will work individually with each student to ascertain the course schedule and honors plan that works best for them. Rising sophomores may also apply for the program, understanding that criteria for admission and likelihood of course load fit will differ on a case by case basis. The honors program coursework fits without difficulty in any major program with the possible exception of music due to the specific general education core requirements of music major programs.

Graduation

Terms of Graduation for Bachelor’s Degrees

In order to graduate from Lee University the applicant must meet the conditions of graduation listed below on the dates announced in the university calendar.

1. A minimum of 130 semester hours credit with a minimum GPA of 2.0 (2.5 for teacher education).

2. The satisfactory completion of all General Education and Religion Core requirements.

3. The admission to and satisfactory completion of a departmental major with a minimum GPA of 2.0 (2.5 for teacher education).

4. The removal of all incompletes and completion of all correspondence, proficiency credit, or independent study credits (in required areas) in compliance with the published deadlines.

5. The completion of the required academic assessment tests.

6. The completion of the required service learning hours (80 hours total for four years at Lee or 10 hrs/semester for transfer students).

7. The completion and passing of Praxis II examinations by education students.

8. The completion of the final 25% of credit hours in residence at Lee University (i.e. 33 hours of a 130 hour program).

9. The filing of an application for graduation to be approved by the academic dean in compliance with the published deadlines.

Because of the transitional nature of university curricula, a number of changes in the graduation requirements may take place during one’s tenure in college. The purpose of such changes is to improve the university programs; consequently, it is expected that students will adapt their course planning to new graduation requirements established during the course of their training. The curriculum changes introduced in the course of the student’s enrollment will be included in the student’s curriculum, provided that this inclusion does not increase the number of hours required for graduation.

Students who complete the requirements of more than one program of study will have verification of each major program on the official transcript; however, only one diploma is awarded upon graduation.

The conferring of degrees by Lee University is conditional upon completion of all requirements in the opinion of the Dean, Vice President of Academic Affairs and faculty, regardless of the students’ participation in Commencement or any other representations by University employees.
Honor Graduates
Undergraduate students who achieve certain academic distinctions through earned grade point averages will be graduated upon recommendation of the faculty with institutional honors. The following standards apply: 3.4 with honor (Cum Laude), 3.7 with high honor (Magna Cum Laude), 3.9 with the highest honor (Summa Cum Laude). These averages are computed at the close of the semester prior to the semester of graduation.

The Lee University faculty nominates the recipient of the F.J. Lee Award, which is given to the "senior who, in the estimation of the faculty, has modeled high standards of integrity, leadership, service, broad campus involvement and academic excellence"; the Zeno C. Tharp Award, which is given to the senior "most likely to make the greatest contribution to the Kingdom"; and the Charles Paul Conn Award, which is given to the senior who demonstrates the greatest promise of achievement in graduate/professional studies after graduating from Lee University.

Departmental awards and honors are generally confirmed by the faculty and presented to the students at an annual Honors Day award program.

Awarding Diplomas
Students who have completed all academic requirements and fulfilled all other university requirements including full payment of all financial obligations will receive their diplomas at the time of graduation.

Deficiencies which cause a diploma to be held must be corrected within 30 days following the date of commencement. If the deficiency is not removed by the deadline, the diploma will be re-dated reflecting the next graduation date following the removal of the deficiency.

Admission to Second Degree Program
Normally students who graduate from Lee University may receive only one degree and one diploma regardless of how many major programs of study are completed. Special exception may be made for Lee alumni who wish to return to the university to complete a second program of studies if the former student satisfies the following minimum requirements:

1. To be admitted as a second-degree-seeking student, the graduate must have been away from the university for a minimum of three years after having completed the previous degree;

2. The major of the desired second degree must be in a program of studies that is distinctively different from the previous program of studies. It must be in a different discipline, and the bulk of the required courses for the major must be different from those required by the previous program of studies;

3. To qualify for the second degree a minimum of 45 additional semester hours of credit must be earned.
Colleges & Departments

College of Arts and Sciences

J. Matthew Melton, Dean

Excellent faculty members and outstanding academic programs characterize the College of Arts and Sciences which encompasses the most diverse spectrum of academic departments of all the university’s colleges. The College of Arts & Sciences houses six departments: Behavioral and Social Sciences, Business, Communication & the Arts, History & Political Science, Language and Literature and Natural Sciences & Mathematics. Most of the general education core taken by every student who attends Lee is taught in this college. More than 80 of the university’s faculty and over 1000 of the student body work and study in the 30-plus degree programs offered. Arts & Sciences cooperates closely with the Helen DeVos College of Education in helping to deliver a dozen teacher-education programs. The college also includes the graduate program in counseling, in which a Master of Science degree may be earned in mental health or school counseling. The general education, graduate and major program courses are taught by highly qualified faculty members committed to student learning and to imparting a liberal arts education from a strong Christian worldview.

Interdisciplinary Studies
The Interdisciplinary Studies major allows the student to develop an individualized plan of study. The intent of this program is to allow the student to experience a more comprehensive approach in academic pursuits than is provided in the traditional single major and to synthesize material from a variety of disciplines.

This program of study may prepare students for liberal arts graduate programs, and although it is not intended as prevocational, it will prepare students for entry level positions in professional areas requiring broad knowledge and skills in writing and critical thinking.

Students interested in this major must consult with a designated advisor to design a major program of study that meets the requirements listed below. Students are not limited to the areas indicated in the pre-approved list; however, if one of these areas is chosen, the student must select courses as indicated below. The completed program proposal will be submitted to the Deans’ Council for approval.

Special Minors

Asian Studies Minor
A minor in Asian Studies enhances the education of students in business, science and the liberal arts, especially those students working on a major in business. Not only does this minor teach students more about histories, cultures, languages, and societies throughout the Asian region that continue to grow in influence and significance, but it prepares students to work and live in various Asian countries. The minor itself requires an interdisciplinary approach to the study of Asia, providing a broad understanding of the complexity of the region while respecting the uniqueness of each country and its culture.

* It is highly recommended that students holding a minor in Asian Studies engage in a study abroad experience in an Asian country either as a member of one of the Lee University sponsored trips or by an individually arranged trip.

Latin American Studies Minor
A minor in Latin American Studies enhances the education of students in business, science, and the liberal arts. Not only does this minor teach students more about history, culture, language and society throughout a very important region of the world, Latin America, it will prepare students to work and live in the countries of a region that continues to increase in importance. The minor itself requires an interdisciplinary approach to the study of Latin America, providing a broad understanding of the complexity of the region.

Behavioral & Social Sciences

Dr. Jeffrey Sargent, Chairperson

The Behavioral and Social Sciences Department has as its mission preparing students for occupations such as social work, counseling, law, human services administration, teaching and pastoring as well as for graduate and professional schools in areas concerned with human behavior and the social world. We believe our students should be taught the Christian perspective on the behavioral and social sciences and should plan to be involved in vocations that fulfill the great commission of Jesus. A broad liberal arts undergraduate education should expand the students’ understanding of their own social context, increase their knowledge of individual behavior and facilitate their adjustment to a rapidly changing social world by preparing them to recognize and appreciate cultural diversity. We offer majors in Anthropology, Psychology and Sociology. In addition, the department administers the Bachelor of Arts in Healthcare Administration, an interdisciplinary major with courses in both the Business and Health Sciences departments. Teacher licensure can be obtained in psychology for 9th through 12th grade. Minors are offered in psychology and sociology, as well as practical minors in social work and counseling, which include practicums and courses in social work and counseling.

**Disciplines**
Anthropology
Healthcare Administration
Psychology
Sociology

**Anthropology**
The Bachelor of Arts in Anthropology is designed to provide an understanding of human beings and human society with respect to both culture and biology. Students are exposed to a broad historical and comparative framework within which to view the variety of human cultures. Coursework deals with basic anthropological concepts, ethnographic and quantitative research techniques, and substantive knowledge of the branches of the field, e.g., physical anthropology, social and cultural anthropology, ethnology, archaeology, linguistics, and applied anthropology. Anthropology as a major is primarily intended for those students who want to pursue anthropology at the graduate level; however, an anthropology major could be used as preparation for careers in governmental and private social service agencies, museums, ethnic and immigrant organizations, elementary and secondary schools, health care agencies that serve diverse populations, foreign service and foreign aid agencies, businesses with international and interethnic scope and missions-evangelism.

Sociology

The Bachelor of Arts in Sociology will prepare students for employment in various occupations as well as equip them to enter graduate or law school. The sociology student may pursue a general course of study in sociology or focus on one of the five emphases in the discipline: (1) criminology and law, (2) graduate studies, (3) family studies, (4) human services (social work), or (5) cross-cultural studies. Sociology is a major which encourages a liberal arts perspective and broad discipline-training, with required courses in social theory, statistics and research methods. Students develop skills in writing, critical thinking and quantitative methods and are prepared to enter a culturally diverse world.

In keeping with one of the goals of Lee University, the Department of Business seeks to provide major programs of sufficient quality to prepare students for success in graduate and professional schools and in the early stages of their careers as they consider their calling. The Department of Business offers programs of study designed to prepare men and women for positions of leadership in business, government, the teaching profession and the community at large. This is done by imparting to them the ethical and philosophical principles upon which our society and our economy rest and by equipping them with the knowledge and skills needed for success. A pedagogical emphasis is placed on experiential learning bolstered by a focus on critical thinking skills. Since a significant dimension of the business curriculum includes the integration of one’s faith with the discipline, graduates should demonstrate a Christian worldview as they discharge the duties of their vocation or profession.

The department offers majors in Accounting, Business Administration (with emphases in Accounting, Finance, Financial Services, International Business, Management, and Management Information Systems), Business Education/Corporate Training with teacher certification, and Information Systems (with emphases in Systems Development and Systems Operation). Minors are offered to non-departmental majors in Accounting, Business Administration, Information Systems, Finance and International Business. Additionally, a student may select Accounting and/or Information Systems as concentration areas for the major in Interdisciplinary Studies.

An Accounting major who wishes to add Business Administration as a second major must select an emphasis other than Accounting. A Information Systems major who wishes to add Business Administration as a second major must select an emphasis other than Management Information Systems.

Accounting

The Accounting program prepares students for careers in accounting and for graduate or professional school. Graduates will be equipped with the necessary skills for the various fields of financial accounting, managerial accounting, auditing, both private and public accounting, and taxation. In addition, many students may be prepared and eligible to take the Certified Public Accounting (CPA) exam prior to graduation. Students should confirm requirements for specific state licensure. Graduates will be trained in a Christian worldview to make a significant impact in their vocation.

**Business Administration**

The Business Administration program takes seriously the commitment to produce graduates who are well prepared to enter a professional career in business or to pursue graduate studies. The business administration curriculum is integrated with critical thinking skills, students' calling, research, teamwork, and experiential learning. Students who graduate with the business administration major are expected to perform competently and ethically in entry-level positions in such fields as manufacturing management, professional sales, consulting, customer service, financial services, retail management and bank management. The emphases in business administration are designed to allow students to focus the program of study in a particular area. Since a significant dimension of the business administration curriculum includes the integration of one's faith with the discipline, graduates should demonstrate a Christian worldview as they discharge the duties of their vocation.

Information Systems

The Information Systems curriculum is designed to equip and prepare students to function in an entry-level IS position and for graduate studies in a computer field. The university liberal arts education along with the IS curriculum and business courses will provide students with a broad understanding of how information systems assists in the decision-making process and the operation of the business organization. Graduates will be prepared for entry-level positions in a variety of computer fields such as application development, database design, help desk/end-user support, Internet/Intranet development, networking, programming, and systems analysis. The IS program will prepare these students to work in a changing technical environment and to communicate effectively in an individual and/or group setting. The curriculum will train graduates to integrate their faith and Christian worldview, demonstrating this through the moral and ethical use of technology in the business environment.

Public Relations

The B.A. in Public Relations is designed to train students interested in professional or academic work in the area of corporate, nonprofit or agency public relations. The courses in the major provide students with the tools and tactics necessary to fulfill their calling as public relations professionals who think critically and creatively with a biblical worldview. In Fall 2011, the public relations program earned international accreditation from the Public Relations Society of America, receiving a Certification in Education for Public Relations (CEPR). Lee became the first Christian University to receive this certification. Only 31 schools internationally have been awarded CEPR.

Theatre
The B.A. in Theatre is designed to train students interested in professional or academic work in the areas of acting, directing and technical theatre. The theatre major seeks to give students the opportunity to craft their own program of study, within reasonable academic limits. The core courses in the major provide preparation for graduate school or the professional stage. The senior seminar and religion capstone bring together the students' academic study with the art and practice of a Christian theatre artist. The BAT in Theatre Education shares much of the same curriculum with the addition of a teaching certification for K-12.

The History, Political Science and Humanities Department has as its mission preparing students for occupations such as law, teaching and international work, as well as entrance into graduate and professional schools. We believe our students should be taught from a Christian perspective and should plan to be involved in vocations that fulfill the great commission of Jesus. A broad liberal arts undergraduate education should expand the students' understanding of their own historical context, increase their knowledge of political issues and facilitate their adjustment to a rapidly changing social world by preparing them to recognize and appreciate cultural diversity all from within a Biblical worldview. We offer majors in History, Humanities, Art and Political Science. Teacher licensure can be obtained in history with an emphasis in political science or economics for 7th through 12th grade. Minors include history, humanities, Art and political science.

Art
A major or minor in Art with an emphasis in Studio or Graphic Design gives students hands-on experience that helps equip them for the work force or for graduate school. The classes offered in Art help students develop their talents and experience in a variety of media, both traditional and electronic that should prove useful in their career development.

Art (ARTSV.BA)
The B.A. in Studio Art will provide thorough training in the visual arts within the framework of a Christian world view. Our goals are to foster excellence and to serve God and society through the development and use of creative artistic abilities.

The one of the ways that we are created in the image of God is our ability to be creative. The Lee University Art faculty is committed to providing an environment that fosters creativity in students. A variety of media and
processes are used to enable students to develop technical artisitic skills and the ability to think conceptually and creatively.

The Studio Art degree requires 39 hours in Art. 27 hours of the required Art courses will be taken in a variety of studio classes. 12 hours will be in Art History. In the belief that a culture is defined by its art, students will also become knowledgeable in the history of art in order to profit by what has been done by past artists. By studying the creative efforts of other cultures, students will become more aware of the God-given talents of mankind and how each of us can contribute meaningfully in today’s society.

In addition to studying the history of art, students will engage with contemporary artistic issues that are a part of modern society. By engaging in these concepts, students will become more aware of the importance of a Christian witness in the visual arts and how this might be accomplished.

**History**

Students electing to major in history have the opportunity to select from a varied field of study designed to provide instruction and direction that will enable graduates to succeed in future endeavors such as graduate programs and professional careers. The program also offers students the opportunity to gain teacher licensure. Students are taught to think critically, to communicate (in both written and verbal form) in an articulate manner, and to respect opinions and ideas unlike their own. Finally, the program seeks to instill in students an appreciation of their own history as well as the histories of others.

**Humanities**

The Bachelor of Arts in Humanities will provide the student with a well-rounded knowledge of various aspects of western culture, including art, literature, history, music, religion and philosophy. Students in this major will choose one area of emphasis (Philosophy, Art History, or Liberal Arts) to complement their required Humanities survey courses and seminars. The primary goal of the Humanities major is to explore some of the basic themes and questions concerning the human condition from a historical perspective. This major will develop strong critical thinking and research skills within the student and help them to make various connections within and across historical periods. The student will also be required to develop a Christian worldview and to reflect on how they might apply their personal calling and abilities to fields within the humanities and to the world. The Humanities major would serve to provide students with the most comprehensive liberal arts education and be a great primary or secondary major for those students who wish to establish an excellent foundation for graduate or professional school. The major would also serve those who wish to pursue other various careers by providing them with critical thinking and writing skills, as well as an informed sense of what it means to be a Christian in our contemporary age.

**Humanities (HUMNS.BA)**

The Humanities major offers a multi-disciplinary foundation for understanding and appreciating the western cultural tradition. All humanities students explore various expressions of Western Literature, Philosophy, music, and the fine arts within their original historical contexts, in relation to one another, and in relation to modern institutions and cultures. The major offers its students the opportunity to specialize in one of three concentrations: Classical Studies, Modern and Contemporary Studies, and Philosophy.

The Department of Language and Literature has the primary mission of preparing students for vocations and graduate study in disciplines which emphasize the verbal arts. It offers majors in English, French and Spanish. It also prepares students who wish to obtain a broad liberal arts undergraduate background before beginning specialized training for such professions as law and theology or simply as a means to an in-depth understanding of the function of human beings in the world. The faculty believes strongly in a Christian worldview and insists that such a view has practical implications for both content and pedagogy. All facts, concepts and understandings relevant to each field are presented from the perspective of the Christian view of a divinely created and ordered world under the lordship of Jesus Christ.

English

The Bachelor of Arts degree in English, Literature Emphasis (ENGLI.BA) prepares students for graduate work in the discipline or for careers in research, writing, editing, and a variety of other related occupations. The program provides a broad overview of world literature with emphasis on British and American writers. In addition to the common core required of all English majors, students in the Literature Emphasis program take several survey courses, a course in literary theory, and specialty courses focusing on particular authors or literary periods.

The Bachelor of Arts degree in English with teacher certification (ENGLI.BAT) prepares students to teach English at the middle and high school levels. In addition to the common core required of all English majors, students in the teacher certification program take courses in Young Adult Literature, Composition Theory, and Methods of Teaching English. In addition to these courses housed in the Department of Language and Literature, students complete the professional education sequence, including a semester of student teaching at the secondary level.

The Bachelor of Arts degree in English, Writing Emphasis (ENGLW.BA) prepares students for graduate work in the discipline or for careers in writing, editing, publishing, and a variety of related fields. The program provides a broad overview of rhetoric, advanced academic writing, and various genres of creative writing. In addition to the common core required of all English majors, students in the Writing Emphasis program take courses in rhetoric, introductory and advanced creative writing, and professional writing.

Language
The Bachelor of Arts in French or Spanish programs (FRNCH.BA, SPNSH.BA) prepare students for graduate work in the target language or for work in a variety of careers, including political science, business and academia. In addition to language learning and practice, upper-level coursework in literature, stylistics, and special topics, students will take a capstone course that will engage and motivate them to integrate their faith and their chosen disciplines.

The Bachelor of Arts in French or Spanish teacher certification programs (FRNCH.BAT SPNSH.BAT) prepare students for careers as teachers of French or Spanish in grades 7 through 12. Courses at all levels are designed to increase students' proficiency levels in all skills, enabling them to teach effectively with an advanced knowledge of the target-language culture. Study abroad programs are available and encouraged for all teaching licensure candidates.

Students majoring in a world language must complete a minimum of 6 credit hours of target-language coursework in a target-language country. Native speakers (those educated in target language countries) of Spanish, French, German or Chinese may not receive proficiency credit by examination for either 211 or 212. Native speakers may have their world language requirement waived by successfully completing both ENGL 105 or 106 and ENGL 110.

Native speakers who minor or major in Spanish or French must begin their coursework with any course numbered SPAN 310, FREN 213 or above. Additional upper-level courses must be taken to complete the required 36 hours in either major. Heritage speakers (those who learned Spanish or French in the United States, not formally educated in target language country) must pass both a writing exam and a speaking proficiency exam to receive proficiency credit for either 211 or 212. If passed, they begin their minor or major coursework with SPAN 310, FREN 213 or above.

A study abroad program in France is required of all FRNCH.BA and FRNCH.BAT candidates. French minors may be eligible to participate in an internship in their major area of specialization in France.

In harmony with the mission statements of Lee University and its College of Arts and Sciences, the Department of Natural Sciences and Mathematics strives to equip students for success in mathematics and science through its commitment to excellence in teaching, interdisciplinary studies and innovative research. Majors are provided with a foundation in the sciences and mathematics to enable them to think critically, communicate clearly and perform successfully in their vocational calling. Through the integration of faith and its academic disciplines, the department promotes the highest standards of professional and ethical behavior. Students are challenged to discover and use their God-given gifts and talents to make a positive impact in their world.

The department offers majors in Biochemistry, Biological Science, Biological Science Education, Chemistry, Chemistry Education, Health Science, Mathematics and Mathematics Education. Foundation courses in botany, zoology, chemistry, computer science, health sciences, mathematics and physics present opportunities for both majors and non-majors to become acquainted with basic principles and concepts of the biological and physical sciences.
Biological Science
The Biological Science program (BIOLS.BS) is intended for the student who desires a good foundation in the biological sciences but not necessarily an emphasis in teaching, or the pre-professional track. Although these individuals could design their program to meet the requirements for professional school, they are more likely to progress to graduate studies or the technical job market. The philosophy of this program is to provide a broad exposure to the various sub-disciplines of biology so as to provide a solid foundation of knowledge and understanding on which to build with additional graduate training or work experience. There is an emphasis on understanding, problem solving, exploration of the scientific literature and research.

Pre-Professional and Health Science
The pre-professional tracks and health science major (BIOCP.BS, BIOLP.BS, CHEMP.BS, HLSCI.BS), prepare students for entrance into health professions schools, graduate studies or entry level positions in health care systems managed-care organizations, long-term care settings, public health sectors, business and industry. Students enrolled in a pre-professional program (BIOCP.BS, BIOLP.BS, CHEMP.BS) must earn a grade of B- or better in all classes listed under their Specialty Area and Collateral Requirements to fulfill the requirements of these majors.

Minors
The Department of Natural Sciences and Mathematics offers minors in Biological Science, Chemistry, Computer Science, Health Science and Mathematics.

**Biological Science Minor**

Minor Requirements
The Biological Science minor shall complete a minimum of 18 hours in biology. These 18 hours must include BIOL-109, BIOL-110 and BIOL-242 (CHEM-111/112 or CHEM 110/113 are a prerequisite but will not count toward the 18 required hours), and 6 hours of 300 or 400 level Biology courses. No courses developed for the general core will count toward a minor (i.e., BIOL-103, BIOL-104, BIOL-105, BIOL-106, BIOL-107, BIOL-108, BIOL-123 and BIOL-495).

**Chemistry Minor**

Minor Requirement
The Chemistry minor shall complete 18 hours in chemistry, with at least eight hours in courses numbered 300 and above. No non-majors courses will count toward a minor (i.e. CHEM-110).

**Computer Science Minor**

Minor Requirements
The Computer Science minor shall complete 18 hours in computer science. Any minor should be approved by the department chair prior to a student’s senior year.

**Health Science Minor**

Minor Requirements
The Health Science minor consists of a minimum of 18 hours in Health Science. These 18 hours must include 8 hours of Human Anatomy and Physiology (BIOL-109 is a prerequisite but will not count toward the 18 required hours) 3 hours of Research Methods and Statistics (or equivalent from another discipline), 1 hour of Health Internship, and 6 hours of 300 or 400 level Health Science courses (or equivalent from another discipline as approved by advisor).

**Mathematics Minor**

Minor Requirements
The Mathematics minor shall complete 18 hours in mathematics, including:

At least six hours in courses numbered 300 and above

Non-Majors Courses
No non-majors courses will count toward a minor (i.e. MATH-101, MATH-201 and MATH-202).
The mission of the Lee University Teacher Education Program is to prepare candidates who are Life long learners, Effective educators, and Ethical practitioners. The objective is to produce teachers who (1) display a broad general background in liberal education (2) demonstrate thorough preparation in specific academic disciplines (3) plan and teach effectively and (4) view teaching as an area of Christian service.

Official Acceptance into the Teacher Education Program
All students who desire to prepare for teaching are required to apply for and be accepted into the Teacher Education Program. This application is to be filed during the first semester of the junior year, or after the student has completed EDUC-199 or MUED-225. Applications are completed as a part of the course requirement in EDUC-199 or MUED-225. Application forms may also be obtained in the office of the Director of Teacher Education. Candidates may not enroll in methods courses without admission to the Teacher Education Program. Requirements for acceptance of a student to the Teacher Education Program are as follows:

1. Academic Achievement
   a. Have completed 30 hours in general education plus EDUC-199 or MUED-225 for Music Education (including 40 clock hours of observation).
   b. Have a 2.5 average for all courses completed.
   c. Have a 2.5 average in the specialty area courses completed.
   d. Have a 2.5 average in the professional education courses completed.
   e. Have no grades below “C” in the professional education courses.
   f. Satisfactory scores on Praxis I, assessment of academic skills, and achieve minimum scores of Mathematics 173, Reading 174 and Writing 173. Students may be exempt from taking Praxis I if ACT/SAT scores are: Enhanced ACT – 22 or above; recentered SAT – 1020 or above.

2. Personal-Social-Physical Status
   a. Satisfactory ratings from the University Health Clinic.
   b. Completion of the Personality Screening.
   c. A recommendation from three full-time professors who are well-acquainted with the student.
   d. Statement from the Dean of Students concerning disciplinary status.
   e. Satisfactory results from a hearing test.
   f. Background check and fingerprinting.

3. Communication
   a. Have a 2.5 average in English Composition with no grade below C.
   b. Submit a handwritten theme entitled “Why I Want to Be a Teacher” to accompany application for admission.
   c. Have satisfactory ratings on three Interview Forms: one from a cooperating teacher, one from an advisor, and one from the EDUC-199 or MUED-225 instructor.
   d. Submit an electronic portfolio documenting basic skills and dispositions appropriate for teaching. (For specific requirements, contact the Teacher Education Office.)

Majority vote of the Teacher Education Committee prevails when applications for the Teacher Education Program are considered. Once the Teacher Education Committee meets and has approved the applicant for admission, the candidate is admitted to the Teacher Education Program.
The candidate is informed in writing of the Committee’s decision to accept or reject the applicant.

If an applicant is denied admission to the Teacher Education Program, he/she may appeal the Teacher Education Committee’s decision by requesting to appear before the Committee. There is no appeal beyond the Teacher Education Committee.

STUDENTS IN TEACHER EDUCATION MUST COMPLETE THE REQUIREMENTS OF THEIR PROGRAM OF STUDIES AS SHOWN IN THE CATALOG AT THE TIME THE STUDENT IS OFFICIALLY AND COMPLETELY ADMITTED TO THE TEACHER EDUCATION PROGRAM, SUBJECT TO CHANGES MADE IN LICENSURE REQUIREMENTS BY THE TENNESSEE BOARD OF EDUCATION.

**Appeal Process for Admission to the Teacher Education Program**

For students who have failed a Praxis I subtest/s or do not meet GPA requirements but have demonstrated potential for teaching in other areas, the following criteria must be met:

1. Must have failed the Praxis I subtest/s twice OR do not meet minimum GPA requirements.
2. Must meet all other admission requirements.
3. Must come to the Teacher Education Office and write a two-page theme entitled “Why I Think I Should Be Admitted to the Teacher Education Program.”
4. Must have participated in a Praxis I workshop or tutoring sessions.
5. Must be recommended by one cooperating teacher to whom the student was assigned for a field-based experience.
7. Must make a personal appearance before the Teacher Education Committee.
8. Must be approved by majority vote of the Teacher Education Committee.

**Official Acceptance to Student Teaching**

Lee University has entered into cooperative agreements with the Cleveland City School System, the Bradley County School System and several other school systems for the placement of student teachers in selected schools.

Student teachers are required to attend the public school on a schedule similar to that followed by the cooperating teachers. A minimum of 15 weeks of observation and responsible participation is required of each student. There is no provision for early completion of the experience. Student teaching and seminars carry 12 semester hours credit. No other courses may be taken during the student teaching semester. Application for Student Teaching must be filed by March 1 for the Fall Semester and October 1 for the Spring Semester. Application must be filed the semester preceding the one in which the student plans to do his/her student teaching (generally while enrolled in methods courses). Application forms should be completed while students are enrolled in methods courses, or they may be obtained in the office of the Director of Teacher Education.

For admission to the professional semester, including student teaching, the candidate must have fulfilled the following requirements:

1. Full admission to the Teacher Education Program (i.e., all conditions relative to admission satisfied and maintained).
2. Pass the appropriate parts of the Praxis II exams.
3. Satisfactory completion of all professional education with a minimum GPA of 2.5 and no grade below a C.
4. Completion of required methods courses before engaging in student teaching.
5. Satisfactory completion of at least 80 percent of course work in the teaching area (major).
6. Satisfactory evaluation of pre-professional observation experience (minimum of 40 clock hours).
7. Recommendation from major professor.
8. Membership in an education club during senior year is highly recommended.

**Graduation Requirements**

1. Satisfactorily complete required courses, lab experiences and clinical experience.
2. Maintain the standards for admission to the program.

COMPLETION OF THE SPECIFIED COURSES IN THE TEACHER EDUCATION PROGRAM DOES NOT GUARANTEE A RECOMMENDATION FOR LICENSURE AND/OR A TEACHING POSITION.

and practical application.

1. Provide advanced preparation, theory, integration of faith and learning, and practical application.

Specifically, the degree will:

- Provide advanced preparation, theory, integration of faith and learning, and practical application.

For those school personnel who have a need for further professional training but who may not be interested in pursuing a graduate degree, this program of study may provide in-service educational opportunities.

**Master of Arts in Teaching (M.A.T.)**

The purpose of this program in Elementary, Secondary, or Special Education is to provide a route to initial teacher licensure with graduate work leading to a master’s degree. Students who successfully complete the degree program and meet all standardized test requirements will be eligible for licensure by the Tennessee Department of Education.

**The Conceptual Framework**

The following brief outline is an abridged version of the extended Conceptual Framework that guides the Unit’s work. This abstraction delineates the linkage between the Unit’s Vision, Mission, Philosophy, and Goals and is the basic rationale for all its activities.

**Vision**

The vision of the Graduate Education Program at Lee University is to be an institution of international significance in professional education. That vision is expressed in the following mission statement summarizing and organizing this unit’s efforts toward that end.

**Mission**

This unit’s mission is to produce candidates who are...

- Lifelong Learners
- Effective Educators
- Ethical Practitioners

Each of the three statements in the mission is an organizing principle that shapes and informs this unit’s activities and is the summation of the following fundamental philosophical assumptions underlying these lofty ideals.

**Philosophy**

Competent, caring, and qualified educational professionals are essential in securing the future of this country and the world. These men and women must be prepared to discern wisely, think creatively, teach effectively, and lead courageously. Toward that end, the Lee University Graduate Education programs are designed to encourage problem finding, problem solving and reflective practice within the framework of biblical truth and commitment of service in the kingdom of God. The program should enhance the candidates’ present teaching and leadership skills, help develop new talents, and improve educational research abilities. Expected outcomes include scholarly contribution to the profession, significantly improved classroom teaching, and modeling of able and compassionate leadership. This philosophical ideal is best achieved if our candidates are Lifelong learners, Effective Educators, and Ethical Practitioners.

**Goals**

Specifically, the goals that follow are the expected pragmatic outcomes of the unit’s vision, mission and philosophy. Along the way, the assessment of these benchmarks helps insure adequate progress toward the realiza-
tion of the unit’s philosophy, its mission and ultimately its vision.

For each of the levels in the unit - the Masters and Specialists - the seven fundamental goals are the same. In each of the levels, these goals are further refined to reflect program specifics and are linked to additional external measures that help clarify and differentiate the expected outcome by program. Further, each of the fundamental goals will be related to one or more of the mission outcomes, Lifelong Learner, Effective Educator, Ethical Practitioner. As indicated above, the subsections for each level of these fundamental goals will be identified and cited from a variety of organizations including outcome goals established by the National Board for Professional Teaching Standards, Tennessee State Board of Education for the Administrator License (TSBEAL), and those identified by this unit (12 Unit Goals).

Graduate Goals
Masters Level Classroom Teaching Candidates will demonstrate evidence of intellectual and personal growth defined by the prescriptive activities in the 12 undergraduate Unit Goals (initial license) linked to each of the following goals for the Master Level candidate.

Masters Level Educational Leadership Candidates will demonstrate evidence of intellectual and personal growth in standards implicit in the seven areas described in the Tennessee State Board of Education for the Administrator License (TSBEAL - A-G) as they are linked to the following fundamental goals for the Master Level candidate.

Educational Specialist Level Classroom Teaching Candidates: The graduate education goals are extended for the Educational Specialist candidates in Classroom Teaching to include outcomes identified by the Unit (U1-12), the EDS candidates in Classroom Teaching will satisfy the objectives inherent in the five (5) Core Propositions (P1-5) of the National Board for Professional Teaching Standards (NBPTS).

All Graduate candidates will demonstrate competencies in an (a):
1. Extend Knowledge and experience in the area of learning and instruction, including conceptual and practical applications of practices that support the process.
2. Understanding and utilization of research methods that improve practices in schools and classrooms.
3. Ability to apply knowledge of multi-media technology to school and classroom practices.
4. Understanding and application of practice of inclusive educational opportunities for learners from diverse backgrounds and disabilities.
5. Enhancement and extension of knowledge of current trends and issues in education.

Admission Requirements
Candidates for admission to the Master of Education program must submit the following materials to be considered for admission:

1. Completed application including all supporting materials.
2. Two original transcripts from all undergraduate and graduate institutions.
3. Completion of an approved Teacher Education Program.

The Graduate Education Committee will consider the following weighted criteria in the final admission decisions:

1. Official Grade Point Average (GPA) from all undergraduate and graduate programs.
2. Scores within the last ten years on a nationally normed test (e.g. Graduate Record Exam (GRE); Miller’s Analogy Test (MAT); Graduate Management Admissions Test (GMAT), Law School Admissions Test, (LSAT), etc.).
3. Interview with the Graduate Education Committee or its representatives.
4. A 500 word writing sample based on questions included in the application.
5. Three recommendations from professionals acquainted with the candidate’s work.

Master of Arts in Teaching (M.A.T.)
Candidates for admission to the Master of Arts in Teaching program must submit the following materials to be considered for admission:

1. Completed application including all supporting materials.
2. Two original transcripts from all undergraduate and graduate institutions.

The Graduate Education Committee will consider the following weighted criteria in final admission decisions:

1. Official Grade Point Average (GPA) from all undergraduate and graduate programs.

3. Interview with the Graduate Education Committee or its representatives.

4. A 500 word writing sample based on questions included in the application.

5. Three recommendations from professionals acquainted with the candidate’s work.

Admission Status
The Graduate Education Committee may admit candidates in one of the following categories:

1. Full Admission—applicant meets all admission requirements.

2. Provisional Admission—May be granted if the candidate does not meet minimum standards in one or more of the weighted criteria above. However, the candidate may not take more than nine (9) hours, which may be prescribed as a condition of acceptance, as a Provisionally Admitted candidate. To continue beyond the nine (9) hours, the candidate must be considered for Full Admission by the Graduate Education Committee.

3. Non-Degree Admission: A candidate may be granted Non-Degree Admission status to take up to nine hours of coursework. Non-Degree status may be granted if the following minimum criteria are met:
   a. Completion of a Bachelor’s Degree from an accredited university.
   b. Presentation of official transcripts of all completed coursework.
   c. Completion of demographic information on the application.

A Non-Degree candidate may take a maximum of nine (9) hours in this status. To continue, the candidate must complete the requirements for consideration for Full Admission by the Graduate Education Committee.

Completion Requirements
1. A maximum of six (6) hours of transfer work from an accredited institution and approved by the Dean of the Helen DeVos College of Education may be counted toward the graduate degree.

2. Candidates must maintain a minimum 3.0 GPA.

3. Grades below a “C” are unacceptable and may be grounds for dismissal from the program.

4. No more than two “C”s are acceptable. The candidate will be dismissed from the program with a third “C” or below.

5. Candidates must apply for graduation in accordance with the university’s published policy.

6. Candidates must complete an application for Admission to Candidacy by mid-point in their program.

7. Students must complete the program within six (6) calendar years from the completion of the first course.

8. Candidates electing the thesis option will present the results of their Graduate Research Exercise in an open forum as a culmination of the Thesis Seminar class. This constitutes the candidate’s oral examination.

9. The candidate’s Portfolio must be submitted to the Graduate Education Office ten (10) days prior to graduation.

10. For the Master’s level candidates, there will be an option to complete a formal thesis or take an approved graduate class elective. This choice will be made subsequent to the candidate’s completion of EDUC-501 and prior to Admission to Candidacy. In addition, the candidate contemplating the thesis will attach a Thesis Application to the documents for Admission to Candidacy. The Thesis Application will require the signature of at least one Graduate Education Faculty member indicating approval of the candidate’s choice. Candidates approved for the thesis will enroll in EDUC-595 at least one semester prior to graduation. The completed theses, including faculty signatures indicating full acceptance, will be due in the Graduate Education Office at least ten (10) days prior to graduation. In the event a candidate completes the program’s course work but lacks the thesis, graduation will be delayed and the candidate will enroll in GRAD-591 Graduate Supervision each semester thereafter until the thesis is submitted and accepted. GRAD-591 carries no credit, but is billed at the equivalent of one graduate credit hour.

Professional Certification/Licensure
Completing the degree requirements does not constitute Professional Certification/Licensure as an educator. The candidate must complete all of the state mandated undergraduate certification courses and pass the appropriate national exams (i.e., Praxis II series) to be recommended for licensure by the Certification Officer. Consequently, the candidate is advised to have official transcripts evaluated early in the program by the Certification Officer to determine the required undergraduate certification courses.

The Graduate Education Committee
The Graduate Education Committee’s responsibility is to provide administrative oversight to the graduate program. The committee considers and recommends curricular changes to the Graduate Council, approves all program policies, assesses effectiveness of the graduate program, serves as the Admissions Committee, reviews candidacy, and approves applicants for graduation. The Graduate Education Committee consists of the Dean of the Helen DeVos College of Education; the Director of Graduate Studies in Education; the Chairs of the Departments of Early Childhood, Elementary, and Special Education and Health, Exercise Science, and Secondary Education; the Director of Teacher Education and Field Experiences; three faculty members; and one candidate representative.

Educational Specialist (Ed.S.)

Program Description
The Lee University Educational Specialist Degree with a concentration in either Classroom Teaching or Educational Leadership is a post master’s degree level program of study. The purpose of the program is to equip successful educators with the tools, knowledge and understanding necessary to provide innovative classroom instruction to the schools and school systems of the twenty-first century. This program is intended to serve three related purposes:
1. To provide professional educators with an opportunity to develop specialized expertise and best practice skills in the area of classroom teaching or educational leadership.

2. To provide those professional educators who desire it, a bridge from their master's level work to doctoral level study in the areas of educational administration or curriculum and instruction.

3. To provide a career path for classroom teachers to pursue the highest professional ranking in the profession, National Board Certification. Consequently, the Educational Specialist in Classroom Teaching will be organized around the five core propositions of the National Board for Professional Teaching Standards. These standards intend to produce professional educators who:
   a. Are committed to students and their learning.
   b. Know the subjects they teach and how to teach those subjects to students.
   c. Are responsible for managing and monitoring student learning.
   d. Think systematically about their practice and learn from experience.
   e. Are members of learning communities.

General Description of the Programs
Classroom Teaching: The Educational Specialist degree with a concentration in Classroom Teaching is a 30 semester hour (10 courses) responsibility. Of those, 18 hours are required courses and the 12 additional hours will be selected from the graduate course electives.

Educational Leadership: The Educational Specialist degree with a concentration in Educational Leadership is a 33 semester hour (11 courses) undertaking. Of the 33 hours, eighteen hours (six courses) consist of required courses and 15 hours (five courses) will be selected from a specified list of electives.

Admission Requirements for the Ed.S. Degree
Students who are admitted to the Ed.S. program, must:

1. Complete admission application materials.

2. Hold a Master's degree from an accredited institution. (Official transcripts must be submitted.)

3. Have earned a minimum grade point average of 2.75 on a 4.0 scale.

4. Submit scores on the Miller Analogies Test (MAT) or the Graduate Record Examination (GRE) (taken within the last ten years).

5. Submit recommendations from three professional sources including one from a graduate professor or employer.

6. Complete an acceptable interview with the Graduate Education Committee.

7. Submit a writing sample to be assessed by the Graduate Education Committee or their designee.

Completion Requirements of the Ed.S. Degree
In order to receive the Ed.S. degree, students must accomplish the following:

1. Maintain a minimum 3.0 grade point average with no grade below a "C". No more than two "C's" will be accepted. Possible grades to be awarded are A, A-, B+, B, B-, C+, C, F, I, P, S, and W.

2. Apply for graduation in accordance with the university's published deadlines.

3. Be admitted to candidacy.

4. Complete a portfolio submitted to the Graduate Education Office two weeks prior to graduation.

5. Complete the program within six calendar years from the completion of the first course.

The Department of Early Childhood, Elementary, and Special Education provides training for those students wishing to obtain teacher licensure in early childhood education (PreK-3), elementary education (K-6), middle grades education (4-8), and special education (K-12). The department also provides the professional education courses for post-baccalaureate students seeking licensure on the undergraduate level. Students wishing to work with children in institutions and agencies other than public schools may choose majors that do not lead to teacher licensure.

The major in Human Development, Early Childhood prepares students for a profession as an early childhood teacher (PreK-3). A major in Interdisciplinary Studies prepares students for a profession as an elementary teacher (K-6). A major in middle grades prepares students for a profession as an upper elementary or middle grades teacher (4-8). A major in
Human Development, Business Emphasis, prepares students for working with younger children in agencies and schools where teacher licensure is not required or for graduate work in child and family studies. The courses in psychology, sociology, cultural anthropology, linguistics and health provide knowledge in the stages of early human development and family organizations as well as an understanding of how these stages are influenced by culture.

The major in Special Education (Teacher Licensure Emphasis) prepares students for a profession as a special education teacher (K-12) in a resource setting, in a self-contained class, or as an inclusion teacher in a general education classroom. A major in Special Education, Support Services Emphasis, is appropriate for students who wish to pursue a career in a child care area, alternative schools or education facilities housed within psychiatric hospitals, as well as in the mental health or social services areas.

The secondary education faculty work extensively with other departments on campus and the state of Tennessee to secure teacher licensure for students admitted to the Teacher Education Program. All students seeking licensure in a secondary education area (other than physical education or health) will declare their major in the College of Arts and Science or the School of Music. Initial licensure areas include biology, business, business technology, chemistry, English, French, health education, history, mathematics, instrumental music, physical education, psychology, Spanish, theatre, and vocal/general music. Numerous add-on licenses are available. For a complete list see the add-on endorsement section at the end of the introduction to the Helen DeVos College of Education in this catalog.

The Health Science major with an emphasis in Fitness and Wellness prepares students for careers in corporate, commercial, community and hospital-based settings. Knowledge of the human body and the effects of exercise and general self-care are emphasized. Students are encouraged to prepare for and take one of the American College of Sports Medicine (ACSM) certification examinations immediately after graduation.

Teacher licensure areas in Physical Education and Health Education prepare professionals for successful and productive careers in teaching grades K-12. Both programs emphasize knowledge of the human body, self care, and techniques to motivate all students to lead healthy and productive lives. Students are encouraged (but not required) to become certified in both fields prior to graduation.

A Physical Education degree with an emphasis in Recreation is offered for students wanting to work in various recreational settings. A leadership track prepares students for careers in city and county agencies, YMCAs or on college campuses. A second track focuses on outdoor recreational experiences emphasizing safety, skills, and teaching styles in canoeing, backpacking and several other outdoor venues.

The Athletic Training Education Program prepares students for a career as a health-care professional in athletic training. A certified athletic trainer has numerous employment possibilities, including college and university intercollegiate athletic programs, interscholastic athletics, professional sports, corporations and in clinic and hospital-based programs. Athletic training students will have the opportunity to develop applied technical and clinical skills while working with the athletic programs at Lee University and in our affiliated sites such as local high schools, orthopedic clinics, and hospitals.

Lee University’s ATEP is nationally accredited by the Commission on Accreditation of Allied Health Education Programs through the Commission on Accreditation of Athletic Training Education. The accreditation status is awarded through 2021.

Guidelines for Fitness/Wellness Majors

The following guidelines must be followed by students majoring in Health Science with an emphasis in Fitness/Wellness (HLFWS.BS):

1. No grade below a "C" will be accepted in the following courses: HSCI-330, 331, 450 or 451.
2. All major Fitness/Wellness requirements must be successfully completed before enrolling in HSCI-470 Fitness/Wellness Internship.
3. A student enrolled in HSCI-470 Fitness/Wellness Internship cannot concurrently enroll in more than 7 additional hours. In rare circumstances exceptions are made through an appeal process, which should be initiated through the Department of Health, Exercise Science, and Secondary Education.

Admission to the Athletic Training Education Program

The Athletic Training curriculum is highly competitive. Entry into this phase of the athletic training curriculum is NOT guaranteed upon completion of the preprofessional phase during the sophomore year. The determining factors include the success of the pre-professional experience, meeting all academic prerequisites, completion of the clinical proficiencies and how many students are currently enrolled in the program. The number of students admitted into the program varies from year to year with the usual cohort numbering between five and eight.

Freshman students enrolled in ATEP 115 or ATEP 353 are required to attend OSHA and HIPAA training to accumulate clinical observation hours. Students may apply for admission to the Athletic Training Education Program (ATEP) in the middle of to their Sophomore year. Selection is centered on academic achievement and athletic training experiences. Academic achievement involves successful completion of BIOL 109 and/or HSCI-292 and ATEP-200 (with at least a B), and maintaining an over-all grade point average of 2.50 on a 4-point scale. The athletic training experiences include working under the direct supervision of a certified athletic trainer and completing clinical proficiencies. Applications are available from the Director of the Athletic Training Education Program and must be completed and submitted to the Program Director by the December graduation date.
The following requirements need to be met in order to apply to the curriculum phase of the athletic training program. Applicants must:

Have a minimum cumulative GPA of 2.50 for ALL course work attempted

Major in Athletic Training

Have completed 4 credit hours of basic college level human anatomy or biology (ex. HSCI-292 or BIOL 109) with a grade of “C” or higher

Have completed a basic college-level First Aid (ATEP-353) with a grade of “B” or higher and have a current CPR card (by American Red Cross, American Heart Association or equivalent)

Have completed a basic college-level athletic training course (ex. ATEP-200) with a grade of “B” or higher

The second category of prerequisites is the Athletic training experiences. The four requirements are:

Obtain a recommendation from a National Athletic Trainers Association Board of Certification (NATABOC) Certified Athletic Trainer who knows the student and his/her interest and commitment toward athletic training studies.

Completion of clinical proficiencies outlined in ATEP 200 and ATEP 353.

An acknowledgement of the student’s ability to meet the demands of the program—with or without accommodations—as presented in the National Athletic Trainers Association (NATA) Education Council’s technical standards.

Provide documentation of at least 70 hours of clinical observation.

In addition to the two categories of prerequisites, professional goals and work experience related to any allied health field (e.g. rescue squad, physical therapy aide, etc.) are taken into consideration when weighing athletic training experiences. Students will be notified, in writing, of the outcome of their application. If the application is accepted, the student will begin the curriculum phase.

The Athletic Training Student Handbook contains details on these and other policies and procedures of the Athletic Training Education Program. This handbook is provided to all students enrolled in ATEP-200.

Once an applicant is accepted to the Professional aspect of Athletic Training Education, the student will begin clinical rotations with affiliated sites. The student is responsible for travel (no more than 30 miles) to reach their assigned site. Some high school sites will require a background check prior to beginning that clinical rotation.

Endorsements
A student in any Teacher Education program may add additional endorsements or licensure areas in Health Education or Physical Education. Information regarding required classes, hours, and Praxis II tests may be obtained in the Teacher Education Office.

National Association of Schools of Music
The Lee University School of Music is an accredited institutional member of the National Association of Schools of Music (NASM). NASM has been recognized by the United States Department of Education as the agency responsible for the accreditation of all music curricula. NASM is a constituent member of the American Council on Education. In the field of teacher education, the Association cooperates with the National Council for Accreditation of Teacher Education. The services of the Association are available to all types of degree-granting institutions in higher education and to non-degree-granting institutions offering pre-professional programs or general music training programs. Membership in the Association is on a voluntary basis.

The general statement of aims and objectives follows:

To provide a national forum for the discussion and consideration of concerns relevant to the preservation and advancement of standards in the field of music in higher education.

To develop a national unity and strength for the purpose of maintaining the position of music study in the family of fine arts and humanities in our universities, colleges and schools of music.

To maintain professional leadership in music training and develop a national context for professional growth of the artist.

To establish minimum standards of achievement in music curricula without restricting an administration or school in its freedom to develop new ideas, to experiment or to expand its program.

To recognize that inspired teaching may rightly reject a “status quo” philosophy.

To establish that the prime objective of all educational programs in music is to provide the opportunity for every music student to develop individual potentialities to the utmost.

The School of Music offers programs of study designed to prepare men and women for the performance or instruction of the musical arts by developing skills needed to become music performers, educators, church musicians, private instructors, or music business professionals. The School of Music offers the Bachelor of Arts in Music (Applied Emphasis), Bachelor of Music Education, Bachelor of Music in Performance, Bachelor of Music in Church Music and Bachelor of Science in Music (Music Business Emphasis) degrees.

Bachelor of Arts in Music
Students wishing to pursue a liberal arts degree may audition for this program. While developing performance and ensemble skills, understanding the place of music in its broader context as one of the humanities is the priority of this major.

Bachelor of Music in Church Music
The Bachelor of Music in Church Music is designed to provide undergraduate professional education for men and women who wish to pursue music ministry leadership in a local church. Church music of today is an increasingly varied and ever-changing area of study and ministry. To be a successful church musician in today’s environment, a student needs to have a balance of historical and biblical knowledge of church music, excellent musical skills, a sound philosophical approach, and the ability to apply these skills and knowledge in a local church setting. A primary goal of the Bachelor of Music in Church Music degree is to develop in the student a balance of skill, knowledge, and practical application through intensive music study supported by a broad general core.

Bachelor of Music – Performance
Students with significant talent and experience in music may audition for this highly selective degree program. Its primary focus is individual performance, preparing the student for study in performance at the graduate level and/or studio teaching. Study of specialized pedagogy and literature complete the music core of theory, history and analysis.

Official Acceptance to the School of Music

Requirements for acceptance of a student to the School of Music which must be completed prior to registration are:

1. Admission to the University
2. The completion of a music theory placement exam.
3. An audition in the primary area of applied study (instrumental, keyboard, or voice).
4. The demonstration of skills that can be developed to enable the student to successfully serve as a performer, music educator, music minister or music entrepreneur. Any deficiencies must be completed during the first year.
5. The completion of a piano placement examination.

Piano Proficiency Requirement

The Piano Proficiency requirement is part of a continuing effort to prepare music graduates for their respective careers in the best and most thor-
ough manner possible. We require it because the development of basic, functional keyboard skills is considered essential to success in all music careers.

Most music majors must demonstrate proficiency in General Skills and Specific Skills. General skills are those required of all majors (except BA Music); specific skills are those associated with the various degree programs offered by the School of Music. Based on an evaluation of each student’s skills before matriculation as a music major, the piano faculty assigns placement in the appropriate level of piano study. Piano Proficiency classes cover both general and specific skills. Students assigned to class piano, MUSA 111, are expected to remain in the sequence of piano classes (MUSA 111, 112,121,122) until the proficiency requirement is completed.

All students assigned to MUSA-111 or higher will play the exam as outlined in the music handbook. If all competencies are not met by the completion of MUSA 122 or its equivalent, the student must register for the appropriate level of piano study in an applied studio, i.e. MUSA-102-PI.

All music majors (except BA Music) must enroll in piano every semester until all aspects of the proficiency are passed. The completion of MUSA 122 or its approved equivalent will be required of all music education majors as a prerequisite to student teaching and other music majors, for graduation.

AP-Advanced Placement in Music Theory

Students receiving a score of four or better on the 1996 version (or later) of the Advanced Placement Examination in Music Theory will be granted proficiency credit for Theory I (MUST-111, 3 credit hours) and Aural Skills I (MUST-112, 1 credit hour). Evidence of qualification for such placement must appear in the student’s advising folder and will take the place of a score on the Music Theory Placement Examination required by the School of Music.

Requirements for Upper-Division Study

Requirements for admission into upper-division study are:

1. A minimum 2.0 overall grade point average in all music courses.

2. The attainment of a 2.0 overall grade point average at the completion of 58 semester hours.

3. The successful completion of an Upper Division Admission Examination (UDAE), a special hearing given before a committee of music faculty members during the fourth semester of applied music study.

4. Transfer students with more than 58 hours must have a minimum 2.0 grade point average in music as well as a minimum 2.0 overall grade point average and must perform the UDAE during their first semester of study at Lee. Placement in upper-division study as the result of an audition is conditional until successful completion of the UDAE.

Recital/Project Requirements

Guidelines governing all degree recitals/projects:

Applications must be submitted by published deadlines.

Performances that vary from the requirements for the student’s degree program—including length and format—must have approval of the appropriate Department Chair.

All recitals/projects require hearings by appropriate faculty committees.

Requirements for the various degree programs:

Bachelor of Arts in Music: a thirty-minute recital or scholarly paper in the senior year

Bachelor of Music Education: a thirty-minute recital in the senior year

Bachelor of Music – Performance: a thirty-minute recital in the junior year and a one-hour recital in the senior year

Bachelor of Music – Church Music: a thirty-minute recital in the senior year

Bachelor of Science – Music Business Emphasis: a senior project in the senior year

Performance Seminar Requirements

Every student majoring in music is required to enroll in and successfully complete Performance Seminar (MUSA-185) for seven semesters. Graded on a pass/fail basis, this course receives zero hours credit. A passing grade is based on the attendance of nine of the Performance Seminar offerings per semester and nine additional music events. Performance Seminar meets every Thursday afternoon at 4 p.m. in the Squires Recital Hall in the Center for the Humanities Building.

Class roll will be taken each class period, and students entering late or leaving early will not receive credit for attendance at the class. To receive credit for the remaining required off campus events or on-campus performances, where roll is not taken by a School of Music representative, the student must bring a program, along with a completed Performance Seminar Attendance Verification Form, to the School of Music Administrative Offices within five business days of the event. A student is required to attend the entire performance in order to receive credit. No exceptions will be made. The additional concerts must come from the categories of vocal/choral, instrumental, and ensemble music, three of each.

Because the School of Music believes that music is a performance art, each student is required to perform at least once per academic year in a studio recital, a Performance Seminar class or a master class program. Students pursuing a Performance degree must perform in an approved venue twice per year. Any student who does not fulfill the performance requirement within the academic year will receive a failing grade for Performance Seminar in the spring semester.

Exceptions to this policy require an approved academic petition submitted to the Dean of the School of Music prior to the conclusion of the semester. The Performance Seminar requirements for transfer students are determined on an individual basis by the Dean of the School of Music.

Performance Ensembles

Students pursuing a Bachelor of Arts in Music are required to enroll in four semesters of a required ensemble (MUSE 101 – 201) according to the area of their primary instrument.

Students pursuing the Bachelor of Music Education are required to enroll in six semesters of a required ensemble (MUSE 101 – 301) according to the area of their primary instrument and four semesters of elective ensem-
ble (MUSE 102 – 202). For instrumental majors, this must include two semesters of Choral Union in order to partially fulfill choral/vocal preparation competencies for instrumental music education majors. Students majoring in Music Education must have completed all ensemble requirements prior to the student teaching semester and may not participate in a performance ensemble during the student teaching semester.

Students pursuing a Bachelor of Science in Music – Music Business Emphasis or Bachelor of Music in Church Music are required to enroll in six semesters of a required ensemble (MUSE 101 – 301) according to the area of their primary instrument and four semesters of elective ensemble (MUSE 102 – 202).

Students pursuing a Bachelor of Music in Performance are required to enroll in seven semesters of a required ensemble (MUSE 101 – 201) according to the area of their primary instrument and four semesters of elective ensemble (MUSE 102 – 202).

Required Ensembles by area of primary instrument:

- Non-keyboard instruments (except guitar): Wind Ensemble or Symphony Orchestra (Symphonic Band if not selected for either listed)
- Guitar: Chamber Music - Guitar
- Keyboard instruments: Choral Union, Wind Ensemble, or Symphony Orchestra
- Voice: Choral Union

For transfer students, the ensemble requirement is determined on an individual basis by the Dean of the School of Music. Only full-time students in good academic standing in the University may participate in touring ensembles.

Official Acceptance into the Teacher Education Program

All students who desire to prepare as K-12 music educators are required to make application for and be accepted into the Teacher Education Program prior to registering for MUED 350 and 400-level methods courses. Application is to be filed when the student is enrolled in MUED-225. Application forms may be obtained in the office of the Director of Teacher Education, Helen DeVos College of Education.

Music Education

A Music Education student may not present a Senior Recital or be enrolled in course work outside of student teaching during the student teaching semester. The student will be allowed to student teach only when he/she has completed the piano proficiency requirement in its entirety, passed all required Praxis II exams, and completed all degree requirements other than those expressly required during the Student Teaching semester. For information on official acceptance to student teaching, see the appropriate section listed under the Helen DeVos College of Education.

Dual Endorsement/Certification in Music Education

A student pursuing a Bachelor of Music Education degree with Instrumental Teacher Licensure, Grades K-12, may add-on Vocal/General Teacher Licensure, Grades K-12, by completing the following courses:

MUED-421 Methods and Materials for Teaching Vocal/General Music, Grades 7-12

MUED-405 Methods and Materials for Teaching Music in the Elementary School

It is also recommended that the student complete four semesters (one credit hour each) of applied voice or voice class as a secondary instrument. Student teaching must include both instrumental and vocal/general experience.

A student pursuing a Bachelor of Music Education degree with Vocal/General Teacher Licensure, Grades K-12, may add-on Instrumental Teacher Licensure, Grades K-12, by completing the following courses:

MUED-231 Brass Techniques
MUED-241 Woodwind Techniques
MUED-251 String Techniques
MUED-261 Percussion Techniques
MUED-422 Methods and Materials of Teaching Marching Band
MUED-423 Methods and Materials of Teaching Concert Band and Orchestra

It is also recommended that the student complete four semesters (one credit hour each) of applied instrumental (non-keyboard) lessons on a secondary instrument. It is recommended that the student participate in an instrumental ensemble two semesters. Student teaching must include both instrumental and vocal/general experience. The instrumental technique classes would substitute for MUED-226, Introduction to Instrumental Music.

Music Endorsement for the Non-Music Education Major

Vocal/General Music, Grades K-12

An individualized program will be determined for each candidate seeking an additional endorsement in Vocal/General Music with course work and/or field experiences selected from the following courses, not to exceed 30 hours. (Prerequisite: MUST-111, MUST-112, MUST-121, and MUST-122.)

Music Resource Center
The Music Resource Center houses reference material, scores, technological resources, and audio-visual materials including DVDs, videos, CDs, cassettes, and LPs. The purpose of the Music Resource Center is to provide Lee University students and faculty with resources and information services to support the university’s programs in church music, applied music, and music education and performance, as well as serving music reference and research needs for the local community.

The audio-visual materials, technological resources and reference materials basically do not circulate outside the MRC to students, but are checked out for two-hour in-house use. Circulating scores may be checked out for a 14-day loan period to undergraduate students and a 28-day loan period to graduate students. Graduate students may check out audio-visual materials for a 24-hour period.

Access to the Music Technology Lab, which is located in the MRC, is approved on an individual basis by signing in at the circulation desk. A valid Lee University ID card or Cleveland Public Library card is required for admittance to the Music Technology Lab (MTL) and to check out materials. Regular hours for the MTL are:

Monday-Thursday  
8:00 a.m. to 10:00 p.m.

Friday  
8:00 a.m. to 7:00 p.m.

Saturday  
11:00 a.m. to 6:00 p.m.

Sunday  
2:00 p.m. to 6:00 p.m.

Hours may vary during holidays and special events.

School of Religion
Terry L. Cross, Dean

Department of Christian Ministries
Thomas J. Doolittle, Chairperson

Department of Theology
Rickie D. Moore, Chairperson

The School of Religion offers programs of study to prepare men and women for ministry in the church and world. Two departments oversee the curriculum and faculty for these programs: the Department of Christian Ministries and the Department of Theology. The Department of Christian Ministries combines theoretical and practical information on a biblical basis in training students for ministry in the contemporary world. It offers the following degrees: the Bachelor of Arts/Bachelor of Science in Pastoral Ministry, Discipleship Ministry, Children’s Ministry, and Youth Ministry; and the B.A. in Intercultural Studies, with emphases in global missiology, urban missions, or vocational studies. Minors may be obtained through the Department of Christian Ministries in Discipleship Ministry, Christian Ministry, Children’s Ministry, Youth Ministry or Intercultural Studies. The Department of Theology offers the B.A. in Biblical and Theological Studies with two emphases: a pre-graduate studies emphasis and a pastoral studies emphasis. Minors in philosophy, New Testament Greek, and Biblical Languages are available from the Department of Theology. The School of Religion oversees the work of the School of Religion programs in the Center for Adult and Professional Studies (CAPS). School of Religion degrees offered through CAPS are as follows: B.A./B.S. in Bible and Theology; B.A./B.S. in Christian Education; B.A./B.S. in Christian Leadership (part of the degree completion program through CAPS); B.A./B.S in Christian Studies; B.A./B.S. in Pastoral Studies; and the Bachelor of Christian Ministry through the Charlotte Center. CAPS also offers a 24-hour Certificate Program (non-degree track) in several emphases. The curriculum, faculty, and programs are administered through CAPS but are overseen by the School of Religion. The School of Religion provides several graduate programs of study in the disciplines of Biblical Studies, Theological Studies, and Ministry Studies. In addition to these various degree programs, the School of Religion oversees the Religion Core Minor that undergraduate students at Lee University complete for graduation requirements. The Religion Core Minor is operated through the Department of Theology. It consists of 18 hours in the following schema: Old Testament, New Testament, Biblical and Theological Foundations of Benevolence, Introduction to Theology, Introduction to Christian Ethics, Christian Service and a Religion Capstone course within one’s major.

The Department of Christian Ministries prepares men and women for servant leadership in Christian ministry. The theological perspective from which the department works is both evangelical and Pentecostal. The degree programs are designed to prepare people for the work of ministry and to enable graduates to do further studies in graduate or professional schools. A personal commitment to Jesus Christ as Lord and Savior as well as submission to the guidance and empowerment of the Holy Spirit are the controlling perspectives which guide the educational task of the department.

The mission of the Department of Christian Ministries emphasizes the development of the whole person. The goal is to facilitate Christian character, service to others and knowledge of the Christian faith. A milestone in the educational process occurs at the beginning of the junior year. Students who have previously self declared as majors in the department are reviewed by the department faculty. The review process emphasizes the three-fold dimension of ministry: being, doing and knowing. It considers three key areas: Christian character, Christian service and knowledge of the Christian faith. Christian character reflects both spirituality and maturity. Christian service relates to the ability to do the normal tasks of ministry. Knowledge of the Christian faith includes knowledge of Scripture and the various areas of ministry. Each student applying for admission to the majors within the department is expected to demonstrate evidence of God’s call upon his or her life in these areas.

Criteria for Continuation in a Major

The student majoring in the Department of Christian Ministries must help create an evaluation portfolio during the second half of the sophomore year (45-59 hours completed). The portfolio must address the three key areas of concern in the following ways:

1. Christian Character
   a. Be in good standing with the university. The student must not be on social or chapel probation.
   b. Be in good standing with the community of faith. A reference letter is required from the student’s pastor or ministry supervisor.

2. Christian Service
   a. Be committed to regular church and chapel attendance.
   b. Be committed to Christian ministry with evidence of active involvement.

3. Knowledge of the Christian Faith
   a. Be in good standing with the academic program. The student should have completed at least 45 hours with a minimum grade point average of 2.0.
   b. Be committed to academic excellence. The student’s academic record should show ongoing progress toward the completion of the degree program.

Process for Continuation in a Major

1. Submit the following materials for the evaluation portfolio:
   a. Reference letter from the student’s pastor or ministry supervisor on the standard reference form.
   b. Reference letter from a Lee University professor on the standard reference form.

2. Be reviewed and approved by the Department Admissions Retentions Committee.

Suspension from the Major

The student may be suspended from majoring in the Department of Christian Ministries if he or she fails to meet or maintain the criteria for continuation in the major. The following situations are some reasons that a student might be suspended:

1. Placement on social probation
2. Chapel probation for three or more months in any academic year
3. Academic probation for two continuous semesters
4. Violation of Lee University policies on student behavior

If a student is suspended from a Department of Christian Ministries major, he or she will receive written instructions regarding the re-application and appeal process.

Major Programs of Study

The Department of Christian Ministries offers majors in Children’s Ministry, Discipleship Ministry, Intercultural Studies, Pastoral Ministry and Youth Ministry. Each program combines biblical/theological knowledge with practical ministerial skills, enabling students to succeed in graduate and professional studies as well as in church ministries. The distinctive of each of these areas of practical ministry are described below.
Children's Ministry
The Children's Ministry degree has the primary purpose of preparing men and women for church ministry with children. The curriculum delivers an understanding of the spiritual, cognitive, moral and social development of children, birth through twelve years old. The courses in the major explore various models of children's ministry and assess their strengths and weaknesses. The course of study considers both the methods and the components of effective ministry to children. It relates ministry to children to the broader context of ministry to the family. The degree program requires an internship in children's ministry.

Discipleship Ministry

The Bachelor of Arts/Science in Discipleship Ministry seeks to prepare men and women for ministry in a local church context in the area of discipleship ministry. It takes seriously the imperative command of Matthew 28 to “make disciples” of all nations. This degree program will intentionally develop knowledge, skills and attitudes necessary for small group ministry. Most educational settings (e.g., Sunday school, Bible studies) are by nature small group. The primary purpose of this degree program will be to intentionally enhance and augment existing programs while at the same time offering breadth and depth in the design of new programs, built around the methodology of small groups. In combination with the “common core” required of all Christian Ministries students, this degree will prepare ministers in Bible, theology, and Christian Education for entry-level positions in church administrative staffs (e.g. director of small groups, discipleship, and/or positions in Christian education or as associate pastors).

Intercultural Studies

The Intercultural Studies degree is designed to train men and women for ministry in a culture other than their own. This could be missions in the arena of the two-thirds world or the secularized West, with special emphasis on the emerging urban, global world. The degree program combines biblical/theological knowledge with skills in cross-cultural communication. It includes courses that address the multicultural dimensions of our cities’ ethnic, minority and immigrant groups and diverse cultures and faiths converging on the cities of the world. The coursework includes biblical basis of missions, strategies for evangelizing specific people groups within our cities and across the globe. The central focus of the degree program is recognizing and understanding the dynamics, problems, challenges and opportunities these contexts present and their implications for holistic mission and ministry. The major requires knowledge of a foreign language and is therefore offered only as a Bachelor of Arts degree.

Youth Ministry

The Bachelor of Science/Arts in Youth Ministry is designed to prepare men and women for the specific ministerial role of working with adolescents in a variety of settings, including local church and para-church ministries. The major is a hybrid of the Discipleship and Pastoral Ministry majors, since much of what a youth pastor does involves both areas. Youth Ministry, as a vocational ministerial calling, is in high demand in many denominations and is typically one of the first staff positions added by senior pastors. In the early stages of the major, the program gives the ministerial student foundational information on the various age groups with specific attention given to adolescent development. As the student progresses through the major, focus is given to more advanced topics (e.g., Models of Youth Ministry and Strategies for Youth Ministry).

Evangelical Teacher Association Diploma
As a member of the Evangelical Teacher Association, Lee University is qualified to offer the ETA diploma in teacher training in church education. While the student is enrolled at Lee, he/she can meet requirements for the ETA diploma as he/she meets other requirements for graduation.

The ETA diploma indicates that the holder is sufficiently proficient in Bible and Christian Education to qualify as an instructor of local church teachers in a leadership training program. It is recognized throughout the world by evangelical Christians. Over two hundred schools of higher learning and graduate seminaries belong to ETA. The courses required for this award are twelve hours of Bible and fifteen hours of Christian Ministries courses including the following: CHMN 210, CHMN 230, CHMN 320, CHED 241, and CHED 342 or CHED 442.

The student must make application for the diploma to the Chairperson of the Department of Christian Ministries at the beginning of the semester in which he/she plans to graduate. The cost for the diploma is $12.

Miscellaneous
For each of the preceding programs of study in this department the GPA is computed from the specialty area.

Students with significant cross-cultural experience may petition the ISP Program Director for permission to substitute other courses in lieu of a cross-cultural internship. Substitutions require the approval of the Department Chairperson and Program Director for Intercultural Studies.

BiBL-101, BiBL-102 and THEO-230 are prerequisites to 300- and 400-level courses in the disciplines of Biblical Studies and Theological Studies.

Theological Studies

The Department of Theology encompasses the disciplines of biblical, theological, and historical studies, as well as philosophy and biblical languages. It offers a major in Biblical and Theological Studies. Students may choose one of two tracks in this major. The first is a Pre-Graduate Studies Emphasis in which further training at the graduate level or seminar is anticipated. The second is a Pastoral Studies Emphasis in which some skills requisite for pastoral ministry are offered.

Students are strongly encouraged to speak with their advisors concerning the difference between these two degrees and the other programs offered in the School of Religion so that they may choose the one that best reflects their calling and gifts. The Department of Theology also serves the university as a whole by providing an 18-hour minor to university graduates. This is described as the Religion Core. The goal of this core is to enable all graduates to be conversant in the Christian faith and to begin integrating the faith in all aspects of their lives and vocations.

Biblical and Theological Studies
The major in Biblical and Theological Studies is intended for the person who wants a thorough preparation in biblical and theological knowledge. It is the recommended degree program for those who plan to continue their education at the graduate level. The degree with Pastoral Studies Emphasis may also be useful for thorough preparation in biblical and theological studies as well as some training in the skills of pastoral ministry.

The Biblical and Theological Studies degree provides a foundation of Bible content, Christian doctrine, biblical languages (especially New Testament Greek), and Church history. Elements from the discipline of philosophy are also introduced to students for the purpose of making them conversant in
the major issues of thought throughout the ages. This program is ideal for those who plan to work in the educational ministry of the church.

Religion Minor

As part of the university’s general core of courses, the Religion Core is a set of eighteen hours in the following courses: BIBL-110, BIBL-111, RELG-200, Christian service component, THEO-230, THEO-231 and one three-hour Religion “Capstone” course within one’s major that integrates the Christian faith with one’s chosen discipline.

Religion Core courses should be taken in the order in which they are listed here. Any variance to this order may result in a student not being prepared for the work in an upper level course. This sequence, therefore, is crucial since material in the upper level courses presumes knowledge of the lower level courses. The only possible variation is between BIBL-110 and BIBL-111. These courses can be taken in either order, but both must be completed before taking THEO-230. In addition, THEO-230 must be completed before taking THEO-231. RELG-200 should be taken after

ATEP-311 Orthopaedic Evaluation II
A continuation of Orthopaedic Evaluation I examining special tests of the spine and upper body.
Prerequisites: ATEP-310.
Credit Hours: 3

ATEP-312 Physical Assessment
A thorough study of the pre-participation physical examination and complete medical physical assessment of athletes and the physically active.
Prerequisites: HSCI-292 or HSCI-293.
Credit Hours: 3

ATEP-353 First Aid/CPR for Professional Rescuer
This course is cross-listed with HLTH-353 and HSCI-353 but contains CPR training. It provides effective recognition and treatment skills for respiratory and cardiac emergencies. Skills students are expected to master and demonstrate include the use of breathing devices, two rescuer CPR and automatic external defibrillation. Requires co-requisite enrollment in ATEP-353L.
Prerequisites: Credit Hours: 2

ATEP-353L First Aid/CPR for Professional Rescuer
This is the Lab Component for ATEP-353.
Prerequisites: Credit Hours: 1

ATEP-370 Therapeutic Modalities in Athletic Training
Study of theories and application of modalities used in the athletic training setting in the treatment of injuries.
Prerequisites: ATEP-200 and ATEP-201.
Credit Hours: 3

ATEP-380 Therapeutic Exercise
Study of current rehabilitation theories and application in the athletic training setting.
Prerequisites: ATEP-370.
Credit Hours: 3

ATEP-391 Pharmacology for the Athletic Trainer
This course provides athletic training students with an understanding of indications for pharmacological intervention in the treatment of various pathological states with emphasis on the health care and maintenance of the physically active.
Prerequisites: ATEP-200 and HSCI-398.
Credit Hours: 3

ATEP-400 Practicum in Athletic Training III
Instruction, practice and application of clinical proficiencies as established by the NATA Education Council.
Prerequisites: ATEP-301.
Credit Hours: 1

ATEP-401 Practicum in Athletic Training IV
Instruction, practice and application of clinical proficiencies as established by the NATA Education Council.
Prerequisites: ATEP-400.
Credit Hours: 1

ATEP-410 Research and Special Topics in Athletic Training
A course that addresses a variety of subjects germane to athletic training. Analysis and criticism of current literature relevant to athletic training and sports medicine will be emphasized.
Prerequisites: ATEP-200.
Credit Hours: 3

ATEP-420 Pathophysiology for the Athletic Trainer
An in depth study of the mechanism of injury, wound healing, and recovery and/or impairment. Emphasis will be on complications to healing and recovery of injuries sustained during physical activity.
Prerequisites: ATEP-260 and HSCI-398 or HSCI-292 and HSCI-293.
Credit Hours: 3

ATEP-460 Administration & Supervision of Athletic Training Programs
This course focuses on the organization, supervision and administration of sports medicine programs. Emphasis includes health care services, financial management, training room management, personnel management and public relations.
Prerequisites: ATEP-200.
Credit Hours: 3

BIBL-101 Old Testament Survey
A study of the Old Testament, its translations and historical background giving the student a survey of each book as a unit. This course is primarily a survey of Old Testament history and literature.
Prerequisites: None
Credit Hours: 3

BIBL-102 New Testament Survey
A study of the intertestamental period and the development of the Gospels with attention given to the life and teachings of Christ continuing with Acts through Revelation. Special attention is given to the early development of the church.

A comparative, expository and theological study of the Epistles to the Romans and Galatians with emphasis on the cardinal Christian doctrines as formulated in these documents. The course includes a study of the influences of both Judaism and Hellenism on the cultural and religious scene in the first century A.D.
Prerequisites: BIBL-101 or BIBL-111, and BIBL-102 or BIBL-110
DAL additional prerequisites: BIBL-261, and junior status.
Credit Hours: 3

BIBL-404 I and II Corinthians
An expository and theological study of I and II Corinthians. Special attention is given to the doctrinal and practical issues faced in the early Christian community in the Hellenistic world, taking into account the cultural and religious environments of the day.
Prerequisites: BIBL-101 or BIBL-111, and BIBL-102 or BIBL-110
DAL additional prerequisites: BIBL-261 and junior status.
Credit Hours: 3

BIBL-406 General Epistles
An English Bible book study in I and II Peter, James and Jude. Primary emphasis is placed on an inductive study of the contents of each book.
Prerequisites: BIBL-101 or BIBL-111, and BIBL-102 or BIBL-110
Credit Hours: 3

BIBL-410 Revelation
A study of the book of Revelation with appropriate consideration of Early Jewish literature, the New Testament, and other apocalyptic passages. Special attention is given to the language and symbolism of the book.
Prerequisites: BIBL-101 or BIBL-111, and BIBL-102 or BIBL-110
Credit Hours: 3

BIBL-421 Pentateuch
A detailed study of the first five books of the Old Testament with special attention to their social and theological contexts and composition. The course will also consider the questions of legal and cultic authority and the figure of Moses in the portrayal of that authority.
Prerequisites: BIBL-101 or BIBL-111, and BIBL-102 or BIBL-110
Credit Hours: 3

BIBL-450 Directed Study in Biblical Studies
A study of an approved aspect of biblical/theological inquiry in which the student contracts with the director of the study concerning course requirements, evaluation procedure and course credit.
Prerequisites: BIBL-101 or BIBL-111, and BIBL-102 or BIBL-110
Credit Hours: 1-4

BIBL-483 Special Topics in Biblical Studies
This course provides an intensive study of selected topics in biblical studies. Topics will vary by semester.
Prerequisites: BIBL-101 or BIBL-111, and BIBL-102 or BIBL-110
Credit Hours: 3

BIOL-103 Human Biology
A foundations course in biological science which focuses on the general concepts of life as demonstrated by the human body through its chemistry, organization and continuity. A practical and relevant approach to understanding and maintenance is presented. Requires co-requisite enrollment in BIOL-103L. Non-science majors only.
Prerequisites:
Credit Hours: 4

BIOL-104 Environmental Science
A course that presents elementary concepts of scientific methodology and discusses issues relevant to understanding the natural environment and human activity. Scientific, political, and socioeconomic aspects of human activity related to the environment will be introduced and examined. This course will aim toward instilling an understanding of how and what scientifically-based points of view have contributed to the current climate of discussion regarding the environment. This course will emphasize the development of critical thinking as well as investigative and comprehension skills. Requires co-requisite enrollment in BIOL-104L. Non-science majors only.
Prerequisites:
Credit Hours: 4

BIOL-107 Australian Wildlife Biology
This lab science class is offered through a study abroad trip to Australia. The course will introduce the unique wildlife of Australia, providing an insight into the geographical and biological processes responsible for this uniqueness, and investigating the impact that humans have on diverse Australian ecosystems. The three week trip will allow students to visit a variety of these ecosystems and experience first hand their remarkable diversity, complexity and fragility.
Prerequisites: Corequisite: BIOL-107L, GNST-252.
Credit Hours: 4

BIOL-108 Introduction to Biotechnology
This course offers a concise overview of the field of modern biotechnology and will equip the non-scientist to understand the science and issues of biotechnology that confront the average citizen. At relevant points throughout the course, the societal, legal and environmental implications of modern biotechnology are discussed. Requires co-requisite enrollment in BIOL-108L. Non-science majors only.
Prerequisites:
Credit Hours: 4

BIOL-109 Principles of Biology I
The first semester of a two semester sequence for majors in the biological sciences. The focus is on the foundational principles and concepts of life on planet earth. The processes of science are applied to the study of the nature of life. Life's chemistry, organization, continuity and diversity are addressed. Requires co-requisite enrollment in BIOL-109L.
Prerequisites: High school biology and chemistry or permission of the instructor.
Credit Hours: 4

BIOL-110 Principles of Biology II
The second semester of a two semester sequence for majors in the biological sciences. The focus is on the foundational principles and concepts of life on planet earth. The processes of science are applied to the study of the nature of life. Life's chemistry, organization, continuity and...
diversity are addressed. Requires co-requisite enrollment in BIOL-110L. 
Prerequisites: BIOL-109 
Credit Hours: 4 

BIOL-242 Genetics
An introduction to the three areas of genetics, including traditional (Mendelian) genetics, molecular genetics, and population genetics. Laboratory work will introduce students to molecular genetics techniques currently used in research laboratories. Requires co-requisite enrollment in BIOL-242L.
Prerequisites: BIOL-110 and CHEM-112, (BIOL-109 and CHEM 112 for BIOCH.BS and BIOCP.BS/BIOL 109 and CHEM 112 or CHEM 113/119 for HSCI.BS ) 
Credit Hours: 4 

BIOL-271 - 274 Special Topics in Biology
A course used to comply with requests for special topics in biology. Lecture and laboratory hours will vary with the courses taught. May be repeated for credit.  
Prerequisites: BIOL-242 
Credit Hours: 1 to 4 

BIOL-285 Pre-Professional Seminar
A course designed to prepare pre-health professions students for the rigors of applying to and attending graduate school. It is intended to enhance entrance exam scores for health professions schools. Cannot count toward major electives in any program. This seminar should be taken during the second semester Sophomore year or first semester Junior year. 
Prerequisites: BIOL-242 or HSCI-250 
Credit Hours: 2 

BIOL-295 Medical Missions Internship
Provides students an opportunity to have hands on experience providing medical care in a developing country. It provides directed learning under the mentorship of medical and dental professionals in a cross-cultural setting. 
Prerequisites: BIOL-109 and acceptance into the SOSMM Program. This course is service-enhanced and requires co-requisite enrollment in BIOL-295S. 
Credit Hours: 3 

BIOL-300 Science Colloquy
A series of formal lectures, position papers, and/or debates focused on a contemporary scientific issue. Presenters are normally recognized leaders holding a particular view. 
Prerequisites: 
Credit Hours: 1 

BIOL-303 Cell Biology
A study of the relationship of cellular structure and function, with emphasis upon cellular energetics, biosynthesis and reproduction. 
Prerequisites: BIOL-242 and CHEM-113 or BIOL-242 and CHEM-281. 
Credit Hours: 3 

BIOL-306 Comparative Vertebrate Anatomy
The study of the morphology, physiology and phylogeny of the organ systems of vertebrates. Requires co-requisite enrollment in BIOL-306L. 
Prerequisites: BIOL-242 

Credit Hours: 4 

BIOL-309 Invertebrate Zoology
A survey of the invertebrate taxa of Kingdom Animalia to provide a foundation for further studies in environmental science and biodiversity. There will be an emphasis on field-related experiences in the laboratory component of this course. Requires co-requisite enrollment in BIOL-309L. 
Prerequisites: BIOL-242 
Credit Hours: 3 

BIOL-310 Vertebrate Zoology
A survey of the vertebrate taxa of Kingdom Animalia to provide a foundation for further studies in environmental science and biodiversity. There will be an emphasis on field-related experiences in the laboratory component of this course. Requires co-requisite enrollment in BIOL-310L. 
Prerequisites: BIOL-242 
Credit Hours: 3 

BIOL-311 Entomology
An introductory study of the basic structures, functions, development, behavior, diversity and control of insects. Emphasis will be placed upon biodiversity and the major roles played by these arthropods. When offered as a part of the Summer of Studies in Medical Missions, the emphasis will be on medical relationships and identification. Requires co-requisite enrollment in BIOL-311L.  
Prerequisites: BIOL-242 
Credit Hours: 4 

BIOL-331 Microbiology
An introduction to the principles and techniques for the study and identification of bacteria and other microorganisms. The character of microbial organisms and infectious diseases are included with emphasis on modes of transmission, diagnosis, treatment, management and control. Laboratory work consists of techniques in isolation, culturing, staining, and identification. Requires co-requisite enrollment in BIOL-331L. 
Prerequisites: BIOL 303 
Credit Hours: 4 

BIOL-341 Parasitology
Life cycles, epidemiological factors, interrelationships of parasite and host, and underlying principles of treatment and prevention. Requires co-requisite enrollment in BIOL-341L.  
Prerequisites: BIOL-109 and formal acceptance into SOSMM Program. 
Credit Hours: 4 

BIOL-351 Human Physiology
A course designed to present the fundamental principles of physiology for students in biology, nursing, pharmacy, pre-med, pre-dental or other allied health professionals. It is designed to integrate and synthesize physiological processes among the different systems. 
Prerequisites: BIOL-303 or CHEM-321 or HSCI-293. 
Credit Hours: 3 

BIOL-371 - 374 Special Topics in Biology
A course used to comply with requests for special topics and advanced studies in biology. Lecture and laboratory hours will vary with the courses taught. May be repeated for credit. 
Prerequisites: BIOL 303 
Credit Hours: 1-4
BIOL-380 Introduction to Research
An introduction to the process of conducting scientific research, typically in the area of specialty of the instructor. During the semester, the student will be responsible for conducting a literature review on the topic and will then develop and implement a research plan with methods and materials (and a chemical hygiene plan if required). Appropriate data analysis and interpretation will follow completion of the practical component of the project, and the student will be encouraged to present their work in a departmental seminar or at a conference.
Prerequisites: BIOL-242
Credit Hours: 2

BIOL-381 Research
Continuation of 380.
Prerequisites: BIOL 380
Credit Hours: 1

BIOL-382 Research
Continuation of BIOL 381. Permission of instructor.
Prerequisites: BIOL 381
Credit Hours: 1

BIOL-383 Research
Continuation of BIOL 382.
Prerequisites: 
Credit Hours: 1

BIOL-391 Animal Behavior
Animal Behavior is an exploration into the proximate and ultimate causes of the actions animals perform. What kinds of behavior do animals exhibit, how do they accomplish them, and what do they gain from doing them? The study of animal behavior is particularly rewarding when we try to understand how an animal’s genes, physiology, ecology and evolutionary history are integrated into the development of the behavioral repertoire. Requires co-requisite enrollment in BIOL-391L.
Prerequisites: BIOL-303
Credit Hours: 4

BIOL-394 Ecology
Ecology is all about the patterns of life we see in the natural world—it is the study of the distribution and abundance of organisms, and the complex interaction of physical, chemical and biological factors that contribute to the formation of these patterns. Human impacts on natural systems and processes will also be discussed.
Prerequisites: BIOL-242
Credit Hours: 3

BIOL-395 Health Perspectives: Cancer and AIDS
A survey of the nature, causes, prevention, treatment and future prospects of each disease. Although intended primarily for aspiring health professionals, it would be of benefit to everyone interested in learning more about these conditions and their impact on human society. Cancer will be the focus in even years and AIDS will be the focus in odd years.
Prerequisites: BIOL 303 or CHEM 321 or HSCI 293.
Credit Hours: 3

BIOL-403 Molecular Biology
An introduction to the principles and techniques for understanding both the mechanisms of molecular biology and the laboratory methods for studying molecular mechanisms. Laboratory work consists of techniques in DNA and protein isolation, analysis, and manipulation. Requires co-requisite enrollment in BIOL 403L.
Prerequisites: BIOL-303 or CHEM-321 and BIOL 242.
Credit Hours: 4

BIOL-405 Virus Biology
A foundation study of current concepts and procedures in virology. Virus structure, function, mechanisms, and host cell interactions are emphasized.
Prerequisites: BIOL-303 or CHEM-321.
Credit Hours: 2

BIOL-431 Structural Histology
An introductory course in the study of cells, tissues and organs. Special emphasis will be placed on the relationship between structural organization and function.
Prerequisites: BIOL-242
Credit Hours: 3

BIOL-432 Immunology
A foundation study of current concepts and procedures in immunology. An examination of the immune system in both health and disease is emphasized.
Prerequisites: BIOL-303 or CHEM-321
Credit Hours: 3

BIOL-451 Evolutionary Biology
Covers themes pertinent to observational and theoretical evidences of contemporary evolutionary biology. The major conceptual underpinnings of modern evolutionary thought will be extensively discussed in light of a Christian worldview. This course will approach evolutionary biology and biblical thought philosophically and scientifically, emphasizing areas of corroboration, and stress the development of critical thinking, as well as investigative and comprehension skills. Requires co-requisite enrollment in BIOL-451L.
Prerequisites: BIOL-303, Senior Status
Credit Hours: 4

BIOL-465/475 Practicum in Teaching
A practicum which gives students the opportunity to gain teaching experience, enhance their knowledge of natural science and mathematics, and acquire skills that make them more attractive to prospective graduate schools.
Prerequisites: Successful completion of 15hrs of regular major courses in their program. Requires approval of application and permission of instructor.
Credit Hours: 1

BIOL-490 Senior Seminar
The primary focus of students will be to identify a potential research question and to develop a research project to address the question. This will include writing a thorough grant proposal for the project, including going to the scientific literature to support the proposed research.
Prerequisites: BIOL-303
Credit Hours: 1

BIOL-491 Senior Research
Experience in science research projects under supervision of staff members.
Prerequisites: Senior Seminar (BIOL-490)
Credit Hours: 2

BIOL-492 Professional Presentation
A course designed to give academic credit to those students who excel by preparing a research paper worthy of publication in a reputable scientific journal and/or presentation to an annual meeting of a recognized scientific society.
Prerequisites: Permission of instructor.
Credit Hours: 1

BIOL-495 Science and Scripture
Comparative study of related scientific and theological ideology with emphasis on areas of apparent discrepancy. Through lecture, research papers and guided class discussion, an attempt is made to demonstrate the necessity and possibility of harmonizing scientific and biblical truth. Not to be counted toward an endorsement for teacher certification in biology. Serves as the biology capstone and does not count as a biology elective.
Prerequisites: THEO-231, 90 hours minimum.
Credit Hours: 3

BUSN-101 Introduction to Business
A survey of the various fields of business designed to acquaint the student with the basic principles and practices involved in the interrelated functions of business. Further, students are introduced to career possibilities in business.
Prerequisites:
Credit Hours: 3

BUSN-241 Business Statistics
A study of statistical analysis and business decision theory. The topics covered include decision making under uncertainty, sampling, probability concepts, statistical inference, classical statistical decision theory, and the economics of decision rules.
Prerequisites: MATH-111
Credit Hours: 3

BUSN-251 Business Communications
A study of the principles, practices and mechanics of writing effective business letters, reports, and presenting professional presentations.
Prerequisites: ENGL-110
Credit Hours: 3

BUSN-281 Special Topics in Business
A course used to comply with requests for special topics and studies in business. Lecture hours will vary with the courses taught. May be repeated for credit.
Prerequisites: Will vary according to topic.
Credit Hours: 1

BUSN-282 Special Topics in Business
A course used to comply with requests for special topics and studies in business. Lecture hours will vary with the courses taught. May be repeated for credit.
Prerequisites: Will vary according to topic.
Credit Hours: 2

BUSN-283 Special Topics in Business
A course used to comply with requests for special topics and studies in business. Lecture hours will vary with the courses taught. May be repeated for credit.
Prerequisites: Will vary according to topic.
Credit Hours: 3

BUSN-284 Principles of Public Relations
An introduction to public relations for profit and nonprofit organizations. Topics include the history, principles, theories, practices, planning and research of the public relations field. This is the foundational course for all subsequent study in public relations.
Prerequisites: COMM-201
Credit Hours: 3

BUSN-286 Principles of Advertising
This course looks at advertising in society and focuses on the communication aspects of advertising. Topics include types and functions of advertising and the fundamentals of broadcast and publications advertising.
Prerequisites: COMM-201
Credit Hours: 3

BUSN-303 Business Law
A study of the principles of law most frequently involved in business transactions with emphasis in the Uniform Commercial Code, including Contracts, Bailments, Sales and Government Regulation. A basic aim is to develop techniques in the analytical, decision-making capacity of the students.
Prerequisites: ENGL-110 and BUSN-101 or ACCT-241
Credit Hours: 3

BUSN-304 Business Law
Prerequisites: BUSN-303
Credit Hours: 3

BUSN-305 Principles of Business Management
A study of the managerial process which emphasizes the management functions of planning, organizing, decision-making, and controlling with an integration of the concepts of the behavioral sciences as applied to managing people in organizations.
Prerequisites: ENGL-110 and BUSN 101 or ACCT 241
Credit Hours: 3

BUSN-307 Business Finance
A study of the nature and scope of business finance. Emphasis is on sources and costs of short-term and long-term financing, financial analysis and interpretation, capital budgeting, and the cost of capital.
Prerequisites: ACCT-242
Credit Hours: 3

BUSN-309 Principles of Marketing
A study of the principles and methods of marketing including the activities utilized in the movement of goods and services from producer to consumer while addressing governmental and consumer relationships. The course investigates the processes of product development, promotion, distribution, and pricing.
Prerequisites:
Credit Hours: 3
BUSN-345 Management Science
A further study of statistical and quantitative techniques used in business decision-making. Quantitative techniques and business applications include the following: hypothesis testing, forecasting, linear programming, PERT, CPM, queuing models, and inventory models. Prerequisites: BUSN-241 and CISS-101
Credit Hours: 3

BUSN-353 International Business
A study of the special problems involved in doing business across national boundaries, with emphasis on the economic basis for trade and the impact of religious, cultural, and political environment on business practice. Includes an evaluation of the management, marketing, and financial practices of multinational corporations from a Christian perspective. Prerequisites: BUSN-305
Credit Hours: 3

BUSN-365 Project Management
A course designed to develop the students’ understanding of the fundamental knowledge, processes, terminology, and good practices of project management. Covers all phases of a project, including proposal development, planning, execution and closing. Requires co-requisite enrollment in BUSN-365L. Prerequisites: BUSN-305 and BUSN 345
Credit Hours: 3

BUSN-381 Special Topics in Business
A course used to comply with requests for special topics and studies in business. Lecture hours will vary with the courses taught. May be repeated for credit. Prerequisites: Will vary according to topic.
Credit Hours: 1

BUSN-382 Special Topics in Business
A course used to comply with requests for special topics and studies in business. Lecture hours will vary with the courses taught. May be repeated for credit. Prerequisites: Will vary according to topic.
Credit Hours: 2

BUSN-383 Special Topics in Business
A course used to comply with requests for special topics and studies in business. Lecture hours will vary with the courses taught. May be repeated for credit. Prerequisites: Will vary according to topic.
Credit Hours: 3

BUSN-399 Honors Independent Study
An independent study supervised by three faculty members which provides the student who qualifies under the honors guidelines the opportunity to pursue a special topic of his/her choice. Prerequisites: Credit Hours: 1 to 4

BUSN-410 International Marketing
This course provides an introduction to international marketing theory and research with practical examples of solutions to complex international problems. It focuses on the political, legal, economic, and cultural considerations inherent in international business and their relationship to market decision making. Prerequisites: BUSN-309 and BUSN-353
Credit Hours: 3

BUSN-420 Organizational Behavior & Human Resource Management
An integrated study of the theories and concepts which effect individual, group and organizational behavior provide the foundation for exploring major human resource process and tools to build a knowledge portfolio for future business managers. Classical and modern theories of creating effective groups, conflict management, performance management, recruitment, career & skill development, work development, and compensation process are evaluated through the lens of effective organizational cultural components. Emphasis is placed on critical thinking attributes such as analytical reasoning, synthesis, and problem solving. Prerequisites: BUSN-305
Credit Hours: 3

BUSN-430 Short-Term Financial Management
This course covers how to make decisions about cash and liquidity positions, credit extension and collections, payables, bank relations, short-term investing and borrowing, managing interest rate and foreign exchange risks, and developing near-term financial plans. Each issue is addressed with analytical routines, valuation analysis, and description and evaluation of current business practices. Financial spreadsheet modeling provides hands-on, usable skills. The class will also provide partial preparation for students wishing to take the Certified Cash Manager exam. Prerequisites: BUSN-307
Credit Hours: 3

BUSN-440 International Financial Management
This course covers how to make financial decisions in an international environment. International financial markets, exchange rate determination, currency derivatives, forecasting exchange rates, exposure measurement and management, multinational capital budgeting, multinational cost of capital, and multinational cash management are covered. Each of those issues is addressed with analytical routines, valuation analysis, and description and evaluation of current business practices. Financial spreadsheet modeling provides hands-on, usable skills. Prerequisites: BUSN-307 and BUSN-353
Credit Hours: 3

BUSN-451 Managerial Communication
A case-analysis approach to the processes involved in management communication and the ways business students and managers can become more knowledgeable and skilled as communicators. Prerequisites: BUSN-251 and BUSN-305
Credit Hours: 3

BUSN-453 Business Management in Asian Markets
This course is intended to familiarize students with the factors that shape the Asian business markets by giving students the opportunity to apply and extend basic concepts from other Department of Business courses in an Asian context. Moreover, the course should help students understand and appreciate Asian cultures and their influence on the global marketplace. The class material will be discussed within a framework of “real-world” operational and management principles. Prerequisites: BUSN 305
Credit Hours: 3
BUSN-461  Applied Research in Operations Management
Fundamental concepts, models, and techniques of operations in the
business firm. Materials cover development and control of the system’s
output (goods, services, and ideas), the transformation process (flows,
facilities, and operating centers), and the system’s inputs (materials,
time, and energies).
Prerequisites: BUSN-305 and BUSN-345
Credit Hours: 3

BUSN-465  Entrepreneurism & Small Business Management
This course prepares students for the many responsibilities of managers
in starting and operating small businesses. The course will focus on
the creative aspects of identifying the “idea”, business planning, launching
new ventures, early operations issues, and financial management. While
the course is designed primarily for entrepreneurial ventures, many
of the principles will be applicable to entrepreneurial ventures as well
(ventures launched from within existing businesses).
Prerequisites: BUSN-305 and BUSN-307
Credit Hours: 3

BUSN-470  Investments
An introduction to the basics of investing, ranging from descriptive mate-
rial on how securities are bought and sold to theoretical material on how
securities are valued in an efficient financial market.
Prerequisites: BUSN-307
Credit Hours: 3

BUSN-479  Organizational Communication & Leadership
A course on the role of communication in organized leadership.
Examines organizational behavior from the standpoint of historical and
contemporary theories along with examples and case studies. Emphasis
is placed on the role of communication in the development, maintenance
and management of organizational structures.
Prerequisites: BUSN-251 and BUSN 305
Credit Hours: 3

BUSN-480  Principles of Insurance & Risk-Management
A study of the principles of insurance and risk-management to identify
risk exposures and the appropriate risk-management techniques.
Prerequisites: BUSN-307
Credit Hours: 3

BUSN-481  Special Topics in Business
A course used to comply with requests for special topics and studies
in business. Lecture hours will vary with the courses taught. May be
repeated for credit.
Prerequisites: Will vary according to topic.
Credit Hours: 1

BUSN-482  Special Topics in Business
A course used to comply with requests for special topics and studies
in business. Lecture hours will vary with the courses taught. May be
repeated for credit.
Prerequisites: Will vary according to topic.
Credit Hours: 2

BUSN-483  Special Topics in Business
A course used to comply with requests for special topics and studies
in business. Lecture hours will vary with the courses taught. May be
repeated for credit.
Prerequisites: Will vary according to topic.
Credit Hours: 1

BUSN-492  Internship in Business
A course designed to provide practical field experience for the business
student who will explore the application of theory to practice. The course
is designed for junior and senior departmental majors and minors.
Prerequisites: 3.0 GPA and approval of application (see course instructor
for application).
Credit Hours: 1 to 6

BUSN-495  Business Ethics
Application of basic Christian principles to modern standard business
practices. Emphasis will be placed on ethical decision-making in the
business arena. The course is taught jointly with faculty from the School
of Religion.
Prerequisites: THEO-231, BUSN-305, and ECON-312
Credit Hours: 3

BUSN-497  Strategic Management
This course deals with the development of strategy for the organization.
The focus will be on how the organization designs strategy in order to
accomplish strategic objectives consistent with the organizational mis-

sion and goals. The strategic landscape will be developed and analyzed
to reveal strategic challenges which will be addressed.
Prerequisites: BUSN-307, BUSN-309, and BUSN-345
Credit Hours: 3

BUSN-498  Business Policy
A course designed to assist the student in the development of concep-
tual skills needed by mid- and upper-level managers and leaders. Em-
phasis is placed on the integration of ethics in the application of subject
matter with accounting, finance, management, marketing, economics,
and statistics. The primary toll will be the analysis of business case
studies.
Prerequisites: BUSN-497
Credit Hours: 3

CHED-241  Educational Ministry of the Church
A study of the basic principles and practices of organizing, adminis-
tering, and supervising a balanced program of Christian Education. A wide
variety of educational agencies of the church will be considered. The
functions of the board of Christian Education and the role of church
workers will be examined including the work of the director of Christian
Education.
Prerequisites: None
Credit Hours: 3

CHED-252  History and Philosophy of Christian Education
A brief survey of the historical roots of Christian Education including
Hebrew, Greek and Roman systems. Christian Education is then traced
from the beginning of the Christian era through the Sunday School
movement to recent developments. Concurrently, religious and secular
educational philosophies will be compared. Designed to aid students to
form a biblical philosophy of Christian Education.
Prerequisites: None
Credit Hours: 3

CHED-264  Creative Communication for Ministry
This course will seek to approach a study of homiletics from a nontraditional perspective, while at the same time retaining the integrity of the pulpit. It will integrate various creative forms of preaching and teaching into sermon preparation so the student will be able to communicate the Gospel to diverse age groups of people with a variety of backgrounds and interests.
Prerequisites: None
Credit Hours: 3

CHED-291 Special Topics Seminar
A course presenting geographical, Theological, biblical and current perspectives of Christian Education which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: None
Credit Hours: 3

CHED-292 Special Topics Seminar
A course presenting geographical, Theological, biblical and current perspectives of Christian Education which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: None
Credit Hours: 2

CHED-293 Special Topics Seminar
A course presenting geographical, Theological, biblical and current perspectives of Christian Education which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: None
Credit Hours: 3

CHED-320 Multiple Staff Ministry
Students will review the ministry roles of a church staff and will seek to understand the basic concepts of human relationships in the context of ministry. Through personality profile tests students will seek a better understanding of their personal development and role as a staff member. Psychological and scriptural approaches to resolving conflict will be considered.
Prerequisites: None
Credit Hours: 3

CHED-342 Christian Education of Children
A study of the characteristics, interests, and needs of children under twelve years of age. Emphasis is placed on the organization, administration, methods, and materials of the children's ministries of the church.
Prerequisites: DAL prerequisite: CHED-241.
Credit Hours: 3

CHED-344 Social Recreation
A study of the qualifications of recreation leaders and of the organization and promotion of recreational activities for all age groups. Emphasis is on socials, crafts and summer camp activities.
Prerequisites: None
Credit Hours: 3

CHED-442 Christian Education of Adults
A course introducing students to the characteristics and expanding needs of young, middle-aged, and older adults in a continuing program of adult Christian Education. Special emphasis is placed on the role of parents and the home in Christian Education.
Prerequisites: DAL prerequisite: CHED-241.
Credit Hours: 3

CHED-444 Ministry to the Family
An examination of the contemporary Christian family will be conducted. Biblical principles will be examined, along with a study of the whole and fragmented family within the church. The course will also examine the methods and programs of the church and their contribution to the Christian home, along with the resources and techniques available to parents. Intergenerational ministry will also be examined.
Prerequisites: None
Credit Hours: 3

CHED-450 Foundations for Ministry
This course is a senior capstone for Children, Discipleship and Youth Ministry majors. The seminar class will engage students about issues of their vocational area of ministry. Issues such as calling, training, church expectations and cultural awareness will be discussed, particularly in relation to the student's impending employment in church related fields.
Prerequisites: DISM-390.
Credit Hours: 3

CHEM-110 Fundamentals of Chemistry
Chemistry 110 is the entry level chemistry course based on no high school chemistry, science and testing. Classification and properties of matter, early atomic theory and structure, nomenclature, quantitative composition, chemical equations, stoichiometry, predictions using periodic table trends, chemical bonds, and gases are studied. Requires co-requisite enrollment in CHEM-110L.
Prerequisites: MATH- 099 or ACT 20 or math placement or MATH-111.
Credit Hours: 4**

CHEM-111 General Chemistry I
Matter and measurement, early atomic theory, nomenclature, stoichiometry, aqueous reactions, thermochemistry, electronic structure, periodic properties, chemical bonding theories, molecular geometry, gases, intermolecular forces, liquids and solids are studied. Requires co-requisite enrollment in CHEM-111L.
Prerequisites: Math ACT of 24 or MATH-111.
Credit Hours: 4

CHEM-112 General Chemistry II
Properties of solutions, reaction rates, chemical kinetics, equilibria, acid/base equilibria, qualitative analysis of common cations and anions, solubility, environmental chemistry, electrochemistry, thermodynamics, radioactivity and nuclear chemistry, transition metal chemistry, organic and biochemistry are studied. Requires co-requisite enrollment in CHEM-112L.
Prerequisites: CHEM-111 with a grade of C- or better.
CHEM-321 Biochemistry I
Fundamentals of organic and biochemical as observed in living systems in health and disease. Requires co-requisite enrollment in CHEM-119.
Prerequisites: CHEM-110 or CHEM-111 with a grade of C- or better.
Credit Hours: 3

CHEM-119 Introduction to Organic & Biochemistry Lab
Introductory concepts in organic and biochemical will be reinforced by the use of basic qualitative techniques to identify various organic functional groups, proteins, carbohydrates and lipids. In addition, the synthesis and isolation of naturally occurring organic and biochemical compounds will be introduced.
Prerequisites: 
Credit Hours: 1

CHEM-271 - 274 Special Topics in Chemistry
A course used to comply with requests for special topics and studies in chemistry. Lecture and laboratory hours will vary with the courses taught. May be repeated for credit.
Prerequisites: CHEM-112.
Credit Hours: 1-4

CHEM-281 Organic Chemistry I
The reactions of aliphatic and aromatic compounds, molecular orbital theory, carbonium ion, carbanion and free radical reaction mechanisms, stereochemistry and molecular conformation, transition state theory and techniques of organic synthesis. Introduction to spectroscopy.
Prerequisites: CHEM-112 with a grade of C- or better.
Credit Hours: 3

CHEM-282 Organic Chemistry II
A continuation of CHEM-281. The chemistry of polyfunctional aliphatic compounds, amino acids and proteins, sugars, carbohydrates, polycyclic and heterocyclic compounds.
Prerequisites: CHEM-281
Credit Hours: 3

CHEM-289 Organic Chemistry Laboratory
The reinforcement of selected material from CHEM-281 and 282 will be accomplished in the laboratory by the isolation of naturally occurring organic compounds and the synthesis of other organic compounds.
Prerequisites: CHEM-282 or Co-requisite: CHEM-282.
Credit Hours: 3

CHEM-321 Biochemistry I
Emphasis on human biochemistry and a study of the chemical composition of living matter and of the chemical and biological changes that occur in it during life processes: the chemistry and metabolism of carbohydrates, lipids, amino acids, nucleotides, and the biosynthesis of nucleic acids and proteins.
Prerequisites: CHEM-281
Credit Hours: 3

CHEM-322 Biochemistry II
A continuation of CHEM-321 with emphasis on human biochemistry of hormones, vitamins, enzymes, blood, urine, nutrition, chemistry of respiration, citric acid cycle, and the electron transport chain.
Prerequisites: CHEM-321 or BIOL-303.

CHEM-323 Biochemistry III
A continuation of CHEM-322 with emphasis on human chemical and biological changes that occur including biosynthesis of lipids, amino acids and nucleotides in relation to metabolism and gene replication and expression.
Prerequisites: CHEM-322
Credit Hours: 3

CHEM-329 Biochemistry Laboratory
An introduction to biochemical technique, which will include isolation, classification and quantification of both proteins and genetic material. These experiments will serve to reinforce material learned from the lectures. The course is designed for juniors or seniors with CHEM-321 as a prerequisite.
Prerequisites: CHEM 321
Credit Hours: 3

CHEM-351 Quantitative Analysis I
Acid-base equilibria in water, stoichiometry, oxidation-reduction system, applications of volumetric titrations, elementary spectrophotometric and potentiometric methods, and principles of gravimetry. Requires co-requisite enrollment in CHEM-351L.
Prerequisites: CHEM-281
Credit Hours: 4

CHEM-352 Instrumental Analysis: Spectroscopic Identification of Organic Compounds
An introduction to the theory and application of common laboratory instrumentation. Signal noise theory, electromagnetic radiation, basic use of mass spectroscopy (MS), and elemental analysis (EA) are covered. Infrared spectroscopy (IR), 1H and 13C NMR, and two-dimensional NMR are covered in depth. Requires co-requisite enrollment in CHEM-352L.
Prerequisites: CHEM-289 and PHYS-281.
Credit Hours: 4

CHEM-371 - 374 Special Topics in Chemistry
A course used to comply with requests for special topics and advanced studies in chemistry. Lecture and laboratory hours vary with the courses taught. May be repeated for credit with the courses taught.
Prerequisites: CHEM-289
Credit Hours: 1-4

CHEM-371-374 Special Topics in Chemistry
A course used to comply with requests for special topics and advanced studies in chemistry. Lecture and laboratory hours vary with the courses taught. May be repeated for credit.
Prerequisites: CHEM-289
Credit Hours: 1-4

CHEM-380 Introduction To Research
Fundamentals of scientific research including what science is, the scientific method, experimental design, statistical analysis, scientific literature, and writing a scientific paper. Students will be responsible for conducting a literature search pertaining to an aspect of ongoing research in the department at that time. In addition, a research proposal will be prepared by the student in preparation for participation in the departmental research program the following semester.
CHEM-432

rumium solutions, colligative properties of solutions, and phase rule.
CHEM-431
Credit Hours: 1
Prerequisites: CHEM-282 and PHYS-212.
Prerequisites: Successful completion of 15hrs of regular major courses
in their program. Requires approval of application and permission of
instructor.
Credit Hours: 1

CHEM-439
Physical Chemistry Research
The reinforcement of selected material from CHEM-431 and 432 will be
accomplished in the laboratory by using infra-red, UV-VIS, NMR, and
other instrumentation to analyze thermodynamic variables and quantum
level behavior of both inorganic and organic compounds.
Prerequisites: CHEM-431 or CHEM-432.
Credit Hours: 3

CHEM-465/475
Practicum in Teaching
A practicum which gives students the opportunity to gain teaching
experience, enhance their knowledge of natural science and mathematic-
sics, and acquire skills that make them more attractive to prospective
graduate schools.
Prerequisites: Successful completion of 15hrs of regular major courses
in their program. Requires approval of application and permission of
instructor.
Credit Hours: 1-4

CHEM-492
Professional Presentation
A course designed to give academic credit to those students who excel
by preparing a research paper worthy of publication in a reputable sci-
centific journal and/or presentation to an annual meeting of a recognized
scientific society.
Prerequisites: CHEM-289 and consent of instructor.
Credit Hours: 1

CHEM-491
Senior Research
Experience in science research projects under supervision of staff
members.
Prerequisites: CHEM-289, Senior status, and permission of department
chairperson. Grade point average of 3.0 is recommended.
Credit Hours: 1-4

CHEM-423
Chemical Applications of Group Theory and Lab
An upper level introduction to the many aspects of Group Theory that
students may first encounter in CHEM-431/432. Topics that will be cov-
ered include symmetry elements and operations, point group identifi-
cation, creating matrices, degenerate and non-degenerate representations.
These topics will lead to a discussion of how this applies to chemical
bonding, molecular vibrations and infra-red vibrational spectroscopy. Se-
lected inorganic laboratory experiments may also be included to further
reinforce topics covered in CHEM-421. Requires co-requisite enrollment
in CHEM-421.
Prerequisites: CHEM-282 and PHYS-212.
Credit Hours: 3

CHEM-421
Inorganic Chemistry
An upper level introduction to the many aspects of inorganic chemistry
taken concurrently with CHEM-423. Some topics will be an indepth
continuation of general chemistry topics. A study of the metals and their
reactivity, simple bonding theories through molecular orbital theory,
acid-base/ donor acceptor chemistry, coordination compound and their
structure, bonding and reactivity, main group chemistry, organometallic
chemistry.
Prerequisites: CHEM-282 and CHEM-289 and PHYS-212.

CHEM-381
Research
The application of the fundamentals of scientific research learned in
CHEM-380. The student will conduct the research described in his/her
research proposal under the supervision of a research advisor. The
student will initially become familiar with the procedures, techniques,
and equipment involved in the project. Subsequently, the research will
be conducted, data gathered, and the analysis and interpretation of data
will be initiated in preparation for a written and oral presentation of the
research findings.

CHIN-111
Elementary Chinese I
A proficiency-oriented course designed to prove a functional elementary
foundation in the basic skills of speaking, listening, reading and writing
in Chinese along with an integrated study of Chinese culture. Elective
credit only. No proficiency credit. One clock hour lab required per week.
Prerequisites:
Credit Hours: 3

CHIN-112
Elementary Chinese II
A continuation of the proficiency oriented elementary course. Elective
credit only. No proficiency credit. One clock hour language cafe required
per week.
Prerequisites: CHIN-111 or placement exam
Credit Hours: 3

CHIN-211
Intermediate Chinese I
A proficiency-oriented course designed to review essential structure in
further detail and to improve the student’s ability in speaking, listening,
reading, and writing the Chinese language. One clock hour lab required
per week. (Speakers who demonstrate near-native oral proficiency in the
target language may not enroll in any course in that language below the

CHIS-321 Church of God History and Polity
Credit Hours: 3
Prerequisites: None

An informed history of the Church of God and a scriptural study of church government with an emphasis on organizational structure of the Church of God.
Prerequisites: THEO-231
Credit Hours: 3

CHIN-212 Intermediate Chinese II
A continuation on the proficiency-oriented intermediate sequence. One clock-hour lab required per week. (Speakers who demonstrate near-native oral proficiency in the target language may not enroll in any course in that language below the 300 level.)
Prerequisites: CHIN-211 or placement
Credit Hours: 3

CHIS-291 Perspectives on Christianity
A course presenting geographic, theological, biblical and current perspectives of Christianity which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: None
Credit Hours: 3

CHIS-292 Perspectives on Christianity
A course presenting geographic, theological, biblical and current perspectives of Christianity which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: None
Credit Hours: 2

CHIS-293 Perspectives on Christianity
A course presenting geographic, theological, biblical and current perspectives of Christianity which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: None
Credit Hours: 2

CHIS-320 Church of God History and Polity
A history of the Church of God and a scriptural study of church government with an emphasis on organizational structure of the Church of God.
Prerequisites: THEO-231
Credit Hours: 2

CHIS-321 Church of God History and Polity
A history of the Church of God and a scriptural study of church government with an emphasis on organizational structure of the Church of God.
Prerequisites: THEO-231
Credit Hours: 3

CHIS-322 Church of God History and Polity
A history of the Church of God and a scriptural study of church government with an emphasis on organizational structure of the Church of God.
Prerequisites: THEO-231
Credit Hours: 3

CHIS-323 History of Christianity I
An historical study of the Christian Church from the apostolic period to the late-medieval era. Special emphasis is placed on historical prolegomena; the development of the Christian Church in terms of missionary expansion, persecution, organization, worship and creedal formulation; and interaction between the Church and incipient national states to c.1300.
Prerequisites: THEO-231
Credit Hours: 3

CHIS-324 History of Christianity II
An historical study of the Renaissance and Reformation movements, the Council of Trent, response of the Christian Church to the Enlightenment, Protestant Orthodoxy, the continuing interaction between Christianity and culture, and the American religious experience to the present.
Prerequisites: THEO-231
Credit Hours: 3

CHIS-340 Medieval Spirituality
This course provides a study of spirituality in the Middle Ages. By focusing on major movements and figures, it seeks to identify and explain the rise of medieval spirituality, its development, and its distinctive features. Particular attention will be given to the relationship between mysticism and spirituality; St. Francis of Assisi and Franciscan spirituality; and Julian of Norwich spirituality among women.
Prerequisites: THEO-231
Credit Hours: 3

CHIS-345 Major Thinkers in Western Christianity: 1500-1600
This course provides an in-depth examination of major figures within the European Protestant Reformation. Seminal works from a selected group of thinkers during this period will be read to allow a close analysis of the various sources, contours and influence of each author’s own theology. The course will be structured to highlight similar themes among theologians being discussed. Theologians to be considered are Tertullian, Augustine, Pelagius, Anselm, Aquinas, Bonaventure and Duns Scotus.
Prerequisites: THEO-231
Credit Hours: 3

CHIS-352 History and Theology of the Pentecostal Movement
An introductory examination of the beliefs and practices of Pentecostals in Latin America. Special consideration will be given to the historical development of Pentecostalism within the Latin-American context, the use of sociological models to classify and understand the movement and the articulation of the theology behind the movement from the Latin-American Pentecostal theologians.
Prerequisites: THEO-231
Credit Hours: 3

CHIS-354 History and Theology of Latin American Pentecostalism
An introductory examination of the beliefs and practices of Pentecostals in Latin America. Special consideration will be given to the historical development of Pentecostalism within the Latin-American context, the use of sociological models to classify and understand the movement and the articulation of the theology behind the movement from the Latin-American Pentecostal theologians.
Prerequisites: THEO-231
Credit Hours: 3

CHIS-442 The History and Thought of Eastern Christianity
This course provides a basic introduction to the shape and contour of Christianity as it evolved primarily in the Greek East. By focusing on major movements, events and figures, it seeks to identify and explain
the emergence of Eastern Christianity and its distinctive figures.
Prerequisites: THEO-231
Credit Hours: 3

CHIS-483 Special Topics in Church History
This course provides an intensive study of selected topics and/or contexts in Church History.
Prerequisites: THEO-231
Credit Hours: 3

CHLM-264 Creative Communication for Ministry
This course will seek to approach a study of homiletics from a nontraditional perspective, while at the same time retaining the integrity of the pulpit. It will integrate various creative forms of preaching and teaching into sermon preparation so the student will be able to communicate the Gospel to diverse age groups of people with a wide variety of background and interests.

Credit Hours: 3

CHLM-291 Special Topics Seminar
A course presenting geographical, theological, biblical and current perspectives of Children’s Ministries which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: CHED/CHLM-342.
Credit Hours: 1

CHLM-292 Special Topics Seminar
A course presenting geographical, theological, biblical and current perspectives of Children’s Ministries which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: CHED/CHLM-342.
Credit Hours: 2

CHLM-293 Special Topics Seminar
A course presenting geographical, theological, biblical and current perspectives of Children’s Ministries which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: CHED/CHLM-342.
Credit Hours: 3

CHLM-342 Christian Education of Children
A study of the characteristics, interests and needs of children under twelve years of age. Emphasis is placed on the organization, administration, methods, and materials of the children’s division of the church.
Prerequisites: None
Credit Hours: 3

CHLM-345 Children’s Ministry Programming
This course will seek to provide students with an understanding of the major components of a successful church-based children’s program. Included will be the design and implementation of the children’s church; Sunday school and alternatives; children’s crusades and/or VBS; various age level clubs; choir programs and evangelism opportunities. The student will also be exposed to the latest resources available for each of these areas of ministry.
Prerequisites: CHED/CHLM-342.
Credit Hours: 3

CHLM-361 Child Evangelism
This introductory course is designed to equip students to think strategi-
cally and act compassionately in the process of effectively communicating the gospel message in a variety of ministry settings. Special attention will be given to spiritual character, one’s faith story, contemporary culture, and effective evangelism one’s faith strategies.

A computer literacy course introducing students to basic computer concepts, hardware, software and computer applications; provides essential hands-on computer experience. Non-business majors only.
Prerequisites:
Credit Hours: 2

CISS-101 Introduction to Computer-Based Systems
This course will introduce the student to beginning and advanced concepts and procedures in spreadsheet and database design using Microsoft Excel and Access. For Department of Business majors.
Prerequisites: Basic computer and word processing skills or CISS-100.
Credit Hours: 3

CISS-201 Applications Program Development I
An introduction to computer programming in a business environment. Emphasis is placed on the fundamentals of structured design, development, testing, implementation and documentation of business applications programming.
Prerequisites: CISS-101 and MATH-111
Credit Hours: 3

CISS-230 Systems Analysis Methods
Overview of the system development life cycle. Emphasis on current system documentation through the use of both classical and structured tools/techniques for describing process flows, data flows, data structures, file designs, input and output designs, and program specifications.
Prerequisites: CISS-201
Credit Hours: 3

CISS-270 Web Page Design
An introduction course in graphic and Web page design and development. This course introduces computer software for creating interactive Web pages and Web sites, featuring color schemes and basic design principles.
Prerequisites: CISS-100 or CISS-101
Credit Hours: 3

CISS-271 Advanced Web Page Design
This is an advanced course in graphic and Web development that will introduce the student to programming in Web development as well as special techniques to show creativity. The course emphasizes on new techniques and the practical aspects of Web development versus the
theories of designing. The course offers a thorough introduction to advanced software used in the Web development industry.
Prerequisites: CISS-270 or COMM-270
Credit Hours: 3

CISS-281 Special Topics in Computer Information Systems
A course used to comply with requests for special topics and studies in computer information systems. Lecture hours will vary with the courses taught. May be repeated for credit.
Prerequisites: Will vary according to topic.
Credit Hours: 1

CISS-282 Special Topics in Computer Information Systems
A course used to comply with requests for special topics and studies in computer information systems. Lecture hours will vary with the courses taught. May be repeated for credit.
Prerequisites: Will vary according to topic.
Credit Hours: 2

CISS-283 Special Topics in Computer Information Systems
A course used to comply with requests for special topics and studies in computer information systems. Lecture hours will vary with the courses taught. May be repeated for credit.
Prerequisites: Will vary according to topic.
Credit Hours: 3

CISS-301 Advanced Program Development
An advanced presentation of the principles of program design and computer programming using a high-level programming language other than a language used in CISS-201. Provides more exposure to advanced techniques of programming using a variety of computer languages.
Prerequisites: CISS-201
Credit Hours: 3

CISS-320 Software and Hardware Concepts
A survey of technical topics related to computer systems with emphasis on the relationship between hardware architecture, system software, system board, memory, and data storage.
Prerequisites: CISS-201
Credit Hours: 3

CISS-321 Hardware and Software Concepts II
A survey of technical topics related to computer systems with emphasis on the relationships between hardware architecture, systems software, system board, memory, and data storage.
Prerequisites: CISS 320
Credit Hours: 3

CISS-330 Business Information Systems
Office information and decision support systems are examined as emerging and critical elements in business data and information systems. Emphasis is given to information processing considerations at the systems level, including analysis and management of support activities such as data and records management and decision making using business software such as spreadsheets and database software.
Prerequisites: CISS-101 and BUSN-307
Credit Hours: 3

CISS-341 Database Design

Prerequisites: CISS 341
Credit Hours: 3

CISS-375 Collaborative Environments
The course will focus on concepts, principles and techniques in utilizing the latest technologies for creating, designing, and utilizing collaborative environments within an organization.
Prerequisites: CISS 341
Credit Hours: 3

CISS-381 Special Topics in Computer Information Systems
A course presenting topics in current technology such as Information Security. Topics may change each semester.
Prerequisites: CISS-101
Credit Hours: 1

CISS-382 Special Topics in Computer Information Systems
A course presenting topics in current technology such as Information Security. Topics may change each semester.
Prerequisites: CISS-101
Credit Hours: 2

CISS-383 Special Topics in Computer Information Systems
A course presenting topics in current technology such as Information Security. Topics may change each semester.
Prerequisites: CISS-101
Credit Hours: 3

CISS-401 Mobile Application Development
This course will focus on concepts and principles in developing applications for mobile platforms using current technologies and programming languages. CISS 301
Prerequisites: CISS 301
CISS-411 Advanced Information Systems Concepts
Investigation and application of advanced and current concepts being used in the computer arena. This includes advanced design techniques, data structures, database technologies, recent development and management tools, latest generation of computer languages, and other current topics in the literature.
Prerequisites:
Credit Hours: 3

CISS-412 Network Design
The features of distributed systems, especially how to install, configure, and troubleshoot a computer network, will be examined. This course will introduce the fundamental building blocks that form a modern network, such as protocols, topologies, hardware, TCP/IP, Ethernet, security and network operating systems. The impact of distributed systems on the business enterprise will be exposed via the medium of case studies using local area networks.
Prerequisites: CISS-320
Credit Hours: 3

CISS-420 IT Security & Risk Management

This course will focus on advanced database techniques, data visualization, data warehousing, online analytical processing (OLAP), data mining, decision support systems (DSS), artificial intelligence (AI) methods and other Business Intelligence (BI) topics. Students will gain practical experience using current BI tools and technologies, and apply sound design principles for creating solutions to realistic business problems.
Prerequisites: CISS 341
Credit Hours: 3

CISS-450 Senior Seminar
This course involves the application of computer information systems concepts, principles, and practices to a comprehensive systems project. An individual or team approach is used to analyze, design, and document a system of moderate complexity.
Prerequisites: CISS-341
Credit Hours: 3

CISS-481 Special Topics in Computer Information Systems
A course used to comply with requests for special topics and studies in computer information systems. Lecture hours will vary with the courses taught. May be repeated for credit.
Prerequisites: CISS-201
Credit Hours: 3

CISS-482 Special Topics in Computer Information Systems
A course used to comply with requests for special topics and studies in computer information systems. Lecture hours will vary with the courses taught. May be repeated for credit.
Prerequisites: CISS-201

CISS-483 Special Topics in Computer Information Systems
A course used to comply with requests for special topics and studies in computer information systems. Lecture hours will vary with the courses taught. May be repeated for credit.
Prerequisites: CISS-201
Credit Hours: 3

CISS-492 Internship in Computers
A course designed to provide practical field experience for the business student who will explore the application of theory to practice. The course is designed for junior and senior departmental majors and minors.
Prerequisites: CISS-341 and CISS-320

COMM-499  Senior Research Project
Designed to mentor the communication major or minor in the application of the techniques and procedures of research in communication. For upper-division majors and minors only.
Prerequisites: COMM 200
Credit Hours: 3

CSCI-260  Introduction To Pascal Programming
An introduction to computer science and Pascal programming with an emphasis on structured design, top-down algorithm development, and hands-on problem-solving. Requires co-requisite enrollment in CSCI-260L.
Prerequisites: Prerequisite: High school algebra.
Credit Hours: 3

CSCI-265  Application Programming In C
An introduction to the C programming language with an emphasis on ANSI C using structured design, top-down algorithm development, and hands-on problem-solving.
Prerequisites: Prerequisite: High school algebra.
Credit Hours: 3
CSCI-270 Introduction To Data Structures
An advanced programming course which includes data structures and standards algorithms and integrates top-down design and structured programming with Pascal. Basic computer science concepts are reviewed and expanded using clear, real-life examples and applications to demonstrate problem-solving in a practical context.
Prerequisites: Prerequisite: CSCI-265.
Credit Hours: 3

CSCI-311 Operating Systems
An introduction to the concepts and design of various operating systems including microcomputer as well as minicomputer and mainframe computer operating systems. Emphasis is placed on concepts rather than the design of any particular operating system.
Prerequisites: Prerequisite: CSCI-270.
Credit Hours: 3

CSCI-321 Numerical Analysis
A course that provides both a mathematical and computational emphasis on the creation, assessment, implementation and modification of numerical algorithms in science and mathematics.
Prerequisites: Prerequisite: MATH-271 and MATH-241.
Credit Hours: 3

CSCI-341 Data Base Design
Introduction to analysis and design of databases. Emphasis is on the use of modern database management systems and the design of database to be used with them.
Prerequisites: Prerequisite: CSCI-270.
Credit Hours: 3

DISM-201 Introduction to Small Group Ministry
This course is predicated on the belief that small group ministry is vital for the contemporary Christian church. The course seeks to provide students with an introduction to small group ministry that is based on biblical, theological, historical and socio-cultural perspectives.
Prerequisites: CHMN-150.
Credit Hours: 3

DISM-291 Special Topics Seminar
A course presenting geographical, theological, biblical and current perspectives of discipleship which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: Credit Hours: 1

DISM-292 Special Topics Seminar
A course presenting geographical, theological, biblical and current perspectives of discipleship which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: Credit Hours: 2

DISM-293 Special Topics Seminar
A course presenting geographical, theological, biblical and current perspectives of discipleship which are beyond the scope of courses within the major disciplines of the department.
Prerequisites: Credit Hours: 3

DISM-302 Models of Small Group Ministry
The course seeks to provide students with an understanding of the various models of small group ministry. Historical and contemporary models will be examined in depth. Credit Hours: 3

**ICSP-254 History of Missions**
A history of Christian missions, including mission efforts of the Church of God.
Prerequisites:  
Credit Hours: 3

**ICSP-291 Special Topics Seminar**
Courses presenting current missiological trends, issues and perspectives of contemporary interest which are beyond the scope of established courses within the Intercultural Studies discipline.
Prerequisites:  
Credit Hours: 1

**ICSP-292 Special Topics Seminar**
Courses presenting current missiological trends, issues and perspectives of contemporary interest which are beyond the scope of established courses within the Intercultural Studies discipline.
Prerequisites:  
Credit Hours: 2

**ICSP-293 Special Topics Seminar**
Courses presenting current missiological trends, issues and perspectives of contemporary interest which are beyond the scope of established courses within the Intercultural Studies discipline.
Prerequisites:  
Credit Hours: 3

**ICSP-310 Church Planting**
A course designed to highlight a key component of church growth and evangelism. This course will look at the Biblical basis, the historical background and the planting process of birthing churches in a number of contexts. Special emphasis will be placed on understanding the person of the church planter and the local, cultural context of the church plant.
Prerequisites:  
Credit Hours: 3

**ICSP-311 Urban Evangelism and Church Planting**
This course is designed to further students’ understanding of urban contexts and the implications for evangelism and urban church planting. Special attention will be given to the important role social sciences (particularly demographic, ethnographic and sociological research) may play in the work of urban ministry.
Prerequisites:  
Credit Hours: 3

**ICSP-321 Religion and Culture**
A historical study of the problematic relationship between the Christian religion and Western culture. The specific topics of study vary, but the general intent is to clarify the Christian’s role and responsibility in living out his/her faith in the world. Various positions and practices are discussed that have been set forth in the Christian church as a result of the church’s wrestling with its Lord and the cultural society in which it exists.
Prerequisites:  
Credit Hours: 3

**ICSP-332 Religion and Culture**
A historical study of the problematic relationship between the Christian religion and Western culture. The specific topics of study vary, but the general intent is to clarify the Christian’s role and responsibility in living out his/her faith in the world. Various positions and practices are discussed that have been set forth in the Christian church as a result of the church’s wrestling with its Lord and the cultural society in which it exists.
Prerequisites:  
Credit Hours: 3

**ICSP-333 Eastern Religions and Philosophy**
A study of the beliefs, practices and historical developments of Eastern religions and philosophies, including Hinduism, Buddhism, Sikhism, Jainism, Islam, Daoism and Shinto.
Prerequisites: ENGL-110.  
Credit Hours: 3

**ICSP-351 Theology of Missions**
An introduction to the study of missions with a stress upon Biblical texts addressing the plan of God for the propagation of the Gospel.
Prerequisites: ICSP-250, THEO-230.  
Credit Hours: 3

**ICSP-352 Spiritual Warfare in Mission and Ministry**
This course seeks to advance the student’s knowledge of the biblical, theological and cultural understandings of spiritual warfare in the context of both the two-thirds world and secularized west, suggesting some missiological implications for ministry in today’s world.
Prerequisites:  
Credit Hours: 3

**ICSP-353 Encountering Contemporary Cults and New Religious Movements**
A study of historical and theological origins and development of Cults and New Religious Movements and the challenge they present to Chris-
ICSP-451 Principles and Practices of Missions
Credit Hours: 3
Prerequisites: consent of ISP Director.
Prerequisites: CHMN-220, ICSP-250 for majors; nonmajors must have

ICSP-370 Globalization and Culture
This course is designed to offer students an overview of the emergence and development of globalization. It will focus on intercultural encounters facilitated by globalization and local responses to global impacts. The course will also examine migration, immigration, socioeconomic and religiocultural issues prevalent in an emerging global culture and how these global trends impact the mission of the church.
Prerequisites: CHMN-220, ICSP-250 for majors.
Credit Hours: 3

ICSP-390 Intercultural Studies Internship
A guided ten-week service experience in a culture other than the student’s own in the U.S.A. or abroad, planned and supervised by the faculty of the Intercultural Studies program in connection with one of the following church agencies: Church of God World Missions, Cross-Cultural Ministries, or International Department of Youth and Christian Education.
Prerequisites: CHMN-220, ICSP-250 for majors.
Credit Hours: 6

ICSP-400 Church and Urban Transformation
This course provides an intensive examination of strategies and tools that may be employed in urban churches to bring about community transformation. It will examine case studies that address the need for social awareness, with particular emphasis on issues affecting multicultural communities.
Prerequisites: CHMN-220, ICSP-250 for majors.
Credit Hours: 3

ICSP-410 Cross-cultural Hermeneutics: Reading the Bible in a Global Context
This course is intended to expose students to methods of biblical interpretation observed within multicultural contexts. The course includes a survey of contemporary Asian, African and Latin American perspectives in the field of hermeneutics and their implications for a biblical theology of missions.
Prerequisites: CHMN-220, ICSP-250 for majors; nonmajors must have consent of ISP Director.
Credit Hours: 3

ICSP-451 Principles and Practices of Missions
A practical study of missions work, including a detailed study of the Church of God’s missions policies.
Prerequisites:
Credit Hours: 3

LASP-105 Excursions in Latin American Biology
This course addresses themes pertaining to the rich diversity of life in the tropics. Ecology, evolutionary biology, and natural history of tropical organisms will be explored at the non-major’s level. The course will introduce the use of scientific methodology and discuss issues related to the natural environment and human activity in the tropics. There will be an emphasis on attaining foreign experience in the field component of this course.
Prerequisites: Prerequisite: formal acceptance to attend the course (Biodiversity Field Studies Program).
Credit Hours: 4

LASP-106 Andean Biogeography
This course will cover themes pertaining to the rich diversity of life in the Andes. Ecology, evolutionary biology, and natural history of tropical organisms will be explored in depth. This course will present the use of scientific methodology and discuss issues related to the natural environment and human activity in South America. There will be an emphasis on attaining foreign experience in the field component of this course.
Prerequisites: Prerequisite: Acceptance in the program and acceptance to attend the course (Biodiversity Field Study Program).
Credit Hours: 4

LASP-150 Andean Geophysiology
A study abroad program that will examine the geology and physical geography of the Andes, meteorology and astronomy. The in-country field/laboratory experiences are replete with activities that reinforce the learning objectives of this course: on-sight study of minerals and rocks, volcanoes, mountain ranges formed from tectonic plate collisions, hot springs, glaciers, fiords, natural landscaping, effects of earthquakes, rock slides, and a visit to an observatory to view parts of the solar system. This non-majors’ course will fulfill the four-hour general core science requirement, and the co-requisite will fulfill the general education core cross-cultural requirement. Requires co-requisite enrollment in LASP-150L.
Prerequisites: Prerequisite: Acceptance into the Latin American Studies Program. Co-requisite: GNST-252.
Credit Hours: 4

LASP-313 Economics of Latin America
This course compares paths of industrialization in Latin America in order to understand why some countries develop while others stagnate. Specific topics include the dept crisis, structural adjustment, economic integration in the Americas, the Mexican peso crisis and its spread across Latin America, the politics of poverty, and economic inequality.
Prerequisites:
Credit Hours: 3

LASP-322 Contemporary Latin American Writers
A study of Latin American cultures through reading, in translation, fiction and poetry written by contemporary Latin American writers.
Prerequisites: Prerequisite: ENGL-110
Credit Hours: 3

LASP-335 Contemporary Latin American Culture
An interdisciplinary course that introduces students to the cultures and societies of Latin America with the purpose of developing in them an appreciation for the diverse cultures and civilizations of the region.
Prerequisites:
Credit Hours: 3

LASP-351 History of Colonial Latin America
An introduction to the history of Latin America under colonial rule. Par-
ticular attention will be paid to ancient American civilizations; conquest; major features of colonial politics, economics, society and culture; changes over time in colonial society; imperial reforms; and rebellions and independence movements.

Prerequisites:
Credit Hours: 3

LASP-352 History of Modern Latin America
An introduction to the political, economic and social history of Latin America during the national period, roughly 1810 to the present. Not intended to cover each of the Latin American nations in depth, this course employs themes to survey the broad scope of Latin America as a whole. Particular themes include problems and solutions of building nations and unified national identities, of creating viable political systems, and of developing modern economies.

Prerequisites:
Credit Hours: 3

LASP-354 History and Theology of Latin American Pentecostalism
An introductory examination of the beliefs and practices of Pentecostals in Latin America. Special consideration will be given to the historical development of Pentecostalism within the Latin-American context, the use of sociological models to classify and understand the movement and the articulation of the theology behind the movement from Latin-American Pentecostal theologians.

Prerequisites:
Credit Hours: 3

LASP-411 International Health: Latin American Health Studies
A survey of the health status of Latin American populations and public health and health care delivery systems. This course is taught only as part of the Summer of Studies in Medical Missions (SOSMM) Program but may be taken without trip participation.

Prerequisites: Prerequisite: HIST-212 or POLS-200.
Credit Hours: 3

LASP-447 Latin American Politics
This course examines the politics and issues in Latin America focusing on the emergence of modern political regimes in the region, how those regions interact, and Latin America’s role in the global political system.

Prerequisites: Prerequisite: HIST-212 or POLS-200.
Credit Hours: 3

LATN-211 Beginning Latin I
LATN 211 is an introduction to fundamental Latin vocabulary, morphology (word forms), and principles of syntax. We shall cover roughly the first twenty-nine chapters (over half) of Wheelock’s Grammar in the first semester. The primary goal of this class is reading proficiency in the Latin Language. To that end, examinations will test students’ knowledge of the vocabulary, morphology, and the ability to read Latin with preparation and at sight.

Prerequisites:
Credit Hours: 4

LATN-212 Beginning Latin II
LATN 212 is a continuation of the introduction to a fundamental Latin vocabulary, morphology (word forms), and principles of syntax. The primary goal of this class is reading proficiency in the Latin language through the introduction of select passages of classical Latin literature.

Prerequisites: LATN 211
Credit Hours: 4

LATN-311 Intermediate Latin I
LATN 311 is an introduction to the works of major authors of Latin prose, which deepens facility in the identification of morphological and syntactical features of the Latin Language, as well as ease of translation of these works. The primary goal of this class is facility in reading and analyzing Latin prose literature in its original language.

Prerequisites: LATN 211 and 212
Credit Hours: 3

LATN-312 Intermediate Latin II
LATN 312 is an introduction to the works of major authors of Latin Poetry, which deepens facility in the identification of morphological and syntactical features of the Latin Language, as well as ease of translation of these works. The primary goal of this class is reading proficiency in classical Latin poetry.

Prerequisites: LATN, 211, 212, 311
Credit Hours: 3

LING-201 Chinese for Business: Language and Culture
This is a course introducing students to the concept of the interaction of language and culture in a specific target language - Chinese for Business purpose. The course will also provide a basic and limited oral introduction to the target language and its use in specific contexts, especially the international business context. This course meets the language requirement for Bachelor of Science students only. (Bachelor of Science students with two years of high school foreign language or proficiency at the 112 level may take three hours of a foreign language at the intermediate level to fulfill the language requirement.) The course may be repeated once for elective credit, provided the topic is different than that taken the first time.

Prerequisites:
Credit Hours: 3

LING-201 Introduction to Language and Culture
A course introducing students to the concept of the interaction of language and culture in a specific target language. The course will also
provide a basic and limited oral introduction to the target language and its use in specific contexts. This course meets the language requirement for Bachelor of Science students only. Course may be repeated once for elective credit as long as the topic of the second course is different from the topic of the first course.
Prerequisites:
Credit Hours: 3

LING-201 Japanese Language and Culture
This is a course introducing students to the concept of the interaction of language and culture in a specific target language. The course will also provide a basic and limited oral introduction to the target language and its use in specific contexts. This course meets the language requirement for Bachelor of Science students only. (Bachelor of Science students with two years of high school foreign language or proficiency at the 112 level may take three hours of a foreign language at the intermediate level to fulfill the language requirement.) The course may be repeated once for elective credit, provided the topic is different than that taken the first time.
Prerequisites:
Credit Hours: 3

LING-201 Thai Language and Culture
This is a course introducing students to the concept of the interaction of language and culture in a specific target language. The course will also provide a basic and limited oral introduction to the target language and its use in specific contexts. This course meets the language requirement for Bachelor of Science students only. (Bachelor of Science students with two years of high school foreign language or proficiency at the 112 level may take three hours of a foreign language at the intermediate level to fulfill the language requirement.) The course may be repeated once for elective credit, provided the topic is different than that taken the first time.
Prerequisites:
Credit Hours: 3

LING-302 English Language Structure and Theory
This course is intended to give the student an in-depth look at the structure of the English language, focusing on traditional and alternative theories of grammar and principles of linguistics with applications for second-language acquisition.
Prerequisites: ENGL-110
Credit Hours: 3

LING-380 Introduction to Linguistics
An introduction to scientific language study including morphology, phonology, syntax, pragmatics and the nature of language.
Prerequisites: ENGL-110
Credit Hours: 3

LING-381 Language Acquisition and Development
An investigation of the cognitive processes of first and second language acquisition and development with special attention to the acquisition of literacy, language diversity and bilingualism.
Prerequisites: ENGL-110
Credit Hours: 3

LING-480 Linguistics for Teaching English as a Second Language
A presentation of the linguistic, psycholinguistic and sociocultural dimensions of second language teaching and learning.
Prerequisites: LING-380 and LING-381
Credit Hours: 3

LING-481 History of the English Language
An introduction to the historical development of the English language from its Indo-European background through Old, Middle and Modern English.
Prerequisites: ENGL-300
Credit Hours: 3

LING-482 Methods of Teaching English to Speakers of Other Languages (TESOL)
A comprehensive study of the knowledge and skills necessary for students to become effective teachers of English to speakers of other languages in grades Pre-K through 12. Course topics focus on classroom methods, approaches and strategies to facilitate acquisition of English as a second language. The course includes a 30 clock-hour practicum.
Prerequisites: ENGL/LING 480
Credit Hours: 3

LING-495 World Languages and Faith: A Capstone Seminar
A capstone seminar focusing on the Christian foreign language major’s perception of God’s creative purpose in two areas foundational to an informed sense of Christian vocation: second-language learning and instruction, and linguistics and cultural expression. This course affords students, as Christian professionals with a biblical understanding of God’s calling, the opportunity to articulate appropriate responses to questions arising from the interaction of their particular discipline and faith.
Prerequisites: THEO-231
Credit Hours: 3

MATH-098 Elementary Algebra
This course is a beginning course in algebra for students who have not mastered algebra in high school. The course includes a review of general arithmetic, the real number system, the fundamentals of algebra, linear equations, graphing, exponents and radicals, factoring, functions, systems of linear equations, rational expressions and equations, and quadratic equations. The applications of these concepts to real life situations will be examined throughout the course. This course will not meet any college mathematics requirements, but will serve the purpose of preparing students for MATH-099, MATH-101 or MATH-201.
Prerequisites:
Credit Hours: 4

MATH-099 Intermediate Algebra
A preparatory algebra course designed for students who have had only one year of algebra in high school or those who need a review in algebra before enrolling in MATH-111. The course includes basic algebraic principles and techniques as applied to number systems, polynomials, factoring and systems of equations and graphs. The applications of these concepts in real-life situations are examined throughout the course. The course will count as an elective in terms of credit hours (three semester hours), but it will not satisfy the general requirement of three hours of mathematics for graduation.
Prerequisites: MATH-098 with a grade of C or better or placement by the math placement exam.
Credit Hours: 3

MATH-101 Contemporary Mathematics
A survey of mathematical topics designed to develop an appreciation of
the uses of mathematics. Selected topics will include problem solving, mathematical modeling, logic and sets, statistics, and the mathematics of finance.

Prerequisites: ACT mathematics score of 18 or SAT equivalent or completion of MATH-098 or MATH-099 with a grade of C- or better or placement by the math placement exam.

Credit Hours: 3

MATH-111 College Algebra
The real number system; relations and functions; algebraic functions; linear, quadratic and higher degree equations; complex numbers; graphing, systems of equations; and applications through the use of word problems.

Prerequisites: ACT mathematics score of 20 or SAT equivalent, or completion of MATH-099 with a grade of C- or better, or placement by the math placement exam.

Credit Hours: 3

MATH-112 Trigonometry
Measurement of angles, solution of right triangles, applications to the "real world," identities, graphs of trigonometric functions, solution of oblique triangles, law of sines, law of cosines, trigonometric form of complex numbers, DeMoivre’s Theorem, and polar coordinates.

Prerequisites: MATH-111 with a grade of C- or better or equivalent course work.

Credit Hours: 3

MATH-114 Precalculus
 Accelerated course designed to review the basic concepts of algebra and trigonometry for students who have studied these subjects in high school and for students who have an exceptional ability in mathematics who wish to complete the course in one semester. May be taken instead of MATH-111 and MATH-112. No one may receive credit for both MATH-114 and MATH-111 or MATH-144 and MATH-112.

Prerequisites: At least two years of high school algebra and trigonometry or the equivalent.

Credit Hours: 4

MATH-201 Concepts of Mathematics I
Develops the real number system (including natural numbers, whole numbers, integers, rational numbers and irrational numbers) stressing properties and algorithms. Problem-solving and set theory are emphasized. Elementary algebra will be stressed with application to problem solving. Course is designed to equip students to teach mathematics in elementary school.

Prerequisites: ACT mathematics score of 18 or higher or SAT equivalent or completion of MATH-098 or MATH-101 with a grade of C- or better.

Credit Hours: 3

MATH-202 Concepts of Mathematics II
Decimals, percents, elementary probability, methods of counting, statistics and the normal curve, plane and solid geometry, and the Cartesian coordinate system. Problem-solving is emphasized.

Prerequisites: ACT mathematics score of 18 or higher or SAT equivalent or completion of MATH-201 with a grade of C- or better.

Credit Hours: 3

MATH-231 Foundations of Geometry
Topics include axiomatic method, triangles and circles, parallelism, constructions, and modern concepts of both Euclidean and non-Euclidean geometry.

Prerequisites: MATH-111 or MATH 112 or MATH-144 or MATH-271 with a minimum grade of C-.

Credit Hours: 3

MATH-241 Computer Application in Mathematics and Science
The material covered will be an extension of the knowledge obtained in a typical computer literacy course. Features of common applications programs (word-processing, spreadsheets, etc.) that are not normally covered in beginning courses, but would be beneficial to mathematics and the sciences, are explored. Topics include the use of an equation editor for writing equations and formulas, spreadsheet applications in mathematics and the sciences, PowerPoint presentations, and the use of other available software with application in mathematics and science.

Requires co-requisite enrollment in MATH-241L.

Prerequisites: CISS-100 or CISS-101 demonstrated proficiency (by an exam administered on the first day of class) and MATH-111 or MATH 144.

Credit Hours: 3

MATH-261 Elementary Probability and Statistics
Topics include measures of central tendency, measures of dispersion, distributions of random variables, probability, joint probability, conditional probability, regression and correlation, discrete probability functions, estimation, hypothesis testing, confidence limits, analysis of variance, inferences concerning two or more variables, sign test, Mann-Whitney U test, runs test, and rank correlation.

Prerequisites: Prerequisite: MATH-111 or MATH 112 or MATH-144 or MATH-271 with a minimum grade of C-.

Credit Hours: 4

MATH-270 Special Topics in Mathematics
A course used to comply with requests for special topics and studies in mathematics. Lecture and laboratory hours will vary with the courses taught. May be repeated for credit.

Prerequisites: Consent of the instructor.

Credit Hours: 1 - 4

MATH-271 Calculus I
Definition and formulas, rate of change, derivatives, and application of functions. The study and application of indefinite and definite integrals.

Prerequisites: MATH-111 and MATH-112, or MATH-144, with a minimum grade of C-.

Credit Hours: 4

MATH-272 Calculus II
Applications of basic integration, advanced methods of integration, sequences and series.

Prerequisites: MATH-271 with a minimum grade of C-.

Credit Hours: 4

MATH-273 Calculus III
Vectors and vector calculus, partial derivatives, gradients, double and triple integrals, centroids, cylindrical and spherical coordinates, line integrals, surface integrals, and Stoke’s theorem.

Prerequisites: MATH-272 with a minimum grade of C-.

Credit Hours: 4

MATH-310 Logic and Sets
A cohesive treatment of foundational mathematics including the topics of
elementary mathematical logic, mathematical proof, set theory, relations, and functions.
Prerequisites: MATH-271 with a minimum grade of C-.
Credit Hours: 3

MATH-321 Numerical Analysis
A course providing both a mathematical and computational emphasis on the creation, assessment, implementation and modification of numerical algorithms in science and mathematics.
Prerequisites: MATH-241 and MATH-271 with a minimum grade of C-.
Credit Hours: 3

MATH-351 Introduction To Linear Algebra
An introduction to the algebra of matrices, vectors, determinants, solutions of systems of linear equations, vector spaces, linear transformations, Eigenvectors, Eigenvalues and canonical forms.
Prerequisites: MATH-271 with a minimum grade of C-.
Credit Hours: 3

MATH-353 Discrete Mathematics
An introductory course in discrete mathematics stressing problem solving techniques using an algorithm approach. Connections with computer science will be analyzed. The course will include hash functions, algorithms, recursive algorithms, and analysis of these algorithms. Decision trees, Petri nets, graph theory, and Boolean algebra concepts will also be included. The course is required for students minoring in Computer Science.
Prerequisites: MATH-310 with a minimum grade of C-.
Credit Hours: 3

MATH-370 Special Topics in Mathematics
A course used to comply with requests for special topics and advanced studies in mathematics. Lecture and laboratory hours will vary with the courses taught. May be repeated for credit.
Prerequisites: Consent of the instructor.
Credit Hours: 1 - 4

MATH-371 Differential Equations
First order and simple higher order differential equations with applications, linear differential equations, systems of DE, Laplace transform, series solutions and numerical methods.
Prerequisites: MATH-272 with a minimum grade of C-; MATH-273 strongly recommended.
Credit Hours: 3

MATH-393 History of Mathematics
Study of major contributors and their contributions to mathematics; early beginnings to modern day; and how certain areas of mathematics began.
Prerequisites: MATH-271 with a minimum grade of C-.
Credit Hours: 3

MATH-441 Real Analysis
A rigorous introduction to the foundations of real analysis: real numbers, sequences, limits, continuity, differentiation, integration, and series. The emphasis is on establishing and correlating the various properties rather than numerical problem solving.
Prerequisites: MATH-272 and MATH-310 with a minimum grade of C-.
Credit Hours: 3

MATH-451 Linear Algebra
Applications of elementary linear algebra to real world problems including Leontief Economic Models, Markov Chains, theory of games, convex sets and linear inequalities, corner-point method and linear programming, the simplex method, matrix applications in genetics applications, constructing of curves as surfaces, equilibrium of rigid bodies, and computer graphics.
Prerequisites: MATH-351 with a minimum grade of C-.
Credit Hours: 3

MATH-461 Introduction to Modern Algebra
An introduction to the basic concepts of abstract algebra, including the topics of mapping, relations, number systems, groups, rings, fields, and integral domains.
Prerequisites: MATH-272 and MATH-310 with a minimum grade of C-.
Credit Hours: 3

MATH-465/475 Practicum in Teaching
A practicum which gives students the opportunity to gain teaching experience, enhance their knowledge of natural science and mathematics, and acquire skills that make them more attractive to prospective graduate schools.
Prerequisites: Successful completion of 15 hours of regular major courses in their program. Requires approval of application and permission of instructor.
Credit Hours: 1

MATH-490 Senior Seminar
A weekly presentation by staff and/or senior mathematics majors on matters of current interest in the mathematical field. Participants gain experience in evaluating literature and presenting scientific papers. One semester required of all math majors.
Prerequisites: MATH-272 with a minimum grade of C-.
Credit Hours: 1

MUED-221 Diction for Singers I
For applied voice majors. It covers study of the International Phonetic Alphabet, Italian, French and German diction. To be taken during the freshman or sophomore year.
Prerequisites: None
Credit Hours: 2

MUED-222 Diction for Singers II
A continuation of MUED 221
Prerequisites: MUED-221
Credit Hours: 2

MUED-225 Introduction to Music Education
A course designed to give prospective music educators an overview of the music education profession and to strengthen their understandings of the importance of music education for K-12 students. This course includes 20 clock hours of observation assignments in the public schools.
Prerequisites: None
Credit Hours: 2

MUED-226 Introduction to Instrumental Music
An introductory survey of orchestral instruments focusing on developing a functional knowledge of wind, string, fretted and percussion instruments. Basic skills are emphasized through hands-on instruction.
Prerequisites: None
MUED-231 Brass Techniques
A course designed to prepare the non-brass major for teaching the brass/wind instruments at the beginner to intermediate levels. Performance on the instruments is included.
Prerequisites:
Credit Hours: 2

MUED-232 High Brass Techniques
An introduction to playing and pedagogical techniques of high brass instruments. This course is designed for students whose primary instrument is trombone, euphonium, or tuba.
Prerequisites: Permission of the Instrumental Area Coordinator.
Credit Hours: 1

MUED-233 Low Brass Techniques
An introduction to playing and pedagogical techniques of low brass instruments. This course is designed for students whose primary instrument is trumpet or horn.
Prerequisites: Permission of the Instrumental Area Coordinator.
Credit Hours: 1

MUED-241 Woodwind Techniques
A course designed to prepare the non-woodwind major for teaching the woodwind instruments at the beginner to intermediate levels. Performance on the instruments is included.
Prerequisites:
Credit Hours: 2

MUED-242 Double-Reed Techniques
An introduction to playing and pedagogical techniques of double-reed instruments.
Prerequisites: Permission of the Instrumental Area Coordinator.
Credit Hours: 1

MUED-243 Single Reed Techniques
An introduction to playing and pedagogical techniques of single reed instruments. This course is designed for students whose primary instrument is flute, oboe, or bassoon.
Prerequisites: Permission of the Instrumental Area Coordinator.
Credit Hours: 1

MUED-244 Flute Techniques
An introduction to playing and pedagogical techniques of the flute. This course is designed for students whose primary instrument is clarinet, saxophone, oboe or bassoon.
Prerequisites: Permission of the Instrumental Area Coordinator.
Credit Hours: 1

MUED-251 String Techniques
A course designed to prepare the non-string major for teaching string instruments at the beginner to intermediate levels. Performance on the instruments is included.
Prerequisites:
Credit Hours: 2

MUED-252 High Strings Techniques
An introduction to playing and pedagogical techniques of high string instruments. This course is designed for students whose primary instrument is cello or double bass.
Prerequisites: Permission of the Instrumental Area Coordinator.
Credit Hours: 1

MUED-253 Low Strings Techniques
An introduction to playing and pedagogical techniques of low string instruments. This course is designed for students whose primary instrument is violin or viola.
Prerequisites: Permission of the Instrumental Area Coordinator.
Credit Hours: 1

MUED-261 Percussion Techniques
A course designed to prepare the non-percussion major for teaching percussion instruments at the beginner to intermediate levels. Performance on the instruments is included.
Prerequisites:
Credit Hours: 1

MUED-330 Fundamentals of Conducting
Basic techniques of conducting simple and complex beat patterns, use of the left hand for cueing and introductory baton techniques.
Prerequisites: A minimum grade of C in MUST-121 and MUST-122
Credit Hours: 2

MUED-331 Advanced Choral Conducting
A continuation of Fundamentals of Conducting focusing on choral music.
Prerequisites: MUED-330; a minimum grade of C in MUST-231 and MUST-232
Credit Hours: 2

MUED-332 Advanced Instrumental Conducting
A continuation of Fundamentals of Conducting focusing on instrumental music.
Prerequisites: MUED-330; a minimum grade of C in MUST-231 and MUST-232.
Credit Hours: 2

MUED-350 General Secondary Methods / Music Education
A course designed to introduce students to the knowledge of methods, skills and strategies they will need as they become effective teachers in secondary classrooms. The course unites theory and practice by using the instructional methods of classroom discussion and presentations, simulated teaching opportunities and a teaching assignment in area schools.
Prerequisites: Admission to Teacher Education Program and successful completion of the Upper Division Admission Exam
Credit Hours: 1

MUED-401 Special Topics in Music Education
A course presenting various topics and research concerns. The topic will change to meet student demand and interest.
Prerequisites: Permission from the instructor.
Credit Hours: 1

MUED-402 Special Topics in Music Education
A course presenting various topics and research concerns. The topic will change to meet student demand and interest.
Prerequisites: Permission from the instructor.
Credit Hours: 2
MUED-403  Special Topics in Music Education
A course presenting various topics and research concerns. The topic will change to meet student demand and interest.
Prerequisites: Permission from the instructor.
Credit Hours: 3

MUED-405  Methods of Teaching Music in the Elementary School
Fundamentals of music and the teaching of music from kindergarten through sixth grade.
Prerequisites: Admission to Teacher Education Program and successful completion of Upper Division Admission Exam
Credit Hours: 2

MUED-421  The Teaching of Vocal and General Music, Grades 7-12
This course equips the vocal music education major with aspects of directing a comprehensive choral program in a middle or high school.
Topics covered are choral administration, rehearsal and performance planning, and choral techniques. This course also examines curriculum and strategies for teaching general music at the secondary level.
Prerequisites: Admission to the Teacher Education Program and successful completion of the Upper Division Admission Exam
Credit Hours: 2

MUED-422  Methods and Materials of Teaching Marching Band and Orchestra
A comprehensive study of the various techniques that are significant for the development of the concert band and orchestra: intonation, tone, blend, balance, bowings and rehearsal procedures. Appropriate music literature from beginning to advanced will be introduced.
Prerequisites: Acceptance to advanced standing in the School of Music (passed UDAE); admission to Teacher Education Program.
Credit Hours: 2

MUED-423  Methods and Materials of Teaching Marching Band and Orchestra
A comprehensive study of the various techniques that are significant for the development of the concert band and orchestra: intonation, tone, blend, balance, bowings and rehearsal procedures. Appropriate music literature from beginning to advanced will be introduced.
Prerequisites: Admission to the Teacher Education Program and successful completion of the Upper Division Admission Exam.
Credit Hours: 2

MUHL-111  Music in Culture
Designed for the general university student, this course investigates ways in which music reflects and interacts with its cultural milieu. The course includes developing a basic vocabulary of skills in music listening and seeks to develop understanding of and appreciation for a wide variety of musical styles. Ministry Leadership

The Lee University Division of Adult Learning (DAL) seeks to deliver high quality education for adult learners through a variety of formats. DAL offers the Bachelor of Arts/Bachelor of Science in Bible and Theology, Christian Studies, and Liberal Studies. Also available is the Bachelor of Science in Ministry Leadership, with concentration in Church Administration, Counseling, Discipleship, Music and Worship, Pastoral Ministry, and Youth Ministry. The degree platforms are designed to facilitate academic training for those persons who otherwise cannot pursue a traditional resident college degree program. DAL undergraduate curriculum is presented in a variety of delivery methods: independent study courses, on-campus classes in one of our education centers, and online. Students are responsible for understanding the implications and requirements associated with each study method. The final 25% of a degree must be completed through Lee, and at least 40 hours must be completed through direct instruction either online or in one of our education centers.

See addendum on page 325 for additional DAL and Charlotte Center details.

For adult learners seeking to strengthen skills in a particular discipline but not interested in pursuing a bachelor’s degree, DAL offers certificate programs. These programs of study include:

Bible—Christian Education—Christian Leadership
Intercultural Studies—Pastoral Studies

**Specialty Area Requirements - 36 Hours**

A student pursuing this major will consult with a designated advisor in the Division of Adult Learning to design a major program of study that meets the requirements listed below. The completed program proposal will be submitted to the Christian Studies Committee (SOR Dean and DAL Director) for review and final approval. The student will be admitted to the major after the proposal has been approved.
The specialty area must meet the following criteria:

The major must include a minimum of 36 hours.

The student must select nine credit hours from four separate disciplines chosen from the list below.

At least 18 hours of the major must be in upper division (300 and 400 level) courses.

The student must achieve a minimum major GPA of 2.0 to graduate.

A minimum of 120 hours are required for graduation. The student must take enough general electives to fill the remaining hours required for graduation.

Courses designated as general education or religion core requirements will not count toward the major, even if the student did not take the course(s) to meet general core or religion core.

The student may choose courses from any four of the following disciplines:
- Bible / Christian Education / Christian Leadership / Church History / Intercultural Studies / Pastoral Ministry / Theology

If the student has coursework or an interest in a discipline not listed above, he/she may petition the Christian Studies Committee to include it as one of the four major disciplines.

Graduate Studies at Lee University

A Christian environment and team of personally committed professionals are the “natural surroundings” that encompass all programs in Lee’s graduate studies. Lee University’s graduate programs provide an educational experience that meets the most important requirement - a profitable engagement of the student’s time, purpose and personal resources.

Lee’s graduate programs serve adult students with various professional interests and diverse personal histories. Flexible scheduling for part-time and full-time students and personal attention from experts and practitioners in wide-ranging professional fields enable students to find a niche for their personal goals and their intellectual progress in a field of study.

Nineteen degree programs are offered at Lee University for the level of Master in those fields within the colleges or schools. The Ed.S. degree is offered within the Helen DeVos College of Education.

In the College of Arts & Sciences the Master of Science in College Student Development offers preparation for students interested in working in the student affairs areas of higher education administration. The Master of Science in Holistic Child Development prepares students to work in front-line advocacy roles for children. The Master of Science in Marriage and Family Therapy prepares students for careers in counseling children and families. The Master of Science in School Counseling prepares students to be counselors in public and private schools.

In the Helen DeVos College of Education the Master of Arts in Teaching provides preparation for professional licensure in education for graduates from liberal arts and other non-education fields. The Master of Education program extends to classroom teachers and school administrators an opportunity for in-service professional training and advanced development in both knowledge and practical skills. The Education Specialist degree is offered to those who currently hold a master’s degree in education and provides candidates with two options: Classroom Teaching or Educational Leadership.

In the School of Music the Master of Church Music degree program develops the potential of musicians while providing leadership in music training for ministry. The Master of Music - Music Education is designed to provide graduate professional education for men and women who wish to pursue or are currently involved in music education in public or private institutions. The Master of Music - Performance provides graduate professional education for men and women who wish to pursue or are currently involved in music performance and/or studio instruction. The Master of Music – Conducting prepares individual students to master the art of conducting and leading bands, choirs, and other ensembles in performance and classical music leadership.

In the School of Religion: the Master of Arts in Biblical Studies and in Theological Studies offers advanced graduate study in the respective disciplines. The Master of Arts in Ministry Studies prepares students for ministry in the areas of Youth and Family Studies, Leadership Studies, or Worship Studies.

Graduate Faculty

The purpose of the graduate faculty of Lee University is to set standards for graduate work and to provide graduate instruction. Only members of graduate faculty or associate graduate faculty may teach courses numbered 500 or above or serve on Final Project Committees for master’s degree candidates.

Members of the graduate faculty must meet the following criteria:

1. Hold a doctorate or hold candidacy status in a doctoral program,
2. Hold the rank of assistant professor or higher, and
3. Demonstrate teaching competence, continuing interest in the graduate program and research or creative productivity.
Associate graduate faculty members are those who do not satisfy the above criteria but are approved to provide instructional services for graduate students because of their unique competencies and professional roles.

Graduate Admissions

Criteria for Admission
Graduate programs at Lee University are open to persons holding a bachelor’s degree from an accredited college or university whose undergraduate or graduate work has been of sufficient quality and scope to enable them to profitably pursue graduate study.

Lee University offers equal educational opportunity to all persons without regard to race, religion, gender, age, creed, color, national origin or disability. Applicants are required to meet specific admission criteria established by each of the graduate programs. All applications must be accompanied by a $25 non-refundable application fee.

An application to a graduate program is reviewed by the graduate faculty in each program before an admission decision is recommended. The applicant is advised to have all credentials on file well in advance of the registration period for the semester in which the application is made.

Each Lee University graduate program has different requirements for admission. Applicants are advised to refer to appropriate sections in this catalog for specific graduate program admission requirements (or go to www.leegraduate.com).

Graduate students applying for admissions must submit the following immunization documentation:

Measles Immunization Verification (MMR) (if born after January 1, 1957)

Proof of Chicken Pox Immunity (Required for full-time graduate students born after 1979)

International graduate students must also submit proof of a Tuberculin PPD skin test taken within a one-year period of the date of admissions application

The Certificate of Immunization form must be completed and signed by a Licensed Health Care Provider and returned to Lee University prior to registration.

If an applicant does not meet the admission requirements of a graduate program, he/she may be considered for probationary acceptance.

Admissions Testing
Test requirements vary by program. Applicants should contact the individual program office to confirm requirements.

Generally, a student who has completed a bachelor’s degree within the past seven years must submit Graduate Record Examination Test (GRE) scores; or, the student may take the Miller Analogies Test (MAT). (GRE Institutional Code 1401; MAT Institutional Code 2540)

The MAT is offered by individual appointment in the Lee University Office of Counseling and Testing. Applicants may contact the office by phone at 423-614-8415 to set up an appointment on campus; or, visit www.milleranalogies.com for additional information. The GRE is not administered at Lee University, but informational materials are available at www.gre.org. (For information regarding testing and placements for the School of Music degree programs, please see the Graduate section for the School of Music in this catalog or contact the office of Graduate Studies in Music at 423-614-8245 or gradmusic@leeuniversity.edu.)

Policy Regarding False Information
Any applicant who fails to acknowledge attendance or who submits false records from any college or university where he/she has previously registered is subject to dismissal from the university.

International Students
The university is authorized under federal law to enroll non-immigrant alien students on an F-1 or J-1 visa. International applicants are expected to apply well in advance of their projected beginning date. All academic records and other credentials must be accompanied by an official English translation. If transfer credit from an institution outside the United States is desired, an evaluation from World Education Services (WES) must be submitted. [Refer to the “Transfer Credit” section under Graduate Academic Policies for additional information.]

In addition to admissions requirements described in each graduate program, international students must supply the following:

1. TOEFL Scores: All applicants who will be attending the university on a student visa and who are not graduates of an American college or university must supply proof of a minimum score of 550 (paper), or 213 (computer) on the Test of English as a Foreign Language (TOEFL). Information on this test can be attained by writing to TOEFL Educational Testing Service; Princeton, New Jersey 08540; U.S.A. (or go to www.toefl.org). All test scores should be sent directly from the testing agency to Lee University (Lee University Code: 1401).

2. Financial Statement: An applicant on an F-1 student visa must supply, on the form provided by the university, sufficient evidence of financial support for the applicant and all members of his/her family who will accompany the applicant to Lee. This requires that the applicant certify that his/her intent is to attend full time and that no employment will be required.

All of the above credentials must be received and approved before an INS Form I-20 can be issued to the applicant.

Change of Program
Students who have previously declared a program of study but desire to change should apply to the appropriate graduate program director. A change in program is considered the equivalent of reapplying for admission. All admission requirements of the new graduate program must be satisfied and approved before a change can be granted.
Graduate Tuition and Fees

Itemized Expenses Per Semester for Full-time Students $530
Tuition per semester hour $265
Tuition per semester hour over 12 hours $25

Registration Fee $25 per term
Room $250 per term
Music Fees
See previous section on Music Fees (Super Session only)

The cost of attending graduate classes at Lee University for the summer 2013 is:

Tuition per semester hour $530
Registration Fee $25 per term
Room $260 per term
Music Fees
See previous section on Music Fees (Super Session only)

Settlement of Accounts
Students should be prepared to pay full semester charges on or before registration. Money may be submitted in advance to the Student Financial Services Office. This payment will facilitate registration. On-campus students are required to pay $4,892 and off-campus or part-time students are required to pay fifty percent down on or before registration according to the deferred payment plan. Students who are unable to pay their accounts in full must either borrow the necessary funds or enroll in the university’s deferred payment plan. Students who will have difficulty paying the full charges within the semester are encouraged to make advance arrangements for borrowing the needed funds. The university also offers services by which students may use Visa, MasterCard, Discover and American Express to make payment on their accounts.

Deferred Payment Plan
Any full-time, on-campus student desiring to participate in the university’s deferred payment plan is required to pay $4,892 down at registration and the balance of the semester charges in two equal payments on the dates mentioned below. Any part-time student or off-campus student desiring to participate in the deferred payment plan is required to pay fifty percent of the total charges at registration and the balance of semester charges in two equal monthly payments on the dates mentioned below. The same financial requirements apply to veterans and others in cases when money is not sent directly to Lee University. In all cases, when the student does not have the down payment, a commitment letter is required from those underwriting the student’s account. Students enrolling in the deferred payment plan will be charged a $85 fee for this service. This fee will apply to all students owing a balance in excess of $500 at the completion of registration.

Fall Semester
Full-time, on-campus students must pay $4,892 at registration; off-campus and part-time students must pay fifty percent of their total charges. The balance must be paid as follows:
First payment by September 30
Final payment by October 31

Spring Semester
The same down payment ($4,892) is required at registration. (Off-campus and part-time students must pay fifty percent of their total charges.) The balance must be paid as follows:
First payment by February 28
Final payment by March 31
A bill will be sent to the student’s permanent address (unless otherwise indicated) each month. However, the student is still responsible for timely payments, even if a bill is not received. If payment is not made on the due date, a $25 late fee will be assessed.

Deferred Payment Plan for Summer School
Students are ordinarily required to pay the full charges for all terms at registration. However, those unable to pay the full amount may defer up to 50% of the charges for a maximum of 30 days. Students delaying registration for a second term must pay an additional registration fee of $25. Students enrolling in the deferred payment plan will be charged a $85 fee for this service. This fee will apply to all students owing a balance in excess of $500 at the completion of registration.

Refund Policy
No reduction of charges will be granted unless application is made within two weeks of any change in program or departure of the students. STUDENTS WHO WITHDRAW FROM THE UNIVERSITY AFTER THE FIFTH WEEK OF CLASSES WILL RECEIVE NO ADJUSTMENT ON TUITION, FEES, AND ROOM. Those whose study is interrupted by the university for discipline reasons will receive no adjustment on tuition, fees, and room after the fifth week of classes. When a student withdraws from the university or moves out of on-campus housing, his or her ROOM CHARGES WILL BE ADJUSTED ON THE SAME SCHEDULE AS TUITION AND FEES. Board charges will be prorated from date of withdrawal. If a student withdraws during a semester and requests a refund of advanced payments, the following rules will determine the amount of adjustment, provided the student withdraws formally through the Office of Student Life.

1. Tuition, fees, and room, with the exception of matriculation and registration fees, will be adjusted on the following percentages:
   o During first two weeks of semester 80%
   o During third week of semester 60%
   o During fourth week of semester 40%
   o During fifth week of semester 20%
   o After fifth week of semester No Adjustment

2. Board will be adjusted by the full amount unused at the date of withdrawal.
3. NO REFUND ON MATRICULATION FEE, REGISTRATION FEE OR LATE REGISTRATION FEE.

4. No person who registers as a full-time student and is later permitted to drop enough courses to place him/her in the classification of a part-time student will be entitled to an adjustment or prorated tuition after the fifth week.

5. Mandatory refunds and repayments to Federal Title IV student financial aid programs will be calculated based upon earned and unearned aid percentages as outlined by the Federal Government. The formula for such calculations is based on the number of days in a given semester and the number of days attendance completed by the student prior to his/her withdrawal. Refunds mandated by the calculation could possibly increase the amount a student must pay after he/she withdraws from school. Please refer to “Return of Federal Title IV Financial Aid Policy” in the Undergraduate Financial Aid section.

Refund Policy for Summer School

1. Withdrawals during the first week of classes will receive 50% credit on tuition and room. THERE IS NO REFUND AFTER THE FIRST WEEK.

2. There is no refund for Registration Fee or Late Registration Fee.

3. If you register for both terms and withdraw prior to the beginning of the second term, you will receive full refund for the second term.

Accounts Must be Paid Prior to Final Examinations
Written commitments for aid from Lee University or other sources are the only substitutes for the required down payment. Therefore, students should assume responsibility for applying for aid in advance and for seeing that the proper letters or cash arrive at the Student Financial Services Office by registration day.

While we recognize the problems involved in increasing costs to the student, education with a Christian emphasis is the greatest personal investment available today. The university will assist students in every way possible to finance their education. If you need financial assistance, please check with our Office of Student Financial Aid.

Accounts with the school must be settled in full before a diploma or a transcript of credits is issued or a letter of honorable dismissal is granted. ACCOUNTS MUST BE PAID BEFORE FINAL EXAMINATIONS ARE TAKEN. NO STUDENT WILL BE ALLOWED TO GRADUATE UNTIL HIS/HER ACCOUNT IS PAID IN FULL.

Graduate Financial Aid

Eligibility for financial aid is determined by filing the Free Application for Federal Student Aid (FAFSA) through the Federal Processor. The FAFSA can be completed online at (www.fafsa.ed.gov.) In order to receive federal aid, a student must be fully accepted into a graduate program. Provisional acceptance does not meet the requirements to qualify for federal aid. Students must be enrolled at least halftime to receive Federal Student Aid. Graduation from a program can impact eligibility for future federal aid. Graduate students are eligible to apply for Direct Unsubsidized Loans. Maximum annual loan amounts are indicated below:

Unsubsidized Stafford $12,000

These amounts will be subject to the student's filing for federal aid, showing eligibility for loans based on income and cost of attendance for school. Students may or may not be eligible for the maximum possible award based on these criteria.

Federal Graduate Plus Loan
A Federal Grad Plus Loan is a loan for graduate students who need further assistance after the use of Federal Direct loans. This is a federal loan with a fixed interest rate and is approved based on a student’s credit. Applications are made at www.studentloans.gov. Students are eligible for an amount up to the Cost of Education, less other aid received. Grad Plus Loan Entrance Counseling is required before funds can be disbursed. Entrance counseling can also be completed at: www.studentloans.gov.

Grad Plus Loan Entrance Counseling
This interview process provides valuable information about the Federal Graduate Plus Loan Program. It is a Federal requirement that recipients must complete prior to receiving funds from this program.

Grad Plus Loan Exit Counseling
Federal regulations require all students who borrow Graduate Plus funds to complete exit counseling when graduating or dropping below half-time enrollment.

Lifetime Learning Credits
A family may claim a 20% tax credit of the first $10,000 of tuition and fees paid each year. This credit may be claimed for any number of years, starting July 1, 1998, provided students and taxpayers meet the criteria for each credit. If eligible, this credit can be applied to an individual annual tax return. The program is administered by the Internal Revenue Service. Questions should be addressed to a local IRS representative.

Graduate Assistantships and Scholarships
Assistantships and scholarships are available for full-time and part-time graduate students. Information can be obtained from the Director of the Graduate Program in each area of study.

More Resources
For more information about financial aid and funding resources, see the Undergraduate Financial Aid Section of this catalog.

Graduate Student Life

Residential Life and Housing
Lee University has a Residential Life and Housing program that exists to meet the housing needs of graduate students who desire this service. Graduate students are assigned on a first-come, first-served basis, once the following criteria has been met: (1) acceptance to Lee University, (2) completion of a Residence Hall application, and (3) payment of the $200 housing reservation deposit. Half of this deposit will be applied toward the cost of the first semester’s residence hall expense, and the other half will be held as a “roll-over” deposit. In subsequent semesters, this roll-over deposit, along with a residence hall application, will reserve the student’s residence hall assignment for the following semester. Room assignments within the residence hall are made by the Resident Director. Every effort is made to assign roommates based on written mutual request on the residence hall application. The university reserves the right to change residence hall assignments.
Married/non-traditional housing is available but limited. Graduate students are expected to abide by all rules and regulations governing residential life and housing as established by the Student Handbook. These include regulations regarding care of room, safety concerns and special services, among others. Residence Hall applications can be obtained by contacting the Office of Residential Life and Housing or visiting http://www.leevalls.edu/residential-life.

**Lifestyle Expectations**

Graduate students will be expected to adhere to all of the rules and policies of Lee University while on campus. Every student is provided a copy of the Student Handbook at registration and is encouraged to read it thoroughly.

Lee University is a smoke-free, alcohol-free, drug-free campus. Graduate students are expected to respect campus norms.

Sexual harassment, unwelcome sexual advances, premarital or homosexual conduct, requests for sexual favors and other verbal or physical conduct of a sexual nature will not be tolerated on campus. Students who are subjected to harassment should promptly contact the Vice President for Administration.

Questions regarding student lifestyle expectations can be directed to the Dean of Students.

**Athletics**

Graduate students are invited to attend intercollegiate athletic activities. Varsity teams compete in men’s and women’s basketball, tennis, soccer and cross country; women’s fast-pitch softball and volleyball; and men’s golf and baseball. Graduate students interested in participating in intercollegiate athletics should contact the university’s Athletic Director to verify eligibility.

**Recreation and Fitness**

The DeVos Recreation Center offers a wide range of equipment and activities from treadmills and weights to racquetball and billiards. Graduate students have full use of the facility and its services with a minimal additional fee for some features such as lockers and supplies. Immediate family members (i.e. spouses and children of graduate students) may purchase memberships good for one calendar year. Fees for adults are $25 per year. Children (15 and up) are $15. Membership includes full use of the facilities and the same privileges as students. Children under the age of 16 must have adult supervision at all times. The DeVos Recreation Center is not appropriate for pre-school age children. Participants must present a valid ID at the reception desk prior to use of facilities.

**Intramurals**

Graduate students and their spouses may participate in intramural programs. This service is free to all students. Spouses may participate by purchasing a spouse pass at the Recreation Center Office. The pass includes participation in any intramural event. Some events such as golf and bowling may have additional fees.

**Campus Safety**

All graduate students are required to have a valid student identification card. Additionally, all students who park an automobile on campus must register it with the Campus Safety Office. Upon receipt of a parking permit the student is entitled to park in an assigned area. Parking is on a first-come, first-served basis. Automobiles parked illegally will be ticketed and in some cases “booted” or towed at the owner’s expense.

**More Resources**

For more about student life, see the undergraduate student life section of this catalog.

**Graduate Academic Policies**

**Graduation, Academic Probation and Disqualification**

Satisfactory progress toward the degree is required. A student may be disqualified from further graduate work if a 3.0 grade-point average is not maintained. In the event that the grade-point average drops below the minimum level, the student may be given one enrollment period to raise it to the satisfactory level. A cumulative GPA of 3.0 is required for graduation.

**Auditing**

A qualified student may apply for permission to audit a class. The student must meet the regular university entrance requirements and pay the audit fee per credit hour. Changing from audit to credit or credit to audit must be done during the registration period at the beginning of each term. Such a change to audit would not entail a refund.

**Course Numbering System**

Graduate courses are identified by a departmental abbreviation followed by a three-digit 500-level course number.

**Grading**

The Lee University graduate programs use the following system of grading and quality points for all graduate-level courses. These letter grades are assigned grade point values as follows:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Description</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

A grade of “I” indicates the student’s work is incomplete. The grade becomes “F” if the work is not completed by the end of the following semester unless a written extension has been approved by the Vice President of Academic Affairs. A grade of “I” is given only to students who encounter some personal difficulty such as a severe illness or an extreme family emergency near the end of the semester. The “I” grade is not given in order to allow students additional time to complete assignments.

A grade of “W” (withdrawal) is assigned to a student who, for any reason, officially withdraws or is withdrawn by the official semester date. This “W” is assigned without quality point penalty to the student.
Policies for Theses

Many, but not all, of the Lee University graduate programs require a thesis as a demonstration of the student’s research, writing and critical thinking skills. If a thesis is required, two copies must be deposited with the William G. Squires Library. In addition to the two copies required for the library, the college or school granting the degree will require a certain number of copies and the student may want several copies for his/her own purposes. The library will assist the student by sending all copies to the bindery, but reproduction and bindery costs are the student's responsibility. The college or school granting the degree will collect all the required fees and credit the proper library account. The charge for binding is $9 per copy. A fee of $15, in addition to the sum for binding, is charged for handling the bindery process. Should a student bring additional copies of the thesis to be bound at a later date, an additional fee will be charged for processing the second order. Therefore it is important that all copies requiring binding be delivered to the library at one time.

When the copies are delivered to the library, the student must include a one-paragraph abstract of the thesis. At that time the student will also complete a form to ensure all relevant information is communicated correctly.

Because the two copies held by the library are considered a permanent record of the student’s scholarship, these two copies should be duplicated on paper that is acid free and 25% rag content.

Release of Transcripts

Transcripts of Lee University course work are available approximately four weeks after the completion of courses. Requests must be made in writing and should include the following information: the last semester attended, where the transcript is to be sent, date of graduation (if applicable), social security number and signature. Transcript requests are available online at www.leeuniversity.edu; “Quicklinks”, “Request a Lee Transcript”. A $5 fee per official transcript applies. Transcript requests can be filled only if a signature accompanies the request. Also, transcripts, diplomas and/or verification of degrees will not be released until all the student’s financial obligations to the university are met.

Study Load

To be classified as a full-time graduate student, students must enroll in no fewer than nine hours per semester. Maximum graduate enrollment is 12 hours per semester. Students enrolled in summer sessions may take a maximum of six hours per session. For summer sessions shorter than four weeks, the maximum load is four hours.

Time Limits

Course work completed more than 10 years prior to admission is generally not accepted toward meeting degree requirements. The student has a maximum of six years from the date of admission to degree standing (and registration for course work) in which to complete the requirements for the master’s degree. Refer to specific program sections within the catalog for detailed policies.

Transfer Credit

Lee University will allow up to six semester credit hours of a graduate program to be comprised of transfer credit from a regionally accredited graduate program when the grade received is a “B” or better. The individual program committee must approve application of transfer credits. Exceptions to this policy may be determined by the respective graduate program committees.

Up to six semester credit hours of appropriate graduate work with a grade of “B” or better from institutions outside the United States may be approved by the individual graduate program committee. The program committee will normally require these credits to be evaluated by World Education Services (WES). Instructions for submitting a transcript for review can be found at www.wes.org. This website provides specific submission instructions for each country. The transfer work will not be added to the Lee transcript until the program committee has approved the hours and, if requested by the committee, the official academic credit report is received from WES. All costs associated with obtaining the WES evaluation are the responsibility of the student.

Withdrawing from the University

Students may withdraw from the university at any time beginning the first day of classes until the final day of classes for the semester. Withdrawals will not be processed after final exams have begun. Withdrawn students will not be allowed to continue on the meal plan or remain in campus housing and should make arrangements to check-out of their on-campus housing within 24 hours upon withdrawal. Withdrawn students will be assigned the grade of “W” for all courses. Following is the withdrawal procedure:

1. The Office of Administration is designated by the University as the office to process official withdrawals. Any student wishing to withdraw from all courses must notify this office. Students are required to present both his/her current University I.D. card and parking permit. Students are asked to complete the Permission to Withdraw Request Form.

2. The Vice President for Administration must approve the withdrawal request. Upon approval, the appropriate offices will be notified.

3. Students are responsible to notify their graduate program directors.

4. Financial aid recipients should note that withdrawing from the University can affect eligibility for current and future aid. See the Undergraduate Tuition and Fees Refund section and the Undergraduate Financial Aid Satisfactory Academic Progress Policy respectively. Students who are recipients of federal student loans should complete required loan exit counseling. This can be completed online at www.leeuniversity.edu/financial-aid or in the Financial Aid Office. Recipients of the Tennessee Hope Scholarship should go the Financial Aid Office to complete the Tennessee Hope Enrollment Change Request Form to avoid loss of eligibility for future funding.

5. The Business Office will issue a final statement of the student’s account. See the Undergraduate Tuition and Fees section of this catalog from refund policy information.

Withdrawal from Courses

Students may withdraw from a class without grade penalty until the official withdrawal deadline published in the online university calendar. The student must process the appropriate form from the Office of Records. The student will receive a "W" grade in the course from which he or she withdraws. A student who never attends or stops attending a course for which he or she is officially registered will automatically receive an “F” in that course if accepted procedures for withdrawal are not followed.
Mission and Philosophy
The counseling faculty at Lee University affirms its commitment to counseling as an effective, viable means of assisting individuals and families in the prevention of problems and in coping effectively with personal, social and spiritual problems.

We believe that God exists, that He is the source of all truth and that He calls us into relationship with Himself and others. The theological paradigm which portrays human nature as created by God, sinnedly altered by the fall and redeemed in Jesus Christ provides the foundation of our understanding of human nature. The primary purpose of all our counseling programs is to develop within the students knowledge, appreciation, understanding, ability and skills which will prepare them for responsible Christian service in a complex world.

The practice of counseling is based on theory and research information, an understanding of ethical practices and a set of professional and interpersonal skills. Exposure to conceptual frameworks, research findings and informed practice is the basic curriculum model employed. It is recognized that an interaction of these components is essential.

The counselor, regardless of his/her theoretical stance, functions as a change agent. Effective and positive change is brought about by assisting clients to examine and modify their behavior for more effective living and by assisting clients to cope with, adjust to or otherwise negotiate the environments affecting their psychosocial being. For optimal change to occur, the counselor must also be sensitive to the spiritual needs of the individual. We believe that the grace of God and the indwelling of the Holy Spirit are the ultimate experiences through which individuals can achieve wholeness and maturity.

The counseling faculty, while representing diverse views, is in agreement that individual beliefs and theoretical patterns must be fostered in graduate counseling students. Faculty members represent an array of models and information which they make available to students to help them clarify their own philosophical, theoretical and practical positions. Special emphasis is given to the enhancement of self-awareness and personal value clarification regarding such issues as the nature of humankind and the meaning of life. Students are continually encouraged in the process of maturation in the image of Christ. The opportunity to consider and refine a personal perspective on life is encouraged as an evolving aspect of individual development.

The counseling faculty is also dedicated to establishing a professional identity appropriate for students in each degree program. Specifically, we seek to encourage identification with the profession of counseling through active membership in organizations and divisions including the American Association of Marriage and Family Therapy, the Tennessee Association of Marriage and Family Therapy, the American School Counselor Association, and the Tennessee School Counselor Association.

Lee University identifies its public service region as being generally co-terminous with the geographic scope of the denomination. While most students come from the United States, the student body typically consists of representatives from a broad range of socioeconomic backgrounds. Because of this geographic span, programs serve a racially, ethnically and culturally diverse student body. The institution has adopted the policy that no person in whatever relation with Lee University shall be subject to discrimination because of race, color, national origin, age, gender or disability.

Master of Science in College Student Development
College Student Development prepares graduates to work in student life sectors at colleges and universities. Using counseling skills as the base, coursework includes training in student leadership development, higher educational environments, and institutional research. Following an apprenticeship model, students will be assigned to complete four projects, each within a different institutional sector, such as service learning, global perspectives, first-year programs, student leadership, and the career center.

Program Objectives
At the end of the master’s program, the graduate should have acquired the necessary advanced skills, knowledge, and experience to:

1. Engage in ethical practices as relates to student development on college campuses.
2. Develop campus programs/interventions based on theories of human development and student learning.
3. Understand student leadership theory and practice.
4. Interact with various higher education structures and cultures.
5. Integrate faith and religious development with current theory and practice in the field.
6. Encourage practitioners to understand their role as co-educators in the academy and their contribution to student learning.
7. Apply appropriate helping skills to assist students in their identity formation.

Program of Study
College Student Development prepares graduates to work in student life sectors at colleges and universities. Using counseling skills as the base, coursework includes training in student leadership development, higher educational environments, and institutional research. The program is composed of a minimum of five semesters of approved graduate study. The typical full-time student will complete the program in two years. A minimum of 44 semester hours is required.
Apprenticeships
Students will be assigned to complete four projects, each within a different institutional sector, such as service learning, global perspectives, first-year programs, student leadership, and the career center. Each of the projects will be specifically to improve services offered to students in that particular sector and will use outcome measures as part of the methodology. Each project will be included as part of the student’s professional portfolio.

Typical Two-Year Curriculum

Several configurations or sequences for completing required course work are possible. There are a variety of considerations and restrictions that limit the flexibility of these options and demand close attention when developing a program of study. Several of the more important factors to consider are the prerequisites or co-requisites of each course, the availability of a given course in a specific semester, individual interests, and ability and desire to enroll during the summer.

Master of Science in Holistic Child Development

The Holistic Child Development Program is designed to prepare a student for working in child development and advocacy organizations both domestically and internationally. Coursework emphasizes legal and ethical issues in working for non-profits and NGOs, utilizing community resources, and research-supported interventions.
Holistic Child Development (HSDEV.MS)

Program Objectives

1. Understand the stages of human growth and development in childhood, adolescence, young adulthood, middle adulthood, and late adulthood.

2. Apply theological and psychosocial methods for an appropriate treatment of children and adolescents.

3. Demonstrate sensitivity to, and an appreciation of, the spiritual needs of individuals.

4. Recognize the social, economic, political, and cultural factors that affect the situation of children and adolescents.

5. Engage in research and investigation concerning children and adolescents.

6. Understand the state and national laws and policies of the rights of children.

7. Examine international legislation concerning the protection of children and adolescents.

8. Demonstrate an understanding of the issues and concerns surrounding the integration of Christian faith and the ministry and service to children and adolescents.

Program of Study

The Holistic Child Development Program is designed to prepare a student for working in child development and advocacy organizations both domestically and internationally. Coursework emphasizes legal and ethical issues in working for non-profits and NGOs, utilizing community resources, and research-supported interventions. The program is composed of a minimum of three semesters of approved graduate study. A minimum of 36 semester hours is required. This degree program is offered at both our Cleveland, Tennessee campus as well as on the campus of SEMISUD in Quito, Ecuador.

Practical Experiences

As this degree program is primarily for students interested in working for international developmental and advocacy organizations, the practical experiences for the typical student are conceptualized as post-degree, although it is possible to earn elective credit for local internship experiences. With the help of their faculty mentors, students are encouraged to plan post-degree experiences with established international organizations that can provide appropriate guidance and supervision when first working with new populations and settings.

Master of Science in Marriage and Family Therapy

The Marriage and Family Therapy Program prepares professionals as broadly trained mental health professionals with a specialty in working
with relationships. Graduates of the program are trained to work in a wide variety of settings including mental health centers, substance abuse centers, church counseling centers and private practice. Completion of the degree is the first stage toward licensure as a marriage and family therapist. All MFT students are required to complete 500 hours of direct clinical services, half of which will be working with couples and families. In addition, students are required to complete over 100 hours of supervision in the delivery of those services.

**Marriage and Family Therapy (MAFTS.MS)**

**Program Objectives**
At the end of the master’s program, the graduate should have acquired the necessary advanced skills, knowledge, and experience to:

1. Establish a professional identity as a marriage and family therapist.
2. Provide individual, couple, and family therapy services in a wide variety of community service settings.
3. Conduct therapeutic interviews to assist individuals, couples and families in gaining insight into relational problems and to plan actions which reflect the clients’ interests, abilities and needs.
4. Collect data about individuals, couples and families through the use of interviews, case histories, psychometric instruments, observational techniques and related methods.
5. Demonstrate knowledge of human development across the lifespan.
6. Effectively communicate with diverse cultural groups.
7. Demonstrate an understanding of special needs populations (e.g., persons in poverty, physical abuse victims, substance abusers, and juvenile offenders).
8. Interpret and evaluate research data.
9. Demonstrate a sensitivity to, and an appreciation of, the spiritual needs of individuals, couples, and families.
10. Demonstrate an understanding of the issues and concerns surrounding the integration of Christian faith and MFT theory and practice.
11. Articulate a personal approach to therapy which integrates faith and learning.

**Program of Study**
The program is composed of a minimum of five semesters of approved graduate study. The typical full-time student will complete the program by following either a 2 year or 3 year track. A minimum of 60 semester hours is required. The program core provides educational preparation in ethical and legal issues, human growth and development, human sexuality, systems theory, diagnosis and treatment of mental illness, family therapy, couple therapy, assessment, and research. The clinical portion of the program provides supervised counseling experience working in the community with culturally diverse clients.

Many faculty members are practitioners who bring real world experience into the classroom. Faculty members are selected to teach courses according to their expertise and emphasis is placed on practical application of concepts and theory.

**Clinical Experiences**
Clinical experiences are an integral part of a degree in counseling at Lee University. The counseling practicum and internship placements provide an opportunity to practice skills and to utilize acquired knowledge in real life situations. Fieldwork activity follows a developmental model consisting of a sequence of training experiences of increasing complexity and responsibility. Each level of training is designed to accommodate the student’s particular level of professional development.

**Practicum/Internship**
The practicum and internships refer to the experience of working with clients within the setting of a formal course, under direct supervision of a faculty member. Students are required to complete a minimum of 500 hours direct client services, 250 of which must be with couples and families. In addition, each student is required to receive 100 hours of supervision from an AAMFT Approved Supervisor or an AAMFT Supervisor Candidate.

**Liability Insurance**
Students are required to obtain liability insurance through the graduate office prior to beginning field experiences.

**Background Check**
All students are required to obtain a background check through the Tennessee Bureau of Investigation prior to beginning classes. Applications must be obtained through the graduate office. Prior background checks may not be valid due to the age of the previous report and the level completed.

Elective-Credit Hours: 3

Master of Science in School Counseling
At the heart of the Master of Science program in School Counseling is the recognition of the inseparability of the school and the community and the role that counselors have in being advocates for all children and adolescents within these contexts. The program will lead students to develop skills in guiding and counseling children and adolescents, in facilitating team-building efforts, collaboration and coordination between teachers, parents, support personnel and community resources and in developing and implementing school guidance and counseling programs. Therefore, the purpose of the Master of Science program in School Counseling (PreK-12) is two-fold: (1) to provide a route to initial school counselor licensure and (2) to educate school counselors to become advocates and systems specialists who are capable of assessing, developing, implementing and sustaining programs for youth PreK-12 from diverse backgrounds.

Students who successfully complete the degree program and meet all standardized test requirements and other conditions set by the state are eligible for school counselor licensure in grades PreK-12 (Praxis II - School Counselor Exam) and for certification by the National Board for Certified Counselors (NBCC) Licensed Professional Counselor Exam. The Master of Science program in School Counseling would benefit students with undergraduate degrees in psychology, sociology, human development or teacher education that are seeking to become a licensed school counselor in the PreK-12 school setting. Students entering the program may often be mature students embarking on a career change or those who begin immediately upon completion of the undergraduate degree. Applicants must have earned a baccalaureate degree. The program offered by the Department of Behavioral and Social Sciences includes integrated academic and field-based experiences that provide the knowledge base and develop the skills, abilities and understanding needed for success as a school counselor in an elementary or secondary school environment. The curriculum is designed to equip graduates to assume roles as professional counselors who will emerge as leaders in the field of school counseling.

School Counseling (SHCSL.MS)
Program Objectives
One of the main tasks of the school counselor is to integrate the school counseling program into the total school curriculum, by systematically providing knowledge and skills to assist PreK-12 students in maximizing their academic, career and personal/social development. The Tennessee State Department of Education has established standards and goals for school counselor preparation programs. Therefore, based on licensure standards set by the Tennessee State Department of Education, the M.S. in School Counseling degree program at Lee University will provide the prospective candidate with the knowledge and skills to develop the following outcomes:

1. An understanding of the nature and needs of students in grade levels PreK-12 as well as the ability to apply knowledge from the area of human growth and development and learning theories; to identify learning problems; and to assist teachers and parents in responding to counseling and guidance interventions with students.

2. An understanding of the process of social and cultural change with respect to various racial, gender and ethnic groups, knowledge of differing cultural and lifestyle patterns, and the ability to develop plans and programs to prevent person and substance abuse, discrimination, and dropping out of school.

3. An understanding of the philosophical basis underlying the helping process and the ability to facilitate student growth and development through both counseling and consulting activities, including contributing to the development and implementation of the individualized educational programs (IEPs) for students with special needs.

4. The ability to lead large and small group counseling and guidance activities related to personal and interpersonal growth, self-help and problem solving, and career development.

5. An understanding of changes in society and technology and the influence of changes on work and learning as well as the ability to develop and implement a comprehensive career development program.

6. The ability to assist in curriculum advisement and career counseling using a variety of materials, strategies, and technologies.

7. An understanding of appropriate tests and other assessments to assist students and their parents in making effective educational, social and career decisions as well as the ability to use group administered educational and psychological measurement and appraisal instruments.

8. An understanding of research and research design as well as the ability to conduct research and evaluation projects related to the outcomes of counseling and guidance services.

9. The ability to plan, manage and evaluate a comprehensive PreK-12 program of guidance and counseling services.

10. An understanding of the ethical and legal standards of guidance and school counseling professionals.

11. The ability to work with teachers, school social workers, school psychologists and family resource center staff in meeting student needs.

12. The ability to inform students, teachers, parents and the community about the purposes and activities of the school guidance and counseling program.

13. The ability to work with parents and conduct parent education activities.

14. The ability to use community resources and referral processes and develop effective partnership arrangements with community agencies.

15. Establish a professional identity as a School Counselor.
Program of Study
The Master of Science in School Counseling (PreK-12) prepares individuals to work as school counselors. Requirements lead directly to licensure as a School Counselor by meeting all of the requirements of the Tennessee State Department of Education. The requirements for this track include a 48-semester hour curriculum that includes a full year placement in a school setting. This curriculum includes 48 semester hours of required courses. The program is composed of a minimum of four semesters of approved graduate study. The typical full-time student will complete the program in approximately two full years.

The program core will provide educational preparation in school guidance and counseling programs, human growth and development, social and cultural foundations of counseling, cross-cultural issues in counseling, a Christian perspective on psychology, helping relationships, group work, career and lifestyle development, appraisal, research and professional issues. The program core will also provide supervised counseling experience working in schools with culturally diverse students in grades PreK-12. The program furnishes additional training in family systems, human sexuality, crisis intervention and collaboration.

Clinical Experiences
Clinical experiences in a school setting are an integral part of a degree in school counseling at Lee University. The counseling practicum and internship placements provide an opportunity to practice skills and to utilize acquired knowledge in both elementary and secondary school settings. Fieldwork activity follows a developmental model consisting of a sequence of training experiences of increasing complexity and responsibility. Each level of training is designed to accommodate the student's particular level of professional development.

Practicum
Practicum refers to the experience of working with students and teachers within the setting of a formal course, under direct supervision of a faculty member. Students are required to complete a minimum of 100 hours of practicum prior to entering an internship. A minimum of 40 clock hours must be in direct contact with clients. The remaining hours can be indirect in nature, i.e., the student may participate in role-playing, observe counseling sessions, review taped sessions, and so on.

Internship
Internship refers to a formalized arrangement by which the student is assigned to a school in order to gain experience in the many facets of the role of a school counselor, including but not limited to direct services to clients. The internship experience includes two separate placements: (1) an elementary school and (2) a secondary school. Students are required to complete a minimum of 600 clock hours of internship. A minimum of 240 clock hours must be in direct contact with clients. The remaining hours can be used to provide the student with opportunities for a variety of professional activities in addition to direct service (e.g., record keeping, supervision, information and referral, in-service and staff meetings, IEP meetings and consultation, etc.).

Liability Insurance
Students are required to obtain liability insurance through the graduate office prior to beginning field experiences.

Background Check
All students are required to obtain a background check through the Tennessee Bureau of Investigation prior to beginning classes. Applications must be obtained through the graduate office. Prior background checks may not be valid due to the age of the previous report and the level completed.

Typical Two-Year Curriculum

Several configurations or sequences for completing required course work are possible. There are a variety of considerations and restrictions that limit the flexibility of these options and demand close attention when de-
veloping a program of study. Several of the more important factors to consider are the prerequisites or co-requisites of each course, the availability of a given course in a specific semester, individual interests, and ability and desire to enroll during the summer.

The following sequence is a possible program of study. This sequence is not required, but is simply an example. Several assumptions underlie this program: (1) the desire to complete in five semesters and (2) no transfer work being applied.

Master of Science in Counseling Psychology (ETS Campus only)
The Counseling Psychology Program is specifically designed for students seeking training in providing systems interventions in an international context. Offered only at our satellite campus in Kniebis, Germany, this degree is ideal for students interested in creating or working with advocacy programs, church service ministries, or NGO organizations in developing countries.

Counseling Psychology (ETS)

Program Objectives
At the end of the master’s program, the graduate should have acquired the necessary advanced skills, knowledge, and experience to:

1. Provide individual and group counseling services in a wide variety of community service, church, and advocacy settings.
2. Conduct counseling or therapeutic interviews to assist individuals in gaining insight into personal problems, in defining goals and to plan actions which reflect their interests, abilities and needs.
3. Provide occupational and educational information to enable individuals to formulate realistic vocational and educational plans.
4. Collect data about individuals through the use of interviews, case histories, psychometric instruments, observational techniques and related methods.
5. Select, administer, and interpret tests designed to assess individuals; and apply the knowledge of statistical analysis in doing so.
6. Evaluate data to identify problems of individuals and to determine the advisability of counseling or referral to other specialists or institutions.
7. Demonstrate an understanding of special needs populations (e.g., persons in poverty, physical abuse victims, substance abusers, juvenile offenders).
8. Interpret and evaluate research data.
9. Demonstrate sensitivity to, and an appreciation of, the spiritual needs of individuals.
10. Demonstrate an understanding of the issues and concerns surrounding the integration of Christian faith and counseling theory and practice.
11. Articulate a personal approach to counseling which integrates faith and learning.

Program of Study
The typical fulltime student will complete the program in two years. A minimum of 48 semester hours is required. The Counseling Psychology Program is specifically designed for students seeking training in providing systems interventions in an international context. Offered only at our satellite campus in Kniebis, Germany, this degree is ideal for students interested in creating or working with advocacy programs, church service ministries, or NGO organizations in developing countries. As licensing laws in different countries vary dramatically for mental health professionals, it is the responsibility of the student to work with the program chair to develop a plan of study that will best meet the student's goals.
Clinical Experience
Clinical experiences are an integral part of a degree in counseling psychology at Lee University. The counseling practicum and internship placements provide an opportunity to practice skills and to utilize acquired knowledge in real life situations. Fieldwork activity follows a developmental model consisting of a sequence of training experiences of increasing complexity and responsibility. Each level of training is designed to accommodate the student's particular level of professional development.

Practicum
Practicum refers to the experience of working with clients within the setting of a formal course, under direct supervision of a faculty member. Students are required to complete a minimum of 100 hours of practicum prior to entering an internship. A minimum of 40 hours must be in direct contact with clients. The remaining hours can be indirect in nature, i.e., the student may participate in role plays, observe counseling sessions, review taped sessions and so on.

Internships
Internship refers to a formalized arrangement by which the student is assigned to a community agency in order to gain experience in the many facets of the role of a counselor including but not limited to direct services to clients. Each student is required to complete three semesters of internship with a minimum of 300 hours of service each semester.

Program Goals

Counseling programs at Lee University are based upon the following goals, which reflect both programmatic and individual needs:

To provide a curriculum which contains an appropriate balance between both didactic and experiential learning.

To provide a curriculum which reflects faculty expertise and competencies, students' needs for credentialing and the community's needs for well trained professionals.
To provide students with the opportunity to test out their newly acquired skills in a structured, supervised environment.

To provide a comprehensive program which is open to change and revision based upon the changing needs of students, faculty, the institution and society.

To provide a comprehensive program that enables students to gain knowledge and experience that will enhance their identity as a professional.

To provide a program that teaches the theory and practice of counseling in conjunction with application of Christian principles and values.

To provide a learning environment which is sensitive to the person and work of the Holy Spirit.

Admissions Policies

Procedures
Application materials for any of our degree programs may be obtained from the graduate admissions coordinator.

Applications will not be acted upon until all required documents have been received (including transcripts, letters of recommendation, and entrance exam scores). In order to allow time for the university and the program admissions committee to process the applications, it is advisable to have applications completed by the following dates:

April 1 for Fall matriculation
November 1 for Spring matriculation

Requirements
Applicants who are granted regular admission must meet minimum requirements. Among those elements of the total evaluation process are the following:

A bachelor’s degree from a regionally accredited college or university.

An undergraduate cumulative grade point average (GPA) of 3.0 or above on a 4 point scale (highly recommended).

A cumulative GPA of 3.0 or above on a 4 point scale for any graduate work completed.

No specific undergraduate major is essential for admission. Applicants are encouraged to have undergraduate credit in subjects that embrace human development, sociology, psychology and statistics. Applicants without adequate preparation may be accepted upon the condition that they register for additional courses deemed necessary by the admissions committee.

Scores on the Graduate Record Examination (GRE) OR the Miller Analogies Test (MAT) must be provided. Scores must be no more than five years old. The GRE Advanced tests and Subject tests are not required. For regular admission, scores should be in the 50th percentile or higher.

Also, test scores are waived for students with an undergraduate GPA of 3.0 or above from a regionally accredited college or university.

Each applicant must submit the following:

Completed application form
$25 application fee (non-refundable)
Official transcripts from all colleges and universities attended.
Scores from the Graduate Record Examination (GRE) OR
Scores from the Miller Analogies Test (MAT) if required

Three recommendation forms, two of which must be from former professors familiar with your work (recommendation forms are included in the application packet).

Autobiographical information (guidelines are included in the application packet).

Personal interview for those who are finalists in the application process (phone interviews may be conducted in cases where face-to-face interviews are impossible).

Hours Required
A minimum of 44 semester hours is required to complete the Master of Science degree in College Student Development. A minimum of 36 semester hours is required to complete the Master of Science degree in Holistic Child Development. A minimum of 60 semester hours is required to complete the Master of Science degree in Marriage and Family Therapy. A minimum of 48 semester hours is required to complete the Master of Science degree in School Counseling

Transfer Credit
A maximum of six semester hours of credit may be transferred into the program. Approval for the substitution of required course work is made on an individual basis in consultation with the student’s advisor and the Program Director.

Non-Degree Status
Students desiring to take courses without full admission status in our program may choose one of the following options. With any category of non-degree status, students will be required to complete a non-degree status application and submit official transcripts from all colleges and universities attended. If at any time non-degree students wish to pursue one of the Master of Science programs, full admission status will be required including a separate application and all other full admission status requirements. Completion of course work under non-degree status does not guarantee that students will be granted full admission status.

A maximum of six semester hours may be taken at the applicant’s risk as an unclassified student. Enrollment will be limited to specific entry-level courses. Courses must be approved by the Director of Graduate Studies in Counseling. Professionals who hold a master’s degree in counseling or a closely related field but do not satisfy state requirements for licensure may take a maximum of six courses with non-degree status through one of the Counseling programs.

NOTE: Individuals who have completed a graduate degree at an accredited college or university are not required to submit GRE/MAT test scores.
Admission with Deficiencies
Students may be admitted into the program with deficiencies if they lack appropriate course work in their undergraduate programs. Deficiencies should be completed during the first year of study. Credits taken to make up deficiencies do not count toward the 60 hour credit requirement.

Full-time vs. Part-time
Although it would be the faculty’s preference, students need not always take a full-time course load. However, degree requirements must be completed within 6 years of matriculation.

Once students are admitted they are expected to maintain continuous enrollment (a minimum of three hours during both the fall and spring semester), and make satisfactory progress toward their degree. If a student has not maintained continuous enrollment, he or she must go through the re-entry process and contact the Program Director at least ten weeks prior to the semester in which he or she wishes to re-enter. The admissions committee can:

1. Grant re-entry without conditions.
2. Grant re-entry conditionally.
3. Deny re-entry.

Generally, if the student is making satisfactory progress toward a degree, re-entry will be approved without conditions. However, evidence of delayed progress without reasonable grounds (e.g. multiple requests for re-entry, several semesters not registered) may result in option (2) or (3) above. Students who anticipate discontinuities in registration should inform their advisor in writing.

Completion Requirements for Degrees in the Graduate Programs in Counseling

1. A maximum of six (6) hours of transfer work from an accredited institution and approved by the Director of the Graduate Programs in Counseling may be counted toward the graduate degree.
2. Candidates must maintain a minimum 3.0 GPA.
3. Grades below a “C” are unacceptable and may be grounds for dismissal from the program.
4. No more than two “C’s” are acceptable. The candidate will be dismissed from the program with a third “C” or below.
5. Candidates must apply for graduation in accordance with the university’s published policy.
6. Students must complete the program within six (6) calendar years from the completion of the first course.

Ethical Standards
The program endorses and abides by ethical standards of service delivery and research established by the American Association for Marriage and Family Therapists and American School Counseling Association, Lee University and the State of Tennessee. In accordance with these ethical standards, master level students are not permitted to engage in the independent practice of counseling. Information on professional ethics is distributed to and reviewed with each incoming class on an annual basis and reiterated in counseling courses and seminars.

The Counseling Graduate Committee
The Counseling Graduate Committee’s responsibility is to give administrative oversight to the graduate program. The committee considers and recommends curricular changes to the Graduate Council, approves all program policies, assesses effectiveness of the graduate program, serves as the Admissions Committee, reviews candidacy, and approves applicants for graduation.

Master of Education in Classroom Teaching, Special Education, or Educational Leadership (M.Ed.)
This program is designed to provide post-baccalaureate study for persons preparing for careers in professional education and for those teachers and school administrators who want to refine their professional skills. Specifically, the degree will:

1. Provide advanced preparation, theory, integration of faith and learning, and practical application.
2. Encourage candidates to solve professional problems by independent investigation through study and research.
3. Further develop the professional competencies attained in undergraduate programs.

For those school personnel who have a need for further professional training but who may not be interested in pursuing a graduate degree, this program of study may provide in-service educational opportunities.

Master of Arts in Teaching (M.A.T.)
The purpose of this program in Elementary, Secondary, or Special Education is to provide a route to initial teacher licensure with graduate work leading to a master’s degree. Students who successfully complete the degree program and meet all standardized test requirements will be eligible for licensure by the Tennessee Department of Education.

The Conceptual Framework
The following brief outline is an abridged version of the extended Conceptual Framework that guides the Unit’s work. This abstraction delineates the linkage between the Unit’s Vision, Mission, Philosophy, and Goals and is the basic rationale for all its activities.

Vision
The vision of the Graduate Education Program at Lee University is to be an institution of international significance in professional education. That vision is expressed in the following mission statement summarizing and organizing this unit’s efforts toward that end.
Mission
This unit’s mission is to produce candidates who are...
   Lifelong Learners
   Effective Educators
   Ethical Practitioners

Each of the three statements in the mission is an organizing principle that shapes and informs this unit’s activities and is the summation of the following fundamental philosophical assumptions undergirding these lofty ideals.

Philosophy
Competent, caring, and qualified educational professionals are essential in securing the future of this country and the world. These men and women must be prepared to discern wisely, think creatively, teach effectively, and lead courageously. Toward that end, the Lee University Graduate Education programs are designed to encourage problem finding, problem solving and reflective practice within the framework of biblical truth and commitment of service in the kingdom of God. The program should enhance the candidates’ present teaching and leadership skills, help develop new talents, and improve educational research abilities. Expected outcomes include scholarly contribution to the profession, significantly improved classroom teaching, and modeling of able and compassionate leadership. This philosophical ideal is best achieved if our candidates are Lifelong learners, Effective Educators, and Ethical Practitioners.

Goals
Specifically, the goals that follow are the expected pragmatic outcomes of the unit’s vision, mission and philosophy. Along the way, the assessment of these benchmarks helps insure adequate progress toward the realization of the unit’s philosophy, its mission and ultimately its vision.

For each of the levels in the unit - the Masters and Specialists - the seven fundamental goals are the same. In each of the levels, these goals are further refined to reflect program specifics and are linked to additional external measures that help clarify and differentiate the expected outcome by program. Further, each of the fundamental goals will be related to one or more of the mission outcomes, Lifelong Learner, Effective Educator, Ethical Practitioner. As indicated above, the subsections for each level of these fundamental goals will be identified and cited from a variety of organizations including outcome goals established by the National Board for Professional Teaching Standards, Tennessee State Board of Education for the Administrator License (TSBEAL), and those identified by this unit (12 Unit Goals).

Graduate Goals
Masters Level Classroom Teaching Candidates will demonstrate evidence of intellectual and personal growth defined by the prescriptive activities in the 12 undergraduate Unit Goals (initial license) linked to each of the following goals for the Master Level candidate.

Masters Level Educational Leadership Candidates will demonstrate evidence of intellectual and personal growth in standards implicit in the seven areas described in the Tennessee State Board of Education for the Administrator License (TSBEAL -A-G) as they are linked to the following fundamental goals for the Master Level candidate.

Educational Specialist Level Classroom Teaching Candidates: The graduate education goals are extended for the Educational Specialist candidates in Classroom Teaching to include outcomes identified by the Unit (U1-12), the EDS candidates in Classroom Teaching will satisfy the objectives inherent in the five (5) Core Propositions (P1-5) of the National Board for Professional Teaching Standards (NBPTS).

Educational Specialist Level Educational Leadership Candidates: The fundamental graduate education goals are extended for the Educational Specialist candidates in Educational Leadership. In addition to the general outcomes identified by the NBPTS Five (5) Core Propositions (P1-5: please note that in the NBPTS sections, the word “Teachers” has been replaced by the word “Educator”), these candidates will satisfy the outcomes mandated by the Tennessee State Board of Education for the Administrator License (TSBEAL).

All Graduate candidates will demonstrate competencies in an (a):
1. Extend Knowledge and experience in the area of learning and instruction, including conceptual and practical applications of practices that support the process.
2. Understanding and utilization of research methods that improve practices in schools and classrooms.
3. Ability to apply knowledge of multi-media technology to school and classroom practices.
4. Understanding and application of practice of inclusive educational opportunities for learners from diverse backgrounds and disabilities.
5. Enhancement and extension of knowledge of current trends and issues in education.
6. Demonstration of professional contributions, such as leadership in professional organizations, provision of in-service education for peers and mentorship of beginning teachers.

Admission Status
The Graduate Education Committee may admit candidates in one of the following categories:

1. Full Admission—applicant meets all admission requirements.
2. Provisional Admission—May be granted if the candidate does not meet minimum standards in one or more of the weighted criteria above. However, the candidate may not take more than nine (9) hours, which may be prescribed as a condition of acceptance, as a Provisionally Admitted candidate. To continue beyond the nine (9) hours, the candidate must be considered for Full Admission by the Graduate Education Committee.
3. Non-Degree Admission: A candidate may be granted Non-Degree Admission status to take up to nine hours of coursework. Non-Degree status may be granted if the following minimum criteria are met:
   a. Completion of a Bachelor’s Degree from an accredited university.
   b. Presentation of official transcripts of all completed coursework.
   c. Completion of demographic information on the application.

A Non-Degree candidate may take a maximum of nine (9) hours in this status. To continue, the candidate must complete the requirements for consideration for Full Admission by the Graduate Education Committee. Completion Requirements
1. A maximum of six (6) hours of transfer work from an accredited institution and approved by the Dean of the Helen DeVos College of Education may be counted toward the graduate degree.
2. Candidates must maintain a minimum 3.0 GPA.
3. Grades below a “C” are unacceptable and may be grounds for dismissal from the program.
4. No more than two “C”s are acceptable. The candidate will be dismissed from the program with a third “C” or below.
5. Candidates must apply for graduation in accordance with the university’s published policy.
6. Candidates must complete application for Admission to Candidacy.
7. Students must complete the program within six (6) calendar years from the completion of the first course.
8. Candidates electing the thesis option will present the results of their Graduate Research Exercise in an open forum as a culmination of the Thesis Seminar class. This constitutes the candidate’s oral examination.
9. The candidate’s Portfolio must be submitted to the Graduate Education Office ten (10) days prior to graduation.
10. Candidates must complete a comprehensive written evaluation during the last semester.
11. For the Master’s level candidates, there will be an option to complete a formal thesis or take an approved graduate class elective. This choice will be made subsequent to the candidate’s completion of EDUC-501 and prior to Admission to Candidacy. In addition, the candidate contemplating the thesis will attach a Thesis Application to the documents for Admission to Candidacy. The Thesis Application will require the signature of at least one Graduate Education Faculty member indicating approval of the candidate’s choice. Candidates approved for the thesis will enroll in EDUC-595 at least one semester prior to graduation. The completed theses, including faculty signatures indicating full acceptance, will be due in the Graduate Education Office at least ten (10) days prior to graduation. In the event a candidate completes the program’s course work but lacks the thesis, graduation will be delayed and the candidate will enroll in GRAD-591 Graduate Supervision each semester thereafter until the thesis is submitted and accepted. GRAD-591 carries no credit, but is billed at the equivalent of one graduate credit hour.

Professional Certification/Licensure
Completing the degree requirements does not constitute Professional Certification/Licensure as an educator. The candidate must complete all of the state mandated undergraduate certification courses and pass the appropriate national exams (i.e., Praxis II series) to be recommended for licensure by the Certification Officer. Consequently, the candidate is advised to have official transcripts evaluated early in the program by the Certification Officer to determine the required undergraduate certification courses.

The Graduate Education Committee
The Graduate Education Committee’s responsibility is to provide administrative oversight to the graduate program. The committee considers and recommends curricular changes to the Graduate Council, approves all program policies, assesses effectiveness of the graduate program, serves as the Admissions Committee, reviews candidacy, and approves applicants for graduation. The Graduate Education Committee consists of the Dean of the Helen DeVos College of Education; the Director of Graduate Studies in Education; the Chairs of the Departments of Early Childhood, Elementary, and Special Education and Health, Exercise Science, and Secondary Education; the Director of Teacher Education and Field Experiences; three faculty members; and one candidate representative.

Educational Specialist (Ed.S.)

Program Description
The Lee University Educational Specialist Degree with a concentration in either Classroom Teaching or Educational Leadership is a post master’s degree level program of study. The purpose of the program is to equip successful educators with the tools, knowledge and understanding necessary to provide innovative classroom instruction to the schools and school systems of the twenty-first century. This program is intended to serve three related purposes:
1. To provide professional educators with an opportunity to develop specialized expertise and best practice skills in the area of classroom teaching or educational leadership.
2. To provide those professional educators who desire it, a bridge from their master’s level work to doctoral level study in the areas of educational administration or curriculum and instruction.
3. To provide a career path for classroom teachers to pursue the highest professional ranking in the profession, National Board Certification.
Consequently, the Educational Specialist in Classroom Teaching will be organized around the five core propositions of the National Board for Professional Teaching Standards. These standards are intended to produce professional educators who:

1. Are committed to students and their learning.
2. Know the subjects they teach and how to teach those subjects to students.
3. Are responsible for managing and monitoring student learning.
4. Think systematically about their practice and learn from experience.
5. Are members of learning communities.

6. Complete an acceptable interview with the Graduate Education Committee.
7. Submit a writing sample to be assessed by the Graduate Education Committee or their designee.

Completion Requirements of the Ed.S. Degree
In order to receive the Ed.S. degree, students must accomplish the following:

1. Maintain a minimum 3.0 grade point average with no grade below a “C”. No more than two “C’s” will be accepted. Possible grades to be awarded are A, A-, B+, B, B-, C+, C, F, I, P, S, and W.
2. Apply for graduation in accordance with the university’s published deadlines.
3. Be admitted to candidacy.
4. Complete a portfolio submitted to the Graduate Education Office two weeks prior to graduation.
5. Complete the program within six calendar years from the completion of the first course.

The School of Music advocates that music is not only an academic discipline, but it is also a performance art. Working with university administration and the Fine Arts Committee, the School of Music endeavors to provide a well-rounded series of events that allow the university community to participate in music from an artistic and aesthetic perspective. The School also maintains a variety of music ensembles that provide interested, talented, and qualified students the opportunity to become acquainted with the performer’s art.

Since Lee University is a Christian university, the School of Music is intimately involved in the spiritual life of the campus. Through its faculty and students, the School takes a leading role in providing musical worship experiences in the university-wide chapel services. Courses are provided which are specifically designed to aid pastors, Christian Education students, and others preparing for full-time Christian service. In addition, the School of Music offers workshops, seminars, and clinics for ministers of music, pastors, and church leaders in order to promote the ministry of music in the Church of God, the sponsoring denomination of Lee University and other faith traditions.

The students, faculty and administration of the School of Music accept the responsibility to provide the opportunity to bring a sense of celebration to our university community through the re-creative art of music – a celebration of the creative gifts with which our Creator God has endowed man and a celebration of the God of our salvation through music that is both artistic and spiritual.

The Graduate Music Committee
The Graduate Music Committee’s responsibility is to give administrative oversight to the Graduate Studies in Music program. The committee considers and recommends curricular changes to the university faculty, approves all policies, assesses effectiveness of the graduate program, serves as the Admissions Committee, reviews candidacy, and approves applicants for graduation. The Graduate Music Committee consists of: Bradley Moffett, D.W.S., Director, Graduate Studies in Music; William R. Green, D.M.A., Dean of the School of Music; Mark Bailey, D.M.E.; Jim Burns, D.M.A.; Ron Brendel, D.M.A.; David Holsinger, D.M.A.; Cameron LaBarr, D.M.A.; Walt Mauldin, D.M.A.; Austin Patty, Ph. D.; Phillip Thomas, Ph. D.; and Linda Thompson, Ph. D.

Graduate Programs in Music Admission Requirements
ADMISSION REQUIREMENTS:

General Admission Requirements for All Students:
The Applicant must have:

* Undergraduate degree in music from an accredited institution
* Minimum 2.75 grade point average on a 4.0 scale

If the applicant has a grade point average less than 2.75, the student may petition for admission based on tenure as a music educator, private teacher or professional experience for a cumulative period of no less than three years. Action on this petition will be determined by the Graduate Music Committee.
The following application materials must be submitted:

- Completed Application Form
- $25.00 Application Fee (non-refundable)
- Official transcript of all college work
- Essay explaining rationale for graduate study (see criteria for specific degree program)
- Resume
- Three Recommendation Forms completed by three professionals, including two academic and one personal reference
- Measles Immunization Verification (if born after January 1, 1957)

Proof of a Tuberculin PPD skin test taken within a one-year period of the date of admissions application

Prerequisite to full acceptance is the successful completion of any required remediation. No more than 12 hours of graduate courses may be completed before all deficiencies are removed.

Each applicant must complete all proficiency auditions, placement exams, and other auditions required by the Graduate Music Office. These include placement exams in music theory, music history, diction (for Choral Conducting and Vocal Performance programs), and the piano proficiency placement hearing (not required for instrumental performance students). Each applicant is required to have an interview with the Graduate Music Committee.

Specific Discipline Application Requirements

MCM-Church Music

No Additional Application Requirements

MM-Conducting

Submission of a rehearsal/performance video with the initial application for review by the Director of Graduate Studies in Music and the conducting faculty. Upon review by the graduate admissions committee, a limited number of applicants demonstrating proficient conducting skills will be invited for an on-campus live audition with one of the university ensembles, placement exams and an interview with members of the graduate committee.

Note: Your video should be a minimum of 15 minutes including a rehearsal and a performance. The camera should face the conductor. Please state your name clearly at the beginning of the video. DVD format preferred.

MM-Music Education

An Undergraduate degree in Music Education from an accredited institution, including official state certification is a prerequisite for admission. If the prospective candidate does not hold teaching certification, post-baccalaureate certification (requiring additional coursework and student teaching) can be pursued simultaneously with the Master of Music - Music Education. Post-baccalaureate requirements must be completed prior to completion of the Master of Music - Music Education. The Master of Music - Music Education plus post-baccalaureate certification will generally require two years of full-time study. The post baccalaureate option is not available in the Summers Only program.

In addition to the resume, transcripts, letters of recommendation, and health certificate of immunization, the following materials are required for admission to the Master of Music - Music Education.

1. Three-to-four page essay, including:
   a. Rationale to study at Lee University
   b. Description of your background in music
   c. Statement of your professional goals upon completion of this degree
   d. Discussion of ways you feel you will contribute to the Music Education profession

2. Teaching videotape (Submit ONE of the following)
   a. Secondary Choral or Instrumental specialization: Submit a video-tape of a typical class/rehearsal period of no less than 45 minutes. The tape should include a clear demonstration of the applicant conducting as well as rehearsal techniques (pedagogical aspects). The applicant may include 1-2 pages of a narrative giving additional information regarding the taped rehearsal as well as the lesson-plan.
   Or
   b. General music specialization: Submit a video-tape with a minimum of 20 minutes of teaching for each of two grade levels or for two different lessons (class periods). The lessons should include at least one demonstration of singing with children. Lesson plans for the videotaped sessions should be included with the tape submission.

Applicants submitting application materials on or before May 1 (for Fall Semester matriculation) or on or before February 1 (for Summer matriculation) will receive first consideration.

MM-Performance

1. A dossier of available programs, articles, and performance reviews.

2. Each applicant must perform an audition in his/her primary applied area for the graduate performance faculty.

Graduate Programs In Music Placements

      i. All Hail the Power (Coronation, G major)
      ii. Come Thou, Almighty King (Italian Hymn, F major)
      iii. My Jesus, I Love Thee (Gordon, F major)
      iv. O for a Thousand Tongues (Azmon, A-flat major)
      v. O Worship the King (Lyons, G major)
      vi. We Will Glorify (Paris/Allen, D major and E-flat major)
   
   d. From the list below of instrumental and choral scores, play any vocal or instrumental part at concert pitch and performance tempo.

   Instrumental (full score only)
   
   Vivaldi: Gloria (1st movement)

   Choral
   
   Stainer: God So Loved the World

   The entering students must take the piano placement examination at matriculation.

   The Assessment of Piano Skills will determine:

   No additional piano study required

   OR

   Applied piano study each semester until proficiency level is achieved

   *Applicants responsible to purchase all scores needed.

3. Conducting Placement will be administered to each Master of Church Music student to determine whether the student’s conducting skills are appropriate for the graduate program in Church Music. Each student will conduct and rehearse a choral (Psalms 23 by Paul Basler, publisher Plymouth Music Co.) or instrumental (On An America Spiritual by David Holsinger, publisher TRN Music Publisher) ensemble selection. Scores are to be purchased by the student. Each student must demonstrate
conducting patterns with clarity and precision, communicate appropriate conducting gestures, and display rehearsal techniques appropriate for graduate-level study.

The Assessment of Conducting Skills will determine:
Graduate conducting courses, and applied conducting lessons OR Remedial classes before enrolling in the graduate-level conducting courses

**MM-Conducting**

1. On Campus Live Audition - Applicants will be required to demonstrate conducting skills and rehearsal technique in a rehearsal of one of the university ensembles. During the audition, students will conduct two required pieces chosen by the conducting faculty. The first piece will be something with which the ensemble is familiar, and will allow the applicant to demonstrate conducting with clarity and precision (6-8 minutes). The second piece will be new to the ensemble, and allow the applicant to demonstrate rehearsal technique and musical leadership in a live rehearsal setting (8-10 minutes).

Specific pieces will be determined by the conducting faculty each semester and titles will be published by January 15 for Summer/Fall applicants and August 15 for Spring applicants.

2. Vocal Diction Proficiency will be administered to determine whether the student’s diction skills are appropriate for the study of diction at the graduate level. The Vocal Diction Proficiency will include diction rules and use of the International Phonetic Alphabet. Proficiency in English, Italian, German, and French will be assessed. (Based on the Vocal Diction Proficiency scores, the student may be advised to enroll in 1) MUED 521 - Vocal Diction I and/or 2) MUED 522 - Vocal Diction II).

3. Vocal Pedagogy - Applicants for the MM-Conducting (Choral) Program with the presence of a vocal pedagogy course on their undergraduate transcript, with a minimum grade of C, will meet the entrance requirements for the program. Applicants without a vocal pedagogy course on the undergraduate transcript will be required to take MUSP 570-Graduate Vocal Pedagogy. MUSP 570 is also offered as an elective course to all graduate students in the MM-Conducting (Choral) Program.

4. A Piano Placement Examination will be administered to each student to determine whether the student’s current piano skills are appropriate for graduate-level study.

The student must be able to demonstrate functional piano skills including:

a. Choral Conducting Piano Placement
   i. Major scales, one octave, hands together and white-key harmonic minor scales, one octave, hands together
   ii. All pentascales and arpeggios played in both hands, prepared in chromatic succession, ascending and descending
   iii. Play the accompaniment of the Mozart: Ave Verum Corpus, and be able to play all four voice parts simultaneously

b. Wind Conducting Piano Placement

i. Major scales, one octave, hands together

ii. White-key harmonic minor scales, one octave, hands together

iii. Play any part from Holst: Suite for Band in E-flat or Holst: Suite for Band in F at concert pitch and at tempo

The entering students must take the piano placement examination at matriculation.

The Assessment of Piano Skills will determine:
No additional piano study required
OR
Applied piano study each semester until proficiency level is achieved
*Applicants responsible to purchase all scores needed.

**MM- Music Education**

1. A Piano Placement Examination will be administered to each student to determine whether the student’s piano skills are appropriate for graduate studies in music education.

The student must be able to demonstrate functional piano skills including:

a. Vocal/General
   i. All major scales, one octave, hands together and white-key harmonic minor scales, one octave, hands together
   ii. All pentascales and arpeggios—played in both hands, prepared in chromatic succession, ascending and descending
   iii. From a list provided by the Graduate Office, choose 5 melodies to harmonize and provide accompaniments.
   iv. From any Essential Repertoire text, play 2 selections of contrasting tempi and styles, and any two voice parts simultaneously and the accompaniment.

b. Instrumental
   i. All major scales, one octave, hands together and white-key harmonic minor scales, one octave, hands together
   ii. Play any single line at concert pitch and performance tempo from the Holst: Suite for Band in E-flat or Holst: Suite for Band in F.

Specific placement criteria for Instrumental, Choral, or General Music specialists is available upon request from the Office of Graduate Music. The entering students must take the piano placement examination at matriculation.

The Assessment of Piano Skills will determine:
No additional piano study required
OR
Applied piano study each semester until proficiency level is achieved

*Applicants responsible to purchase all scores needed.

**MM-Performance – Vocal**

1. Vocal Diction Proficiency will be administered to determine whether the student’s diction skills are appropriate for the study of diction at the graduate level. The Vocal Diction Proficiency will include diction rules and use of the International Phonetic Alphabet. Proficiency in English, Italian, German, and French will be assessed. Based on the Vocal Diction Proficiency scores, the student may be advised to enroll in 1) MUED 521 - Vocal Diction I and/or 2) MUED 522 - Vocal Diction II.

2. A Piano Placement Examination will be administered to each vocal performance student to determine whether the student’s piano skills are appropriate for graduate studies in music performance.

The student must be able to demonstrate functional piano skills including:

a. All major scales, one octave, hands together and white-key harmonic minor scales, one octave, hands together

b. All pentascales and arpeggios played in both hands, prepared in chromatic succession, ascending and descending

d. Two art song accompaniments from Twenty-Four Italian Art Songs and Arias

The entering students must take the piano placement examination at matriculation.

The Assessment of Piano Skills will determine:

No additional piano study required
OR
Applied piano study each semester until proficiency level is achieved

*Applicants responsible to purchase all scores needed.

The Office of Graduate Studies in Music will accept applications for a performance emphasis in voice, piano, woodwinds, percussion, strings, and brass. Applicants will perform selections from a list of requirements including the artistic periods, representative composers, significant schools of composition and/or performance and languages as considered appropriate. The list of requirements for each instrument or voice will be made available from the Office of Graduate Studies in Music upon application.

A Jury Examination is required of Primary and Secondary graduate applied study.

**Non-degree Seeking Status**

A student desiring to take courses without admission to Graduate Studies in Music will be required to complete an application and submit official transcripts from all colleges and universities attended. A maximum of nine semester hours may be taken as a non-degree seeking student, and enrollment will be limited to specific entry-level courses. The Director of Graduate Studies in Music must approve any course(s) selected by the applicant. Completion of course work under non-degree seeking status does not guarantee that a student will be admitted to any graduate music degree program for which they may subsequently apply.

Non-degree-seeking students may pursue admission to Graduate Studies in Music programs by meeting all admission criteria.

**Completion Requirements**

1. To be a full-time graduate student the student must enroll in nine semester hours per semester. It is possible for a full-time graduate student-in-residence to complete classroom courses for the degree program in one year. It is suggested the optimal course load will be as follows:

   - **Fall**: 12 hours
   - **Spring**: 12 hours
   - **Summer**: 08 hours

2. In addition to this traditional approach to scheduling, select courses will be offered so that students may attend classes one day a week (specifically Thursday for only Master of Church Music students) and complete course requirements over a two-year period. A schedule of late afternoon and early evening classes has been developed to assist the working music professional to achieve his/her degree while maintaining a career.

3. Another option is the modular two-week “J-Term” summer courses offered each June and July. Distance students in Music Education may complete course requirements over a three-year period using other creative options during the regular academic calendar to meet Music Elective, Ministerial Elective and Advanced Technique Music Studies requirements.

4. A cumulative average of 3.0 or above (on a 4.0 scale) is required in the graduate program. Course credits with a grade below a “C” may not be counted toward the degree.

5. Graduate students must successfully complete a final project, depending on their degree program the final project may be a graduate recital, a thesis or a worship festival. The final project must be completed at least three weeks prior to graduation.

6. A student is admitted to candidacy for the graduate degrees only after the completion of 28 (MUSCH.MCM) or 30 (MUSED.MM, MUSPF. MM, & MUSCO.MM) hours of course work and the successful completion of the written and oral comprehensive exams.

7. Upon completion of all required course work, the Master’s candidate is required to register for GRAD-591 Graduate Supervision for each succeeding semester until the comprehensive examinations and the final project (thesis, recital, or worship festival, depending upon the degree requirements) are satisfactorily completed. One hour of graduate tuition is charged for each semester of enrollment in GRAD-591. While enrollment in GRAD-591 is required for continuing candidate status in the program, it does not fulfill any degree requirements and carries no credit. If the student fails to register and pay for GRAD-591 for two consecutive semesters, but then wishes to return to complete the final project and/or comprehensive exams, s/he must re-apply to the University.
Once a student begins course work towards a graduate music degree, the degree program must be completed within a six-year period.

Final Project Committee
The graduate student's Final Project Committee will include a chairperson (typically the student's applied professor) and two members from the graduate faculty assigned by the Director of Graduate Studies in Music. This committee will give oversight and direction for the final project. The student may refer to this committee as his/her "Final Project Committee." Requirements for the worship festival, thesis, and recital can be found in the Graduate Music Handbook or from the Graduate Studies in Music Office.

Comprehensive Exams
Comprehensive exams are typically offered three weeks before the desired graduation ceremonies. A four-hour written exam is followed one week later by a 30 minute oral examination. The written exam can cover all material presented in the graduate music curriculum, and/or other material in music history, theology and related areas from undergraduate study. The oral exam continues the exploration by the graduate faculty of the student's experiences and the synthesis of their academic work. A minimum of three members of the Graduate Music Committee will be present for the oral comprehensive exam.

Master of Church Music (MUSCH.MCM)

Statement of Purpose
The Master of Church Music degree is designed to provide graduate professional education for men and women involved in or preparing for Christian service in music ministry.

The program gives attention to areas vital to the success of the music minister including: administration, music performance, biblical and theological foundations of music in worship and spiritual growth. Through this program, the School of Music seeks to provide competent leadership to churches, colleges, denominational agencies and appropriate mission fields.

Program Outcomes
Upon the completion of the Master of Church Music degree, an individual should possess the following qualities, abilities, and skills:

1. The ability to organize and lead worship in a contemporary evangelical setting, which includes all appropriate styles and genres of instrumental and vocal music

2. The ability to function effectively as a choral and instrumental conductor

3. An understanding of basic vocal production with adequate vocal skills to demonstrate and communicate these to church vocalists

4. Comprehensive musical skills which demonstrate an understanding of the wide variety of styles potentially encountered in the evangelical tradition. This would include standard choral literature as well as various current styles.

5. Sufficient piano skills (a) to prepare choral and instrumental literature to be used in worship, and (b) to accompany simple congregational songs

6. A basic working knowledge of current music technology, for use in practical and artistic applications

7. Familiarity with the principles of music drama/pageantry in a church worship setting

8. Organizational skills necessary to plan and administer a church music program

9. Interpersonal skills necessary for functioning effectively in a multi-staff church as well as dealing with volunteer staff and church members

10. An understanding of the Scripture as it relates to Christian living and worship

Internship
Master of Church Music students are required to complete an internship serving in a local church or other appropriate venue under the supervision of a qualified professional and his/her graduate faculty adviser. During the semester preceding the student's internship, the student must make application to the Graduate Internship Coordinator concerning the appropriate placement and desired location of the internship. The student will secure the appropriate forms, submit them to the proposed church music supervisor, and return a signed copy to the Graduate Internship Coordinator. At the end of the internship period, the church music supervisor will provide the Graduate Internship Coordinator with the appropriate evaluation form completed and signed with the grade included.

Thursday-Only Program
Most courses in the Master of Church Music curriculum are offered in the Thursday-Only Track. Courses in this track are presented on a rotating basis so that the student may finish the classroom requirements in four semesters if he/she enrolls in and completes all of the appropriate courses when they are offered.

Master of Music - Music Education (MUSED.MM)

Statement of Purpose
The Master of Music-Music Education is designed to provide graduate professional education for men and women who wish to pursue or are currently involved in Pre-K – 12 music education in public or private institutions. Classroom teachers, ensemble directors and music administrators who hold the baccalaureate in music will be provided opportunity to refine skills gained at the undergraduate level and in other spheres of learning.

Program Outcomes
Upon completion of the Master of Music-Music Education degree, the graduate should be able to demonstrate:

1. The ability to organize and develop a program of choral, instrumental or elementary music including personnel, facilities, equipment and budget—or to make a contribution of value to an existing program
2. The ability to function effectively as a music educator both musically and administratively
3. The ability to work effectively in children's music
4. An understanding of and ability to utilize research methods designed to improve practices in schools, classrooms, rehearsals and performances, and the ability to frame the results in a scholarly manner
5. Piano skills sufficient to (a) prepare choral or instrumental literature for rehearsal, and (b) accompany simple music literature for class or rehearsal
6. A basic working knowledge of current music technology for use in practical and artistic applications
7. The ability to prepare musical experiences that are informed by an understanding of applicable historical performance practices
8. An understanding of musical style as discovered through advanced musical analysis
9. Interpersonal skills necessary for functioning effectively in a public or private school with other staff, administrators, parents and community
10. Extended knowledge and experience in the area of classroom teaching and/or rehearsal settings, including conceptual understanding and practical application of methods that support learning
11. Knowledge of current trends, technology, and issues in music education
12. The ability to articulate a Christian worldview of teaching and music education

Course Offerings
Courses for the Master of Music - Music Education degree are offered in a late afternoon time frame for Fall and Spring semester. Courses are also offered as two-week intensives in the summer. This allows practicing teachers to complete the degree in summers only or year round by enrolling in the after school courses as well as summer coursework.

Master of Music - Performance (MUSPH.MM)

Statement of Purpose
The Master of Music - Performance is designed to provide graduate professional education for men and women who wish to pursue or are currently involved in music performance and/or studio instruction. The rigorous training in individual performance is designed to strengthen the performer's skills on the concert stage. Exposure to a broad range of literature in class, studio, performance lab and listening will increase the student’s knowledge of performance literature from various periods, styles, genres and composers. Instructional pedagogy in the student’s medium will assist in preparing the student for competency in private instruction.

Program Outcomes
Upon completion of the Master of Music - Performance degree, the individual should possess the following qualities, abilities, and skills:

1. The ability to perform as a soloist and in ensembles with distinctive skill

2. The ability to instruct students in private lessons utilizing effective pedagogical methods

3. Sufficient piano skills (a) to prepare solo literature for rehearsal, and (b) to accompany simple song literature for private lessons

4. A basic working knowledge of current music technology, for use in practical and artistic applications

5. Ability to prepare musical performances that are informed by an understanding of applicable historical performance practices

6. Demonstrable understanding of musical style as discovered in advanced music analysis

7. Interpersonal skills necessary for functioning appropriately with supervisors, conductors, agents, audiences and students

8. Extended knowledge and experience in the area of studio teaching and rehearsal settings, including conceptual and practical applications of practices that support learning

9. An extensive grasp of literature in the area of the student’s medium sufficient for initial performance needs, and the ability to find and identify literature for upper-level high school and college students in all applicable areas of solo performance media

10. Understanding and utilization of research methods that improve practices in rehearsal and performance and ability to frame the results in a scholarly manner

11. Enhancement and extension of knowledge of current trends and issues in music performance

12. Articulation of a Christian worldview of art, artistry, performance and pedagogy

The School of Religion offers three graduate degrees: the Master of Arts in Biblical Studies, the Master of Arts in Theological Studies, and the Master of Arts in Ministry Studies.

Graduate Studies in Biblical and Theological Studies

Rickie D. Moore, Department of Theology, Chairperson
Skip Jenkins, Director of Graduate Programs in Biblical and Theological Studies

The Master of Arts degree in Biblical Studies and the Master of Arts degree in Theological Studies provide post-baccalaureate study which prepares men and women for further graduate work or for other vocational interests. The programs are offered within a community of Christian scholars. The educational perspective is evangelical/Pentecostal. The focus of the degree programs is academic rather than professional. The goal of the programs is disciplinary competence through collegial engagement with peers and scholars in the discipline. The MA degree programs in Biblical and Theological Studies offer advanced study in these disciplines. Similar to seminaries, we offer admittance to qualified students from all undergraduate disciplines, not only those with Biblical or Theological Studies degrees. The program offers an alternative path to these students and requires 48 credit hours to complete. Those with an undergraduate degree in Biblical or Theological Studies can complete the MA with 36 credit hours.

Graduate Programs in Biblical and Theological Studies

Purpose and Philosophy
The School of Religion at Lee University offers a program of advanced studies in the academic disciplines of Bible and Theology. These degrees will provide students with post-baccalaureate study for the purpose of preparing for further graduate work or for other vocational interests. Through its Master of Arts degrees in Biblical Studies and Theological Studies, Lee University provides a quality graduate program for Christian scholars in the designated disciplines. Committed to life and learning from an Evangelical/Pentecostal perspective and within the context of the Church of God, its sponsoring denomination, Lee University welcomes to the program all students from the Christian community who qualify for admission and subscribe to its stated goals and objectives.

Academic rather than professional in nature, the Master of Arts degree constitutes an option to professional degrees for the student seeking advanced study in the disciplines, preparing for work in the educational ministry of the church, and/or anticipating the research doctorate. This program is designed for the collegial engagement of peers whose concerns are constructive conversation and productive scholarship and whose goal is disciplinary competence.

Predicated upon the conviction that rigorous academic inquiry both ennobles and enables the participants, Lee University intends that the community of scholars engaging the Master of Arts in Biblical Studies and the Master of Arts in Theological Studies curriculum be more serviceable to the kingdom of God in the world.

Within the United States, most degrees designated as M.A. in Bible or Theology are offered by seminaries. Such programs accept applicants from various disciplines of undergraduate studies and therefore are usually two years in length (48 hours-64 hours). The program offered by Lee University is distinctive in that it will be offered in either a 36 or 48 hour program. The 36 hour program is for applicants whose undergraduate degrees are in the related areas of religious, biblical, theological or pastoral studies. Therefore, the usual first year of general introductory studies in religion is not required, and the program begins with upper level graduate courses. The 48 hour program admits students whose undergraduate work is in an area other than religious, biblical, theological or pastoral studies.

Goals
The School of Religion offers the M.A. in Biblical Studies and the M.A. in Theological Studies with several goals in mind. We aim:

1. To foster the continued development of research and writing skills in the area of biblical and theological studies.
2. To contribute to the body of biblical and theological knowledge and literature.
3. To assist the student in developing a personal hermeneutical and exegetical position to be used in acquiring a comprehensive understanding of Old and New Testament content.
4. To develop an understanding of the philosophical foundations for theological reflection.
5. To prepare the student for the teaching enterprise, whether in the educational ministry of the church or in the context of the academy at large.
6. To prepare the student to engage in more advanced degrees, including doctoral studies.
7. To integrate faith and learning in such a way as to develop the individual in mind and spirit in order to enhance their own spiritual development and also that of the body of Christ.

Student Goals
Upon completion of the program, M.A. students in Biblical Studies and Theological Studies should have the skills and ability to:

1. Analyze biblical and theological writings at a level commensurate with other graduate students in religion programs.
2. Produce written work which portrays a knowledge of primary and secondary literature in the discipline.
3. Compare and contrast the various hermeneutical options for biblical exegesis.
4. Demonstrate an understanding of the philosophical foundations for biblical and theological reflection.

5. Provide evidence of analytical and critical skills which are prerequisite to further graduate studies in bible or theology.

6. Demonstrate rudimentary capacity for a specified language for biblical or theological research (primarily Greek, Hebrew, German, or Latin).

Student Outcome Goals for the M.A. in Biblical Studies

Upon completion of the program, students in the M.A. in Biblical Studies program should be able to:

1. Demonstrate an understanding of the continuity and the tension between the Old and New Testaments.
2. Give an overview of the history of the New Testament canon from its formation to its present status in various faith traditions.
3. Develop an understanding of epistemological questions related to religious commitment.
4. Exegete biblical texts, utilizing sound hermeneutical principles.
5. Interact with various models of revelation from a Pentecostal-evangelical perspective.
6. Demonstrate the ability to do valid research which contributes to the knowledge-base in the discipline of biblical studies.

Admission

There are two programs in the M.A. in Biblical Studies/Theological Studies. These programs are determined by the prior coursework of the applicant. Since this M.A. degree is an advanced study within the disciplines of Biblical Studies or Theological Studies, a certain amount of preparation and aptitude is required in this program. Both programs require the same 36 hours, but those without adequate preparation will be admitted under the condition of taking up to 12 more hours to complete this degree.

1. An applicant should have a bachelor’s degree from an accredited college or university. With regard to the United States, this means regional accreditation or that of the ABHE (The Association for Biblical Higher Education). With regard to undergraduate degrees from other countries, each applicant will be considered on his/her own merits. However, it is expected that at least three years of college level work has been gained and that some form of accreditation is granted to the applicant’s school within his/her country. Those with an appropriate degree and background will be accepted into the 36 hour program. If the candidate has not completed the first year of Greek, they will be asked to begin Greek before entering the program. For example, students may begin Greek in the summer semester before fall matriculation, but must complete before the end of the first year in the program.

2. Beyond the mandatory year of Greek, each student will be required to take six additional hours of language. For the M.A. in Biblical Studies, the language requirement consists of Intermediate 2nd year Greek or Biblical Hebrew.

3. If an applicant has an undergraduate degree in an area other than biblical/theological studies, they may apply for the 48 hour program. Each applicant’s background and coursework (especially in the area of humanities, philosophy, and religion) will be evaluated by the Director of Graduate Programs in Bible and Theology. Applicants accepted into the 48 hour program will be required to take 48 hours of coursework, that is, the regular 36 hour program plus 12 hours of studies as assigned by the Director in order to rectify deficiencies in undergraduate preparation. Whatever courses may be recommended to prepare the student for graduate work within these disciplines will be taken at the beginning of the student’s course of study, and may be taken concurrently with certain other courses within the program.

4. The amount of hours to rectify academic deficiencies may not exceed 12 hours.

5. Official undergraduate and graduate transcripts of credit earned at all institutions of higher education.

6. GRE (Graduate Record Exam) or MAT (Miller Analogies Test) scores are required. Scores must be sent to the office of Graduate Studies in Religion and must be no more than five years old.

7. Minimum GPA of 3.0 in undergraduate studies is preferred.

8. Two letters of reference from professors familiar with your work and one personal reference from someone familiar with your character.

9. An essay or research paper that offers evidence of the applicant’s writing abilities and research capabilities. The paper should be between 7-20 pages in length.

10. Although the M.A. in Biblical Studies is not a seminary degree that would require pastoral training or emphasis, it should be noted that it is connected to the life and ministry of local churches and the church universal. Therefore, the program strongly encourages involvement of its students in the body of Christ, especially in the areas of teaching (which is this program’s emphasis).

11. An interview, either by phone or in person, with the Director of Graduate Programs in Bible and Theology or a designated faculty member of the program.

Completion Requirements

1. 36 Credit Hours/48 Credit Hours

2. Area Exam/Three-hour thesis

   • Area Exam: The Area Exam will cover two topical questions from the student’s major concentration and one topical question from the student’s minor concentration. The process is as follows:

   o The student is responsible to choose his/her Area Exam Committee, consisting of three different professors who will oversee the three topical questions, in consultation with the Director of the MABTS program.
Out of these three professors, the student must choose one professor to be the chair of the Area Exam Committee. This professor will be the liaison between the student, the other examiners, and the Director of the MABTS program.

The student will receive a bibliography of readings from each professor. The questions that they will answer will be derived from these bibliographies.

A date is agreed upon for the written portion of the Area Exam. This date is established by the Chair of the Area Exam Committee, and it cannot be later than 15 days before final exam week. The student takes the exam on one day, and is given 2 hours to finish each question, with a lunch break between the second and third questions. A computer is supplied for the writing of the student’s answer.

The Area Exam Committee will read and evaluate the written portion of the exam, and then determine whether the student may proceed to the oral portion of the Area Exam process. The oral exam must be scheduled no later than 10 days after the written portion is completed. The Chair of the Area Exam Committee may also provide the student with suggestions on the topics that they need to shore up for the oral portion.

If a student fails, s/he cannot proceed to graduation. The student may be offered a second attempt at the Area Exam in order to complete the program.

Thesis: A student who wants to write a thesis must submit a proposal to the MABTS Committee. No student is guaranteed to be given permission to write a thesis; it is left to the discretion of the MABTS Committee whether the student or the topic is fit for the thesis-writing option. The process is as follows:

In consultation with the Director of the MABTS program, the student must select a primary reader for the thesis from the faculty of the MABTS program.

In conversation with the chosen reader, the student will prepare a formal thesis proposal to be submitted to the MABTS Committee for its consideration. This proposal must contain: first, a succinct thesis statement; secondly, a précis stating the problem the thesis will tackle; thirdly, an outline detailing the structure of the thesis' argumentation; fourthly, a working bibliography of at least 10 primary sources and 25 secondary sources.

The faculty reader will present the formal thesis proposal to the MABTS Committee, who will approve the proposal as is, approve with required emendation, or disapprove. If the proposal is disapproved, the student will be required to take the Area Exams.

The student will write his/her thesis under the direction of the faculty reader, and will submit the thesis directly to that reader, who will evaluate the thesis and determine its passability.

After the thesis has been passed by the faculty reader, the student will complete any remaining edits/corrections and submit the manuscript for binding and cataloguing in the Pentecostal Research Center.

3. After all coursework for the M.A. in Biblical Studies degree is completed with a cumulative GPA of 3.0 or higher, students will be allowed one semester to complete their thesis or comprehensive area exams. If the thesis or exams are not completed during that semester, students will enroll in GRAD-591 and will be charged a graduate supervision fee equivalent to 1-hour of graduate student tuition for each fall and/or spring semester in which a continuation is required (Enrollment in this course will not be required over a summer semester unless collaborative work between the supervising professor and student is planned).

4. Students must maintain a minimum GPA of 3.0 throughout the program. A student whose GPA drops below 3.0 will be placed on academic probation. No student will be allowed to graduate from the program with less than a 3.0 cumulative GPA.

5. The degree must be completed within four years of its inception. Exceptions to this will be evaluated by the M.A. Committee and the Director of Graduate Programs in Bible and Theology.

Non-degree Seeking and Special Students
Students may register for non-degree or special status without being formally admitted into candidacy in the M.A. program. Such students may take a total of nine credit hours from courses offered in the program.

Transfer Credit
A student may transfer up to six hours credit from an approved graduate institution or seminary. The courses must have been in the areas of Bible and/or theology and must be approved by the Director of Graduate Programs in Bible and Theology. To remain in compliance with university graduate program standards, any grades considered for transfer must be a “B” or better. In addition, transfer students need to be interviewed by the director before admittance into the program.

Conference Travel
Students wishing to secure funding for conference travel must complete an application and have it submitted 60 days prior to the conference.

M.A. Committee for the Graduate Programs in Bible and Theology
Under the supervision of the Department of Theology and the Dean of the School of Religion, the M.A. Committee for the Graduate Programs in Bible and Theology oversees the entire course of study for the M.A. in Biblical Studies and the M.A. in Theological Studies. The committee considers all needed changes and makes recommendations to the Department of Theology and the Graduate Council; it serves as the Admissions Committee and reviews candidacy.

Students must remain in good standing throughout their course of graduate study in the School of Religion, and must adhere to specific requirements for the MA degree program in which they are enrolled. Students must have a cumulative GPA of 3.0 prior to application and enrollment for final project, thesis, internship or exams, and must have an overall GPA of 3.0 in order to be considered for graduation. No student will be allowed to graduate from the program with less than a 3.0 cumulative GPA.

Graduate Studies in Christian Ministries

Thomas J. Doolittle, Department of Christian Ministries, Chairperson
Lisa M. Long, Director of Graduate Programs in Christian Ministries

The Master of Arts degree in Ministry Studies at Lee University provides a program of study that combines practical studies and practical ministry. For those whose undergraduate degree focused on religious studies, this graduate program offers the opportunity to further the student’s knowledge and expertise. For those whose undergraduate degree focused on disciplines other than religion, this graduate program can fill the missing pieces of the student’s education. The Master of Arts in Ministry Studies will equip the student to be the leader in ministry that God has called and gifted the person to be.

The courses in this program are specifically designed to help the student to understand the biblical and theological foundation of issues related to ministry in contemporary contexts, and then to move beyond theory to the implementation of practical skills for successful vocational ministry. The combination of superior education and ministry experience of the School of Religion faculty enable them to present a realistic approach to this union of theory and practice. The modular design of this program offers convenient once-a-month course scheduling.

The Master of Arts degree in Ministry Studies at Lee University offers three tracks: Leadership Studies, Worship Studies, and Youth and Family Studies. The degree includes 18 hours of common core courses and 18 hours of courses within each track. The student’s learning experience will culminate in either a track-specific final project or internship.

Graduate Programs in Christian Ministries

Purpose and Philosophy
The primary purpose of the M.A. in Ministry Studies is to provide training for ministers in light of a growing consensus that ministers in the twenty-first century need more training to be effective in vocational ministry. The program utilizes a modular format that will allow full-time church staff members to complete the program with little interruption in their ministerial duties. The scope of the program will allow both clergy and lay members to complete a graduate degree in ministerial studies which will positively affect their practice of ministry. The degree prepares students in the foun-
dational theory and praxis of ministry as well as in the social and psychological contexts of the people to whom they will minister. Interdisciplinary in nature, this program offers children’s pastors, youth pastors, pastors, associate pastors and worship pastors the foundations and skills of ministry. The program offers a core of 18 hours of general ministry courses and three emphases for specialization: Leadership Studies, Worship Studies and Youth and Family Ministry Studies.

Goals
The overall goal of the program is to provide advanced understanding of ministry issues in order to prepare men and women seeking to fulfill their calling to vocational ministry in both church and para-church settings. 

Student Outcome Goals

Students completing the M.A. in Ministry Studies will be able to:

1. Articulate a basic theological and biblical framework to address issues related to ministry in contemporary contexts.
2. Demonstrate an understanding of theories, methods and models from various disciplinary perspectives, (e.g. social sciences, worship arts) for application in ministry settings.
3. Implement practical skills for ministry within contemporary and social contexts.
4. Exhibit the characteristics and practices of a spiritually mature and ethical minister.

Emphases within the program will attain the following goals:

1. Leadership: The leadership studies track will outline key elements in leading organizations; develop a basic knowledge of leadership; acquaint students with a development model for equipping and training followers; focus on the minister’s personal life (e.g., value systems, morals, ethics) as it relates to leadership; and on leading through motivation, communication and conflict leadership (which includes conflict management and resolution).
2. Worship: The goal of the courses in worship studies is to introduce the student to the historical, theological, and current importance and use of music and the arts in Christian worship.
3. Youth/Family: The youth and family studies emphasis enables men and women to minister effectively to children, youth and families in contemporary culture, via exploration of the biblical and theological foundations of ministry, the foundational theories and praxis of ministry, and the social and psychological contexts of the people to whom they will minister.

Admission

1. There are two levels of admissions status. The first level is for those who have a bachelor’s degree or minor in religion, theology, Bible or practical ministry areas from an accredited college or university. The second level is for those who have a bachelor’s degree in an area other than those listed above.
2. Applicants with a bachelor’s degree in religion or practical ministry areas from an accredited university, college, or Bible college, may apply for acceptance into the first level of admission. This level requires 36 hours for completion as outlined in the Program of Study cited above. Accreditation must be from a regional accrediting association or from ABHE (The Association for Biblical Higher Education). If the applicant’s education is from outside the United States, each applicant’s transcripts and status of his/her school will be evaluated by the admissions committee and the Director of Graduate Programs in Christian Ministries. It is preferred that schools from outside the United States be accredited in some formal fashion.
3. Applicants without a bachelor’s degree in religion or practical ministry areas may apply for acceptance into the second level of admission. This level requires up to 48 hours for completion. The Director of Graduate Programs in Christian Ministries may require as many as 12 hours of work in biblical, theological, historical, or practical studies at the graduate level (500 level). The Director will prepare a plan of courses for the applicant in order to make up for any deficiencies in his/her religion background. Students admitted at this second level will take the same 36 hours as those admitted at the first level, but will also take courses along with these in order to provide a deeper background in religious studies. Applicants who believe they can demonstrate equivalency for religious work or study should petition the Director of Graduate Programs in Christian Ministries for consideration. It should be noted that in no case does Lee University grant life experience as “credit” for coursework.
4. Official undergraduate and graduate transcripts of credit earned at all institutions of higher education.
5. A preferred GPA of 2.75 in undergraduate studies.
6. An essay of about 1,000 words which will provide the Director of Graduate Programs in Christian Ministries and the Admissions Committee with a description of the candidate’s future goals. Included in the essay should be a discussion of the following components:
   a. a description of one’s calling
   b. a summary of one’s past and current involvement in the life of the local church
   c. future ministry goals with the use of this degree.
7. An interview, either by phone or in person, with the Director of Graduate Programs in Christian Ministries or a designated faculty member of the program. In addition to two letters of reference from professors familiar with your work, a letter of reference from your pastor or ministry supervisor is required.

If an applicant is currently a minister in a staff position, he/she must obtain written acknowledgment and approval from the ministry supervisor before entering this program.

Completion Requirements

1. 36 credit hours/48 credit hours.
2. Three hour project.
3. A minimum 2.75 GPA throughout the program.
4. The degree must be completed within 6 years of its inception. Exceptions to this will be evaluated by the M.A. Committee for the Department of Christian Ministries.

5. After all coursework for the M.A. in Ministry Studies degree is completed, students will be allowed one semester to complete their final project or internship. If, at the end of one semester, the student has not completed the project/internship, the student will enroll in GRAD-591 and be charged a graduate supervision fee equivalent to 1-hour of graduate student tuition for each fall and/or spring semester in which a continuation is required.

Non-degree Seeking and Special Students

Students may register for non-degree or special status without being formally admitted into candidacy in the M.A. in Ministry Studies Program. Such students may take a total of nine credit hours from courses offered in the program.

Transfer Credit

A student may transfer up to six credit hours from an approved graduate institution or seminary. The courses must have been in areas related to the curriculum of the program and must be approved by the Director of Graduate Programs in Christian Ministries. To remain in compliance with university graduate program standards, any grades considered for transfer must be a “B” or better. In addition, transfer students need to be interviewed by the director before admittance into the program.

The M.A. Committee for the Graduate Program in Ministry Studies

Under the supervision of the Department of Christian Ministries and the Dean of the School of Religion, the M.A. Committee for the Graduate Program in Ministry Studies forms the Admissions Committee for this program. It also oversees the program and its development, offering changes to the Department of Christian Ministries and the Graduate Council of the university.

Graduate Courses

BIBL-501 Judaism in the Greco-Roman Period
A study of the history and literature of the intertestamental period leading up to the first advent of Christ. In addition to the apocryphal books, the Qumran scrolls will be read and discussed and their significance for the New Testament period considered.
Prerequisites:
Credit Hours: 3

BIBL-502 Romans and Galatians
A comparative, expository, and theological study of the Epistles to the Romans and Galatians with emphasis on the cardinal Christian doctrines as formulated in these documents. The course includes a study of the influences of both Judaism and Hellenism on the cultural and religious scene in the first century C.E.
Prerequisites:
Credit Hours: 3

BIBL-504 I and II Corinthians
An expository and theological study of I and II Corinthians. Special attention is given to the doctrinal and practical issues faced in the early Christian community in the Hellenistic world, taking into account the cultural and religious environments of the day.
Prerequisites:
Credit Hours: 3

BIBL-550 Biblical Criticism/ Hermeneutics
This course will explore several schools of biblical criticism (source, reaction, and form criticism), and various hermeneutical approaches. Particular attention will be given to tracing the influence of German philosophy on contemporary continental theology. Martin Heidegger's role in forming the hermeneutic of Rudolph Bultmann and the resultant schools of interpretation arising from the latter will be studied in detail. In addition, more recent forms of criticism will be considered, including reader-response, social-scientific, and postmodern theory.
Prerequisites:
Credit Hours: 3

BIBL-555 Biblical Criticism/ Hermeneutics
This course will explore several schools of biblical criticism (source, reaction, and form criticism), and various hermeneutical approaches. Particular attention will be given to tracing the influence of German philosophy on contemporary continental theology. Martin Heidegger's role in forming the hermeneutic of Rudolph Bultmann and the resultant schools of interpretation arising from the latter will be studied in detail. In addition, more recent forms of criticism will be considered, including reader-response, social-scientific, and postmodern theory.
Prerequisites:
Credit Hours: 3

BIBL-560 People in Early First Century Judea: Social, Political and Religious Reflections
This course will examine the role and function of various people groups mentioned in the gospels for the purpose of better understanding the message of Jesus, the struggles of the first believers and the experience of Paul. The Pharisees, Sadducees, Zealots, “People of the Land,” tax collectors, sinners, Hellenists and Hebrews will all be studied.
Prerequisites:
Credit Hours: 3

BIBL-561 The Old Testament in the New: NT Writers as Interpreters of Scripture
This course will explore the ways in which New Testament authors read and interpret Scripture: What methods do they employ? What relation does their practice have to other modes of first-century Jewish exegesis? Which Old Testament passages/words are used and why? Should the interpretive methods used by the New Testament writers serve as models for the church's continuing task of interpretation and preaching? We will pursue these questions through exegesis of specific New Testament passages. Special attention will be given to Paul, Mark and John.
Prerequisites:
Credit Hours: 3

BIBL-562 Greco-Roman Religions and Christian Origins
This course provides an occasion for the student to become inundated with a number of literary texts from the Greco-Roman world, to acquire a general sense of religiosity in the period, and to understand the background of the Hellenistic world for comprehending the emergence of Christianity. We will pay special attention to the emperor cult, Greco-Roman philosophies, mystery cults, and novels.
Prerequisites:
Credit Hours: 3

BIBL-563 Septuagint Studies
This course examines the social and political factors of the third century B.C.E. that gave rise to the Septuagint. The critical role this translation had for Hellenistic Jews of the Diaspora and the birth and expansion of the early church will also be studied. Selected portions of the text will be translated, compared to the original Hebrew and related to the New Testament where applicable.
Prerequisites:
Credit Hours: 3

BIBL-564 Jesus and the Gospels
This course provides opportunities to study two interrelated areas of research: (1) the life and teaching of Jesus of Nazareth; and (2) the nature of the canonical Gospels. We will survey important, “classic” works of the nineteenth and twentieth centuries that bear upon questions relating to Jesus and the Gospels. Such works will include the following: Schweizer’s The Quest of the Historical Jesus, Wrede’s The Messianic Secret, Kahler’s The So-Called Historical Jesus and the Biblical-Historical Christ, Dibelius’s From Tradition to the Gospel, Bultmann’s History of the Synoptic Tradition, Dodd’s Apostolic Preaching and Its Developments, and other recent modern studies.
Prerequisites:
Credit Hours: 3

BIBL-565 Dead Sea Scrolls
This course concerns the study of the Dead Sea Scrolls and the community that dwelt at Qumran.
Prerequisites:
Credit Hours: 3

BIBL-566 Advanced Pauline Studies
This course will examine the major contours of Paul’s thought through an intensive study of the primary sources, as well as extensive readings in the secondary literature. Its method will be to identify, organize and examine such key elements as the theology, anthropology, soteriology and ecclesiology of the Apostle Paul.
Prerequisites:
Credit Hours: 3

BIBL-570 Book Studies: Exegesis Seminar
This course will focus on a careful exegetical analysis of the Greek text of the book under discussion. Matters of interpretation and elements of advanced grammar will be discussed. The specific book chosen for the seminar may vary from year to year.
Prerequisites:
Credit Hours: 3
BIBL-581 Pentateuch
A detailed study of the first five books of the Old Testament with special attention to their composition and social and theological contexts. The course will also consider the questions of legal and cultic authority and the figure of Moses in the portrayal of that authority.
Prerequisites:
Credit Hours: 3

BIBL-593 Directed Study in Biblical Studies
A study of an approved area of biblical or theological studies, in which the student contracts with the director of the study concerning course requirements, course scheduling and evaluation procedure. This course may not be used to substitute for core courses.
Prerequisites:
Credit Hours: 3

BIBL-594 Special Topics in Biblical Studies
An intensive study of selective topics in biblical studies, including research and critical evaluation of primary and secondary sources. This cannot be used as a substitute for core classes.
Prerequisites:
Credit Hours: 3

BIBL-597 Area Exam
This course is designed for students to conclude their graduate program by sitting for an exam covering three areas of specialization.
Prerequisites:

MWST-560 Biblical and Theological Foundations of Worship
The course will explore the concept and practice of worship in the Old and New Testaments, worship in the lives of biblical characters, and the biblical roots of contemporary worship practices. The course will explore theological foundations for understanding worship practice, assesses theological implications of personal and corporate worship ministry, and equip worship leaders in the application of a theology of worship in specific ministry contexts.
Prerequisites:
Credit Hours: 3

MWST-562 History of Christian Worship
This course provides an overview of the history of Christian worship from the New Testament era through the present. Special attention will be given to the practices, rituals and symbols of worship in selected Christian traditions. The course will identify historical movements and leaders who significantly shaped current perspectives of Christian worship.
Prerequisites:
Credit Hours: 3

MWST-564 Worship Leadership for the Contemporary Church
This course will examine practical leadership issues of worship ministry. The course will survey contemporary models and practices of worship. Attention will be given to administration and planning strategies for effective worship events. The course will also explore the incorporation of music and the fine arts in worship and issues of cross-cultural worship.
Prerequisites:
Credit Hours: 3

MWST-566 Media and Technology in Worship
This course is designed to examine the origins, roles and current practices of worship leaders using visual media technologies as a part of church services. Discussion topics include an overview of the emerging role of the media minister, as well as the uses and effects of these communication technologies. The course will also evaluate hardware and equipment as well as an exploration of software used to produce and display visual electronic media. Emerging technologies will be explored for use in worship settings.
Prerequisites:
Credit Hours: 3

MWST-590 Worship Studies Final Project
This course is intended as a final research project within the MINST program. Students will research a specific area within worship ministry and provide evidence of biblical, theological, or social science research. In addition, students will prepare a project presentation based on the questions raised by the foundational research.
Prerequisites:
Credit Hours: 3

MWST-593 Worship Studies Internship
This course is designed for students who have not had practical experience in worship ministry. It may be done in lieu of a final project so that students may experience supervised worship ministry.
Prerequisites:
Credit Hours: 3

MYFM-550 Foundations of Youth and Family Ministry
This course will examine the biblical and theological foundations of the
family with specific focus on the place of children and adolescents within
the family structure. Various models of youth and family ministry will be
examined, and through the use of lectures, research, and case studies,
the student will develop a family ministry program which will be appli-
cable in his/her ministerial setting.
Prerequisites:  
Credit Hours: 3

MYFM-552 Discipleship in Contemporary Culture  
This course will equip youth leaders for the task of carrying out the Great
Commission in a postmodern society. Included will be an examination of
key New Testament texts of discipleship, an identification of vital
principles used by Christ and the first century church, and a critique of
contemporary models. Special consideration will be given to the unique
challenges presented by contemporary culture. The goal for each stu-
dent will be to develop a discipleship model that will systematically take
a student from the initial stage of being evangelized through the steps of
Christian growth and formation.
Prerequisites:  
Credit Hours: 3

MYFM-554 Theological Issues in Youth and Family Ministry  
This course will provide students with an overview of the task of theology
as it relates to ministry to children, adolescents and families. It will focus
on several issues of particular importance to youth and family ministry,
offering a theological basis and dialogue for each issue. Some issues
and their concomitant theological areas that may be investigated are the
following: human personality and theological anthropology; sexuality and
a theology of sex; estrangement and a theology of reconciliation; abuse/
disorders/violence and a theology of wholeness of life; suffering and a
theology of suffering; school issues and a theology of learning; and other
miscellaneous issues that may arise.
Prerequisites:  
Credit Hours: 3

MYFM-556 Adolescent Development  
This course is an examination of the developmental phenomena of
adolescence, its physiological, emotional, cognitive, and spiritual dimen-
sions, and the influence of context such as family, peers, schools, and
community. Consideration of the needs of youth and interacting societal
institutions, with a focus on continuity of development as viewed within
the framework of life-span development will be studied.
Prerequisites:  
Credit Hours: 3

SPED-520 Nature and Characteristics of Individuals with Mild/
Moderate Disabilities
This course is an advanced study of mild/moderate disabilities, exploring history, definitions, characteristics, identification procedures, and problems of the fields of learning disabilities, mild mental retardation, and behavior disorders. This course involves a field experience including interaction and journaling.
Prerequisites:
Credit Hours: 3

SPED-521 Nature and Characteristics of Severe Disabilities
This course explores the nature and needs of individuals with severe disabilities. This broad group of developmental disabilities includes individuals with multiple and chronic disabilities that have lifelong implications and that substantially limit many life functions.
Prerequisites: SPED-520.
Credit Hours: 3

SPED-522 Nature and Characteristics of Emotional & Behavioral Disorders
An introduction to the nature and needs of individuals with emotional and behavioral disorders. Attention will be given to the approaches that can be used to give students with these disabilities self-discipline and responsibility.
Prerequisites:
Credit Hours: 3

An introduction to the nature and needs of young children with developmental disabilities. A non-categorical approach will be emphasized.
Prerequisites:
Credit Hours: 2

SPED-524 Diagnostic/Prescriptive Teaching
This course is a study of the analyses and use of diagnostic test materials to assess functional levels of ability of a child with disabilities followed by specific developmental or remedial recommendations consistent with the child’s ability levels. Emphasis will be on matching a child’s strengths and deficits to an appropriate intervention program with techniques that facilitate academic growth to attain the maximum learning potential for the child.
Prerequisites: SPED-520.
Credit Hours: 2

SPED-531 Behavior Management
This course analyzes and evaluates approaches to classroom management of students as individuals as well as in groups. Behavior Modification, behavior support plans, and specific techniques for strengthening and reducing behaviors will be explored. Observation and critique of behavior management techniques in the school setting is required.
Prerequisites:
Credit Hours: 3

SPED-532 Applied Behavior Analysis
A study of the principles of behavior analysis in a structured environment and how these principles can be used to teach academic skills, functional skills, and appropriate social behavior.
Prerequisites:
Credit Hours: 2

SPED-550 Instructional Methods for Students With Mild/Moderate Disabilities
This course examines alternatives to segregated special education services and the interface between regular and special education. Examination of materials and methods to meet the needs of exceptional learners is the primary focus. Emphasis will be on the development of instructional intervention strategies and techniques and the presentation of skills and materials to attain maximum child potential growth.
Prerequisites: SPED-520.
Credit Hours: 3

SPED-551 Instructional Methods for Students With Severe Disabilities
Effective methods and materials for teaching functional and life skills to students with severe disabilities.
Prerequisites: SPED-521.
Credit Hours: 3

SPED-552 Instructional Methods for Emotional and Behavioral Disorders
Effective methods and materials needed for teaching behavioral and social skills and self-discipline to students with emotional and behavioral disorders.
Prerequisites: SPED-522.
Credit Hours: 3

SPED-553 Intervention Strategies and Methods For Children (0-9) With Developmental Disabilities
Effective methods and materials for allowing and enabling infants and toddlers with disabilities to progress developmentally. Procedures for inhibiting the progress of atrophy and complications due to disabilities will be examined.
Prerequisites:
Credit Hours: 2

SPED-581 Assessing and Guiding Reading Instruction
A study of the various approaches to teach reading skills to students with reading disabilities.
Prerequisites:
Credit Hours: 3

SPED-582 Collaborative Services For Special Education
This course provides content that focuses on the development of collaborative partnerships in school and community settings. This course examines various services, as outlined in IDEA, provided to individuals with disabilities. Course content focuses on the role of the special educator in various service delivery models, the skills necessary to facilitate successful collaboration, and various theoretical models of collaboration.
Prerequisites:
Credit Hours: 3

SPED-590 Policies and Procedures in Special Education
This course emphasizes the understanding of legislation, regulations, and litigation related to the field of special education. It contains detailed comparisons between students requiring special accommodations in the regular education setting and those students requiring special education services. There is strong parental perspective component.
Prerequisites:
Credit Hours: 2

THEO-518 Integrative Theology: Revelation and God
This course integrates historical, biblical, systematic, apologetic and applied dimensions to selected theological matters offered for investigation. It proceeds according to the following method: (1) defining the problem under consideration, (2) identifying alternative approaches to solving it, (3) summarizing the biblical teaching regarding it by applying sound hermeneutical principles, (4) articulating a cohesive doctrine respecting it, (5) defending that doctrine, and (6) applying those convictions to Christian life and ministry.

Prerequisites: Credit Hours: 3

**THEO-534** Doctrine of Christ
A historical and systematic study of the doctrine of the person and work of Jesus Christ. This course surveys the primitive Christologies of the New Testament and continues by examining the Christological controversies of the early church (until the final crystallization in the Chalcedonian Creed). The basic questions of the doctrine of Christ will be investigated (e.g., the incarnation, the relation of the two natures of Christ, the divinity of Christ in relation to the Trinity). Consideration will be given to the several quests for the historical Jesus in the last century as well as a consideration of the “Jesus Seminar.” An examination of the various reconstructions of Christologies in the modern era (e.g., liberationist, feminist, and other Christologies) will be a part of this study. The centrality of Christ for other doctrines and for Christian proclamation will be stressed.

Prerequisites: Credit Hours: 3

**THEO-535** Doctrine of the Holy Spirit
This course offers a study of the doctrine of the Holy Spirit with emphasis upon the Spirit’s relationship to Christ. The work of the Holy Spirit in relation to other fundamental doctrines will also be considered (creation, salvation, ecclesiology, eschatology). Special attention will be focused on the work of the Holy Spirit as teacher, helper, disciple and on the experience of Spirit baptism with the initial evidence of glossalalia. Some attention will be given to the meaning of ‘living in the Spirit’ and spiritual gifts.

Prerequisites: Credit Hours: 3

**THEO-536** Doctrine of the Church
This course will examine the various models of the Church proposed by the New Testament and later throughout the history of Christianity. Special attention will be given to these areas of ecclesiology: governmental structures and leadership; the nature and mission of the church; sacraments; and the church empowered by the Spirit. Relating these studies to the contemporary Body of Christ will be a central goal.

Prerequisites: Credit Hours: 3

**THEO-537** Systematic Theology
This course is an advanced study of theology, considering philosophical/theological prolegomena, the revelation of God, the nature of Scripture, the Trinity, the doctrine of humankind, and personal/social dimensions of sin.

Prerequisites: Credit Hours: 3

**THEO-538** Systematic Theology
This course concerns the person and work of Christ, the doctrines of salvation, the work of the Holy Spirit in Pentecostal perspective, and reflections on selected topics in ecclesiology and eschatology.

Prerequisites: Credit Hours: 3

**THEO-550** Biblical Criticism/ Hermeneutics
This course will explore several schools of biblical criticism (source, reaction, and form criticism), and various hermeneutical approaches. Particular attention will be given to tracing the influence of German philosophy on contemporary continental theology. Martin Heidegger’s role in forming the hermeneutic of Rudolph Bultmann and the resultant schools of interpretation arising from the latter will be studied in detail. In addition, more recent forms of criticism will be considered, including reader-response, social-scientific, and postmodern theory.

Prerequisites: Credit Hours: 3

**THEO-552** Philosophy of Religion
This course will introduce the student to the main framework of philosophic thought, especially as they relate to religious studies. Particular important will be the thought of Plato, Aristotle, Augustine, Thomas Aquinas, Immanuel Kant, and the Modern/Postmodern area. Topics considered will be the arguments for the existence of God, religious experience, the problem of evil, problems with religious language, miracles, immorality, freedom and determinism, faith and reason, and religious pluralism.

Prerequisites: Credit Hours: 3

**THEO-554** Early Christian Doctrine
An exploration of the rise and evolution of Christianity through the period of Late Antiquity. By examining the practices, ideas, and cultural ethos of early Christians within their historical contexts, the course seeks to offer an overarching account of Christianity from a movement within Judaism to the primary religion of the Roman empire and its successors.

Prerequisites: Credit Hours: 3

**THEO-555** Seminar on Augustine
This course provides graduate students with a thorough working-knowledge of the main writings of Augustine. While the course provides a historical and theological background to Augustine’s life and thought, it focuses primarily on his most significant theological treatises such as The Trinity, The City of God, Confessions, as well as several of the anti-Pelagian writings.

Prerequisites: Credit Hours: 3

**THEO-570** Patristic Theology
This course is a study in the historical development of selected theological topics from the second to the fifth centuries. It concerns, in particular, matters relating to canonicity, the Trinity, Christology and Pneumatology, and identifies the relevance of those matters to the further (i.e. medieval and modern) history of the Church. Special attention is given to Irenaeus, Tertullian, the Cappadocian Fathers and Augustine.

Prerequisites: Credit Hours: 3

**THEO-571** Theology of the Reformers
This course focuses on Luther, Calvin, Simons and Cranmer as representative of four major streams of Reformation tradition. It (1) explores the personal and historical contexts of each principal, (2) discusses the emphases of each on selected theological matters, (3) compares their theological postures, and (4) assesses the immediate and extended impact of their work upon the wider European experience. 
Prerequisites: 
Credit Hours: 3

THEO-573 Pentecostal Theology
This course will consider the historical and theological development of the Pentecostal movement, with a view to rehearsing past theological views as well as future systematic possibilities. Topics to be examined will be classical doctrines as well as issues of healing, the five-fold Gospel, the relationship with evangelicals and charismatics, the role of glossolalia and gifts of the Spirit.
Prerequisites: 
Credit Hours: 3

THEO-574 Feminist Theology
This course examines the historical roots, key ideas and trajectories of feminist theology and philosophy; the passions and contradictions of these disciplines; and their effects on various social practices and religious institutions.
Prerequisites: 
Credit Hours: 3

THEO-575 Contemporary Theology
This course will survey the theological and philosophical trends from the nineteenth century to the present. The major doctrinal themes examined will be the doctrines of God and revelation; the Trinity; and Christology. In addition, various approaches to theology will be considered: liberation theology, narrative theology, feminist and womanist theology, African-American theology, African theology, Asian theology and evangelical theology. Rigorous study in the philosophical foundations of these theologies and their representatives will be examined. The hermeneutical and theological methods of these systems of theology will offer a basis for comparison and evaluation. Important philosophical themes to be considered are existentialism, modernism, and postmodernism.
Prerequisites: 
Credit Hours: 3

THEO-576 Seminar in Theology (Calvin)
This course is a seminar focusing on selected portions of Calvin’s Institutes of the Christian Religion. It considers the successive editions of the work in both Latin and French, ascertaining the purpose for such and the nuances of the Reformer’s thought therein. Students will attend to the lectures on various aspects of Calvin’s personal and professional life and will interact by papers and discussion with portions of Calvin’s work.
Prerequisites: 
Credit Hours: 3

THEO-577 Seminar in Theology (Wesley)
A seminar that will focus on the primary writings of John Wesley, with an introduction to the works of Charles Wesley, and the rise of the Wesleyan Movement. Wesley will be placed within the larger theological context of Western Christendom, but the major focus of the course is the development of his thought. Interaction over sections of primary readings will form a vital part of the seminar as well as student presentations.
Prerequisites: 

THEO-578 Seminar in Theology (Barth)
This course is a seminar that will focus on a selected portion of the primary writings of Karl Barth. Barth’s theological views will be placed within a larger framework of his thought, but the focus will be on a limited section of his Church Dogmatics I/1 and II/1. Students will “exegete” passages from Barth’s writings and will discuss in a seminar setting the implications for his doctrine of God.
Prerequisites: 
Credit Hours: 3

THEO-580 The Trinity
This course offers a study of the doctrine of the Trinity. It examines the fundamental, scriptural data for the doctrine, tracks the formulation and articulation of the doctrine in the history of the church, and attends to appropriations of the doctrine in contemporary theology.
Prerequisites: 
Credit Hours: 3

THEO-581 Political Theology
This course intends an analysis and criticism of political arrangements from the perspective of differing interpretations of God’s ways with the world. This course will also explore the role of the church as a polis, which practices a theological politics. Major themes and thinkers will include the following: liberation theology, feminist theology, black theology, Radical Orthodoxy, Jürgen Moltmann, Walter Brüggemann, William, Cavanaugh, John Howard Yoder, Stanley Hauerwas, and Amos Yong.
Prerequisites: 
Credit Hours: 3

THEO-582 Theological Anthropology
This course is a biblical, historical, and systematic consideration of certain themes concerning human nature from a Christian perspective. The aim of the course is to facilitate reflection on core aspects of human identity and living. Major themes include creation, gender, body and soul, disabilities, and the destiny of humanity (eschatology).
Prerequisites: 
Credit Hours: 3

THEO-583 Theology of Economics and Globalization
The course offers a Christian theological engagement with the complex realities of economics and globalization. It incorporates an interdisciplinary survey of significant themes and contributors, highlighting the intersections between Christian theology and political economy and investigating the ways Christianity has influenced the development of economic theory and practice.
Prerequisites: 
Credit Hours: 3

THEO-593 Directed Study in Theological Studies
A study of an approved area of biblical or theological studies, in which the student contracts with the director of the study concerning course requirements, course scheduling and evaluation procedure. This course may not be used to substitute for core courses.
Prerequisites: 
Credit Hours: 3
THEO-594 Special Topics in Theological Studies
An intensive study of selective topics in theological studies, including research and critical evaluation of primary and secondary sources. Repeatable for credit. This cannot be used as a substitute for core classes.
Prerequisites:
Credit Hours: 3

THEO-597 Area Exam
This course is designed for students to conclude their graduate program by sitting for an exam covering three areas of specialization.
Prerequisites:
Credit Hours: 3

THEO-598 Thesis
This course is designed for student to conclude their graduate program in religion by writing a thesis that provides evidence of ability to do independent research and compile it in the form required by the faculty of graduate studies in religion.
Prerequisites:
Credit Hours: 3

THEO-599 Thesis
This course is designed for student to conclude their graduate program in religion by writing a thesis that provides evidence of ability to do independent research and compile it in the form required by the faculty of graduate studies in religion. This course must be approved by the director and the M.A. committee.
Prerequisites:
Credit Hours: 6

YFAM-502 Leadership Dynamics and Development
This course will provide an overview of various models of leadership, "secular" and "sacred" (e.g. MBO, Servant-leader), and their appropriateness for use within a community of faith. Once foundational material is presented, an analysis and critique of each model will be provided and will result in the student being able to articulate a theology of leadership that is biblically and theologically sound. From this basis, students will implement a leadership development program in their ministerial settings.
Prerequisites:
Credit Hours: 3

YFAM-538 Worship in Youth and Family Ministry
A biblical and theological rationale for worship will be given as a foundation for this course. In addition, students will examine various ways in which worship can be incorporated into youth ministry. This course will consider traditional aspects of worship as related to youth and family ministry. Students will be expected to develop a series of worship events that will incorporate both traditional and non-traditional aspects of worship.
Prerequisites:
Credit Hours: 3

YFAM-539 Parenting Skills
This course will focus on developing skills for Christian parenting, especially focusing on the adult-adolescent relationship. In addition, students will be trained how to set up parenting seminars and training in their local churches. An examination of family relations, family communication, discipline, and conflict resolution will also be a part of this course.

YFAM-540 Communication in the Family
This course will examine the skill of communication with particular attention given to patterns of communication within family culture. Consideration will be given to healthy and unhealthy styles of communication as well as to the development of the skills needed for constructive communication within a family system.
Prerequisites:
Credit Hours: 2

YFAM-541 Special Topics in Youth & Family Ministry
A course presenting various topics and research concerns. The topic will change to meet student demand and interest.
Prerequisites: Permission of the Director of Graduate Studies in Religion.
Credit Hours: 1

CERTIFICATE PROGRAM
The certificate program is designed for students not seeking a degree but wanting to study in a particular discipline. The courses can be taken in the classroom, online, and through our independent study formats. The curriculum includes eight (8) courses for 24 semester hours of credit. The programs available are as follows:

- Certificate in Bible – BIBL.CRT
- Certificate in Christian Education – CHED.CRT
- Certificate in Christian Leadership – CLDR.CRT
- Certificate in Intercultural Studies – ICSP.CRT
- Certificate in Pastoral Ministry – PASM.CRT

Students applying for admission to the certificate program must follow the DAL application procedure; however, they will not be required to submit ACT/SAT scores. An overall 2.0 GPA must be maintained in order for a student to successfully complete the program. The Federal Pell Grant and the Free Application for Federal Student Aid (FAFSA) programs are not available to students enrolled in the Certificate Program; however, DAL scholarships are applicable for all ministerial training programs.

PROGRAM FORMATS

Lee Online
Lee Online is the primary means of program delivery at Lee University. This form of study is a highly engaging experience which is based on models of adult learning in a virtual classroom environment. Over the course of the term, students log in to classes for online instructions, videos, lectures, assignments, discussions, etc. Materials are available 24 hours a day, 7 days a week throughout the term. During a course the instructor may schedule times to meet online with the students. These sessions are for discussion, lecture, course mentoring, etc. Traditional resident students must process Lee Online registrations with their advisor through the approved university registration procedures. Students interested in Lee Online courses should visit http://DAL.leeuniversity.edu for information regarding policies and procedures of the program, offered courses, an application, and financial aid information. The number of hours necessary to complete Lee Online courses is similar to that of traditional resident courses.

Computer Requirements:
Most current personal computer systems will meet the requirements of Lee Online classes. We strongly recommend a high speed internet connection in order for students to complete their coursework. DAL encourages the latest version of Microsoft Office and Firefox web browser. Instructors will inform students if additional software is needed.

DAL-Education Centers
DAL-Classes are offered (in a classroom setting) at various locations and are taught by instructors who have an accredited degree in the discipline in which they teach. For information regarding class locations, schedules and registration procedures, contact us at 800-LEE-9930 or DAL@leeuniversity.edu.

DAL-Independent Study
The DAL curriculum is offered in an independent study mode. Independent study is characterized as follows:

- Study is accomplished by use of a course guide or individual lessons and associated textbook(s). The course syllabus is also available online.
- The student should set a schedule for completion of assignments and examinations within the given semester.
- Examinations are taken and assignments submitted online via the learning management system.
- Courses are tied directly to the Lee University Academic calendar and must be completed within the calendar start and end dates.
- Credit is applied as non-resident study.

DAL-Independent Study courses offer students an opportunity to study at an individual pace and at convenient times and places. Responsibility for progress lies with the individual student. This motivates and encourages the student to persist toward the achievement of carefully defined educational objectives. Course materials include: a course guide or individual lessons, appropriate additional materials, and textbooks. Textbooks can be obtained through the Lee campus bookstore. Course materials are available within the course itself via the online learning management system. The course guides and lessons are designed to direct learners in a step-by-step fashion through an array of educational objectives related to the textbooks. All learning materials, from the course objectives to final evaluation of progress, have been prepared or approved by professional educators. In many cases, the authors teach the same or a similar course on a resident campus or serve as an instructor in one of the Education Center classes.

Examinations are similar to those given in resident courses. They may consist of objective, essay and problem-solving types of questions. The number of study hours necessary to complete an independent study course is approximately the same as for resident courses. The difference is that the time normally spent in class is used for reading, completion of assignments, and study. Since there are no scheduled classes, students study when and where they wish, and they experience considerable financial savings over attending traditional campus courses.

A student may not request an examination until he or she has been enrolled in a course a minimum of two weeks. A
two-week period is also required between the mid-term and final exams. Exams in courses which have more than two exams may be taken at one-week intervals. Exams may be proctored for special circumstances. Please contact the DAL office for more information if needed.

ADMISSIONS
To be eligible for admission the applicant must have graduated from an approved high school, or satisfactorily completed the GED test, AND have three (3) years of Life Experience beyond high school graduation. All persons who register at Lee University are required to file an application. Acceptance of students is based upon discernible qualities and potential. The university admits students regardless of race, color, national origin, religious preference or disability.

Application Procedure
Applicants may apply for admission to the Division of Adult Learning online. Application forms can be downloaded or will be e-mailed or post-mailed upon request to prospective students by contacting the DAL office 800-LEE-9930. All students expecting to enroll at Lee University in the DAL program for the first time must submit the following:

1. A DAL application for admission.
2. Three (3) years of Life Experience beyond High School graduation.
3. Official high school and/or college transcripts mailed directly from the institution, or evidence of GED-equivalent. All students must have achieved a C average or above on all high school and college work. (Students transferring with more than 15 semester hours are not required to provide a high school transcript; however, they must request an official transcript be mailed from the previous college(s)/university(ies) attended.) An official test score report from ACT or SAT is required for all students under the age of 25 and having under 16 semester hours of college credit. Applicants who have not already taken the entrance examination (ACT or SAT) will be required to take it prior to acceptance. The ACT/SAT should be taken on a national test date. Exceptions to this policy should be forwarded to the Director of Enrollment Services for consideration.

4. An advance matriculation fee of $25 (not refundable). The matriculation fee may be applied to the account of the student for a period of two semesters following the date of payment.

5. *Any applicant born after January 1, 1957, must provide documented proof of receiving two MMR (measles, mumps, rubella) vaccinations after 12 months of age. (Collected after acceptance.)

6. *Proof of a Tuberculin PPD skin test taken within a one-year period prior to the date of admission application. (Collected after acceptance.)

*Required for students attending classes on the Lee campus.

When the above requirements have been fulfilled, a student will be notified of his/her acceptance by DAL. The university may refuse admission and registration to students not meeting the minimum requirements for college, or may admit them on probation for limited work. Students who have a break in attendance of 1 or more semesters must reapply for admission.

With acceptance into the DAL program, a student is assigned a Lee email account (__@leeu.edu) and is granted access to register for classes through Portico/WebAdvisor.

Financial Aid
The Federal Pell Grant program is available for qualified DAL students enrolled in DAL-Education Center courses, Lee Online courses, and DAL-Independent Study DZS (semester based) courses. Pell Grant eligible students taking only DZS courses will have it calculated at a maximum half-time award amount. The award amount for DZS courses taken with other courses will be pro-rated accordingly.

To determine need, the Free Application for Federal Student Aid (FAFSA) must be filed through the Federal Processor. This will allow a student to be considered for the range of financial aid options available through the Lee University Financial Aid Office. All information must be filed with FAFSA online (www.fafsa.ed.gov) and received by Lee University before April 15 to be included in the priority group.

Lee University has been approved by the Tennessee Higher Education Commission each year to be able to certify eligible veterans and dependents for educational benefits. Each student who thinks that he/she is eligible for veterans’ educational benefits can call 1-800-827-1000 for current VA information. This number is available from any location in the United States and will connect the caller to the nearest regional office. For more information, go to www.gibill.va.gov or contact veterans@leeuniversity.edu.

To find out more about the availability of Financial Aid, see the Undergraduate Financial Aid section of the Lee University Catalog, or visit http://www.leeuniversity.edu/financial-aid.

Course REGISTRATION Procedure
All students must complete ENGL-106 and ENGL-110 by the completion of the 18th hour of college credit. If a student does not meet this requirement, he/she must enroll in ENGL-106 or ENGL-110 before enrolling in any additional courses. B.A. degree candidates must complete six hours of a foreign language at the intermediate level or higher.

Instructions for DAL Course Registration:
1. Must be accepted into the DAL program or currently a DAL student.
2. All Lee University/DAL students must register with the university via Portico/WebAdvisor. (Portico is the secure electronic gateway for student access to their academic, billing, financial aid, and registration records.)
   - Go to the Lee University Homepage: http://www.leeuniversity.edu
   - Select: Current Students
   - Under Web & Technology Services select: Portico/WebAdvisor Student Instructions
3. Please Note: Your advisor will review and approve your course(s) through Portico/WebAdvisor.
4. A student is not officially enrolled until all paperwork and payments are secured and registration has been confirmed through Portico/WebAdvisor with the message that reads: "Congratulations! Your registration is CONFIRMED!" Payment for all associated charges is cleared with the Lee University Office of Student Financial Services. Payment can be made by VISA, MasterCard, Discover, or American Express through the Portico/WebAdvisor, in the Business Office, or by calling 1-800-LEE-9930. Payment may also be made by check or money order and sent to:
   - Lee University
   - ATTN: Student Financial Services Office
   - PO Box 3450
   - Cleveland, TN 37320-3450
   - If you are receiving Financial Aid, please include a copy of your award letter with your payment.
   - Books for DAL courses can be obtained by visiting the Lee University Bookstore in person or by visiting the campus bookstore web page, www.lee.bkstr.com. (All inquiries regarding texts should be addressed to the bookstore.)

Changing a Schedule (Add, Drop, Withdraw)
Adding or dropping courses and changing from credit to audit or audit to credit may be accomplished only during the 12-day registration (add/drop) period at the beginning of each term. The exception to this policy is online courses. Due to their format, online courses cannot be added after the official first day of classes. Change of schedule requests must be submitted in writing or via email to the student's academic advisor. The request must include the student's name, ID number, the name of course(s) and any other essential information. The official
date of the change of schedule will be the date on which the request is received.

After the 12-day registration (add/drop) period at the beginning of the term, the student may wish to withdraw from a class in order to avoid negatively impacting his/her GPA or to reduce a heavy academic course load. To withdraw from a class, the student must initiate this transaction by following the guidelines as listed above. The last day to withdraw from a course with a grade of “W” is published in the university calendar which can be found at www.leeuniversity.edu. A student who never attends or stops attending a class for which he or she is officially registered will receive an “F” in that course if accepted procedures for withdrawal outlined above are not followed.

There is a fee applied for each change beginning with the first day of classes. Withdrawal from a course(s) does not exempt a student from payment of tuition, registration fee, and book fees. The tuition refund policy for dropping courses after classes have begun is explained in the section titled Refund Policy (Tuition Only). Registration and book fees are non-refundable.

**Withdrawal from the University**

If a student withdraws from all courses of study, the student is considered to be withdrawing from the university. Students may withdraw from the university at any time beginning the first day of classes until the final day of classes for the semester. Withdrawals will not be processed after final exams have begun. Students who withdraw will be assigned the grade of “W” for all courses. The procedure is as follows:

1. Withdrawal from the University requests must be submitted in writing or via e-mail to the student’s academic advisor. The request must include the student’s name, ID number, the name of course(s) and any other essential information.
2. Upon receipt of this request, the student will be sent via an e-mail attachment, the required Withdrawal Permission Form. It is the student’s sole responsibility to complete this form in its entirety and return it back to the Division of Adult Learning.
3. Upon receipt of the completed form, the appropriate offices on Main Campus will be notified.

Financial aid recipients should note that withdrawing from the University can affect eligibility for current and future aid. See the Undergraduate Tuition and Fees Refund section and the Undergraduate Financial Aid Satisfactory Academic Progress Policy respectively. Students who are recipients of federal student loans should complete required loan exit counseling. This can be completed online at www.leeuniversity.edu/financial-aid or in the Financial Aid Office. Recipients of the Tennessee Hope Scholarship should go the Financial Aid Office to complete the Tennessee Hope Enrollment Change Request Form to avoid loss of eligibility for future funding.

The office of Student Financial Services will issue a final statement of the student’s account.

**Charlotte Center**

**Christian Ministry**

Assistant Professor Gregory Sloop

The Charlotte Center offers an undergraduate degree program designed specifically for those preparing for full-time vocational ministry. It is a combination of biblical-theological knowledge and ministerial skills courses. It provides the knowledge of Scripture so important for the work of ministry as well as the ministerial skills to enable effective work in each area.

**The Course of Study**

The Bachelor of Christian Ministry (B.C.M.) degree is a flexible program of study easily tailored to fit the student’s specific ministerial or discipleship needs. Core courses provide a valuable balance of general studies, and biblical-theological knowledge with specialized skills taught in each of the following emphases:

- The Bible emphasis gives an extensive knowledge of both Old and New Testaments, emphasizing interpretation skills and Bible study methods. It considers types of literature found in the Bible and provides principles of interpretation for each, ultimately focusing on informed Christian living.
- The Christian Education emphasis prepares and equips men and women for effective ministry in discipleship or Christian education. Providing a foundation of biblical-theological knowledge, it explores the teaching/learning process involved in discipleship of people of all ages.
- The Counseling emphasis prepares men and women for graduate studies in Counseling and also equips them for service in entry-level mental health positions or lay ministry positions. This degree does not prepare the student for licensure or credentialing with any state agency.
- The Pastoral Ministry emphasis combines biblical-theological knowledge with ministerial skills such as preaching, counseling and church leadership. It examines the role of the pastor, the mission of the church and the means of enabling the laity to accomplish the work of the Kingdom.
- The Theology emphasis provides a thorough preparation in biblical and theological knowledge. It is recommended for those planning to continue their education at the Masters and/or Doctoral level, and is ideal for those planning to work in the educational ministry of the church.

**Application Procedure**

Catalogs and applications may be obtained by writing to the Lee University Charlotte Center, 8600 William Ficklen Drive, Charlotte, North Carolina 28269. For more information visit http://charlotte.leeuniversity.edu or call 704-548-2925.
Exemptions
Lee University has been declared by the appropriate state authority exempt from the requirement for licensure under provisions of North Carolina General Statutes Section (G.S.) 116-15 (d) for exemption from licensure with respect to religious education. Exemption from licensure is not based upon any assessment of program quality under established licensing standards.
